OFFICE OF THE MARYLAND CONSOLIDATED LOTTERIES, Baltimore, Maryland, 20th June, 1855.

CAUTION.—LOTTERY FRAUDS.

THE Commissioner of the Maryland State Lotteries has deemed it his duty to caution the Public against the numerous Swindlers who circulate by mail and otherwise, fraudulent Lottery schemes, and pretend to be agents for the sale of tickets in Lotteries which are wholly fictitious.

The only legal Lotteries in Maryland are those drawn daily under the superintendence of the Commissioner elected by the people of the State under the new Constitution to examine and approve the schemes and attend to the drawings.

All the tickets in these Lotteries, and all certificates of packages of tickets have the lithographic signature of E. BENNETT, General Agent for the Contractor. Office of the Maryland Consolidated Lotteries, Baltimore, Md. All others are fraudulent. For full information on the subject of these frauds, address E. A. BRENAN,

PRINCE & CO'S IMPROVED
Patent Melodeons.
The oldest Establishment in the United States and the largest in the world.
Between 17,000 and 18,000 of these Instruments have been finished and are now in use.
The latest improvement in our Melodeons is the
DIVIDED SWELL,
Secured to us by Letters Patent, 22d May, 1855. By means of this swell *Solo Passages* may be played with the full power of the instrument, while the accompaniment is soft and subdued.—Hereafter, all Melodeons made by us will be furnished with this attachment WITHOUT EXTRA CHARGE.
[Extract from the Com. Advertiser, July 27th.]
"Messrs Prince & Co. could realize a handsome fortune by disposing of rights to other manufacturers to use their new improvement, but as they prefer to make it a feature in their Instruments, it can only be obtained by purchasing one of their manufacture"
The styles and prices are—
IN PORTABLE CASE:
4 octave Melodeon, extend'g frm C to C.....$45
4½ octave, " " C to F.....60
5 octave Melodeon, " " F to F.....75

The Following Opinions,
IN regard to MASON & HAMLIN'S Model MELODEON are from distinguished Musicians:
(From Lowell Mason.)
After having carefully examined the Melodeons of Messrs Mason & Hamlin, I am enabled to say that in my opinion they are decidedly superior to any others with which I am acquainted.
New York, July 1, 1854 LOWELL MASON.
(From Geo. F. Root.)
Henry Mason, Esq., Dear Sir.—Having had one opportunity of examininng Mason & Hamlin's Model Melodeons, I am happy to bear testimony to their great excellence. In general characteristics, and especially in quality and uniformity of tone and tuning, they seem to me to be superior to any that I have yet examined.
Yours very truly, GEO. F. ROOT.
New York, May 25th, 1854.
(From Edwin Bruce.)
Dear Sirs:—I have examined your Model Melodeons with much satisfaction, and am prepared to express my confident opinion that they are the most perfect instruments manufactured.
Yours, &c., EDWIN BRUCE.

Harrison's Columbian Ink, Black.
FOR the National Government, State Legislatures, Courts of Record, Banks, Railroads, Post Offices, Insurance Offices, Editors, Authors, Lawyers, Doctors, Clergymen, Commercial and Business men of every sort, Colleges, Academies and Schools, and that great class who sustain all, the Farmers—the GREAT INK of the country. 644,573 bottles sold in 1854, is significant that the AMERICAN PEOPLE appreciate HARRISON'S AMERICAN INK, made by HARRISON THE AMERICAN MANUFACTURER, and determine its great superiority over all foreign inks. It is at wholesale and retail by
d10 GEO. W. TOWLE, 3 Congress Block.

Harrison's Blue Black Writing Fluid
PROGRESS in the arts has revealed a Writing Fluid which does *not*, as other Writing Fluids *do* destroy the *points* of gold pens, actively corrode steel pens, or *chemically decompose the paper* or its *coloring*. I have seen paper where every letter written with English Fluids was eaten entirely through, and a delicate blue tint changed to a dirty yellow. The best make of gold pens have been condemned for losing their points, and the best manufactures of paper returned upon the dealer, where these Fluids were extensively used. Harrison's Fluid is subject to none of these evils. It writes a beautiful blue, and soon turns a jet black, and remains permanent. HARRISON'S is AMERICAN, *made* by an AMERICAN, and worthy the use of all Americans. It is wholesaled and retailed by

Morning Chronicle.

TUESDAY, JANUARY 22, 1856.

WASHINGTON NEWS.

The intelligence from Washington becomes more interesting.—not the balloting, as they call it,—but the other news.

The resolution offered on Saturday by Mr Clingman, and adopted by a maj. of 45, that for one week, unless a Speaker shall be previously elected, no debate shall be in order unless by unanimous consent, must be regarded as a hopeful sign of an early organization, but does not show what manner of man the speaker shall be. The Republicans held a caucus at the capitol on Friday night, at which about ninety were present. Mr Leiter of Ohio was the chairman. Several evinced a disposition to drop Mr Banks, but the general feeling to sustain him is as strong as heretofore. At 11 o'clock a discussion arose as to the best means of securing his election. The Tribune says of the proceedings of Friday:

"The slave-drivers to-day cracked their whips haughtily over the backs of the people's Representatives, intending to bring them to their knees. Howell Cobb announced the Democratic ultimatum—that we might elect any body else than Banks; but unless he was dropped the House should never be organized. Letcher, Orr, George W. Jones and others, backed the threat. No vote was taken on any question. When the House adjourned, the shaky part of the Anti Nebraska members demanded a caucus this evening, to consider the policy of giving way to Cobb, Dunn & Company. It is understood that the Administration is anxious for a speedy organization on account of the ominous state of our relations with England. If our friends are not frightened from their position the Nebraskaites must soon give way."

The Boston Chronicle offers the following remarks on this matter of the speakership.

Disputes are arising as to the party upon whom the responsibility for the non-organization of the United States House of Representatives is chargeable. Without going so far as to agree with those who say that the Democrats are the culpable party, we think they have not, in this business, exhibited their usual tact. They are a mere minority, not a third part of the House, and can have no hope of electing a speaker out of their own number, unless by a coalition, a thing notoriously most abhorrent to the democratic mind, unless something can be made by having resort to it; and even a coalition would seem to be out of the question, save that Mr Fuller's friends would agree to let him be voted for by the Democrats, who, however, dare not support a Know Nothing when the Presidential election is so near at hand. Even the luxury of "smashing" Mr Banks is not to be bought at so great a price as the loss of two or three hundred thousand foreign votes. It being out of the question that a Democrat should be chosen, and the time being near at hand when the want of an organization will be severely felt by government, and by numerous public and private interests, the Democratic members would do well so to act as to permit a Speaker to be chosen. This they might do without abandoning Mr Richardson, by voting for the adoption of the plurality rule. They would do this all the more gracefully because it is only six years since one of their own number, after a long contest, was chosen Speaker through the adoption of that rule. The public now have a reason for holding the Democrats responsible, that did not exist until recently. On the 18th, Mr Mace of Indiana offered a resolve declaring Mr Banks Speaker, and giving the Clerkship to a Know Nothing, and all the other offices to Democrats; yet this admirable proposition, which ought to have commanded universal support, was voted down, by a majority of 21. Had the Democrats supported it, it must have been successful. Their conduct confirms the belief that we have entertained for some time, namely, that hostility to Gen. Pierce's administration, and a desire to embarrass it, is at the bottom of the conduct of the leading Democratic members.

THE PRESIDENT'S COUP D ETAT.—The Washington correspondent of the Courier and Enquirer writes as follows on Friday:

"Rumors of a meditated *coup d'etat* on the basis of the intimation thrown out by the official gazette yesterday, continue. It is said that the President has prepared a Special Message *for Congress*, apprising that body that he has given orders for the suspension of diplomatic intercourse with England, on a contingency almost certain to happen; that he has summoned the Cabinet to deliberate whether he shall transmit it to the Senate alone, or to the House also. If he decides to exclude the latter body in this official act, it will be regarded as an Executive reprimand for its failure to organize. He will demand that the country be placed in a state of defence. The House is expected to fly into a passion, and to insist upon its privileges as a non-existent and prematurely deceased, or rather, yet unborn body. It is superfluous to say that the country would in such case fully sustain the President, and treat the passion of the House with contempt.

I may state in passing, that a member of the Cabinet alleges that we are in the midst of a crisis, and that a war will take place with Great Britain within sixty days. I would advise the merchants, however, not to act upon this rumor, but to proceed with their shipments and other business as if no war were pending."

Under date of Sunday, the New York Herald's correspondent telegraphs from Washington:—

"The statement that a protest has been sent by the British government against the recognition of the new Nicaragua government by the United States, is a simple fiction. No such protest, at all events, has been presented to our government. The arrest of Col. Parker H. French is understood to have occurred through a blunder of the Deputy Marshal. The government gave no order for it."

The Rev. Mr Trafton made his first appearance in the House of Representatives, last week, by correcting the jocular statement of Mr Campbell, that there was no Bible in the Congressional library. Mr Trafton assured the House that there was, which was doubtless vastly satisfactory to most of the members. Does the Rev. Mark T. ever look into it, however? that is a more interesting question. It is to be feared that the Rev. gentleman does not follow very closely in the footsteps of the Master who said that His kingdom was not of this world. He never went to Congress, or joined a K. N. lodge, or made a political speech —*Springfield Argus.*

If Christ didn't go to Congress, or join a K. N. lodge, he went to the temple, and at a very early age began to dispute with the learned men; and if he did not interfere with legislation, he did have something to do with the money changers and them that sold doves.—It is miserable canting nonsense to refer clergymen in that way, to what Christ did, though it would undoubtedly be better for them all if they kept out of politics. Christ had no wife; didn't send any children to free schools; or do a thousand other things that are commendable in the clergy of to-day. If they will only follow in the footsteps of their Master so as to manifest his spirit and emulate his desire to overcome the evil and do good, they will be an honor to their profession wherever they go. —*Newburyport Herald.*

Better, to keep out of politics! In *what sense* better? and how *far out* should they keep? Must they keep so far out as to *know nothing* about them? Then they must not read the papers.

Or may they *know* all, but must neither think, nor speak, nor act?

May they marry, and send children to free schools,—but must they never express their opinion on the laws of marriage, or vote for a school committee man, or vote for a new school house? All these are political acts, and very important acts too.

In the eyes of the puritan, a minister was a man and a citizen—and when the people govern, he is certainly one of the people. That a man who spends his time in one place or pursuit, cannot at the same time be in another place and pursue a different thing, is undoubtedly true. And it is just as true of a lawyer or a merchant, a farmer or a mechanic, as of a minister or doctor.

And, as there is no reason why legislators should be all drawn from any one of these professions, so there is no good reason for shutting out any one of them, from the duties of law making, or from the emoluments and privileges of legislators.

If open honesty, fearlessness and truth are desired in political men,—such men can be found in the ranks of the New England clergy. And if slimy intriguers, crafty wire-pullers, and demagogues are called for, they too can be found wearing glossy black coats, and exercising tongues as smooth as they are deceitful.

Politics among parsons is as really an institution as is slavery among the negroes,—and not much more likely to be abolished this year.

PRO SLAVERY OUTRAGE.—The Louisville (Ky.) Courier gives an account of the infliction of the barbarous outrage of tarring and feathering upon a school teacher at Lexington, who it was believed had written letters to the Ohio Statesman, in which the "peculiar institution" was not treated with proper respect. The name of the victim was J. Brady, and the outrage was inflicted during Friday night by a mob of two hundred persons. The following are the disgraceful particulars:

"He was conducted to the Court House yard, and there stripped. A large quantity of pitch had been prepared for the occasion, with the contents of several bags of feathers. The clothing was speedily removed from the body of Brady, and the pitch applied to the thickness of an inch. Then the feathers were nicely planted, and Brady's head shaved closely to the scalp, save two locks near the forehead. He was then set loose, and charged to go and sin no more. More severe punishment would have been administered, had it not been for the wife of Brady, a beautiful and estimable lady. Brady applied to a physician to remove the tar, but it was found utterly impossible. He left on the morning train for Covington and the land of Republicans."

LARGE FIRE IN CAMBRIDGEPORT.—A destructive fire occurred on the premises of Messrs. Davenport & Bridges, Cambridgeport, on Monday forenoon. It broke out at half past 8 o'clock, in a rear building occupied by James G. Blake, furniture dealer of Boston, as a manufactory. The flames spread with such rapidity that the workmen barely escaped with their lives, by jumping out of windows. The flames were confined to the structure in which they took.

The furniture stock of Mr Blake, composed of manufactored and unmanufactured articles, were also totally destroyed. Loss about $12,000—fully insured.

Messrs Davenport & Bridges had stored in the basement of the building a large amount of car axles, wheels, and car apparatus in various stages of preparation. They estimate their loss at $10,000—small insurance.

MARINE DISASTERS.—The bark Burlington, from Leghorn, arr at New York, has been kept afloat with difficulty, owing to an extensive leak, and but for the aid of the passengers would have been abandoned at sea.

The bark Mary Dunham, Jenks, from New York, for Glasgow, was abandoned, full of water, on the 11th inst., in lat. 38 30, lon. 60 40. All hands were taken off and brought to New York by the ship Talisman.

WEATHER ON SUNDAY.—In this city, the day was fair, and the people turned out to church twice, and in some instances three times. In Boston, fair A. M., cloudy P. M.

WASHINGTON.—Stormy since daylight; snow ten inches deep.

PHILADELPHIA.—Commenced snowing here at 9 o'clock this morning.

NEW YORK.—Very cold all day; no snow yet, but threatening.

☞ Harper's New Monthly Magazine for February, has for its first article, George Washington, by J. S. C. Abbott, with numerous illustrations;—and a fine paper it is. We take from it the following brief, but pithy extract of a letter written by Washington at the beginning of the Revolution, to a friend in England.

"The Americans will fight for their liberties and property. Unhappy it is, though, to reflect that a brother's sword has been sheathed in a brother's breast, and that the once happy and peaceful plains of America are either to be drenched in blood or to be inhabited by slaves. Sad alternative! But can a virtuous man hesitate in his choice?"

In the Editor's Drawer, we find the following rich scrap:

The Hard Shell Baptists seem to be furnishing a variety of amusing matters just now. A correspondent writes:

"This sect (the Hard Shells) are in the habit of holding a yearly association in our vicinity, generally in a piece of woods near to a good spring. The brethren from abroad are quartered upon those in the neighborhood of the meeting; and these are required, of course to lay in a good supply of the creature-comforts, and among them, as the most important, a plenty of whiskey. A short time ago, such a place having been selected, the brethren near by were busy putting up benches, and making the place ready, when Brother Smith said,

"'Wa'll, Brother Gobbin, what preparations have you made to home for the big association?"

"'Why, I've laid in a barrel of flour or so, and a gallon of whiskey."

Brother Smith expressed great contempt at this preparation. "A gallon of whiskey for a big meetin'. Why, I've laid in a whole bar'l; and you're just as well able, Brother Gubbin, as I am to *support the Gospel.*"

LOCAL.

☞ The Temple was occupied on Monday evening by a large and respectable assembly, who were addressed on the subject of Temperance by Rev Dr Peabody, and Rev Mr Holman.

The meeting was opened with prayer by Rev Mr Fanton, and closed with the benediction by Rev Mr Lamson. Notice was given of a similar meeting at the same place next Monday evening.

The exercises were interesting, and the attendance of so large an audience of substantial people, with six of our city pastors, is highly interesting.

Messrs. Editors:—An article appeared in the columns of your paper Monday morning, over the signature of S. W. C., which unjustly reflects upon the police of this city. In the first place there are no "disgraceful proceedings which *nightly* occur on our public streets." Occasionally however, here, as in all other cities, there are disturbances and cases of rowdyism, but as a general thing this city has been remarkably free of late, of any disturbance of the peace. It is admitted that the sidewalk in front of Congress Block "has long been a favorite place of resort for young men" who are oftentimes impolite, ungallant, and in a few instances, insolent; but this is by no means the fault of the officers. They have done all in their power to break up this resort and to prevent insult to "females" and others who chance to pass." As to Market street, *but one single instance* of disturbance has occurred there for several months, and this was occasioned the other evening by a certain auctioneer's attempting to put some rowdy boys out of his store. An officer was immediately sent for on this occasion, and when he arrived good order was restored. If S. W. C. can prescribe any code of morals whereby those "low and vicious young men" can be reformed, kept out of the streets, or be made to observe strict silence when he passes, or any of our citizens in general, he will confer a great favor on the POLICE.

Messrs. Editors:—I wish through the columns of your paper to make some remarks on the present condition of the streets in our city. I am accustomed to go over them very frequently, and would call the attention of the Street Commissioner to the large number of Cradle-holes in them. TEAMSTER.

We are aware that the evil pointed out by Teamster, is very grevious; and our excellent Street Commissioner is also aware of it. But all things cannot be done in a day. And we think it would be fully as consistent, if some of the growlers would do what they could individually, for the roads and paths; instead of leaving every thing for the City, to do. It is to be hoped *they* won't complain, when the bill comes in, For breaking out streets, $1000, or so. Let each tenant clear the sidewalk and level off the snow in front of his premises; and all refrain from digging those villainous crosswalks, and a great improvement will be manifest in our streets.

While we are in the streets, let us add,—give the icy walks a coat of ashes, not large coals, but fine ashes, or sawdust, or sand.

☞ A correspondent, "Equal Rights," complains that the church-goers, or rather a congregation coming *from* church, on Sunday, were not so accommodating as they should be, and as the blocked state of our sidewalks demands for the convenience of all. He says that, being in strong force, and more than two abreast, this congregation crowded those they met into the street. He thinks two abreast is a plenty, and so do we—and should judge that more than this would be dangerous, this slippery walking, and liable to result in broken *bones.*

☞ To-morrow night, (Wednesday) the Great Exhibition of the Russian War, will open at the Temple. We have many times been questioned in regard to this Exhibition. We can only say (as we have not had the pleasure of seeing it) that since its arrival in this country it has created more interest, and drawn together larger audiences than anything of the kind. It has crowded houses wherever it goes. E.

CONGRESS.

SATURDAY, Jan. 19.

HOUSE.—Mr Clingman offered a resolution that during the calling of the roll no debate or personal explanation be in order, and that this rule and the rule limiting members to ten minutes in debate, shall not be suspended except by the unanimous consent of the House.

He thought the House had degenerated into a mere debating society. Voting was more likely to result in an election than discussion, because the latter only seems to inflame parties and factions, thus increasing the difficulty. The resolution was adopted.

The House then voted :—Banks, 94; Fuller, 31; Richardson, 69; Pennington, 3; Campbell of Ohio, 3; Messrs. Porter and Foster each 1. Necessary for a choice, 102.

Messrs Quitman and Graw then spoke, one defending the South and the other the North, concerning the slavery question. Colfax gave a history of the plurality rule of 1849, saying that before its adoption, eighty similar propositions came from the Democrats and one from the Whigs: the Democrats then claimed to have the majority, but, owing to a defection in their ranks, they could not all unite on a candidate for Speaker. The Republicans are now similarly situated, and should have the benefit of the rule. The Democrats denounced the Whigs as bitterly then as they do the Republicans now.

Bocock said if this was a mere squabble between National parties, there could be serious objection to the plurality rule; the old Whig party was as white as snow compared with the crimson guilt, speaking politically, of the Republican party. When he saw that its adoption would result in the election of a sectional candidate, he would be justified in resisting it till the crack of doom. Mr Savage expressed the same views.

In the course of debate, Humphrey Marshall Harris (of Illinois) earnestly denied that Henry Clay favored the passage of the Missouri restriction. After considerable debate, Mr Clingman offered a resolution that, for one week, unless a Speaker be sooner elected, no debate should be in order, unless by unanimous consent Adopted by forty-five majority. Adjourned.

NAVAL.—The United States sloop-of-war Dale, William McBlair, Commander, from the coast of Africa, arrived at Norfolk on the 11th inst., 30 days from Port Praya, (Cape de Verds.) Her officers and crew all well.—The Dale left the St. Louis and Dolphin in port. The Dolphin had just returned from a cruise on the Southern Coast. The Jamestown, flag ship, Com. Crabbe, left Port Praya on the 12th November, all well, The Dale has been absent from the United States 27 months, most of the time on the Coast of Africa. She experienced very inclement and rough weather for the last 12 days, during which time she has been on the coast off Hatteras, and owing to the severity of the weather, was several times driven off.

FIGHTING IN KANSAS.—The Kicapoo Pioneer of the 18th inst. says a battle took place last night at Easton, between a party of free State men and some pro-slavery men, in which one of the latter was killed and several wounded. Several abolitionists were also killed or wounded. A company from Lawrence, under Capt. Brown, and the Kicapoo Rangers were the parties engaged. A large number of persons had left for Easton. The disturbance is supposed to have grown out of the election on the 15th.

The Hon. David Atchison has addressed an appeal to Georgians, to aid him in making Kansas a slave State. He calls for "young men *well armed*, with money enough to support them for twelve months, and determined to see the thing out." He adds in a postcript: "I was a peacemaker in the difficulty recently settled by Gov. Shannon. I counselled the 'Ruffians' to forbearance, but I will never again counsel peace."

Beautiful illustrations these, of the great principle of squatter sovereignty,—and also of the statement in the Nebraska bill, that it was not designed to legislate slavery *into* nor out of the territory.

THE NEW BRUNSWICK LIQUOR LAW.—*St. John, N. B., Jan.* 21.—A meeting of fifteen hundred inhabitants, met at Fredericton on the 19th inst., the Mayor in the chair. Resolutions were adopted condemnatory of the prohibitory Liquor Law, by a majority of five to one. Speeches were made on both sides of the question. The proceedings were harmonious, and closed with good feeling, with three cheers for the Queen.

DISRESPECT SHOWN TO VERMONT.—*Richmond, Jan* 18.—The resolutions of the Vermont Legislature, touching the Kansas question, were sent into the Legislature yesterday, by Governor Wise, with a recommendation that no action be taken on them. The House ordered the Governor's accompanying message to be printed, omitting the resolutions.

DEATH OF A BROTHER OF EX-PRESIDENT TYLER.—William Tyler, Esq., late of Charles City County, died at his residence in this city on Tuesday morning, of consumption. He was a brother of the Hon. John Tyler, Ex-President of the United States, and at the time of his death held the office of Clerk of the Navy Yard at Gosport.—*Norfolk Herald, Jan.* 10.

"SANDY NECK" CUT THROUGH.—The action of the tide was so violent against Sandy Neck in the storm of last week, that a passage was cut through about one-half mile west of the Light House. We see no reason why this may not materially change the topography and character of our harbor. A sheet of water of considerable width continues to pass into the harbor, and it is quite possible that it may so enlarge as to form the principal entrance into it.—*Barnstable Patriot.*

EXACTLY SO.—The New York Courier and Enquirer says that "with all the diffusion of knowledge which is the boast of the age, there seems to be no unusual supply of common sense vouchsafed to this generation; and without common sense knowledge is useless lumber."

The Monthly Nautical Magazine,

Devoted exclusively to the Maritime Interests of the United States, embracing Ship Building, Commerce, Navigation and Marine Engineering.

ONE of the leading objects of the Editors will be to furnish correct data, upon which mechanics, merchants and mariners may confidently rely in finding an epitome of mechanical, commercial and nautical intelligence.

It will be the province of the Nautical Magazine to chronicle the march of nautical enterprise, and sketch the achievements of the living age; to aid research and investigation, and present the truths of unfolding science; to combine the experience of the ship-builder and navigator, and direct in harmony their united efforts to elevate the altitude of this excelling art, by diffusing from a nautical press the mechanical wonders of the ship and sea.

The work contains draughts of some of the finest vessels of the age, with other engravings, and is one of the most valuable publications of the country. Lithographs of vessels will be frequently inserted. Terms $5 per annum.

Singer's Sewing Machines.

THESE Machines have long sustained the highest reputation in the United States.

The First Prize—A Gold Medal,

Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.

The Inventor has just added to these superior Machines an improvement whereby they can work on any kind of

FAMILY SEWING,

From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine professes.

They will also Bar and close all kinds of Kid Boots and Shoes, and stitch the finest Gaiter Boots in every part without a skip—making them the most desirable for girls to use at home, or for any who wish to do more than one kind of work.

These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.

They run without noise, with ease to the Operator, and at double the ordinary speed, so that

Twice as much Work can be done in a Day.

The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.

They are simple, and cost scarcely anything to keep them in repair; and can be operated by a child twelve years old.

Old Sewing Machines of any patent taken in part pay for new Machines.

These Machines may be had at Manufacturers' prices, of

THOMAS S. NOWELL,

Local Agent for New Hampshire, at Rix Shoe Manufactory, McDonough street, Portsmouth, where they may be seen in operation. d29

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington,

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS instead of twenty, as paid back by others, will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given, are those of some 14 MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting patents, or the infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had more business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS. MASON,
Commissioner of Patents.

G. W. STONE'S

LIQUID CATHARTIC,

—AND—

Family Physic,

The most important discovery ever made in Medical Science, being a compound of Roots and Roots, which forms the most powerful, safe and agreeable Physic ever offered to the public.

THE necessity of such a Medicine has long been felt both by the heads of families and Physicians. The advantages over cathartics given in the form of Pills or Powders, must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the system, and when once the Pills, regulate the action of the Liver, frees the Stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as

RHEUMATISM, NEURALGIA, TIC DOLOREUX, GOUT, PAIN IN THE HEAD, SIDE, STOMACH, &c.

It may also be relied upon in all diseases of the Bowels; *Dysentery, Diarrhea and Cholera Morbus* yield at once to its influence. Again we repeat, TRY IT!—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success, despair not—relief is now at hand. Are you suffering with Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness?—three bottles will effect all that you desire. Have you been afflicted with Rheumatism, Neuralgia, or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1.00.

G. W. STONE'S

Cough, Consumption, and Bronchitis ELIXIR.

THE Proprietor would respectfully call the attention of the public to his invaluable Remedy for all Affections of the Throat and Lungs which he offers as the result of his search for a perfect, from the numerous medicines advertised, and recommended for such complaints, to give his ELIXER a trial. Having done so, they will no longer hesitate what to take themselves, or recommend to others. A single trial will prove to them that this is the most valuable remedy ever discovered for the various affections of the Throat and Lungs; it will immediately relieve the most violent Cough, and in a few hours completely cure the most severe Cold. As a Preventive and Cure for Consumption, it has no equal.—It is purely Vegetable, contains no poisonous ingredients, is quite agreeable to the taste, and may be given with perfect safety to the most delicate child. The numerous testimonials received almost daily from those who have been cured by it, fully justify the assertion that no family should be without this Medicine; let Mothers give it to their Children who have the Whooping Cough or Croup, and they will alleviate at once the sufferings of their little ones. Price 50 cts.

Call for G. W. Stone's Cough Elixir, and see that his name, and Cough Elixir, with the words Boston, Mass., are blown upon the Bottle, without which none will be genuine.

A Good Decision.—A recent legal decision in Massachusetts has settled the point, that foot passengers have an equal right of way across from one street to another, with teams of all kinds; and that a teamster or a driver of a carriage of any kind is liable for damages if he runs upon a foot passenger while crossing. We should like to see the law enforced in Manchester. How often we hear a man say, who is driving at a 2:40 gait, to a foot passenger, "Hallos, there! Get out of the way!" as if a man had not his choice, to "go on foot or horseback," and a footman had not the same right to the street as a cabman. The law does not recognize a man with a "coach and four," as any better than a bare-footed beggar boy.—*Exchange.*

All right. We go in for democracy and equality, everywhere. But the law allows a man to drive five miles an hour; and probably foot-passengers are bound to keep out of his way, while he is going at that pace. And we never *could* see any particular need of a group collecting directly in the middle of a street-crossing, or of pedestrians going to sleep (almost) there, or walking backwards with their eyes behind them, or gazing up at signs, &c.; nor the necessity of every child in the neighborhood congregating in the middle of the street, and scattering only after the passing traveller has brought his horse down on his haunches, when close upon the urchins,—children who should be in the nursery, and not in the street. Let the drivers "take heed to their ways," and also the walkers.

The March Fight in New Hampshire.—Algoma, the Boston correspondent of the New York Herald, thus alludes to the March struggle of parties in New Hampshire:

The contest has fairly been commenced in New Hampshire, Mr. Wells having taken the field, and Mr. Butterfield having commenced the publication of the campaign Daily Patriot. It will be a beautiful fight, and for the next two months the roar of it will be great throughout the land. The chances are much against the success of the democrats at this time, but they may assume another comylexion by March. The great thing in their way is, that the Americans and Republicans have more sense than to quarrel. The opponents of the national administration in New Hampshire appear to be all united, and if they keep so, they will find no difficulty.

An Eating and Drinking Bet.—On Saturday last, a lady resident of this city, on the spur of the moment offered to bet a double eagle with a gentleman boarding at one of our first class hotels, that she would take a little from each dish on the dinner table, seasoned with a portion of every condiment and devour the whole, and in addition, to wash it down, she said she would take as a drink a limited quantity of all the liquors in the bar. She did it and won the bet. Having confidence in her capacity, she afterwards offered to bet a like amount, that she would drink the man—her betting opponent—drunk before nightfall, but having had a test of her powers, he politely declined.—*California State Journal.*

New York Law of Bequests.—A law was passed at the last session of the Legislature of New York, by which no benevolent or religious society can receive any devise or bequest, the clear annual income of which is over $10,000.

The law also provides that no person leaving a wife, child, or parent, shall bequeath or devise to any benevolent or religious society more than one-fourth of his or her estate, after the payment of his or her debts—and also that no devise or bequest to any benevolent or religious society, shall be valid in any will that shall not have been made at least two months prior to the death of the testator.

Didn't pay.—A couple of young men, last week, undertook to ride from Salmon Falls to Portland without paying their fare. At South Berwick a writ was obtained, and the parties were arrested, tried and fined $10 each and costs. Not having the change handy, they have taken up their residence in Alfred jail.—Probably they will find this a kind of business that don't pay.

The liberal portion of our citizens, not satisfied with the exclusive spirit of the Young Men's Christian Association—which allows all sects to pay for its prosperity, but excludes from fellowship and office all who are not "evangelical"—held a meeting last week in the Rev. Dr. Osgood's church to form a "Christian Union" on an enlarged basis. The new association will include the Unitarian and Universalist societies.—*N. Y. Cor. Boston Journal.*

A bill introduced in the Kentucky Legislature provides that if any white person or free negro aid a slave to escape, he shall, upon conviction, suffer death. Another bill introduced is designed to annul the law regulating the sale of spirituous liquors.

The Washington correspondent of the New York Times says it is understood that Col. Parker H. French will leave the country next week, and that Col. Walker will soon send a native Nicaraguan here as a minister.

An ice bridge above Niagara Falls connecting with Goat Island and Canada Shore has been safely travelled by pedestrians the past week. Such a thing has not happened before for 25 years.

John Smith is under bonds in Philadelphia for selling six cents worth of liquor to a young lad who was carried home in a beastly state of intoxication.

The Rev. C. G. Finney, the well known revivalist, is getting up a powerful revival of religion in Rochester N. Y.—*Boston Mail.*

The Paris bakers gave 440,000 loaves of bread to the poor, Christmas day, in place of the usual Christmas box.

Morning Chronicle.

WEDNESDAY, JANUARY 23, 1856.

A SAD SCENE.—Under this head, the Boston Chronicle of Tuesday draws the following picture:

Last evening the fourth Station House presented a scene, which, to those who witnessed it, will be long and painfully remembered. Some of the officers of that station had been called into an Irish tenement in their district to quell a disturbance, and there found Mistress Margaret Murphy, in a state of unconscious drunkenness, with her little infant crying on her breast, and an older child, a boy of seven years, rolling about the room in a state of maudlin intoxication.

The whole party were taken to the station house, where the drunken shouts of the mother and the insanely sad croaks of the drunken boy mingled in distressing chorus with the plaintive wailing of the infant child. The family have long been suffering under deep destitution, which drove the mother, who we understand has been heretofore a worthy woman, to seek to drown her sorrows in the insensibility of intoxication.

Yes indeed—and somebody, whether moved by mistaken pity or murderous avarice we know not, gave or sold this poor woman the fiery poison which maddened her brain, instead of the bread which should have fed her and her children. And if we must believe all we hear and read from certain casuists, it would be unconstitutional and oppressive to cut off this stream of woe. Is not the poor woman's house her castle? May she not drink what she pleases? And has not the restraining law against selling been opposed and virtually nullified in Boston? So long as she carries coals in her bosom, so long some of her children must be burnt.

A STAMPEDE.—We learn from the N. H. Gazette, that there has been a *Stampede among the Liquor Dealers*, in our neighboring town of Exeter, caused as follows:—The liquor dealers at Exeter were waited upon one day last week, by the officers of that place, with warrants from the office of a Justice of peace in one hand, and a thousand dollar bond in the other; and by the officers were told that they could have their choice, either to stop the sale of liquor, and pay five dollars, or be arrested, have their liquors seized, and held for trial. In most of the cases the bond was signed and paid for, and the officers walked off with their money in their pockets.

This does not look as if the law was exactly a dead letter; but rather as if in these cases it was judiciously enforced.

The same paper, of a previous date, informs us

That there may have been a change in the manner of conducting the business, especially in this city, is undoubtedly true.

Quite a change;—and some dimunition.

But that change has been altogether unfavorable to the business interests of the city if not the advancement of the temperance reform.

Of this we see no evidence: we do not believe it.

If any of our traders have abandoned the traffic, they have been the most respectable class of dealers.

Exactly this has happened;—the new law seems to have taken away much of its supposed respectability.

Men in whose hands the business would lose much of its evil effects.

We don't think it makes much odds who sells the intoxicating drinks; if they are sold and drank, they will do their mischief.

NICARAGUA.—We have received from the publishers, S. A. Bent & Co., Boston, a neat pamphlet of 72 pages, entitled "The Destiny of Nicaragua; Central America, as it was, is, and may be. A complete picture of the County,— with portraits of Walker & Kinney," &c. It contains a great variety of information, and is doubtless intended to encourage emigration to that land.

FRANKLIN.—In 1786 Dr Franklin, then 84 years old, wrote a letter to John Langdon, then Governor of New Hampshire, requesting him in behalf of the Pennsylvania society for promoting the abolition of slavery, to use his influence to prevent any more vessels being fitted out in New Hampshire ports for the slave trade.

Dr Franklin was the first Secretary of the Pennsylvania Abolition Society.—Passmore Williamson is the present Secretary of the same Society.

☞ Frank Leslie's New York Journal of Romance, Literature, &c., for February, contains a continuation of Masks and Faces, which is a Romance of rare ingenuity and interest. It also contains several illustrated articles,—among them one on the manufacture of Champagne wine; and another on India Cottons, or Muslins.

☞ The steamer Washington, ar. at New York from Southampton, brings London dates to the 5th inst. one day later than before but no news of any importance.

☞ We acknowledge the receipt of valuable public documents from Hon. James Pike, Representative in Congress from this District.

For the Chronicle.

NOT *FROM*, BUT *ON* HIAWATHA.

Ye who love euphonic endings,
Love load-sounding Indian titles,
Love such murderous vernacular,
Love a wild and savage people,
Love to track them o'er the mountains,
And their howling, and their hunting,
And their scalping, and their singing,
Hear the clatter and the pother
Of this song of Hiawatha,
With its verses soft and mellow,
Written by the great Longfellow!

Ye who love historic fables,
Love the myths of other ages,
In the ballads sung or spoken,
Coming to us from afar off,
Like the whisper of the pine trees,
Like the ripple of the brooklet,
Like the chirping of the cricket,
Like the sighing of the storm-wind,
Like the creaking of a barrow,
Hear a very simple story,
Hear this song of Hiawatha!

Ye who are so very simple,
Who have faith in savage nature,
Who believe that flesh and bones are
Chief ingredients of the body,
Who believe the Red man's nature
Is his own and is no other's,
Who believe that e'en a Red man,
But a little changed and altered,
Might have longings for the better,
Might be moved to change those titles—
Names in no calendar enrolled;—
Hear the clatter and the pother
Of this song of Hiawatha,
With its verses rich and mellow,
Written by the great Longfellow!

GEN. SCOTT'S REPORT of the state of the army recommends an increase in the general officers and additional pay. He advises a retired list, and says:—

"Some forty or fifty officers, mostly in the higher commissions, rendered non-effective by the infirmities of age, by wounds or chronic diseases, now press downward into lethargy and then despair; thrice the number of juniors re sighing for the increased rank, which would, before they are too old, increase the field of distinguished usefulness. How soon the undersigned may himself be considered one of the superannuated he knows not; but, while any vigor remains, he will not cease to urge a remedy for the great evil in question."

The Alexandria Gazette mentions the fall of a large number of bugs during a rainstorm a few days since. The snow for several miles was robbed of its whiteness and made to resemble a vast field of colored velvet. The intense coldness of the weather did not kill them.

Would it not be well to get some professor, some Agassiz of Bug-ology, to look at this shower of Bugs, and tell the public where they came from and what they are—particularly whether they are *humbugs*.

FROM WASHINGTON.—*New York, Jan. 22.*—The Tribune's Washington correspondent telegraphs:

The official advices received by the America do not in any way change our friendly relations with England.

Mr Buchanan writes that no real prospects of peace are entertained by the Ministry, and England is preparing the largest fleet ever floated for operations against Russia in the Spring.

Louis Napoleon is still anxious to extricate himself from the war, having attained all the desired prestige of the occasion.

The President communicated to the Senate in executive session to-day, Lord John Russell's letter of Jan. 19th, 1853, to Mr Crampton, and which was then submitted to Mr Everett, Secretary of State. It declares that the British Government intends strictly to carry out the Clayton Bulwer treaty, and to assume no sovereignty directly or indirectly in Central America.

The Senate has removed the injunction of secresy, and the letter will be published.

The Government has received no official information as to the recent bloody outrage in Kansas announced by telegraph. Several Senators to-day informally confessed as to the policy of advising the President to send a military force to Kansas to preserve peace and protect the Territory against Missouri invasions. Southern members predict that civil war is inevitable in a short time.

The Boston Herald learns that a Mr Roberts of Somersworth, N. H., while riding out in that town on Saturday afternoon, was met and without any provocation attacked by several rowdies belonging in Salmon Falls, and badly beaten; so much so that his recovery is considered doubtful. It is to be hoped that the perpetrators of this outrage may be discovered and brought to punishment.

The Boston Bee says that Mary Williams and her child, about whom such a "towse" was made last year, are now in the State Alms House at Tewksbury, and unless again relieved will be re-shipped to Liverpool.

MORE "DEVELOPEMENTS."—A sleighing party of fifteen ladies *with* gentlemen, from North Easton, visited this place on Wednesday evening and had a supper at the Taunton Hotel. The ladies exercised all their leap-year prerogatives, paid the bills, and attended to things in general, man-fashion.—*Taunton Gazette.*

On Friday evening last, Isaiah Packard, an aged sexton of Bridgewater, Mass., died very suddenly. He had officiated as undertaker for half a century.

LOCAL.

POLICE MATTERS.

For the Chronicle.

Messrs. Editors:—Your correspondent "Police" appears to think that nothing is "a disgraceful proceeding" except rioting or fighting. But every one who is in the habit of passing through Congress, Market and Daniel streets, in the evening, knows that although such things may but seldom occur, yet there are *nightly* gangs of young men and boys who loaf up and down these streets, obstructing the sidewalks and corners; and whose profane and obscene talk with each other is carried on in such tones that if females and respectable persons are not directly addressed with insult, yet that it is most annoying and disagreeable to have to run the gauntlet of such impurity, to say nothing of the showers of tobacco juice, &c., freely dispensed at the same time. To say that the police are not responsible for such things, or that they have done all in their power to put them down, so long as they continue at all, is simply absurd. Every such gathering should be at once broken up, and the police would be sustained in their efforts to do so by every LOVER OF DECENCY.

For the Chronicle.

Messrs. Editors:—We like to see justice done to all, therefore we take our pen to confirm the statement of your correspondent S. W. C. in reference to Market street. It is true that but "one single disturbance" has occurred there of late, but young men have been engaged in proceedings which we deem disgraceful, and which every respectable citizen would if the cases were known.

It is true that Market street has been a very quiet street till lately, and no doubt it will be for the future, for we have no doubt our officers will be prompt in their duty and render this business street passable for one, and all. As for Congress Block, it is now, and we presume will be a place of resort for the noisy, low and vicious, for it seems that the police have done all in their power to break up this place of resort, and their efforts have certainly been without success, for nightly there are found there those who should be in more respectable company. H.

We must be the *third*, or perhaps the *fifth* man among these scribbling combatants about noisy boys and rowdyish young men, vs. the Police.

That there are nightly congregations of such persons at different points of the city, we have no doubt, for we pass through them almost every evening. But there have been such assemblages in our streets and at our corners, not constantly, but generally, for more than forty years, to our certain knowledge.

There have been a few periods, when, for a time, such conventions were rare, and the streets unusually still: for example, one in the Washingtonian time; once last summer when the liquor shops all ceased selling their noisy beverage;—and at some other times under peculiar circumstances.

But as a general thing, congregated boys and youth will be noisy, whether let out of school in the day time, or out of work in the evening.

When their noise is too loud, or their behaviour too bad for endurance, the police interfere and disperse or arrest them, as the case may be. But should they interfere a moment too soon, or go a step too far,—fines, costs and public indignation await them!

We have as still streets as any city of our size in New England where there are as many tippling places, and where such pains have been taken to injure the police and encourage the rowdies.

In short we believe the police are disposed to do their duty—and that if the citizens generally wish for stiller streets in the evening, they can have them, by countenancing the police, and by obedience to all our laws—and by discountenancing rioters and closing the holes wherein they prepare for riots and brawls.

Take away the cause—the effect will cease.

☞ The lecture at the Temple on Tuesday evening, before the Mechanics' Lyceum, was by Rev. Rolin H. Neale, of Boston.

His subject was Nature in Human Life and Character. He maintains the position that Naturalness of manner, with simple kindness, was the true politeness; and honesty or naturalness of thought and purpose, the highest wisdom and virtue. He discovered in every man some trait or spark of native goodness that could be found out and developed by crushing and melting and fusing; and said he did not speak thus as a theologian. Nevertheless he did bring out the most liberal theology, and philosophy to match.

He described natural and earnest address, appropriate to time and circumstance, as the true eloquence; and finely illustrated this position, in his own lively and natural performance—giving us one of the best and most attractive lectures of the present season.

☞ The American Party in this city meet this this evening at Rechab Hall, for the purpose of nominating delegates to their State Convention to be holden at Concord on the 5th day of February.

☞ This evening, at Jefferson Hall comes off the Ladies' Grand Levee, for the Howard Benevolent Society—which will, we doubt not, be ully attended and liberally patronized.

☞ The Journal and Ballot have posted one John D. Sias, of Atkinson, N. H., for leaving that town without paying for his newspapers. We struck him from our Weekly list some time ago, as he paid no attention to our bill sent him.

☞ There will doubtless be a rush to-night to the TEMPLE, to witness the Exhibition of the Russian War. A vast amount of instruction and pleasure may be derived from spending a couple of hours by going to see this popular entertainment. Remember the Price will be only 15 cents.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and it has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons, among others by W. Gibson, MD, Prof. of Surgery, Pa. University. Valentine Mott, MD, Prof. Surgery, N. Y. Univ'ty. W. P. Dewees, MD, Prof. of Mid., Pa. University. N. Chapman, MD, Prof. of Physic, Pa. University. I. Parke, MD, Pres. College Physicians, Phila. Dr. Del Vallo, Prof. of Medicine, Havana. Jose Lourenco de Luz, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain.
J. Chapman, Member Royal Col. Surg., London. Sir Thomas Parsons, Maj Gen British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, Philadelphia in the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing a *somewhat* similar name, well calculated to deceive.

CONGRESS.

MONDAY, Jan. 21.

SENATE.—Several petitions from retired officers were receive. Mr Bell defended the general action of the Naval Board, but thought there were undoubtedly cases like Lieut. Maury's, where injustice had been done.

Several gentlemen discussed the question of rectifying any mistake the Naval Board may have committed. Adjourned to Thursday.

HOUSE.—In the House Mr Boyce made an ineffectual motion to rescind the resolution prohibiting debate.

Mr Faulkner offered a resolution that, if no Speaker be elected by Monday next, members resign, and an adjournment ensue until the second Monday in May. Laid on the table by 26 majority.

Mr Sneed then submitted a resolution that the supporters of Mr Banks select one candidate from the supporters of Mr Fuller and one from those of Mr Richardson; that those voting for Mr Richardson select one of Mr Banks' friends and one of Mr Fuller's; and that the voters for Mr Fuller choose one from among the friends of Mr Richardson and one from those of Mr Banks. The members so elected to be considered the only candidates in nomination, and that the lowest on each trial be dropped until an election be effected.

The resolution was tabled, and the House then voted:—

118*th Ballot.*—Banks, 92: Fuller, 31; Richardson, 66; Campbell, 3; Pennington, 2; scattering 3.

Necessary for a choice 99.

Mr Rust offered a resolution declaring as the sense of the House, that Messrs Banks, Richardson, Fuller and Pennington, by withdrawing their names as candidates, would remove obstacles to an organization.

Mr Fuller said he wished to remove one obstacle by withdrawing. [Cries of "No" "No!"]

Mr Pennington remarked that this was the first intimation he had received that he stood in the way of an organization, but he did not desire longer to occupy the position.

Mr Rust withdrew the resolution.

Mr Whiting submitted a resolution for the election of a Speaker, leaving a blank therein to be filled with the name of a person whom the majority might elect. Tabled by 146 against 44.

Mr Carlisle offered a resolution declaring Wm. Smith, of Virginia, Speaker of the House. Rejected by 131 against 47.

Adjourned.

ILLEGAL APPOINTMENT OF A SHERIFF.—*Portland, Jan. 20th.*—In the Supreme Court in this city, to-day, Judge Davis decided that the recent appointment of a new sheriff by Governor Wells, who had removed the old one, was illegal, under the resolve amending the Constitution of the State, giving to the people the power to choose Sheriff, Judges, and Registers of Probate.

The question came defore the Court on the attempt of the newly appointed Sheriff to take charge of the Court, and the Judge decided that the old one was legally in office.

A similar decision has been given by Justice Tenney, in Somerset County, as it relates to Registers of Probate. These decisions if sustained by the full bench, render negative all the recent appointments of Sheriffs and Registers of Probate made by Governor Wells in the places of persons removed by him from these offices.

The case goes to the full bench, and it is understood that H. W. Paine, Esq., of Boston, formerly of Hallowell, is engaged in behalf of the old officers.

VERMONT NEWS.—The Windsor Journal learns that a church (probably the Congregational) at Newbury, was burned on Sunday, the 13th inst.

The depot building at the Pompanoosuc station in Norwich, together with a large quantity of copperas, was burnt two weeks since.

On the evening of the 8th inst., a young man by the name of Holtham, about 17 years of age, was frozen to death in Waterville while intoxicated.

WASHINGTON, Jan. 21.—It has been ascertained from an authentic source that the long-talked of alliance between Spain, Great Britain and France has been formally consummated. The first binds herself to send into the field ten to twenty thousand men in the Spring, while her interests, particularly in Cuba, are to be protected by France and England.

TRIAL OF COMMANDER RITCHIE.—*Philadelphia, Jan. 21.*—The Naval Court Martial effected an organization to-day, and proceeded with the trial of Commander Ritchie, who pleaded not guilty. Mr Etheridge, the Chief Clerk in the Navy Department, testified, giving an account of the transactions as detailed by Mr Ritchie, who boasted in the presence of witnesses of having used the words liar, scoundrel, and coward. The examination for the prosecution was not completed when the Court adjourned.

THE REPORTED BATTLE IN KANSAS.—*St. Louis, Jan. 21.*—A despatch from Weston says that the reported battle in Kansas was greatly exaggerated; nothing serious occurred. There were none killed, and but few slightly wounded.

PENNSYLVANIA LEGISLATURE.—*Harrisburg, Jan. 21.*—Henry S. Megrew (Democrat) was to-day elected State Treasurer by the Legislature.

FURTHER DIFFICULTIES IN KANSAS.—A private letter from Lawrence, Kansas Territory, published in the Evening Post, says:—"We are threatened with another invasion on the 4th of March, to arrest the officers of the Government under the constitution, and it is reported that companies are drilling in Missouri for the purpose. Several of our citizens design to visit the east in a few days to lay our cause before the country, and among them are Gen. Lane, J. S. Emory, and others."

The United States propeller Arctic, at the Brooklyn Navy Yard, is kept in readiness for instant despatch, in case of any illegal movement among the fillibusters. It is reported that a number of "invalids," seeking a milder climate, will sail in the next Nicaragua steamer.—*Boston Chronicle.*

The Monthly Nautical Magazine,

Devoted exclusively to the Maritime Interests of the United States, embracing Ship Building, Commerce, Navigation and Marine Engineering.

ONE of the leading objects of the Editors will be to furnish correct data, upon which mechanics, merchants and mariners may confidently rely in finding an epitome of mechanical, commercial and nautical intelligence.

It will be the province of the Nautical Magazine to chronicle the march of nautical enterprise, and sketch the achievements of the living age; to aid research and investigation, and present the truths of unfolding science; to combine the experience of the ship-builder and navigator, and direct in harmony their united efforts to elevate the altitude of this excelling art, by diffusing from a nautical press the mechanical wonders of the ship and sea.

The work contains draughts of some of the finest vessels of the age, with other engravings, and is one of the most valuable publications of the country. Lithographs of vessels will be frequently inserted. Terms $5 per annum.

The January number, containing eight Plates, may be seen at the Bookstore of

Singer's Sewing Machines.

THESE Machines have long sustained the highest reputation in the United States.

The First Prize—A Gold Medal,

Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.

The inventor has just added to these superior Machines an improvement whereby they can work on any kind of

FAMILY SEWING,

From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine professes.

They will also Bar and close all kinds of Kid Boots and Shoes, and stitch the finest Gaiter Boot in every part without a skip—making them the most desirable for girls to use at home, or for any who wish to do more than one kind of work.

These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.

They run without noise, with ease to the Operator, and at double the ordinary speed, so that

Twice as much Work can be done in a Day.

The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.

They are simple, and cost scarcely anything to keep them in repair; and can be operated by a child twelve years old.

Old Sewing Machines of any patent taken in part pay for new Machines.

These Machines may be had at Manufacturers' prices, of

THOMAS S. NOWELL,

Local Agent for New Hampshire, at his Shoe Manufactory, Melbourne street, Portsmouth, where they may be seen in operation. d29

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington.

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS instead of twenty, as paid back by others, will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and be usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business given them by the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

G. W. STONE'S

LIQUID CATHARTIC,

—AND—

Family Physic.

The most important discovery ever made in Medical Science, being a compound of Herbs and Roots, which forms the most powerful, safe and agreeable Physic ever offered to the public.

THE necessity of such a Medicine has long been felt both by the heads of families and Physicians. Its advantages over all others given in the form of Pills or Powders, must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only purgeses all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, in a certain cure for the Piles, regulates the action of the Liver, frees the Stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as

RHEUMATISM, NEURALGIA, TIC DOLOREUX, GOUT, PAIN IN THE HEAD, SIDE, STOMACH, &c.

It may also be relied upon in all diseases of the Bowels: *Dysentery, Diarrhea and Cholera Morbus* yield at once to its magic influence. Again we repeat, TRY IT!—It needs but the recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success, despair not—relief is near at hand. If you are suffering with Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness?—three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, my bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1.00.

MORNING CHRONICLE.

BY MILLER & GRAY. PORTSMOUTH, N. H., THURSDAY, JANUARY 24, 1856. VOLUME 7. NO. 150.

THE DAILY MORNING CHRONICLE

is published by
FRANK W. MILLER & SAMUEL GRAY,
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.
TERMS $4 a year, or $3 if paid strictly in *advance.*

The Weekly Chronicle,
A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning.
TERMS $1 a year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

ADVERTISING.
For a Square (sixteen lines nonparell) or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.
Yearly, quarterly or monthly advertisers liberally accommodated.
Unless otherwise ordered, all advertisements inserted in the Daily, also receive two or three insertions in the Weekly Chronicle, without extra charge.
Both papers having large circulation in Portsmouth, Kittery, New Castle, Greenland, Epping, on the Eastern and the Portsmouth & Concord Railroads, &c., renders the Chronicle an excellent advertising medium.
☞ Obituary Communications charged as advertisements. Notices of Funerals, 25 cts. each. Advertisements of articles lost, 25 cents if not found. 50 cts. if found.

JOB AND CARD PRINTING promptly executed

The "American Almanac gives the following as the aggregate population of the world:

Africa	100,000,000
America	57,706,882
Asia	626 000,000
Australia	1,445,000
Europe	263,517,521
Polynesia	1,500,000
Total	1,050,169,402

The Jerome Clock Company is again under protest, and will it is supposed, make an assignment. The arrangements made some weeks since were not sufficient to save them. Their liabilities were found to be much larger than represented and their assets much less valuable. The concern appears to be a total wreck.

The Andover Advertiser says that the venerable Lyman Beecher, D. D., now eighty one years of age, walked to the Seminary Chapel, in Andover, last Sabbath, in the midst of the severe storm, and preached a sermon of more than an hour long. He is said to have exhibited much of the vivacity of a young man.

"It is understood," says the Providence Journal, "that the directors of the Worcester railroad will raise their rates of passage five cents at each station. A great deal of freight has been carried over the Worcester road, as it has over the other roads, without a cent of profit, if not at an actual loss."

A firm in Worcester advertises 4000 barrels of flour, on consignment, comprising the choicest brands, at from fifty cents to a dollar less than current prices. This looks like a premonitory symptom of a decline in breadstuffs.

The Cleveland Plaindealer mentions the sudden death of William Blake, from injuries received while experimenting with his newly invented fire-proof paint.

Mrs. Gordon (wife of Mr. Gordon, who was killed by the railroad collision near Poughkeepsie,) died at that place on Friday. The remainder of the injured are doing well.

Harrison's Columbian Ink, Black.
FOR the National Government, State Legislatures, Courts of Record, Banks, Railroads, Post Offices, Insurance Offices, Editors, Authors, Lawyers, Doctors, Clergymen, Commercial and Business men of every sort, Colleges, Academies and Schools, and that great class who sustain all, the Farmers—the GREAT INK of the country. 344,573 bottles sold in 1854, is significant that the AMERICAN PEOPLE appreciate THE AMERICAN INK, made by HARRISON THE AMERICAN MANUFACTURER, and determine its great superiority over all foreign inks. It is at wholesale and retail by
d10 GEO. W. TOWLE, 3 Congress Block.

Harrison's Blue Black Writing Fluid
PROGRESS in the arts has revealed a Writing Fluid which does *not*, as other Writing Fluids *do* destroy the *points* of gold pens, actively corrode steel pens, or *chemically decompose the paper* or its *coloring*. I have seen paper where every letter written with English Fluids was eaten entirely through, and a delicate blue tint changed to a dirty yellow. The best make of gold pens have been condemned for losing their points, and the best manufactures of paper returned upon the dealer, where these Fluids were extensively used. Harrison's Fluid is subject to none of these evils. It writes a beautiful blue, and soon turns a jet black, and remains permanent HARRISON'S is AMERICAN, *made* by an AMERICAN, and worthy the use of all Americans. It is wholesaled and retailed by
d10 GEO. W. TOWLE, 3 Congress Block.

Morning Chronicle.

THURSDAY, JANUARY 24, 1856.

THE CHRONICLE FOR THE CAMPAIGN.—For 42 cents we will furnish the Daily Chronicle, from now till our annual State Election, in March, including the report of that election.

For 17 cents we will furnish the Weekly for the same time.

This is a good opportunity for any not now on our lists, to secure an impartial record of political movements in New Hampshire, from a source which has no party ties to bias its opinions or control its statements.

WASHINGTON NEWS.

A Washington despatch of the 22d says:

Amid conflicting statements, information from an authentic source warrants the assertion that so far from a special message relative to our foreign affairs being sent to either branch of Congress, it has not at any time been contemplated; much less has it been the subject of Cabinet consultation. Though this government demanded the recall of Mr Crampton and the British Consuls engaged in recruiting for the Crimea, it can as confidently be stated that there has been no purpose in or out of the Cabinet to withdraw Mr Buchanan from England, unless at his own request.

Negotiations between Great Britain and the United States are still open, despatches having been sent out by the last steamer; and nothing has occurred since the transmission of the President's message to Congress to change the aspect of our relations abroad.

Mr Boyce's resolution, offered in the House to-day, declaring our relations with Great Britain to be of the most serious character, and indicating that we may be on the eve of startling events, was not, as supposed, submitted with the consent or knowledge of the Executive, but was Mr Boyce's independent proposition.

It ought to be added that the proposition was an attempt to frighten the House into an organization, by a bugbear cry of impending war.

MANUŒVRES.—The Boston Telegraph says that in Washington on Monday, an attempt was made to resolve Extra Billy Smith o Virginia, into the Speaker's chair. Extra Billy is a hybrid politician, reckoned as a Democrat, and voting invariably for Richardson, but having been elected by the Know Nothings, and sympathising undoubtedly with them to a considerable extent. The votes which he recently received came from that party. The Democrats refused to vote for and elect him, so the responsibility of disorganization is again put upon them.

The correspondent of the Advertiser says:

There is a plan on foot, on the part of several leading administration members, to form a coalition with the Know Nothings. It is to be done in this manner: Mr Richardson is to retire; the boasted Democratic platform is to be pulled down, and Mr Orr or some one else of that stripe to be put forward, and the K. Ns' to vote for him. This would delight the anti-Nebraska men, as such a coalition would damage the Democratic party much more than the loss of Speaker. I do not believe the plan will succeed.

The anti-Nebraska men were never in finer spirits than they are to-day. Mr Pennington has declined, and goes in heartily, with his friends, for Mr Banks.

RESPECTABLE.—There are few words in our language more misused than this. Wealth is so often thought to be the main constituent of respectability, that when an exception is designed to be understood, it must be distinctly expressed. The universal newspaper expression, in such cases, is, "Poor, *but respectable*;" as if the fact of poverty were *prima facie* evidence of respectability. No one who has known the poor intimately, can for a moment assent to such a heresy. There is no class of society in New England, where all the virtues which confer a just claim to respect, more generally abound, than among the poor. While idleness and vice, which produces far the larger proportion of squalid misery which exists, should receive no tolerance, all honor should be paid to the virtue which shines out amidst the pressure and temptations of poverty.—*Eastern Argus.*

Nearly all of this is true; and all of it is worthy of consideration, says Uncle Toby.—and yet, as he is not very rich, he may be allowed to say, without rebuke, that there not only is, but ought to be, a certain degree of respect paid to any man, who by his industry or skill, his enterprise or economy, has been the artificer of his own fortune, provided always there is no violation of honesty in the transaction.

There is also a sort of hereditary respect belonging to the property earned for us, by our fathers, if we, their sons, do not by some evil conduct, dishonor their names and memory.

Then as to the poor: pure misfortune makes a few men poor; but these men are always suspected. Folly, extravagance, want of calculation, improvish far more; these men get blamed, and are somewhat less respected. So it ought to be—so it will be, says Uncle T. And lastly, most of the very poor in this land are made so by sottish vices; these are pitied by some, and despised by more.—Who shall say the retribution is not just?

Three young ladies, on going to bed at Mr Hunt's, near North Salem, Hendricks county, Indiana, a few days since, took a vessel of live charcoal into their bed room, and on the next morning were all found dead.

EXETER TOWN HOUSE.—A public meeting called by the Building Committee of the new Town House, was held in Exeter on Tuesday evening, at which Wm. W. Stickney, Esq., was chosen President, and Geo. S. Sullivan, Esq., Sec. On motion, a committee of five was appointed by the chair to arrange an order of exercises to be engaged in at the dedication of the hall.

This committee proposed that the dedication take place on Thursday evening Jan 31; that a committee of five be appointed to secure a chairman to preside at the dedication, and to make all other necessary arrangements; that the Chairman of the Building Committee deliver up, with a speech, the keys of the building to the Chairman of the meeting, who shall receive them with a speech; a dedicatory prayer be then offered by some clergyman of the town, and the time thereafter, until ten o'clock, be occupied by speeches, singing, &c., and that, after that time, those who wished have the privilege of dancing. This report, after some debate, was adopted, and the committee having been appointed, the meeting adjourned. T.

TEMPERANCE IN BOSTON.—A great meeting was held in Boston on Monday evening, when the Boston Total Abstinence Society was reorganized.

The essential items of the platform are—

Art. 2. The object of this society shall be to promote entire abstinence from the use of all intoxicating liquors as a beverage, by moral means, throughout the community.

Pledge—We, whose names are hereunto annexed, agree to abstain entirely from the use of intoxicating liquors as a beverage, neither will we furnish them for such purpose, or engage in the traffic thereof, and will use our influence to do away with their use in the community.

The Constitution was adopted unanimously.

Joseph Story, Esq., was then unanimously elected President of the Society, the announcement of which was received with applause.

A Committee of six was then appointed to circulate the Constitution and pledge for signatures. The Secretary subsequently announced that some one hundred and fifty signatures had been obtained.

Joseph Story, Esq., was then introduced by the chairman. He thanked the Society for the honor conferred upon him. He did not want any book before him or the voice of any eloquent gentleman to convince him as to the evils of intemperance. He read them in the great chapter of human history. He would call the mighty host of young men in the first stages of intemperance, and the old men grown gray in the drunkard's course; he would summon the multitude now sleeping the sleep of death, and ask them all to bear their testimony to the cause of humanity. He appealed to the citizens of Boston to lend their influence in favor of the cause of temperance. It remained for the friends of the enterprise to say whether it should go on or not.

After many eloquent remarks:

Mr Smith of New York exhorted all to take particular pains in the circulation of the pledge, after which Mr Boynton presented the following vote, which was unanimously adopted:

Voted, That the government of the society be requested to procure the clergymen of the city, as far as practicable, to lecture in their own churches in favor of the pledge of total abstinence. Also, to take measures to get up meetings in all the wards of the city, wherein all classes may speak in favor of the cause.

☞ The Gazette of last evening has the following:

The Chronicle publishes a paragraph from a Boston paper which represents that the anti Democratic forces in this State are well united. Its independent editor probably overlooked this item from one of his kidney, the Granite State Whig, which is probably nearer the truth than the Boston paragraph:

"At present there is an uncertainty—a blessed confusion prevailing among the anti-administration forces that does not look extra promising."

The returns of votes next March, will show which is nearest the truth. We do not see the Granite State Whig, and have no particular knowledge of its kidney.

NEW CHURCH IN PORTLAND.—A new Church, under the ministry of Rev. H. D. Moore, is to be organized, in the usual Congregational form, in Portland, this day. The Ecclesiastical Council for its organization, under the name of the "Union Congregational Church," will be held in Union Hall in the afternoon, at 2 o'clock. The public religious services in connection with the organization of the Church, will be held in the High Street Church this evening, commencing at 7 o'clock. Sermon, by Rev. George E. Adams, D. D., of Brunswick.

THE LIQUOR LAW to all appearance is carried out in St. Andrews. No complaint of violation of its provisions has as yet been made,—true, shops where liquors were formerly sold, are all open, but they are "biding their time." It does not appear necessary to appoint an agent for St. Andrews, as persons who want liquor, and did not put in a stock, go over to the neighboring State of Maine, and purchase any quantity they please, and were all the revenue officers in New Brunswick, with as many more, stationed round these shores, they could not prevent the smuggling of liquor.—*St. Andrews Standard.*

Especially if they did not wish to—and were themselves a "tight brigade."

WASHINGTON, Jan. 22.—Senator Douglass in a letter dated at Cleveland, says that he cannot fix any time when he will be here. He has had an operation performed on his throat which has caused him much delay.

Mr Greely speaks with enthusiasm of Mr Banks' speech in reply to Zollicoffer's interrogatories. He says:

"I was opposed to the whole operation at the outset, because it was not a fair thing. It was a game of trapping candidates, wherein the Banks men were required to put down all the stakes and take an equal chance for recovering them with those who risked nothing. These could not lose; they had no right to win. So I thought the friends of Mr Banks should not have played.

Mr Banks, however, thought differently, and the result has vindicated his sagacity and justified his courage. He refused to stand under the imputation, however false, that he shrank from a full disclosure of his opinions; so he voted for Zollicoffer's resolve yesterday, and to-day took the floor and answered all Zollicoffer's questions fully, clearly and triumphantly. His manner was admirable; his eloquence of a higher order than had previously been heard in the House at this session. The effect on his friends was electric; they had quite generally deprecated the whole business as untimely and preposterous—a waste of time that ought to have been devoted to earnest efforts to elect a Speaker. Their general confidence at the close that they had chosen the right man for their standard-bearer—one that would wear and need never be distrusted—was beyond all example. It was very commonly remarked, by opponents as well as friends, that there had been no finer exhibition of intellectual and rhetorical power on this floor for years."

DEATH IN A QUAKER MEETING.—The Philadelphia Inquirer announces the sudden of Jasper Cope, one of the oldest and most respected citizens of that city. The event took place on Sunday morning in the Friends' Meeting House, on Twelfth street, about ten minutes after the meeting had assembled.—We quote the following particulars:

The deceased had not been at all unwell previously, so that his death was entirely without warning. He leaned over on one side, was supported by the person who sat next to him, and in a moment his pulse was gone. His death was painless, apparently, for there was no convulsive struggle, and his countenance remained placid. Mr Cope was born in 1775, and was therefore in his 81st year. Thomas P. Cope and Israel Cope were his elder brothers, and the lives of the three have ended almost in the same twelve-month. They were all men of integrity and uprightness, and will long be remembered in this community.

FRESH ARRIVAL OF FUGITIVES.—We had the pleasure of seeing seven very intelligent, fine-appearing fugitives, fresh from the land of the "Peculiar Institution," the blessings of which they seemed not at all to appreciate. Two of them, a young married couple, left in October last and have just arrived, having been delayed by sickness and the dangers of their wearisome journey. One was from Delaware, the other four from the same neighborhood. This party when it left consisted of four males and two females, all young people.

They came in good order, for a time, in carriages, without opposition; but before reaching the borders of the Free States they were attacked by a party of six whites. They took their horses from the carriage, and mounted them; two of the men taking each a female behind him, and the other two going singly. Those with the females escaped, but the men who were alone were probably captured, as they have not been heard from. The seven arrived at Loguen's last night, where they were cared for and are probably now on their way to the Land of the Free. Two of them were married to day.—*Syracuse Chronicle, 19th.*

IN THE WRONG BOX.—Friday the trial of a man called Roderick Haskins, for counterfeiting, took place in the Municipal Court, and as Deputy Chief Ham was looking over the papers connected with the case, he noticed that the stories of all the complainants agreed in stating that when Haskins passed the bad money to them, he was accompanied by a large, stout man, who acted as his friend in making his purchases. When Haskins was arrested, this second personage could not be found, and, in fact, no great effort was made to secure him, the principal bird being safely caged.

Yesterday, however, who should be sitting in the most unsuspecting manner with the prisoner but this very personage, acting partly as his legal adviser. Mr. Ham, after satisfying himself as to who the assumed legal gentleman really was, politely escorted him from the attorney's box in the Municipal, to the prisoner's box in the Police Court, in which latter tribunal he was held in $1200 to answer to a charge of passing counterfeit money. He gives his name as John Smith, but his real name is supposed to be Ranson Warner, of Troy, N. Y.—*Boston Chronicle.*

A NOVEL FIRE DEPARTMENT.—It has already been mentioned that a contract for the organization and maintenance of a fire department in New Orleans, has been taken by the Firemen's Charitable Association of that city, for the sum of $70,000 per annum. The rules and regulations have been finally approved of by the City Council. The contract is to be executed by a board of commissioners, to be elected annually. A board of delegates will elect a chief and other officers of the department, who shall receive salaries; the number of men to be attached to the steam fire engine and hose companies is specified, and all other companies willing to assist the Association in the contract, shall retain their organization, subject to the control of the chief engineer. In default of performing the duties prescribed, they are subject to penalties. Every company shall be entitled to an appropriation of $1200 a year, and all shall abide by the decision of the chief engineer and board of commissioners.

HARD FOR THE BIRDS.—The Woonsocket (R. I.) Patriot says that the late cold weather has been very destructive to the birds. Great numbers of quails, partridges and other birds have been found dead in the woods. Many of the poor things were probably starved to death.

LOCAL.

BURGLARY.—The grocery store of Mr Major Hooper in Water street was entered on Tuesday night, and a sum of money, together with various articles of provisions such as flour, pork, &c., taken. The burglar made his entrance by sawing off the sash in the front door, which was unprotected by shutters, and removing four squares of glass. After collecting such articles as he or they wished, the lower door on Hale & Rollins's wharf was opened, and the goods carried out that way. From this circumstance, it would appear that the goods were carried away in a boat. It will be seen by an advertisement that a reward of fifty dollars is offered for the conviction of the thieves.

☞ The Panorama of the Russian War was unrolled for the first time in this city, last evening, at the Temple, in the presence of a large audience.

The panorama is of uncommon interest, it exhibits scenes of recent occurrence, shows places now or lately the seat of warfare, and paints them distinct and lifelike.

The conductor of the exhibition has a good strong voice, and describes and explains the passing picture with distinctness and propriety.

LADIES' LEVEE.—The Levee held at Jefferson Hall on Wednesday evening, in aid of the Howard Benevolent Society, was completely successful. The favorable weather, and the confidence of the public in the Society to be aided, together combined to fill the Hall and open the pockets of the company, who thus at once afforded enjoyment to themselves, and aid to the needy. The Hall will be open this afternoon for children; admission 10 cents.

☞ Benjamin F. Chandler, Esq., who has for several years past been stationed at this Navy Yard, as Civil Engineer, has been ordered to the Navy Yard at Norfolk, Va.

☞ The new light vessel, recently built at this naval station, for Nantucket South Shoal, was lighted up for the first time last evening. She presents two fixed white lights. She is to be towed to her station, we understand, tomorrow or next day.

PHILADELPHIA, 22d.—Advices from Port au Prince of Jan. 1st, confirm the defeat of the Haytiens by the Dominicans. Faustin had escaped from the field, and a reward of 10,000 doubloons was offered for his head. There is an intense feeling against him, and if caught he would be shot by his own people.

TUESDAY, Jan, 22.

HOUSE.—Mr Boyce offered a resolution to the effect, that, in view of the threatening aspect of our relations with England, indicating the advent of startling events, it behooved the conservative elements of the House to unite at once for the election of a Speaker. The following is Mr Boyce's resolution :—

Whereas our relations with Great Britian are of the most threatening aspect, indicating that we may be upon the eve of the most startling events; and whereas it is the most imperative duty of the House, at this juncture of imminent peril, not to abdicate its great mission, but to fulfil it by organization, if possible upon such a basis as will give peace to our distracted country, and enable it to present an undivided front to the common enemy. Therefore, resolved, that the conservative elements of this House unite in a sincere effort to elect a Speaker, who shall represent the great idea of peace for ourselves and the sword for the stranger.

Mr Stephens hoped that the gentleman would be permitted to state facts upon which he made the announcement that we are on the eve of a war. If it was so, he knew nothing about it.

Objections were made to any explanation.

On motion of Mr Morgan, the resolution was tabled.

Mr McMullen made an ineffectual effort to rescind the resolution prohibiting debate.

Mr Tyson offered a resolution that the candidate for Speaker who shall at any time hereafter receive the highest number of votes from a quorum of members, though less than a majority of votes, be declared elected Speaker. Tabled.

The House then voted; Banks, 91; Fuller, 29; Richardson, 67 ; Campbell, 5 ; scattering three.

Two more votes were taken, resulting the same. Adjourned.

WEDNESDAY, Jan. 23.

HOUSE.—Mr Richardson, this morning, said he was sincerely desirous of an organization. It had been intimated that there would be an election should he and other candidates retire ; his position of a candidate was not of his own seeking, and he was anxious to recede to relieve the embarassment. He would retire today if possible, or tomorrow at furthest.

A resolution was then adopted providing that the daily sessions be opened with prayer.

The House then voted : Banks 90, Richardson 65, Fuller 30, Campbell 5, scattering 4 ; necessary for a choice 98.

FOUR DAYS LATER FROM EUROPE.

ARRIVAL OF THE AFRICA.

NEW YORK, Jan. 23.

The steamship Africa, from Liverpool the 9th inst., arrived this morning. Her advices contain nothing new of importance. The Peace question remained unchanged, and later accounts are merely an extension of the Peace rumors brought by the previous steamer.

The Africa brings 50 passengers.

Russia's answer to the last proposition can not arrive before the 10th, and will probably be some days later, and it is expected will contain neither absolute assent or refusal, but will make counter proposals to be settled by renewed conferences. The feeling in England continues warlike, and in France is again becoming so. Russia continues incessant preparations for war.

Nothing important from the Crimea. The French blew up one of the Sebastopol docks on the 22d. Affairs in Asia remain unchanged. Intelligence from Great Britain unimportant.

The grand council of Allied Generals is now in session in Paris.

The proposed council on the Danish Sound Dues is postponed indefinitely.

Rumors are revived of Naples joining the Alliance.

Sweden is making active warlike preparations.

ITALY.—Great excitement exists at Rome by a report that Mexico had suppressed its legation in Rome, and had withdrawn its minister. The archives of the office are already packed up.

Steamer Baltic arrived at Liverpool on the morning of the 8th.

Wheat in good demand, 2d dearer. Flour—Better demand ; 6d a 9d dearer. Holders of Corn demand an advance, but not acceded to by buyers at 42s.

ACCIDENTS FROM AVALANCHES IN BOSTON.—On Saturday morning a large piece of ice fell from the eaves of a building nearly opposite the Boston Theatre, and striking a gentleman on the head, knocked him down, nearly senseless. In Congress street, a horse attached to a sleigh, which had been left by the driver, was frightened at an avalanche of snow, and started off. He had not gone far before he fell into a cradle hole in such a manner as to break one of his legs, making it necessary to kill him. The horse was valued at over $300. At Lewis' wharf, a mass of ice and snow fell from a roof, striking and killing a horse attached to a sleigh.

SUICIDE.—Mr George Gilbert committed suicide on Saturday afternoon, by hanging himself in the house where he boarded. Mr Gilbert had resided in this city for several years. During the past few days he had manifested an unusual depression of spirits. A short time since he deposited $1600 in the Savings Institution in this city, $1000 in the name of his mother, and $600 for his sister. Mr Gilbert was 36 years of age. He was a native of Woodstock, Vt., where his family now reside.—*New Bedford paper.*

BISHOP HAMLINE.—It was reported recently that charges of seduction had been made against Bishop Hamline of Cincinnati. The Western Christian Witness contradicts this statement, and says no such charges have been preferred. L. D. Harlan, a member of the Cincinnati conference, made statements against the Bishop's character, but they were proved false, and he himself was dismissed from the Methodist Episcopal Church and ministry by the nearly unanimous vote of a numerous conference.

FIRE AND LOSS OF LIFE.—The Whitby (C. W.) Reporter states that the house of Mr Richmond of Prince Albert, was recently destroyed by fire, and a daughter of Mr Richmond, and a young man named Foley, perished in the flames.

The Monthly Nautical Magazine,

Devoted exclusively to the Maritime Interests of the United States, embracing Ship Building, Commerce, Navigation and Marine Engineering.

ONE of the leading objects of the Editors will be to furnish correct data, upon which mechanics, merchants and mariners may confidently rely in finding an epitome of mechanical, commercial and nautical intelligence.

It will be the province of the Nautical Magazine to chronicle the march of nautical enterprise, and sketch the achievements of the living age; to aid research and investigation, and present the truths of unfolding science; to combine the experience of the ship-builder and navigator, and direct in harmony their united efforts to elevate the altitude of this excelling art, by diffusing from a nautical press the mechanical wonders of the ship and sea.

The work contains draughts of some of the finest vessels of the age, with other engravings, and is one of the most valuable publications of the country. Lithographs of vessels will be frequently inserted. Terms $5 per annum.

The January number, containing eight Plates, may be seen at the Bookstore of

Singer's Sewing Machines.

THESE Machines have long sustained the highest reputation in the United States.

The First Prize—A Gold Medal,

Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.

The Inventor has just added to these superior Machines an improvement whereby they can work on any kind of

FAMILY SEWING,

From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine professes.

They will also Bar and close all kinds of Kid Boots and Shoes, and stitch the finest Gaiter Boots in every part without a skip—making them the most desirable for girls to use at home, or for any who wish to do more than one kind of work.

These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.

They run without noise, with ease to the Operator, and at double the ordinary speed, so that

Twice as much Work can be done in a Day.

The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.

They are simple, and cost scarcely anything to keep them in repair; and can be operated by a child twelve years old.

Old Sewing Machines of any patent taken in part pay for new Machines.

These Machines may be had at Manufacturers' prices, of

THOMAS S. NOWELL,

Local Agent for New Hampshire, at his Shoe Manufactory, McMorrow's street, Portsmouth, where they may be seen in operation. d29

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington.

R. H. EDDY,

No. 76 State st. oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenties paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents, besides his extensive library of English and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**

Solicitor of Patents.

Testimonials.

"During the time I executed the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

G. W. STONE'S

LIQUID CATHARTIC,

—AND—

Family Physic.

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe and agreeable Physic ever offered to the public.

THE necessity of such a Medicine has long been felt both by the heads of families and Physicians. Its advantages over cathartics given in the form of Pills or Powders, must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, regulates the action of the Liver, frees the Stomach from Bile, invigoates the whole Nervous System, and removes the cause of all local pains such as

RHEUMATISM, NEURALGIA, TIC DOLOREUX, GOUT, PAIN IN THE HEAD, SIDE, STOMACH, &c.

It may also be relied upon in all diseases of the Bowels; *Dysentery, Diarrhea and Cholera Morbus* yield at once to its magic influence. Again we repeat, TRY IT!—It needs no other recommendation. No family will be without it after they have properly tested its merits. The reader, if you have tried other remedies, without success, despair not—relief is now at hand. Are you suffering with Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness?—three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1.00.

OFFICE OF THE MARYLAND CONSOLIDATED LOTTERIES, Baltimore, Maryland, 20th June, 1855.

CAUTION.—LOTTERY FRAUDS.

THE Commissioner of the Maryland State Lotteries has deemed it his duty to caution the Public against the numerous Swindlers who circulate by mail and otherwise, fraudulent Lottery schemes, and pretend to be agents for the sale of tickets in Lotteries which are wholly fictitious.

The only legal Lotteries in Maryland are those drawn daily under the superintendence of the Commissioner elected by the people of the State under the new Constitution to examine and approve the schemes and attend to the drawings.

All the tickets in the Lotteries authorized and certificates of packages of tickets have the lithographed signature F. X. BRENAN, General Agent for the Contractor. Office of the Maryland Consolidated Lotteries, Baltimore, Md. All others are fraudulent. For full information on the subject of these frauds, address F. X BRENAN,

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and it has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by W. Gibson, MD, Prof. of Surgery, Pa. University. Valentine Mott, MD, Prof. Surgery, N. Y. University. W. P. Dewees, MD, Prof. of Mid., Pa. University. N. Chapman, MD, Prof. of Physic, Pa. University. I. Parke, MD, Pres. College Physicians, Phila. Dr. Del Valle, Prof. of Medicine, Havana. Jose Nouvreo de Lima, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Parsons, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And also, the wonderful cures effected by Swaim's Panacea, for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three ball pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, Philadelphia; in the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable family Medicine, being a highly approved remedy for all diseases arising from debility or the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to procure the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person formerly a *nonesuchal* similar name, well calculated to deceive.

MORNING CHRONICLE.

BY MILLER & GRAY. PORTSMOUTH, N. H., FRIDAY, JANUARY 25, 1856. VOLUME 7. NO. 151.

THE DAILY MORNING CHRONICLE
is published by
FRANK W. MILLER & SAMUEL GRAY,
At No. 4 Exchange Buildings,
Pleasant Street.....PORTSMOUTH, N. H.
TERMS $4 a year, or $3 if paid strictly *in advance.*

The Weekly Chronicle,
A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning.
TERMS $1 a year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

ADVERTISING.
For a Square (sixteen lines nonpareil) or less, one insertion 50 cts., three insertions $1, and liberal terms for continuance.
Yearly, quarterly or monthly advertisers liberally accommodated.
Unless otherwise ordered, all advertisements inserted in the Daily, also receive two or three insertions in the Weekly Chronicle, without extra charge.
Both papers having large circulation in Portsmouth, Kittery, New Castle, Greenland, Epping; on the Eastern and the Portsmouth & Concord Railroads, &c., renders the Chronicle an excellent advertising medium.
☞ Obituary Communications charged as advertisements. Notices of Funerals, 25 cts. each. Advertisements of articles lost, 25 cents if not found, 50 cts. if found.

JOB AND CARD PRINTING promptly executed.

A petition has been introduced into the New York Senate, from Mrs. Mary R. Pell, praying for a divorce from her husband.—Early in life she married a young gentleman every way suited to her. In a few years, too close application to business on his part, produced insanity, and for twenty-three years he has been an inmate of the Insane Asylum.—From the income bequeathed her by her father she has set apart $10,000 to provide for his maintenance, but being advised that property which she may acquire cannot be sold without her husband's consent, which, of course, can never be obtained, she has reluctantly petitioned for a divorce, in obedience to the advice of her friends.

INCREASE OF CRIME IN NEW YORK.—In consequence of the increasing frequency of burglaries, deadly assaults and brutal fights during the night in New York city, Mayor Wood has issued a proclamation, intimating that the police are remiss in their duties, and directing the captains of police to promptly report all such occurrences, together with the names of the officers on whose beats they occur, in order that the department may be purged of such policemen as neglect their duties.

The Executive Committee of Kansas have reported that the constitution has been adopted by a vote of the people, and that the "same is to be the constitution of the State of Kansas," also that a majority of votes were given for a general banking law, and for the *exclusion* of free negroes from the state. They have appointed a delegation of six men, of which Col. Lane is the head, to visit the States, to plead the cause of Kansas, and to lay their constitution before congress. The delegates will speak in Lowell, Salem, Worcester, Springfield and Boston.

A PERILOUS POSITION.—Friday afternoon, a man who was employed in shovelling snow from the roof of a store in Tremont Row, Boston, fell over the eaves, head downwards; but fortunately a rope which was tied to his body prevented his falling to the sidewalk. He remained in his very awkward and helpless position several minutes before he could be relieved. The eyes and attention of numerous citizens were attracted to the man while he remained suspended from the eaves. A similar case also occurred in Somerset street.

WOMAN BURNED TO DEATH.—A woman named Mills, who resided in Essex street, Boston, was burnt to death Friday evening, while she was lying upon a bed intoxicated, as supposed. A coal from the stove, it was thought, communicated with some matches near the bed, setting it on fire, and burning her with it. She was found by the neighbors, who were attracted by the fire, but was quite dead when found.

The New York Tribune says that William Russell, the very brilliant Crimean correspondent of the London Times, has been outrageously mobbed and driven from the Crimea by the soldiers, because he wrote some homely truths concerning the debaucheries and dissipations of the army.

FROZEN TO DEATH.—The Boston Herald states that on Sunday morning the body of a man named Thomas McKeon was found on the road in West Dedham. He was foreman in the malleable iron works of R. H. Draper & Co., and was much respected. He leaves a wife and child.

FRIDAY, JANUARY 25, 1856.

TRIAL BY JURY.

The sanctity of this right is invaded in Massachusetts. The present legislature has before it the following foolish bill.

An act in addition to an act concerning the duties and rights of Jurors:—

Jurors shall not have the power of judging or deciding the question of the constitutionality of any law involved in the case on trial, in making up their verdicts, but they are to consider the law as constitutional until it is decided otherwise by the Supreme Judicial Court of this Commonwealth.

We know it may be said—indeed it has been said, that some juries, taking advantage of last year's law, have rendered unfavorable and unjust verdicts in liquor cases. Very likely they have: but what then? Shall we remedy the evil by *destroying* the trial by jury?

We say No! And where is the freeman that says Yes? The Newburyport Herald says No: in the following emphatic commentary upon the bill above quoted.

This virtually renders the Judges of the Supreme Court, and not the Jurors, the depositories of our rights and our safety. It is exactly the reverse of what it should be; for all history proves that the Judges have been the most disregardful of law and justice, where the life or liberty of the people have been at stake—while there is not the first instance on record of a Jury convicting an innocent person in disregard of the law laid down by the court. It is possible that the *guilty* might sometimes *escape* by a Jury's resisting the instructions of a court; but *never* would an *innocent person* be condemned by that means. On the other hand, Judge-law has a hundred times deprived of life and liberty, where Juries have been weak enough to listen thereto. It was Judge-law, through so good a man as Sir Matthew Hale, that hung witches in England; and it didn't stop till Juries resisted it. It was Judge-law that hung nineteen women for a like offence in Massachusetts; and it didn't stop here till the Juries refused to convict; and thereupon Judge Stoughton rose on the bench and exclaimed,—"we were in a fair way to have rid the land of these emissaries of the devil—(the jails were full of them)—but now the lord have mercy on us." Old Jeffries wanted nothing better than to declare the law—"The point of law you are to take from us!" said he, on the trial of Sidney—but the points of law are full as safe in the jury boxes as on the bench; and it is better that the statute should stand as it is.

We maintain that there is *no trial by jury* at all, if the jury are to render only just such a verdict as the bench rules they shall—and freemen, who deserve the name, have always contended for this principle. The Herald says again:

The power to judge of the law is part and parcel of the jury institution, and inseparable from it; and it is a mutilation of that great palladium of the people's rights, an infringement of their liberties, and a breaking down of their safeguard, to deny it to its fullest extent.

The denial of the right of the jury to free judgment upon the law as well as the fact, is in this State, of recent date. That right was declared in the statute of 1808—not given, but affirmed—and continued to be the established policy of the State down to 1836, when it was not repealed, but in the revision *left out*, because, probably, the learned men connected with that revision never dreamed that so ancient a prerogative would ever be denied in a country free enough to have jury trials. But very *shortly* after, the judges and lawyers, while they *dared* not to *deny*, so *argued away* the right as to confine jurors to finding verdicts upon the simple facts, taking the law to mean just what they said it did. Now this is not the ancient trial by jury, originally forced from King John, and afterwards re-enacted by the people as often as it was violated by his successors, till it was made treason in the King to attempt its infringement—the ancient "judgment of his peers," which included the whole verdict of a jury, upon the law as well as the fact.

The doctrine that the jury are bound to take the law from the court, was first declared, we believe, by Lord Mansfield in 1784, in a libel case; but the English Parliament in 1792 voted it a judicial usurpation, declaring that juries might determine the law and the fact, as (they added) *in all other criminal cases*.—What has been the power of juries in England, has been in the United States, the institution itself descending from our ancestors in all its fullness. In the Supreme Court of the United States, in 1804, Chief Justice Jay declared these words—"the jury have the right to take upon themselves to judge of both law and fact, and to determine the law as well as the fact in controversy." In Massachusetts, till a very late date, this has been the general understanding, and whatever statutes legislatures may pass, no intelligent juror will be affected thereby; he will throw himself back upon his original rights, as they have been acknowledged by such Chief Justices, as Parsons, Parker, and Shaw; and if they do so, who has the power to punish, and who will dare to touch a hair of their heads, therefor?

ODD ACCIDENT.—We learn from the Newburyport Herald, that the 5 o'clock freight train from Boston, on the Eastern railroad, on Tuesday evening, met with a serious accident causing much damage. They had upon a platform car a large chain cable, for a ship in this city, one end of which fell off, when they were between Hamilton and Ipswich, which broke the wheels of the cars following, and threw half a dozen cars down an embankment, smashing them to pieces.

During the present session of the Alabama Legislature there have been about one hundred cases of divorces granted.

THE SPEAKERSHIP.

Washington despatches of the 23d., leave the prospect as smoky as ever. The special dispatch to the Boston Advertiser says:

The democratic caucus to-day reiterated their platform of resolutions, and nominated Col. Orr, of South Carolina, in the hope of getting the "South American" and some of the scattering votes.

The "South Americans" have declared they will not sustain him, and will probably get Mr Haven, who voted with the Nebrascals to adjourn before two o'clock, to give the latter an opportunity to defeat the anti-administration party to-morrow.

Mr Cobb earnestly opposed the action of the democratic caucus.

It is not probable that the schemes for a coalition can be made to work.

11 P. M.—At the Republican caucus this evening, the proceedings were spirited, but harmonious. It was unanimously agreed to abide by Mr Banks.

Another dispatch, to the associated press, says;—

The Democrats went into caucus immediately after the adjournment of the House, and after two hours deliberation, (Mr Richardson having withdrawn,) Mr Orr was unanimously nominated as the democratic candidate for Speaker. A proposition to vote for the plurality rule, in case Messrs Banks and Fuller, in addition to Richardson, shall withdraw, was rejected!

The Americans, meanwhile, held a caucus in one of the committee rooms. They are willing to withdraw Fuller, but insist on an organization on broad national grounds, and will strive to effect that object.

At the Anti-Nebraska caucus, held in the evening, eighty-three members were present. After an hours harmonious debate, it was resolved to stick to Banks, and the members separated in good spirits

DIALOGUE.

Gazette.—Our neighbor of the Chronicle must be mistaken in its alleged quotation from the "N. H. Gazette," of a paragraph relating to a "stampede among the liquor dealers" of Exeter. The "N. H. Gazette" is printed at this office, and by reference to that paper, we find that no such article as the Chronicle alludes to has appeared in its columns.

Chron.—We copied the statements from the Gazette of Monday evening, using the printed copy of their Exeter correspondent's article. Our error, if it be one, is in calling the *daily* paper the *New Hampshire* Gazette. If it be an error, the world is welcome to the correction.

Gaz.—The Chronicle does us the honor to compare the statements of a correspondent with certain editorial expressions in the Gazette, thereby seeming to convey the impression of inconsistency on our part.

Chron.—We made no comparison whatever. We simply published some of the correspondent's statements of the Exeter stampede,—in the same article with extracts from the Gazette's statements about this city.

So far from being inconsistent, we thought the two statements agreed pretty well—and we think so now.

Gaz.—We presume the editor of the Chronicle knows well enough the difference between editorial and communicated articles.

Chron.—We know the difference very well,—but we presumed the Gazette's Exeter correspondent stated the facts truly. If, on the contrary, he wrote lies, and the Gazette will say so, we will publish the contradiction.

Gaz.—Now we would enquire of the Chronicle, what has produced the diminution of the liquor business in this city, which he asserts has taken place.

Chron.—We know of no other cause than the direct and indirect effect of the new law,—with what effort of a moral kind the friends of temperance have put forth.

Gaz.—The Chronicle admits that the traffic lost some of its supposed respectability by respectable men leaving it.

Chron.—We did not say so: we said "the new law seems to have taken away much of its supposed respectability."

Gaz.—And yet contends that there is a considerable diminution in the worst features of the business.

Chron.—Not a word have we said about *worst features:* the Gazette says that. We said "We don't think it makes much odds who sells the intoxicating drinks; if they are sold and drank, they will do their mischief."

Gaz.—Query. If the worst men only sell liquor, who are their customers?

Chron.—We said nothing about the *worst* men, or worst features: we only confirmed the Gazette's supposition, that those, if any, of our traders, "who have abandoned the traffic—have been the most respectable class of dealers." This is true; and we say it with all due respect to those worthy gentlemen who still remain in it for the promotion of temperance,—to those other gentlemen who still drink either to show their independence or for any other reason,—and particularly to those who defend the groggery, and oppose every temperance effort, for the sake of a little pelf or a little power.

☞ The trial of Coburn and Dalton, for Manslaughter, commenced in the Municipal Court, Boston, on Thursday. The testimony of course, is much the same as before published.

☞ The Boston Transcript states that A. J. Tirrell and Benj. Watson were found guilty by the jury, of robbing John S. Wattles of $75, by three card monte.

LOCAL.

BOARD OF ALDERMEN,—Thursday evening, Jan. 24.—Hon. Richard Jenness asked the use of Jefferson Hall on the 4th and 10th of March next—granted.

Report on Mr. Larrabee's Hose, 250 feet, was accepted and pronounced of the first order as to leather and workmanship.

Several bills presented for payment and approved.

LAUNCH.—On Saturday next, between 1 and 2 o'clock P. M., should the weather be favorable, the beautiful ship Witch of the Wave, of 1100 tons barthen, will be launched from the yard of Messrs Geo. Raynes & Son. She is owned by Messrs Titcomb & Coffin of Newburyport. This ship is of the same name as another built at the same yard, which has been sold to a house in Amsterdam.

☞ On Thursday forenoon, Richard Sides was fined $5 and costs, for an assault and battery on John R. Oxford; and also ordered to give bonds in the sum of $30 to keep the peace.

☞ The Exhibition of the Russian War will be open again this evening, and also on Saturday afternoon for children, which will positively be the last chance to see this interesting painting in this city.

The Democrats comprising the Nominating Committees of the several Wards, met at the Piscataqua House, Wednesday evening. A. Jenkins, Esq. was chosen President, and Edward S. Wendell, Esq. Secretary. The following gentlemen were chosen a committee of correspondence: Richard Jenness, Albert R. Hatch, Edward S. Wendell and T. F. Rowe. The meeting was largely attended, and the utmost harmony prevailed.—*Gazette.*

MASSACHUSETTS MUSICAL JOURNAL.—This is Prof. B. F. Baker's paper. It is published in Boston, twice a month, at $1 per year; and to all who take any interest in music—especially those who have had the pleasure and advantage of personal and professional acquaintance with the publisher—is well worthy attention. The original and valuable ideas of Prof. Baker concerning music, are herein set forth in attractive shape; and each number contains new music, besides a considerable amount of miscellaneous reading. Mr Pearson will supply subscribers.

PATENTS AND PATENTEES.—We have long lamented the difficulties attendant upon procuring of patents, and the inability of those who, in behalf of inventors, make the necessary documents, drawings and specifications.—The lack of mechanical information, the carelessness of forming claims and setting forth its advantages, has ruined mang a valuable patent; hence inventors should be peculiarly careful as to whom they employ in a position where all their interests should be fortified.—The caveat and its accompanying papers cannot be too carefully prepared, and only care and experience can properly draw and fully set forth these original entries as it were, which are the corner stones of all patents.

We have had some expensive experience in the stupidity of untutored patent agents, and appeal to protracted patent suits to sustain us when we say that one error in the preliminary steps is fatal to all subsequent proceedings. In view of which facts we recommend to our friends Mr. R. H. Eddy, of No. 76 State street, one of the most experienced and thorough Patent Solicitor in our city. His long experience, his constant application and zeal are too well known to require comment. He makes his employers' interest his own, and may be most implicitly relied upon.

And it may be well to say he has reduced his prices, so that he works cheaper than any of his competitors, and at any price the efficient man is the cheapest in the world. His references are a host of the greatest inventors, the best mechanics and ablest men in our midst, and he may well be proud of such men as those who speak in his praise.—*Boston Intelligencer*

GRAND PIANO FORTE.—We have had the pleasure of examining and listening to the execution of a splendid new grand piano forte, which has just been purchased for the new Bay State Hotel, in Worcester. It is from the very extensive manufactory of Messrs. Hallett, Davis & Co., in Boston, and is in every respect a most exqnisite piece of workmanship of its kind, tasteful in its design, and very perfect in its finish. But the great excellence of the instrument consists in its fine musical tone and great power, in these respects unquestionably excelling any piano ever brought into Worcester. Messrs. Hallett, Davis & Co., are now among the most extensive manufacturers of pianos in America, and their Grand Pianos are unrivalled.—Their common pianos, also, are first rate instruments, and command an extensive sale where their qualities are known.—*Worcester Spy, Jan. 9*

A REMEDY FOR CONSUMPTION.—*Dr. Rogers' Syrup of Liverwort, Tar and Canchalagua* has been tested by scientific men of unquestionable authority, and proved to combine the most valuable properties. Being free from *Opium*, no injury is done to the most delicate constitutions. A few doses will satisfy the most skeptical of the superior efficacy of this medicine. It can be had of any Druggist.

IMPORTANT ARRESTS.—Wm. Conway alias Connelly alias Congrove alias Buffalo Hill with his accomplice, Margaret M Duval, alias Congrove, was arrested in New York on Tuesday, and committed to jail to await a requisition from Boston on charged of having robbed Mr. Wm. F. Johnson of $150 last September.

At Hamilton, Mass., on Tuesday evening, the wife of Rev. Isaac Woodbury, pastor of the Baptist Church in Wenham, was thrown from a sleigh and had her leg broken.

MARRIED

In Newburyport, Mr William Bell to Miss Jane Pentland.

In Lowell, Mr George N. Bird of West Amesbury, to Miss Emma H. Ward of Roxbury.

DIED,

Mrs Nancy L. Young, formerly of Raymond, N. H., wife of Samuel M. Young, died at Nottingham, N. H. on Sunday evening, Jan. 13, aged 26 years, 6 months, 23 days. In the death of sister Young was seen the triumph of grace over nature. Her disease, consumption, painful and lingering, was borne with great fortitude. About five weeks before her death she received a fresh and clear conviction of her acceptance with her God—which she had pattially lost since her conversion thirteen years before. She could then with cheerfulness resign a kind husband, a beloved son, a tender mother, and affectionate brothers and sisters; and arrangements for her burial were made by her directions, as if doing her last work. Her last feeble utterances were, "Lord Jesus, come quickly. Glory!" May the bereaved husband find consolation in the thought that his loss is her infinite gain. S. P. H.

In Wolfborough, Mrs Elizabeth Orne, daughter of the late Mr Jabez Lane, of Stratham, aged 62 years.

In Nottingham, Mrs Mary Ann Welsh, aged 44.

3 DAYS LATER FROM EUROPE.

ARRIVAL OF THE BALTIC.

NEW YORK, Jan. 24.

The Collins steamship Baltic, from Liverpool 12th inst., has arrived.

The news is briefly summed up. Expectation is on tiptoe to learn the issue of the peace propositions m de to Russia. Rumors of all sorts are flying about, but the truth is nothing can be known for some time to come, the term of Russia's decision having been extended to Jan. 18. Nevertheless, correspondents from Berlin and Vienna report advices already in those capitals intimating that the Czar will make no further concessions.

On the other hand it is certain that formal conferences are in session at St. Petersburg, discussing peace proposals, attended by Nesselrode, Esterhazy, Seebach and Sommer.

The Independance Belgique publishes the text of the allied proposals. The general impression is that Russia will neither accept nor reject them, but will send Count Stackelburg to Vienna with counter proposals.

The latest rumors speak more favorably of peace prospects.

Denmark announces her continued neutrality, and that she has no connection with the Swedish sllies.

Nothing from the Crimea. Omar Pasha remains at Redoubt Kali, shut up by winter and the Russians.

The Emperor Napoleon again threatens to go personally to the war.

Richard Cobden has published a new peace pamphlet.

Liverpool, Jan. 11.—Cotton has been extremely dull, with a decline of 1-4c on middling and better qualities, and 1-8c on lower. Breadstuffs active on a slight advance on Tuesday's prices. Western Canal Flour 41 a 42s; Ohio 43 a 44s; Southern 42 a 43s; White Wheat 11s 9d; red do 10 a 10s 3d. White Corn 48c; yellow do 42s 6d; mixed 45s.

ST. PETERSBURG, Jan. 3.—It has transpired that Russian tactics for the approaching campaign has undergone important modifications. The orders sent from headquarters seem to indicate an intention to abandon the Crimea. A part of the troops having been ordered to reinforce Mouravieff, and others to join the grand army of the centre.

THE POWER OF LOVE.—The Toledo Blade says that a woman who had lain in jail for several weeks on a charge of larceny, obtained her liberty the other day by prevailing on the man from whom she stole the property to marry her. The husband declined to prosecute his wife, and of course could not be made to testify against her, and she was set at liberty.

CAUSE OF THE COLD SNAP.—An old gentleman in one of the stage sleighs, the other morning, audibly wondered what causes the uncommon severity of the weather. "Why," grumbled a muffled personage near to him, "When Dr Kane left the north pole, he forgot to shut the back door after him."

President Comonfort has relieved the press of Mexico of some of the restraints placed upon it by Santa Anna, but requires that all Editors shall sign their names to the articles they write. The ascendency of the priesthood is also seen in other provisions, prohibiting all abuse of the Catholic religion.

There are in the English language 20,500 nouns, 40 pronouns, 9200 adjectives, 8000 verbs, 2600 adverbs, 69 prepositions, 19 conjunctions, 68 interjections, and 2 articles—in all above 40,000 words. According to Webster's Dictionary there are 100,000 words.

The Monthly Nautical Magazine,

Devoted exclusively to the Maritime Interests of the United States, embracing Ship Building, Commerce, Navigation and Marine Engineering.

ONE of the leading objects of the Editors will be to furnish correct data, upon which merchants, merchants and mariners may confidently rely in finding an epitome of mechanical, commercial and nautical intelligence.

It will be the province of the Nautical Magazine to chronicle the march of nautical enterprise, and sketch the achievements of the living age; to aid research and investigation, and present the truths of unfolding science; to combine the experience of the ship-builder and navigator, and direct in harmony their united efforts to elevate the altitude of this excelling art, by diffusing from a nautical press the mechanical wonders of the ship and sea.

The work contains draughts of some of the finest vessels of the age, with other engravings, and is one of the most valuable publications of the country. Lithographs of vessels will be frequently inserted. Terms $5 per annum.

The January number, containing eight Plates, may be seen at the Bookstore of

Singer's Sewing Machines.

THESE Machines have long sustained the highest reputation in the United States.

The First Prize—A Gold Medal,

Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.

The Inventor has just added to these superior Machines an improvement whereby they can work on any kind of
FAMILY SEWING,
From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine professes.

They will also Bar and close all kinds of Kid Boots and Shoes, and stitch the finest Gaiter Boots in every part without a skip—making them the most desirable for girls to use at home, or for any who wish to do more than one kind of work.

These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.

They run without noise, with ease to the Operator, and at double the ordinary speed, so that
Twice as much Work can be done in a Day.

The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.

They are simple, and not scarcely anything to to keep them in repair; and can be operated by a child twelve years old.

Old Sewing Machines of any patent taken in part pay for new Machines.

These Machines may be had at Manufacturers' prices, of
THOMAS S. NOWELL,
Local Agent for New Hampshire, at his Shoe Manufactory, McDonough street, Portsmouth, where they may be seen in operation. d29

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington,

R. H. EDDY,

No. 76 State st. oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessary Models for Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success than did Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office, as Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MAGRUDER,
Commissioner of Patents.

G. W. STONE'S

LIQUID CATHARTIC,
—AND—
Family Physic,

The most important discovery ever made in Medical Science, being a combination of Barks and Roots, which forms the most powerful, safe and agreeable Physic ever offered to the public.

THE necessity of such a Medicine has long been felt both by the heads of families and Physicians. Its advantages over cathartics given in the form of Pills or Powders, must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, regulates the action of the Liver, frees the Stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local complaints, such as

RHEUMATISM, NEURALGIA, TIC DOLOREUX, GOUT, PAIN IN THE HEAD, SIDE, STOMACH, &c.

It may also be relied upon in all diseases of the Bowels, *Dysentery, Diarrhœa, Cholera Morbus* yield at once to its magic influence. Again we repeat, TRY IT!—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies without success, despair not—relief is now at hand. Are you suffering with Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness?—three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1.00.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, as I has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by W. Gibson, MD, Prof. of Surgery, Pa. University. Valentine Mott, MD, Prof. Surgery, N. Y. Univ'ty. W. P. Dewees, MD, Prof. of Mid., Pa. University. N. Chapman, MD, Prof. of Physic, Pa. University. I. Parke, MD, Pres. College Physicians, Phila. Dr. Del Valle, Prof. of Medicine, Havana. Jose Rodreuco de Lux, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Parsons, Maj Gen British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA."

and having the name JAS SWAIM stamped on the sealing wax; and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been furnished for the exclusive use of the proprietor, by Draper & Co., bank note engravers, Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing a *somewhat* similar name, well calculated to deceive.

On Manhood and its Premature Decline.

Just Published, Gratis, the 20th Thousand.

A FEW WORDS ON THE RATIONAL TREATMENT, without Medicine, of Spermatorrhœa or Local Weakness, Nocturnal Emissions, Genital and Nervous Debility, Impotency, and Impediments to Marriage generally.

BY B. DE LANEY, M. D.

The important fact that many alarming complaints, originating in the impudence and solitude of youth, may be easily removed WITHOUT MEDICINE, is, in this small tract clearly demonstrated; and the new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled to cure HIMSELF PERFECTLY, AND AT THE LEAST POSSIBLE COST, thereby avoiding all the advertised nostrums of the day.

Sent to any address, gratis, and post free in a sealed envelope by remitting (post paid) two postage stamps to Dr. B. DE LANEY, No. 17 Lispenard Street, New York City. s12 d&w6m*

JOB AND CARD PRINTING promptly executed.

RELIGIOUS.—At a Parish meeting held by the Second Presbyterian (Harris street) Church, in Newburyport, on the 24th, it was unanimously voted to invite the Rev. Heman Tinlow, late of Dunkirk, N. Y., to become their pastor. Mr T. is a young man, reported to be a very eloquent speaker and of superior talents, as he certainly ought to be to succeed such preachers as Dr. Dana and Mr. Eells. It is confidently expected that the invitation will be accepted. The Herald says:

The religious interest of which we have before spoken, continues and increases in several societies. At the Methodist church, in Liberty street, on Tuesday evening, twenty five persons went forward for prayers; and at Elder Pike's in Court street, the same evening eleven persons asked for the prayers of that church, and four young men are said to have been converted.

BRAVE MEN.— A letter from Columbia N. C., dated Jan. 16th, in giving an account of the wreck of schooner Victoria, Long, from St. Jago de Cuba for Philadelphia; says:

The captain, passengers and crew are indebted to the negroes on the beach for their lives, who, on ascertaining of the disaster, swam to the wreck, launched a raft, and with all on board of it, towed it ashore.

They saved nothing but a part of their clothing, after their exposure in the rigging for 24 hours. The heroism and gallantry displayed by the colored mariners have an universal claim for noble daring and philanthropy, on the community at large, or such noble conduct.

And these noble men, are they inferior?—Can they take care of themselves? Are three millions of their race worth a thought?

PENNSYLVANIA LEGISLATURE. — *Harrisburgh, Jan.* 23.—In the House to-day, the bill relating to the Liquor Law was ordered to a second reading by the vote of 70 to 32.

The House adopted a resolution tendering the thanks of the Legislature to Dr. Kane for his Arctic discoveries.

Dr. Kane has richly merited the vote of thanks.

The liquor law of Pennsylvania, which they are about repealing, is in some important respects like the one which Gov. Wells of Maine has just recommended in that State

All this only shows that the tone of morals is somewhat higher in Maine than in Pennsylvania.

DISMISSED.—It is said that Queen Victoria would not see her maid of honor, Miss Murray, upon her return from the United States, and signified to her that if she published a defence of Slavery, she must resign her place. Miss Murray has done so, and is no longer a member of the royal household.

Pshaw! what a silly revenge is this. He who advocates slavery, should be himself a slave—that's all.

THE JAPAN POTATO is among the most valuable vegetables that has been introduced into this country for some years, and is expected by many to entirely supersede the common potato. It would be singular indeed, and yet only one of many like Providences, if just as the potato, one of the most important crops in the civilized world, was giving out, deteriorating in quality, decreasing in productiveness, and uncertain from disease, a new and more valuable esculent was thrust in our way to take its place; and such appears now to be the case. This species of vegetable, new to us, has been common in China and Japan for centuries, and has been one of the staple articles of produce for the support of the hundreds of millions of their population. This is no slight recommendation to it, when we consider how careful have been those nations of domestic economy and an appropriation of their somewhat scanty soil to the highest agricultural uses. It was sent to Europe by the French Consul at Shanghai, in 1850; but was not much cultivated till 1853, nor brought to this country till 1854; but wherever it has been tried it is highly spoken of and expected to come into general use.

It is reported to be adapted to a cold climate, and does not injure from exposure to the frost when left in the ground; nor will it sprout in warm weather, and thus injure when out of the earth. The root is from fifteen to twenty-five inches long, two inches in diameter, tapering from the head, and in appearance somewhat like the sweet potato. The tubers have grown in France to the weight of two to two and a half pounds. It is planted in April and may be dug in October; but if left in the ground for two or three years the roots enlarge in size and improve in quality, so in eighteen months as to be three times as large and more valuable, than when dug the first season. The French experiments have given 36,000 pounds to the acre in six months, and 120,000 in eighteen months. It is said to cook in half the time the common potato will, and to produce a pure, fine, white flour, equal in appearance and superior in nutriment to the wheat flour of any country. If it is half as good as its admirers report, it is worthy the earliest attention of all our farmers.

AN ENDORSEMENT WITH A PROVISO.—The Democratic State Convention of Georgia, on the 16th inst., passed resolutions in accordance with the anti-Nebraska platform, repeated the Georgia disunion resolutions of November, glorified President Pierce, and said that the Convention had a decided preference for Pierce, but the 9th resolution of the November meeting forbade them to express it; to which, after a long debate, there was added:

While this Convention does not wish to embarrass that of Cincinnati, it cannot refrain from expressions of gratitude to Gen. Pierce for his late bold positions. The state of Georgia would hail his renomination with unbounded admiration and entire confidence—*provided he stands pledged to carry out our platform in his administration and appointments.*

It is a question whether President Pierce will consider this a cut or a compliment.—*Boston Courier.*

AN INSANE NAVIGATOR.—On Friday last, in Boston, a German whose name is not known, having purchased a small dory, fitted out his craft with oars and sails, and provisions sufficient only for a fortnight's subsistence. He had covered the boat over with canvass, except one spot which he had left open in order to admit his person. It was his intention to put to sea in a day or two in his boat; hoping, as he expressed himself to Dr. Stedman, who was called to examine him, to reach Europe in twenty-two days. The Dr. having no faith in the capacity of his marine subject to reach his destined port, gave him a certificate of insanity, and he has been properly cared for.—*Boston Chronicle.*

Morning Chronicle.

SATURDAY, JANUARY 26, 1856.

WASHINGTON MATTERS.

The Boston Advertiser's special correspondent telegraphs Jan. 24:

There are no new movements reliably indicated. The President's Message on Kansas is exciting no apprehensions, and will not frighten the supporters of Mr Banks from their fealty, as was hoped by his opponents.

The President has ample means already at command to preserve order in Kansas. If he deems the case critical, he will prove it by effecting the organization of the House.

The despatch of the same date, for the Associated press, says:—

No one outside of the President's Cabinet knew of his intention to communicate a special message—hence it took both his political friends and foes by surprise. Considering the summary manner in which the House refused to read his annual message, and the large majority in favor of reading the Kansas message, it is regarded by the friends of the administration as an important event, and causes them jubilant emotions.

The official despatches received by the Africa do not change our relations with England from the position they were in at previous advices.

HEAR BOTH SIDES.

The Boston Post, on the side of the Administration at Washington, had, on Wednesday, an article, which, after showing that to keep the House disorganized only suppresses the popular branch of the government, and does "no harm to the government or the Union," goes on thus:

"Better for the country and the Union no Speaker than such a Speaker, chosen by yielding to a faction who, if they achieve this thing by their pertinacity and 'back bone,' as they call it, will only go on demanding more and more until they dissever the Union—they and the faction who prefer to rule in ruin and anarchy than to serve in the Union under the Constitution.

Suppose the Democrats and national men in the House should surrender and yield the House up to a Speaker so fanatical in his professed negro philanthropy that he proclaims his willingness to await the issue of the absorption of the white and black races into one, before he will admit the superiority of the Saxon over the African blood!

That done, what follows? The next demand of the fanatics in the House will be the admission of Reeder and the repeal of the Kansas Nebraska bill, or the refusal of supplies. Is it not better to meet them at the first step toward disunion, than to wait for the second? If they are permitted to have a Speaker for fear that the appropriation bills will not be passed without an organization of the House, it will only impel them still more furiously to demand the repeal of the Nebraska Kansas bill or no supplies! That too must be yielded or the election of a Speaker will have resulted in nothing. Let Southern men or Northern National men yield this, and the third demand will be the exclusion of all new States permitting Slavery. There the severance must come, for to yield will be to destroy the Union Better then no Speaker, than such an Abolitionist Speaker as Mr Banks, avowing such doctrines as he has proclaimed."

The Telegraph, the organ of the Republican party in Massachusetts, on the other hand, offers the following comments on the preceding extract,—and on the article whence it is taken.

No one can mistake the plain meaning of all this. The slave power and its base creatures now in power are plotting to suppress the House of Representatives, which they cannot control. If organized, it may not be found on their side; it may question the propriety of slavery propagandism; it may denounce that border ruffianism which the President has patronized in Kansas; it may insist on making itself heard in public affairs—Therefore notice is given that it may as well be suppressed,—that "the Constitution and the Union" can get on well enough without it,—that the President regards it as a nuisance that can not be tolerated,—and that it shall not operate as a part of the government if it will not be entirely pliant to the commands of slavery.

This article in the Post goes so far as to maintain, that for practical purposes, the Senate may be regarded as what the Constitution means by "Congress," and even that the Senate "may rightfully and constitutionally originate and pass appropriation bills." Those who have carefully watched the progress of the slave power will not be surprised at these developements. It is the deadly enemy of republican institutions, and will not hesitate to undertake any unreasonable measure which promises to be successful.

☞ In Roxbury, where Mayor Sleeper presides, at the meeting of the Aldermen on Monday evening last, the Committee to whom was referred the disposition of the Liquor Agency, reported in favor of the abolition of the Agency and the discharge of the Agent. The report concludes with the following order:

Ordered further, that the Mayor be requested to appoint two suitable persons, one to be located near Eliot square, and the other near Guild's buildings, to act as agents under the provisions of the liquor act, and to receive from the city the liquors now on hand unsold, and account as required by law for the same.

FROZEN TO DEATH.—An Irishman whose name we have not learned, was frozen to death at Upton on Sunday night. He was found dead on Monday morning, upon the highway about a quarter of a mile from the centre of the village, with a bottle by his side, from the contents of which himself and four others who were in his company, had imbibed too freely the previous evening.—*Mass. Spy.*

Correspondence of the Chronicle.

PROGRESS IN FREEDOM'S CAUSE.

BOSTON, Jan. 24, 1856.

Dear Chronicle:—The Massachusetts Anti-Slavery Society commenced, this morning, a Convention in Williams Hall. It was unusually well attended. There has been a continual growing interest manifested in these meetings of the Radical Abolitionists for many years; while its only child, the Free Soil party, which should be proud of its honorable parentage, has acquired a strength which has for six weeks bid defiance to Southern slavery, in those National Legislative Halls where it has for many years held unlimited sway.

As we sat in the convention, meditating upon the occasion, our mind was carried back to 1835, when Garrison and one little negro boy printed the Liberator, in a little room in the fourth story of a building—himself mocked, despised, mobbed; and then passed to the present, when the great idea of universal liberty is dear to many a heart. Verily the "truth is mighty and will prevail." The entire history of this, like all other truly Christian movements, is fraught with momentous lessons to those who stand back, afraid to perform what they are conscious is their duty, because they must stand alone. When will men learn to speak out their honest convictions, freely and fearlessly, untrammelled by any men or class of men.

The Reports submitted to the Convention were able and interesting documents. The longest was that of Mr May, the general Agent. Short and pointed addresses were made by S. S. Foster and W. L. Garrison, at the close of which the session adjourned.

FREE SCHOOLS OPPOSED.

Several days ago we copied from the Richmond Examiner some objections against Free Schools. Now we give another chapter of the same article.

Free schools are only another name for *Government* schools; and both natural and revealed law make it the duty of the parent to educate his children, and not the duty of Government. It is as much the business of the father to instruct the mind of the child as to fill its belly; and it is no more the duty of Government to furnish free education for children than free soup, free buttermilk or free bonnyclapper—no more its duty to furnish governnesses and pedagogues, than grannies, wet nurses and baby jumpers. It is the duty of parents to support and nurture their children; and if the task is a burden to them they are apt to forego the having of children at all—which is much better than having children to be bundled off upon the cold charities of the public for nurture and instruction. It is alike their duty to educate their children in the rudiments of knowledge, and if they feel themselves unequal to the burden, in this case too they will be apt to forego the having of children. This responsibility of parents for their children is the well-spring of parental happiness, and every effort to divest them of it dries up the home affections, undermines the institution of the family, fills society with reprobate ruffians, and approximates the nature of the human species to that of the brutal and callous crocodile, which deposits its eggs upon the sand, leaves them to be hatched by the sun and the brood to be reared by the tender mercies of the elements.

Care and anxiety are the sources of affection; and as you divest parents of these for their children, you cut the tie by which God has bound together the home circle. It is the duty of the parent to nurture and instruct his children, and it is the duty of the Government to make the parent do this, as much for the parent's as the children's good. When you destroy the recollections of the child, the youth or the man, for mother and for father, upon what an awful abyss of licentiousness and crime do you not launch him? Shall the State, in the name of benevolence or any other name under heaven, with iron grasp, tear the infant from *home*, father and mother, without incurring the vengeance of outraged Nature? Whom God has joined together let no man put asunder.

A few truisms are here mixed up with the most arrant nonsense—but let nobody suppose that all the people in Virginia can swallow such a dose. The truisms, properly applied, would bear directly against the peculiar institution. Our New England readers will laugh at the nonsense.

FIRE IN BERWICK.—A barn belonging to William Whitehouse, of Berwick, was burnt on Thursday afternoon, together with its contents, viz, five tons of hay, three cows and a horse. No insurance. The fire was occasioned by two small children playing with friction matches.

☞ Godey's Lady's Book for February, 1856, from the publisher, Louis A. Godey, came per yesterday's mail.

It contains, on a fly leaf, a good account of the complimentary dinner to Mr Godey, got up by the Philadelphia publishers. Some of speakers, who knew him best, complimented his honesty, kindness, and liberality. He has kept on, more than file and twenty years, buying his paper of one man, and employing the same folders, stichers, and binders.

We add, that the book is now as good as new—perhaps better.

Plates, this month, The Night before the Wedding, Reflection, First Music, and lots of dresses, patterns and models.

Madame Jenny Lind Goldschmidt appeared at Liverpool, in the "Messiah," and had a crowded audience at tickets from 10s 6d to 21s.

COUNTY MAPS.—We have seen a large and handsome Map of Strafford County, prepared by J. Chase, Jr., and published by Smith & Coffin. We have also seen a proof of the eastern half of the Rockingham Co. Map, by the same author and publishers. So far as we have examined, we consider the work to be well done, and worthy of encouragement.

Mr Coffin, one of the publishers, will be in this city next week, for the purpose of correcting the Map of this city and vicinity, and also of receiving orders for the map.

NEW CUSTOM HOUSE.—We are glad to learn that some of our citizens, particularly some merchants, begin to think we ought to have a new building, fire-proof of course, to contain and accommodate the Custom House, Post Office, U. S. Court and Navy Agency, with their several records and documents.

We hope a petition to Congress, for this object, will be speedily prepared—and we are sure it would be generally signed.

☞ Great gawky boys who rattle with their thick boots, and noisy urchins who whistle and squeal at panoramas, concerts, or lectures, doubtless suppose they do something noble and manly in these exercises. But most of those who hear them, think otherwise, and consider the noises a nuisance. We need not say what they think of those who make the noises.

☞ The Temperance Meeting on Monday evening next, will commence at half past 7 o'clock, in the Temple. Rev. Messrs. Lamson and Patterson are expected to address the meeting.

☞ The Panorama of the Russian War will be open for the last time, this afternoon, for the accommodation of children. It has witnessed by great numbers of people since it has been on exhibition in this city.

We are requested to state that the A. S. Lectures of Mr. Foss, advertised to be at the Cameneum on Saturday and Sunday evenings next, are postponed till February—notice of the time will be given hereafter.

NEW YORK, Jan. 25.—Geo. P. Ball was arrested yesterday, charged by Alexander Morrison with having embezzled $100,000 belonging to the firm of John Gladstone & Co, of Melbourne or Sydney, Australia, according to Morrison's statement.

Ball belonged to and was the principal business man of the firm, and when it dissolved, was employed at a salary to settle up, which he did by collecting $150,000 of debts and absconding. Ball has been in this city about seven weeks—latterly at the Astor House. Coleman & Stetson have $30,000 of his in their custody.

Michael O'Beirne, of the Emigrant Banking House of Roche, O'Beirne & Co., was arrested yesterday, on various charges of swindling preferred against him by Irish emigrants, to whom he sold fraudulent Bills of Exchange on the Bank of Ireland.

FROM CALIFORNIA.—*New Orleans, Jan. 25.*—Steamship Daniel Webster arrived today from San Juan, with California dates to 5th inst.

The Star of the West sailed from San Juan for New York with $600,000.

A severe shock of an earthquake was experienced at San Francisco on the 2d inst.

Trade at San Francisco dull; breadstuffs quiet.

Nicaragua, Jan. 23.—Walker receives accessions by the arrival of every steamer, and has now quite an effective force.

☞ Mr Robert Toombs, of Georgia, delivered a lecture in favor of slavery, Thursday night, in Boston. As reported, we do not see a new argument.

He admitted that if slavery did not promote the welfare of all classes where it exists, the bond and the free, it should not stand.—The sovereignty of right is justice, sometimes called natural justice; not the folly of man, which some would substitute for the wisdom of God. He recognized a higher law. The God of justice will protect justice.

WHAT OUGHT TO BE DONE.—What we "mean seriously to say" is, that the "majority" ought to organize the House, and no longer permit their quarrels to obstruct the public business. If the majority had been with the Democrats, the organization would have been accomplished long ago.

Exactly so. And if the majority had been with any other party, the same thing would have happened. But unluckily there seems to be no majority with any body—and so the triangular contest goes on. A real ballot, especially a sealed ballot, would probably secure an election at once.

MR. BUCHANAN—DENMARK.—*New York, Jan. 24th*—The Tribune's Washington correspondent telegraphs:

Mr Buchanan writes that he will relinquish his mission on the 12th of February, whether a successor be nominated or not. He will appoint Mr Campbell, the Consul at London, to the post of Charge de Affaires.

No official answer has been received from Denmark on Mr. Marcy's proposition of the 3d of November, to pay the cost of Light Houses and Buoys, instead of the capitalization suggested from the other side, and now soon expected. The European Congress on this subject was abandoned owing to political complications.

PENNSYLVANIA LEGISLATURE.—*Harrisburg, Jan. 24.*—A resolution was offered in the House, to-day, directing the Judiciary committee to inquire if further legislation was not necessary to protect the personal liberties of citizens from the arbitrary proceedings of Judges of the United States exercising jurisdiction in this State. Rejected by 64 to 31.

A bill was then introduced to change the venue in the Kane and Williamson case from Delaware county to Philadelphia.

The State of Maryland derives an annual income of $21,000 from lottery licenses, but the Legislature has provided for the extinction of the whole system in that State, after the expiration of the term for which the present lottery grants were issued.

CONGRESS.

THURSDAY, Jan. 24.

SENATE.—Mr. Clayton of Delaware presented a communication which had been received from the President, in executive session, and from which the injunction of secrecy had been removed, transmitting a copy of a letter from Lord John Russell to Mr Crampton, dated Jan. 19, 1853, in which it is declared that the British government intend to adhere strictly to the treaty of Washington of the 19th April, 1850, and not assume any sovereignty, direct or indirect, in Central America,

Mr Clayton moved that the letter be transferred from the executive to the legislative journal and printed. He then expatiated on the usurpations of Great Britain and the tortuous diplomacy of her ministry, stigmatizing it as monstrous and disgraceful.

After some debate Mr Cass moved to postpone the further consideration of the subject until Monday next. Agreed to.

A message was received from the President of the United States stating that circumstances have occurred to disturb the course of government in Kansas, producing a condition of things which renders is incumbent on him to call the attention of Congress to it, and he urgently recommends the adoption of such measures as the exigency seems to require.—He alludes eulogistically to the principles embraced in the Kansas-Nebraska act and the system of government, and the laws passed to put it in operation, and adds that while Nebraska was successfully organized, the organization of Kansas was long delayed, was attended by serious difficulties and embarrassments, partly from local mal-administration and partly from the unjustifiable interference of the inhabitants of some states with views *foreign* to the *interests* and *rights* of the territory, (i. e. foreign and adverse to slavery.) He takes ground against Gov. Reeder and the free state men,—and recommends the enactment of a law in order that the admission of Kansas into the Union as a state may be considered in a lawful and proper manner; and further, that a special appropriation be made to defray any expenses which may become requisite in the execution of laws in the maintenance of public order in that territory.

Mr Seward differed from the President, but under the present state of our foreign affairs, he would forego any argument on that matter now. When, in the judgment of a majority of the Senate, the time shall come for action on the subject, he would endeavor to make good his opposition to the policy, the positions, and the sentiments contained in the Message of the President.

Mr Mason moved the reference of the message to the Committee on the Judiciary.

Mr Clayton thought it would be better to organize a select committee of 13.

Mr Seward suggested, that, as there were no opponents to the administration on the judiciary committee, while on that of territories there was only one, it would be but generous and fair to let the minority have a hearing; but he would not insist upon a motion for that reference.

After further debate, the message was referred to the Committee on Territories.

HOUSE.—Mr Fuller withdrew his name as a candidate for the Speakership, and expressed the hope that the House would now adopt some plan by which the present difficulties might be settled.

The resolution offered yesterday by Mr Rusk was laid on the table.

The House then voted for Speaker as follows:—Banks, 96; Orr, 68; Fuller, 12; Ricaud of Maryland (K. N.), 18; scattering, 9. Necessare to a choice 102.

While the Clerk was calling the roll for the election of a Speaker, the Doorkeeper announced a message from the President of the United States. Mr Campbell of Ohio objected to its reception. Sudden excitement sprung up all over the hall. Various gentlemen demanded to know the character of the communication. Amid the turbulence, Mr Orr's voice was heard expressing a hope that the President's Private Secretary might be permitted to state his errand. Cries, "go on with the election," "order," &c.

Mr Craige of North Carolina claimed to be heard. He said he would let the gentlemen know that he was not to be put down by their hisses.

Mr Paine of North Carolina.—In the name of God and my county, I am ashamed of these proceedings.

Mr Craige.—And I am ashamed to have a colleague who objects to the exercise of my rights.

Renewed vociferations—"order," "call the roll," &c., &c. Intense excitement prevailed.

Mr Craige, quiet being partially restored, made his point. He said they had a right to know who the messenger is, and what his business was here.

Renewed cries of "order," "order," &c.

Mr Campbell of Ohio made his point, saying nothing was in order excepting the election of a Speaker.

Mr Stephens of Georgia moved that the message be received, and demanded the previous question.

Humphrey Marshall.—I second it.

Messrs Craige and Campbell withdrew their points—the latter declaring he still maintained his objection. Mr Stephens motion was agreed to by 35 majority.

The result of the 124th ballot for Speaker was then announced, as follows;—Banks, 95; Orr, 68; Fuller, 25; Ricaud, 5; Campbell (of Ohio) 3; scattering, 5. Necessary for a choice 100.

The President's Private Secretary was then again announced with a message in writing if it was the pleasure of the House to receive it.

The reading of the message was then ordered by 22 majority. The document is the same as that sent to the Senate—it was laid on the table. Adjourned.

The Monthly Nautical Magazine,

Devoted exclusively to the Maritime Interests of the United States, embracing Ship Building, Commerce, Navigation and Marine Engineering.

ONE of the leading objects of the Editors will be to furnish correct data, upon which mechanics, merchants and mariners may confidently rely in finding an epitome of mechanical, commercial and nautical intelligence.

It will be the province of the Nautical Magazine to chronicle the march of nautical enterprise, and sketch the achievements of the living age; to aid research and investigation, and present the truths of nautical science; to combine the experience of the ship-builder and navigator, and direct in harmony their united efforts to elevate the altitude of this excelling art, by diffusing from a nautical press the mechanical wonders of the ship and sea.

The work contains draughts of some of the finest vessels of the age, with other engravings, and is one of the most valuable publications of the country. Lithographs of vessels will be frequently inserted. Terms $5 per annum.

The January number, containing eight Plates, may be seen at the Bookstore of

Singer's Sewing Machines.

THESE Machines have long sustained the highest reputation in the United States.

The First Prize—A Gold Medal,

Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.

The Inventor has just added to these superior Machines an improvement whereby they can work on any kind of
FAMILY SEWING,
From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine professes.

They will also Bar and close all kinds of Kid Boots and Shoes, and stitch the finest Gaiter Boots in every part without a skip—making them the most desirable for people to use at home, or for any who wish to do more than one kind of work.

These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.

They run without noise, with ease to the Operator, and at double the ordinary speed, so that
Twice as much Work can be done in a Day.

The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.

They are simple, and cost scarcely anything to keep them in repair; and can be operated by a child twelve years old.

Old Sewing Machines of any patent taken in part pay for new Machines.

These Machines may be had at Manufacturers' prices, of
THOMAS S. NOWELL,
Local Agent for New Hampshire, at his Shoe Manufactory, McDonough street, Portsmouth, where they may be seen in operation. d29

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with U. S. Patent Office, Washington.

R. H. EDDY,

No. 76 State st. oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*as paid back by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessary of a patent to Washington to procure a patent, and he usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**

Solicitor of Patents.

Testimonials.

"During the time I transacted the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

G. W. STONE'S

LIQUID CATHARTIC,

—AND—

Family Physic,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe and agreeable Physic ever offered to the public.

THE necessity of such a Medicine has long been felt both by the heads of families and Physicians. Its advantages over cathartics given in the form of Pills or Powders, must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual costiveness, leaving the bowels healthy and free. It expels all humors from the blood, is a certain cure for the Piles, regulates the action of the Liver, frees the Stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as

RHEUMATISM, NEURALGIA, TIC DOLOREUX, GOUT, PAIN IN THE HEAD, SIDE, STOMACH, &c.

It may also be relied upon in all diseases of the Bowels, *Dysentery, Diarrhœa and Cholera Morbus* yield at once to its magic influence. Again we repeat, TRY IT!—It needs no other recommendation. No family will be without it after they have properly tested its merits. Readers, if you have tried other remedies without success, despair not—relief is now at hand. Are you suffering with Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness?—three bottles will affect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1.00.

EGGS, BUTTER, CHEESE and BREAD for sale by LAFAYETTE LAIGHTON. jy3

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and it has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by W Gilison, MD, Prof. of Surgery, Pa. University. Valentine Mott, MD, Prof. Surgery, N. Y. Univ'ty. W. P. Dewees, MD, Prof. of Mid., Pa. University. N. Chapman, MD, Prof. of Physic, Pa. University. I. Parke, MD, Pres. College Physicians, Phila. Dr. Del Vallo, Prof. of Medicine, Havana. Jose Sanchez de Luz, Prof. of Surgery, Lisbon. G W Irving, late Minister to Spain. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Parsons, Maj Gen British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1 50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing a *somewhat* similar name, well calculated to deceive.

On Manhood and its Premature Decline.

Just Published, Gratis, the 20th Thousand.

A FEW WORDS ON THE RATIONAL TREATMENT, without Medicine, of Spermatorrhea or Local Weakness, Nocturnal Emissions, Genital and Nervous Debility, Impotency, and Impediments to Marriage generally.

BY R. DE LANEY, M. D.

The important fact that many alarming complaints, originating in the imprudence and solitude of youth, may be easily removed without Medicine, is, in this small tract clearly demonstrated; and the new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled to CURE HIMSELF CHEAPLY, AND AT THE TRIFLING COST, thereby avoiding all the advertised nostrums of the day.

Sent to any address, gratis, and post free in a sealed envelope by remitting (post paid) two postage stamps to Dr. R DE LANEY, No. 17 Lispenard Street, New York City. s12 d&w6m*

PRESENCE OF MIND.—A gentleman who reached Dayton by the Tuesday evening train over the Indiana Central and Dayton and Western Railroads, related to us a little incident of the night's trip, which showed extraordinary presence of mind on the part of the conductor, who was its hero. Both the night trains, the eastern and western, were out of time and were obliged to keep a look out for each other, but the locomotive of the train bound east was unprovided with a lantern, and hence on the part of its officers, more than ordinary precautions were necessary.—In this dilemma the conductor took his own lantern and went on ahead, the train following slowly behind. The conductor was some distance in advance, when by some accident, his lantern went out, just as his ear was struck by the noise of the western train rapidly approaching.

In this dilemma, what was to be done? The night was so dark that he would not be seen, and he was certain that he should not be able to raise his voice above the howling of the wind and the noise of the passing train so as to attract the attention of the engineer. His first resort was a club. He seized one and threw it at the locomotive, now close upon him, but the wooden missile glanced off from the iron of the engine without making a noise perceptible even to himself. The train was flashing past. Even while he drew his next breath, the lives of hundreds might be put in peril. But one thing could be done, and the thought of it occurred to him. Taking his own lantern, he hurled it at the lantern of the passing locomotive, just as it came opposite to him. Fortunately he hit it. The crashing glass and the extinginshment of the light startled the engineer. A sharp whistle was heard—the breaks were shut down—the train stopped. Everybody was safe, when, but for the throwing of that lucky lantern, scores might have been killed or wounded.—*Dayton Galette.*

The New York Evening Post understands that Horace Bushnell the distinguished Connecticut clergyman, contemplates a trip to Kansas, in company with a colony forming in New Haven, for a permanent settlement in the new territory. The Doctor will take the journey in hopes of curing a bronchial affection, from which he is a sufferer. He will probably remain in the territory until he is cured, if he finds himself benefitted by the climate.

GREAT TYPOGRAPHICAL FEAT.—The most remarkable of all performances in the way of rapid publication, has just been effected by a Philadelphia firm, Messrs. E. H. Butler & Co., in placing before the public their edition of the third and fourth volumes of Macaulay's History of England. The London edition contains 1600 octavo pages. Of this large work the types were picked up and set, the pages stereotyped and printed, and copies of the first edition were in the hands of the publishers, bound, within fifty working hours from the commencement of work.

Harrison's Columbian Ink, Black.

FOR the National Government, State Legislatures, Courts of Record, Banks, Railroads, Post Offices, Insurance Offices, Editors, Authors, Lawyers, Doctors, Clergymen, Commercial and Business men of every sort, Colleges, Academies and Schools, and that great class who sustain all, the Farmers—the sale of this Ink of the country, 64-573 bottles sold in 1854, is significant that the AMERICAN PEOPLE appreciate THE AMERICAN INK, made by HARRISON THE AMERICAN MANUFACTURER, and determine its great superiority over all foreign Inks. It is at wholesale and retail by

d10 GEO. W. TOWLE, 3 Congress Block.

Harrison's Blue Black Writing Fluid

PROGRESS in the arts has revealed a Writing Fluid which does *not*, as other Writing Fluids *do* destroy the *points* of gold pens, actively corrode steel pens, or *chemically decompose the paper* or its *coloring*. I have seen paper where every letter written with English Fluids was eaten entirely through, and a delicate blue tint changed to a dirty yellow. The best make of gold pens have been condemned for losing their points, and the best manufactures of paper returned upon the dealer, where these Fluids were extensively used. Harrison's Fluid is subject to none of these evils. It writes a beautiful blue, and soon turns a jet black, and remains permanent. HARRISON'S AMERICAN, *made* by an AMERICAN, and worthy the use of all Americans. It is wholesaled and retailed by

d10 GEO. W. TOWLE, 3 Congress Block.

Cough, Consumption, and Bronchitis

ELIXIR.

THE Proprietor would respectfully call the attention of the public to his invaluable Remedy for all Affections of the Throat and Lungs and begs of those who are undecided what to select, from the numerous medicines advertised, and recommended for such complaints, to give his ELIXER a trial. Having done so, they will no longer hesitate what to take themselves, or recommend to others. A single trial will prove to them that this is the most valuable remedy ever discovered for the various affections of the Throat and Lungs; it will immediately relieve the most violent Cough, and in a few hours completely cure the most severe Cold. As a Preventive and Cure for Consumption, it has no equal.—It is purely Vegetable, contains no poisonous ingredients, is quite agreeable to the taste, and may be given with perfect safety to the most delicate child. The numerous testimonials received almost daily from those who have been cured by it, fully justify the assertion that no family should be without this Medicine; let Mothers give it to their Children who have the Whooping Cough or Croup, and they will alleviate at once the sufferings of their little ones. Price 50 cts.

MONDAY, JANUARY 28, 1856.

VIRGINIA A MODEL STATE.

We have already published two chapters from an article in the Richmond Examiner—one of which we headed Aristocracy run mad, and the other Free Schools opposed.—Now we give the remaining Chapter, which we deem the richest of the whole.

Our Virginia fathers established the best system of government which ever the wit of men conceived; and every departure from their system has involved us in labyrinths of trouble. They handed down to us three institutions as distinct as the God-head, and each alike essential to the well-being of society. They hedged each of these institutions around with strong barriers, to prevent their mutual interference or entanglement, and in every instance in which modern "*reform*" has levelled one of these barriers, have we had deep and lasting reason to repent the vandal impiety and folly.

These institutions are:

1. The Federal Government, charged with the entire and exclusive management of national affairs; 2. The State Government, charged with the entire and exclusive control of municipal affairs: 3. The domestic or plantation government, charged with the entire and exclusive control of domestic affairs.—These three institutions—the Confederation, the State, and the Family—our fathers planted as distinct, independent, sovereign and sacred institutions. In proportion as we have restricted each within its sphere at the South have we enjoyed the blessings of peace, quiet, stability and conservatism. To the respect we have paid them at the South do we owe all those favorable conditions in our society which have distinguished our lot from that of the afflicted, beleagured and be-deviled North. To the fact that the North have not appreciated or upheld the *family* institution; but allow the *State* to parade it with Free Schools, Anti Liquor Laws, Incorporated Factories and a thousand and one "*isms*" of males and of females, for a thousand and one specious and absurd purposes—are attributable all the social and moral demoralization which have blighted as a moral Sirocco every square mile of its surface.

Terrible are the ravages and ruthless the inroads committed upon "The Family" by the improvements and empiricisms of the Northern States. Children look elsewhere than to their parents for the right of instruction, and sustain to them but the animal relation of pups to the bitch that has weaned them. The trades take off the boy to be reared by the taskmaster mechanic, or to become an apprentice to the factory and a companion to the machine. The factory entices away the girl from a genial and virtuous *home*, to become a stranger, a hireling, a sloner, and an outcast. Who can tell what the end of these things shall be? We trust the South will fortify the family with ramparts ten-fold thicker than the walls of Sebastopol.

Let our New Hampshire and Maine readers lay this beautiful advice to heart,—disband their town governments — hang the schoolmistress—burn the district schoolhouse—let the rich set up a private school in their parlors, with a private teacher for their children—and let the children of the poor grow up without knowing how to read, as they do in Virginia!

All because a little learning is a *dangerous thing*—very dangerous indeed to such Aristocrats as wish to rule over an ignorant people, but who cannot control those who have learned even a little.

Come, good people of New Hampshire, make the sacrifice! Down with your free schools—and then, our word for it, every vestige of an *ism* would die, so that our Virginia Model Artist would call us a people after his own heart.

We here repeat his creed, as some may have forgotten it:

We have got to hating everything with the prefix *free*—from free negroes down and up, through the whole catalogue of abominations, demagogaries, lusts, philosophies, fanaticism and follies, free farms, free labor, free niggers, free society, free will, free thinking, free love, free wives, free children and free schools, all belonging to the same brood of damnable isms whose mother is Sin, and whose daddy is the Devil.—

But the worst of all these abominations—because, when once installed, it becomes the hot-bed propagator of all—is the modern system of free schools.

Is not this admirable? Don't all speak at once!

MASSACHUSETTS.—In the Senate, on Friday, a bill prohibiting gift enterprises was introduced. The jury bill was again discussed; an amendment providing for the repeal of so much of the act of 1855 as gives to jurors any right of judging of the constitutionality of a law, was adopted, and thus amended the bill passed to a second reading—24 to 8.

NEW SHIPS.—A fine ship called the East Indian, of 900 tons burthen, owned by Messrs Stephen Tilton & Co. of Boston, has just been launched from Messrs Carrier & Townsend's yard of Newburyport. She is designed for the East India business.

Another ship to be called the Indus, owned by Messrs E. S. Mosely and Charles Wills of Newburyport, will be launched from the same yard, this week.

MAINE.— *Nominations by the Governor.*— York county.—Thomas K. Lane, Biddeford, Sheriff; Joshua Herrick, Alfred, Register.

SMALL BILLS.—A petition for the abolition of bank bills under $5, has been presented to the Massachusetts Legislature, signed by A. & A. Lawrence & Co., and some of the other leading firms of Boston.

Perhaps large bills, without any small ones, may do very well for the Lawrences and other leading firms,—who do an immense wholesale business. But for retailers of all sorts of goods, for bakers, butchers, market men, pedlers, and bill collectors, small bills are a great convenience. Does any one say the gold dollar will answer instead? All these classes which we have named, will testify that a one dollar bill is more convenient to carry than the little gold dollar, not half so likely to be lost, and no more apt to be counterfeited.

We know of no objection to a One Dollar Bill, on the score of *safety*, which does not rest equally against all bank bills, of $10, $100, or $1000. We do not know or believe, that a bank is more likely to fail because it issues small bills, than if it issued only large ones.

An exclusive specie currency is a mere dream for this country. In a country where people can read and write, such a currency is alike impracticable and undesirable. We shall always have a paper credit currency, until our free schools are abolished, and until the people forget how to read.

And as we must and shall have paper for large men, so let us have the one dollar bills for the smaller. We go against the Aristocracy of Bank Bills!

BRIGHAM YOUNG'S INFLUENCE IN UTAH.—The Salt Lake City Deseret News says:—Brigham Young is the only man that can govern Utah to the satisfaction of the people. We do not wish wholly to discourage those gentlemen who may be plotting in order to obtain political distinction and preference in Utah; let them work out their own discomfiture and disgrace, and they will then feel as the nigger felt after he had been whipped—so much the better, after they have done smarting. We recommend all people henceforth to mind their own business, and leave Mormonism to those who can handle it, for all its opponents who have yet entered the field are notoriously incompetent to touch its interests in any manner. The Latter Day Saints are known to be in good hands; their destiny is with the Almighty. It is his power and influence that has placed Gov. Young in his present honorable station, and he will keep him therein as long as it is expedient. The Lord has given him sufficient wisdom to cope with this generation; no matter in what position he is placed, he is equal to every emergency. He is a perfect master of theology in all its branches; as a politician he is unequalled; as a tactician he cannot be excelled. His influence over the people is a hundred per cent greater than that of any other Government in the United States, and both saints and sinners endorse him as the most honorable man in all the country.

MACKEREL.—The Mackerel Catch in the State of Massachusetts was about one-third larger in 1855 than in either of the two preceding years, though much smaller than the average for the three years preceding those.

Besides the mackerel there were 8,356 bbls. of other pickled fish. The business in a great measure centers in Gloucester, the inspection there amounting to nearly half of all in the State, excluding Boston, where they are mostly repacked, or the British Provinces. Gloucester is the only place that now enters into the sport with spirit; and there it is the principal employment of the people, and rapidly increasing. There will be twenty new vessels added to their fleet next year.

Even at the prices of the last few years, (enormously high, much over the actual value, unless they are regarded as a luxury,) it is a poor business and will never pay of itself. It is very well, however, as connected with shoemaking, and for four or five months in the year, if there is not too much expense on the vessels, is pleasant and profitable.—*Newburyport Herald.*

NOVEL HABEAS CORPUS CASE.—Some days since, says the Sierra Citizen, a Chinaman, who spoke tolerable good English, hired a teamster to haul a load of disinterred celestial bodies to some other place of sepulture. (They have been taking up and collecting together all their dead along the river.)—The number of defuncts to be loaded was not stipulated, and the teamster was loaded so that he could not get up the hill. He demanded more pay, to get extra cattle, but John insisted on having him go without either, refusing to pay anything except on delivery of the ghostly cargo. Becoming very wroth, the teamster swore he would sell the cargo to pay freight; and just then a doctor happened to pass, with whom he negotiated a sale—"one ten dollars"—and the doctor was about to remove his purchase, which the teamster had hauled out by the leg. This proceeding caused the supercargo's saffron visage to elongate amazingly, and he "torked over" the extra pay without further delay.

YANKEE MANAGEMENT.—The sugar crop on the Island of Jamaica this season is 50,000 hhds. greater than ever before. This is attributed to 'Yankees' having taken the management of several of the largest sugar estates. In working, they employ the negroes at so much per day, paying them in cash every week. The cash wakes up the best energies of the sable laborers and gives a life never before seen or heard of, to the sugar making business. Cuba and our Southern States are likely to have, in a very few years, an opportunity to compare side by side, on every way equal terms, the advantages of free and slave labor.

FRANCONIA NOWHERE.—The cold at Moscow, November 20th, was so severe that several sentinels were found frozen to death in their sentry boxes, although they are relieved every half hour.

LOCAL.

☞ The high wind on Thursday night seriously delayed the Friday morning train of cars on the Portsmouth & Concord Railroad, by blowing in the snow upon the track. The first train left this city at the usual time, and after going a few miles the two engines with the snow plow were thrown from the track—the snow being so hard that the plow went over it instead of through it. The remainder of the day was occupied in getting the engines upon the track. On Saturday noon the up train had got as far as Greenland. The train from Concord was more successful, having got down as far as Epping. The train arrived in this city on Saturday afternoon.

☞ On account of the cold weather on Friday, the launch of the ship Witch of the Wave, from the yard of Geo. Raynes & Son, was postponed from Saturday to this afternoon.

☞ The Temperance Meeting on (this,) Monday evening, will commence at half past 7 o'clock, in the Temple. Rev. Messrs. Lamson and Patterson are expected to address the meeting.

☞ The Old Folks' Concert at Hampton, which was advertised for Thursday evening next, is postponed for a week or two, by unavoidable circumstances.

NARROW ESCAPE AND FORTUNATE RECOVERY.—On Tuesday last, a young gentleman connected with an enterprising mercantile house in this city, having visited one of their vessels, which had recently arrived from the coast of Africa and was lying in the harbor, landed safely at the wharf, with a small box under his arm containing about $2000 in gold dust, divided in three packages. As he proceeded up the wharf he had occasion to go on board another vessel belonging to the same owners; and, having accomplished his object, was relanding, with the box still under his arm, when his foot slipped from the ladder and he fell between the vessel and the wharf, where the water was fourteen or fifteen feet deep. Being caught by a gentleman standing near, he managed to keep his head and shoulders above the water, and other assistance soon arriving, he was speedily rescued from his ice-cold bath, with no serious injury. As he fell, however, the box was crushed, and two of the packages of gold fell into the dock, but he succeeded in holding on to the third. By a careful search when the water had receded to about four feet depth, the two packages were, fortunately, recovered—the rescue of the gentleman from his perilous predicament and the regaining of the gold furnishing a satisfactory illustration of the adage that "All's well that ends well."—*Salem Register.*

INTERESTING NUPTIAL ANNIVERSARY.—The sixtieth anniversary of the marriage of Luther Wright and Sarah Lyman of Easthampton, who were joined in wedlock at that place on the 13th of January, 1796, by Rev. Payson Williston, then in the seventh year of his ministry, and now alive, a vigorous old man of 92 years, was celebrated at the residence of their son, Luther Wright, Jr., late principal of Williston Seminary, on Monday evening the 14th. The company comprised four persons who were present at the wedding. —*Northampton Gazette.*

Sloop Susan, with ballast from Chelsea beach, went ashore on Lovell's Island, night of the 24th inst., bilged and filled with water. The crew, six in number, landed and found shelter in an old barn, where they remained until Friday afternoon, when they were taken off by the steamer A. S. Stevens, Capt. Low, which went down from Boston expressly for that purpose. Capt. Low states that the building on Lovell's Island is so dilapidated as to be almost useless as a place of shelter, and suggests that a snug and comfortable building ought to be erected in its place, as many vessels are forced ashore upon the Island. If the sea had been rough it would have been impossible to rescue the crew of the Susan, who, without food or proper shelter, must have perished in a day or two.—*Boston Atlas.*

A BRITISH SOLDIER FLOGGED TO DEATH.—The correspondent of the London Morning Herald, in his letter from the Crimea, dated Dec. 24, says:—

A private of the English artillery has this week died under the lash at Balaklava! I believe his offence was drunkenness. Be it so. Are there no roads to be made or mended? Are there no stones to be broken? Are there no round shot to be polished? Is it not better to stop grog than to stop life?

FIRE ON A RAILROAD.—When the freight train of the Hartford Railroad arrived at River Point yesterday afternoon, two cars, loaded with cotton, were discovered to be on fire. The ignited cotton was carried by the wind to the cotton store of Messrs C. & S. Harris, six hundred yards distant, which was nearly destroyed. There were thirty-five bales of cotton in the cars, and about one hundred and fifty in the store.—*Providence Journal, 26th.*

ANECDOTE OF GREELEY.—Roderic Random, in the Boston Courier, tells this story:

Mr. ———, who had been kind to Greeley when he came to the city a friendless boy, and had got him into a printing office, returned to the city after a few year's absence, and inquired for Greeley at the printing office. "Oh, he's going to get up a paper himself, and is now at such and such a place." Thither Mr. ——— posted, and after going up and up, at length found Greeley. The philosopher, then a juvenile seeker for wisdom, was seemingly doing the work of a dozen men, writing, scissering, composing, correcting, &c., &c., and in the spare moments eating his hasty plate of soup. Mr. ——— expostulated. "Why man you'll kill yourself. You mustn't work so hard." "Oh," said Greeley, "I mean to be something or *die young.*"

ESCAPE FROM DEATH.—A boy named Charles Adlington, fell forty feet upon solid granite, in Providence, on Tuesday. Almost miraculously he escaped without serious injury. With a simplicity very natural to so fearful a fall, he inquired if he was dead, and told some one near by that if he was dead, he wanted to go to Heaven, but admitted that he had committed some trifling faults that morning. On being assured that he was not dead, he expressed a wish to see his mother—a wish that was very soon gratified, as he was conveyed immediately to his home by the City Marshal.

THE DUTY OF AMERICANS.—The Baltimore Clipper says:—"The duty of every American is to cultivate kind feelings between the members of our political household, and at all times, to avoid angry denunciations of those who are not willing to fit themselves to our Procustean bed; and especially is it the duty of the friends of gentlemen named in connection with the Presidency, when urging their claims, to avoid making offensive remarks concerning other distinguished names, and to remember that it is to principles and not to men alone, we are to look for a victory."

NEW ORLEANS, Jan. 24, (by tel.)—The Africa's advices had no effect on cotton; sales yesterday 6500 bales; to-day, up to noon, 1500; mid 8¼. Mess Pork $17 a 17 25. Molasses 35c. Sterling Exch. 6¼c. Freights to Liverpool 9-16d.

CONGRESS.

FRIDAY, Jan. 23.

The Senate was not in session, having adjourned to Monday.

HOUSE.—An ineffectual effort was made to rescind the resolution prohibiting debate.

The House then voted twice for Speaker, the last vote standing as follows:

Banks 94, Orr 64, Fuller 25, Scattering 12, necessary to a choice 98.

Adjourned, after the 127th vote.

FROM KANSAS.—Our attentive correspondent at Lawrence, "S. F. T." sends us a letter dated the 13th inst., which is mainly a review of the proceedings in Kansas since the first incursion of the Border ruffians. We now extract the following:

"Last evening a mass meeting was held in the Free State Hotel in this city, and a platform adopted for the party. No more Slave Territory. No more Slave States. Resistance to the further aggression of the Slave power. Eloquent speeches were made by Generals Robinson and Lane, Messrs. Smith, Lowry, Mallory, Conway, Warren, who is an exile from Leavenworth, and others. The Republican platform was adopted almost unanimously.

Gen. Lane, an old line Democrat, one who voted for the Kansas Act in Congress, and in the Topeka Convention labored to have a resolution carried approving the principle of squatter sovereignty, and slavery to exist here for five years; said that Missouri oppression has learned him to come out in opposition to slavery extension. One remark of his last evening caused considerable merriment: 'Why the slave power is so aggressive that it would force the accursed institution into Heaven even if an archangel stood at the gate, unless he should have a Sharp's rifle in his hand.' He expressed a determination to do all he can to stop the aggression of slavery.

Gen. Robinson made an eloquent speech in favor of Republicanism, and of our doing all we can in opposition to slavery. From what he could learn from Washington he was of the opinion that Kansas would soon be admitted into the Union as a Free State, &c.

Governor Shannon, it is reported, left Kansas rather suddenly. It is supposed that he has gone to Washington to confer with the President."

Our correspondent also states that information has been received in Lawrence that the Free State voters in Leavenworth are afraid to vote for State officers, under the new Constitution, (on the 15th,) being intimidated by the threats of the Missourians that they will destroy the city.—*Boston Telegraph.*

ST. LOUIS, Jan. 25.—The Santa Fe Mail arrived at Independence yesterday. News from the Territory unimportant; business dull.

A fight had occurred between the Capote Indians and the Mormons, provoked by an attempt to drive the former off of their own lands. Several Mormons were killed, and much property taken by the Indians.

NEW YORK, Jan. 25.—*Sound Navigation.*—The steamers from New Haven, Stonington, Norwich and Fall River, arrived here at an early hour this afternoon; they were delayed for two or three hours at Throgg's Point, by the ice, which at that place presented an almost impassable barrier.

On account of the ice, they did not leave here again this evening, for their various destinations, and it is thought the Sound navigation to the East will be suspended during the present cold term.

NEW YORK, Jan. 26.—The case of Joseph E. Ebling, Commissioner of streets and lands, charged with corruption in the administration of his official duties, was called by the District Attorney for his trial yesterday in the Court of Sessions.

The Herald's Balize (Honduras) correspondent, writing on the 22d ult., reports an unusual dullness of trade in mahogany, wages depreciated, and a large amount of mortality among the whites from cholera.

England was riveting her rule more firmly on the colony. It has been ordered that all vessels shall be registered, and that no foreigner shall own a ship hoisting the British flag unless he take the oath of allegiance to that Government, and become naturalized. Many persons had already done so.

The weather is still intensely cold, and our river navigation is greatly impeded by ice. Staten Island Sound is completely frozen from Elizabethtown Point to Bentley's Dock, and the teams are crossing over from Jersey to Staten Island in every direction.

FERRY BOAT SUNK.—The Staten Island ferry boat Columbus, while on her passage up this morning, with a large number of passengers, was cut through by floating ice and sunk near the mouth of the East River. Her passengers were all saved by getting on the ice, whence they were taken in small boats to the dock.

Thirty vessels, chiefly fore-and-afters, are locked in the ice at City Island and Throgg's Neck; the steamboat Elm City, which left here for New Haven, is among them.

TOWN HOUSE BURNT.—Friday morning, at 2 o'clock, the Town House at Deerfield Centre caught fire and was burnt to the ground. There was a Levee in it Thursday evening by Cram's Singing School, which closed about midnight. The strong wind, deep snow and piercing cold combined, thwarted all attempts to save it. We understand that it was insured for $600.—*Manchester Mirror.*

The tailor's shop of R. A. Dutton, near Hooksett Bridge, N. H., was burned on Thursday night. Mr Dutton manufactures coats for Boston tailors, and had in his shop about 100 coats, which were ready to send to Boston. They were all consumed. The shop was insured in the People's Office, Worcester, for $400. Goods insured in the Hamilton Office, Salem, for $1000.

WASHINGTON, Jan. 25.—*Mississippi Senatorship.*—A despatch from Jackson announces the election of Jefferson Davis to the U. S. Senate, by 58 majority.

A PIOUS THIEF.—A young Englishman named John Taylor has been arrested in New York, charged with stealing an arm-full of prayer books from St. Thomas' Church.

The Monthly Nautical Magazine,

Devoted exclusively to the Maritime Interests of the United States, embracing Ship Building, Commerce, Navigation and Marine Engineering.

ONE of the leading objects of the Editors will be to furnish correct data, upon which mechanics, merchants and mariners may confidently rely in finding an epitome of mechanical, commercial and nautical intelligence.

It will be the province of the Nautical Magazine to chronicle the march of nautical enterprise, and sketch the achievements of the living age; to aid research and investigation, and present the truths of unfolding science; to combine the experience of the ship-builder and navigator, and direct in harmony their united efforts to elevate the attitude of this excelling art, by diffusing from a nautical press the mechanical wonders of the ship and sea.

The work contains draughts of some of the finest vessels of the age, with other engravings, and is one of the most valuable publications of the country. Lithographs of vessels will be frequently inserted. Terms $5 per annum.

The January number, containing eight Plates, may be seen at the Bookstore of

Singer's Sewing Machines.

THESE Machines have long sustained the highest reputation in the United States.

The First Prize—A Gold Medal,

Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.

The Inventor has just added to these superior Machines an improvement whereby they can work on any kind of

FAMILY SEWING,

From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine professes.

They will also Bar and close all kinds of Kid Boots and Shoes, and stitch the finest Gaiter Boots in every part without a skip—making them the most desirable for girls to use at home, or for any who wish to do more than one kind of work.

These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.

They run without noise, with ease to the Operator, and at double the ordinary speed, so that

Twice as much Work can be done in a Day.

The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.

They are simple, and cost scarcely anything to keep them in repair; and can be operated by a child twelve years old.

Old Sewing Machines of any patent taken in part pay for new Machines.

These Machines may be had at Manufacturers' prices, of

THOMAS S. NOWELL,

Local Agent for New Hampshire, at his Shoe Manufactory, McDonough street, Portsmouth, where they may be seen in operation. d29

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington.

R. H. EDDY,

No. 75 State st. oppo. Kilby st. Boston.

IMPORTANT INFORMATION TO INVENTORS.—The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability.

R. H. EDDY,
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

ATTORNEY, 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS. MASON,
Commissioner of Patents.

G. W. STONE'S

LIQUID CATHARTIC,

—AND—

Family Physic,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe and agreeable Physic ever offered to the public.

THE necessity of such a Medicine has long been felt both by the heads of families and Physicians. Its advantages over cathartics given in the form of Pills or Powders, must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, in a certain cure for the Piles, regulates the action of the Liver, frees the Stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as

RHEUMATISM, NEURALGIA, TIC DOLOREUX, GOUT, PAIN IN THE HEAD, SIDE, STOMACH, &c.

It may also be relied upon in all diseases of the Bowels *Dysentery, Diarrhea and Cholera Morbus* yield at once to its magic influence. Again we repeat, TRY IT!—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success, despair not—relief is now at hand. Are you suffering with Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness—three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by one bottle, and by six bottles, in short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1.00.

EARLY RISING.—The Christian Advocate of this week has a letter from its London correspondent, under date of December 7th, giving an interesting account of the visit of the King of Sardinia. In speaking of the departure of the King, the writer introduces the following extract from the Court Circular of the 6th: "At half-past four o'clock this morning, the Queen, the King of Sardinia, Prince Albert, and the Duke of Cambridge, breakfasted together at Windsor Castle." The writer then contrasts the present mode of family enjoyment with that of George the Fourth. Then the hour of breakfast oft times ran into the afternoon. "Now we find the Queen sitting down to breakfast with her husband and her guests, three hours before daylight, on a wild December morning, with the wintry wind howling around the turrets of Windsor, and the snow lying thick on park and terrace." The writer admits that this hour is earlier than that at which the royal family usually breakfast, and was fixed to allow of the departure of Victor Emmanuel, the train starting at five o'clock. Yet the habits of the Queen and Prince Albert are systematically so early and regular, that in the Spring and Summer, her Majesty and children are generally seen driving three or four miles from Buckingham palace, as early as eight o'clock, having breakfasted and united in domestic worship, with the household, before leaving home.—*New York Commercial Advertiser.*

REMARKABLE CASE OF POISONING.—A most remarkable case of poisoning occupies a considerable space of public attention. The circumstances are briefly these: Dr. William Palmer, a surgeon, but who made betting his profession,—in other words "a sporting man,"—was in company with a gentleman named Cooke, at Rugely, Staffordshire, England, settling up some gambling accounts, when Cooke, who had just drank a glass of liquor, suddenly became sick and exclaimed that Palmer had poisoned him. Cooke died next day, and Palmer was arrested. A discovery that Palmer was indebted a large sum to Cooke confirmed the suspicion against him, and it was then remembered that his (Palmer's) wife had suddenly died with symptoms similar to those that had carried off Cooke.

This led to further inquiry, when the astounding fact came gradually out that *sixteen* persons, all immediately connected with Palmer, had died suddenly within a short time, and that on the lives of some of these persons he had effected insurances, while with others he had had betting transactions. The most astounding incident of these developments is, that Lord Gorge Bentinck (who, it will be remembered, died suddenly) had transactions with Palmer, and it is now believed he was poisoned! The corpses of some of the supposed victims have been exhumed, and submitted to chemical research for traces of poison. Strychnine, or some other vegetable preparation is supposed to have been the means employed.

It is somewhat curious that the accused had a fast horse, that figured conspicuously in his turf speculations, and bore the name of "Strychnine."

The London News, commenting upon the suspicion of Lord George Bentinck having been poisoned, pronounces it improbable.

Harrison's Columbian Ink, Black.
FOR the National Government, State Legislatures, Courts of Record, Banks, Railroads, Post Offices, Insurance Offices, Editors, Authors, Lawyers, Doctors, Clergymen, Commercial and Business men of every sort, Colleges, Academies and Schools, and that great class who sustain all, the Farmers—the GREAT INK of the country. 64,576 bottles sold in 1854, is significant that the AMERICAN PEOPLE appreciate THE AMERICAN INK, made by HARRISON THE AMERICAN MANUFACTURER, and determine its great superiority over all foreign Inks. It is at wholesale and retail by
d10 GEO. W. TOWLE, 3 Congress Block.

Harrison's Blue Black Writing Fluid
PROGRESS in the arts has revealed a Writing Fluid which does *not*, as other Writing Fluids *do* destroy the *points* of gold pens, actively corrode steel pens, or *chemically decompose the paper* or its *coloring.* I have seen paper where every letter written with English Fluids was eaten entirely through, and a delicate blue tint changed to a dirty yellow. The best make of gold pens have been condemned for losing their points, and the best manufactures of paper returned upon the dealer, where these Fluids were extensively used. Harrison's Fluid is subject to none of these evils. It writes a beautiful blue, and soon turns a jet black, and remains permanent. HARRISON'S is AMERICAN, *made* by an AMERICAN, and worthy the use of all Americans. It is wholesaled and retailed by

G. W. STONE'S
Cough, Consumption, and Bronchitis
ELIXIR.!
THE Proprietor would respectfully call the attention of the public to his invaluable Remedy for all Affections of the Throat and Lungs and begs of those who are undecided what to select, from the numerous medicines advertised, and recommended for such complaints, to give his ELIXER a trial. Having done so, they will no longer hesitate what to take themselves, or recommend to others. A single trial will prove to them that this is the most valuable remedy ever discovered for the various affections of the Throat and Lungs; it will immediately relieve the most violent Cough, and in a few hours completely cure the most severe Cold. As a Preventive and Cure for Consumption, it has no equal.—It is purely Vegetable, contains no poisonous ingredients, is quite agreeable to the taste, and may be given with perfect safety to the most delicate child. The numerous testimonials received almost daily from those who have been cured by it, fully justify the assertion that no family should be without this Medicine: let Mothers give it to their Children who have the Whooping Cough or Croup, and they will alleviate at once the sufferings of their little ones. Price 50 cts.

TUESDAY, JANUARY 28, 1856.

WASHINGTON NEWS.

The special correspondent of the Boston Advertiser, telegraphs from Washington on Sunday, as follows:

There seems to be a general conciousness to-day that the Nebraskals cannot hold out longer against the organization of House; and much interest is felt in the result of to-morrow's action.

It is also understood that the plurality resolutions will be sustained tomorrow by enough democrats to carry the measure.

Governor Reeder will publish a strong letter to-morrow, asking for a suppression of public opinion until he has an opportunity to answer the message upon Kansas, upon the floor of the House.

In the House of Representatives at Washington on Saturday, there was some debate on the subject of the repeal of the Missouri Compromise. After clearing away the smoke, we find the that the House declared—

First—That the repeal of the Missouri Compromise was an example for useless and factious agitation of the slavery question—unwise and unjust—by a majority of fifteen.

Second—That the restriction should be restored as the necessary and certain means of reviving harmony and concord among the states—by a majority of one.

Third—That the agitation of the slavery question is unwise and unjust to a portion of the American people, and injurious to every section of the country, and ought not to be countenanced—by a majority of one.

It refused to say—

First—That no man shall be elected Speaker who shall not heartily exert his influence for the restoration of the Missouri Compromise—by a majority of one.

Second—That the agitation of the slavery question should be continued until the Missouri Compromise is restored—by a majority of three votes.

On this statement of facts, the Boston Courier remarks:

We have in these propositions—as well those rejected as those adopted—a clearer insight into the position of the National Legislature on the Missouri Compromise repeal than has yet been furnished. It is a pretty emphatic rebuke of the chief blunder of Gen. Pierce's administration.

The New York Herald's correspondent of the same day, says:

Mr. Meacham's resolution pronouncing the repeal of the Missouri restriction a factious agitation of the slavery question was regarded as the test.

The object of Mr Dunn's resolution was to test the sense of the House as to whether there was a majority of members in favor of electing a Speaker who favored the restoration of the Missouri restriction. It is clearly evident that there is not a majority in favor of the restriction.

That is, by a clear majority of one vote.

Horace Greeley telegraphs from Washington that "there will be a Speaker on Wednesday next."

No certainty of it, however: but we shall see.

SONS OF TEMPERANCE.—The Rhode Island Sons of Temperance met in Providence on Monday. From some of the speeches made it appears that the temperance cause in Rhode Island is at a discount. A convention to consider the "moral welfare" of the State was proposed.—*Boston Bee.*

A writer from Washington observes that it is a source of deep regret to many of our citizens that such is the decline in the order of the Sons of Temperance, that the Grand Division cannot longer sustain itself. "It is seriously contemplated to return the charter to Maryland, leaving one division here and one in Georgetown, to operate under authority of the body in Baltimore."—*Exchange paper.*

We were, about seven years ago, employed for a short time on the Annual Report of the Sons of Temperance, embracing their concerns in the whole country,—and we remember that the principal officers of the association at that time considered the organization as having passed its zenith, and as beginning to descend and decline. No strange thing has happened. The order has doubtless done good—and so have the other organizations for the same object,—but they all are necessarily emphemeral,—and they will give place to other forms of action. Some things will bear stereotyping, as for example the Bible and Prayer Book,—but even of these, we must have new supplies, new editions, and new plates.

The principle of temperance, however, is not lost because a society goes down, or because any law is made or unmade,—any more than religion is lost when one man burns the bible or another spurns a prayer book.

NEW HAMPSHIRE.—A Whig State Convention is called, (says the New Hampshire Statesman,) to be held at Phenix Hall, Concord, the 13th of February, at ten o'clock in the forenoon, to nominate a candidate for Governor, a candidate for Railroad Commissioner, and to choose Delegates to a National Whig Convention, already appointed to be held in the city of Louisville, Kentucky. This is the first time we have heard of the appointment of a Whig National Convention.

A California letter speaking of the extravagant spirit that prevails every where in that State, says:

"Apples (of large size, to be sure) were offered at fruit stands for sale at four dollars and fifty cents apiece. The price is not more remarkable than that there are many persons indiscreet enough to purchase and eat them, even at this rate."

UNCLE TOBY'S NUT CRACKER.

The Chronicle keeps a nut cracker, of which the juveniles seem to think Uncle Toby is the engineer. The Gazette brings a nut of this kind.

Gaz. The New York Observer, a valuable religious paper, has been enlarged and typographically improved. In announcing the enlargement, Dr Morse, the senior editor, says it is just forty years since he "founded the Boston Recorder, the oldest religious newspaper in the world," and also gives a sketch of his faith, in which he says—

"We believe that socialism, Owenism, abolitionism, Fourierism, and all the various isms and schemes for the reform of the great evils of society on other than Bible principles, will prove not only a miserable failure, but an awful curse to the communities which cherish them."

The above is a nut for Uncle Toby to crack.

Uncle T.—Yes: crack it easily, very soft shell. If the Bible is so opposed to the awful curse of Abolitionism as the N. Y. Observer says—then why dont they give a Bible to every slave and teach him to read it?—Why do they, on the contrary, in New Orleans put a man in prison for distributing bibles among the blacks, and in Virginia imprison a woman a lady! for teaching colored children?

The nut is cracked—but it is deaf: there is no meat in it.

Gaz.—The Chronicle says there is no majority in the House of Representatives "with anybody." Still it knows very well that there is a majority of opponents to the administration, elected as such. They were elected on anti-administration grounds, North, South, East and West. They can organize upon this basis when they please, and it is their duty to the country to do it, or else to resign their seats immediately.

Uncle T—presumes they don't please.—President Pierce's grand blunder made it easy to choose what the Gazette calls *opponents* to his administration, in all parts of the country, and they were chosen from, and by all manner of parties. But they are not united—and so, though the old order of things is sure to fall, it is not yet certain what what will rise in its stead. This nut is mouldy.

Gaz.—The only worthy remark of the occasion was by S. S. Foster to the effect that disunion sentiments were growing decidedly unpopular, and that scarcely a man would now listen to them.

Uncle T.—Right. The term disunion provokes laughter and derision.

Gaz.—The idea of the Chronicle's correspondent that the Garrison movement is evidently a christian one, must be a consoling reflection to its religious readers.

Uncle T.—Just about as consoling as the beautiful story of a simultaneous prayer time and grog time which follows, and which may console the religious reader of the Gazette.

This is a sound nut, but has not much flavor. A dry lot at best.

Will not some benevolent grocer send along a peck of the true walnuts, worth cracking.

FROM PORT AU PRINCE.—Private letters from Port au Prince, to the 30th of December, give full particulars of the Emperor's defeat and flight. His army consisted of about 30,000 men, which were divided into three detachments. The army from the north, under the command of Paul Ducayste of 7000 men; another of 4000 men, who took a Southern route, and the main body of the army under the Emperor. Of the company who took the southern route, nothing is known except that after crossing the line they were met by a body of Dominicans, and the Jacmel regiment, which was in advance, broke their lines at the first fire, precipitated themselves upon the rear, and produced a general rout of the whole regiment.

The force under the immediate command of the Emperor amounted to about 18,000 men; when near Las Cahotas, in an open plain bordered by a piece of woods, they came upon a body of Dominicans about 400 in number, with a cannon. The advance guard continued to move forward until within gunshot of the Dominicans, when a conflict occurred, and the Haytiens made a precipitate retreat, throwing themselves upon the main body of the ormy, which was simultaneously charged by the Dominicans. A general retreat of the Haytiens now ensued, leaving the Emperor and his staff almost alone; they took to a by-path through the woods and escaped, but by the narrowest chance.

The enemy at one time were within a few feet of him, and he was only saved by the loyal exertions of his staff officers, several of whom lost their lives in defending his. The Emperor is said to have reached a place about sixty miles from Cape Haytien, with only 1000 men. The southern troops who deserted him so faithlessly, to the number of 1000, succeeded in reaching Las Caholas. The Emperor sent orders for them to join him, but they refused to do so. Where the rest of the grand army had gone, was not known at Port au Prince. The Emperor's pecuniary loss must have been very great. He had with him over $200,000 in money, which was taken, and with it most of the arms, ammunition, and provisions of his troops, for most of them threw away their arms when they took to their heels.

Well this black Emperor's war and its benefits, seem to be a fine burlesque on the war of the white Emperors, Kings and Queens of Europe, where they lose their millions of treasure—and what is worse, bathe Europe and Asia in blood.

The bachelors of Cleveland are an ungallant set of fellows. At their annual supper a few nights ago, the following was the seventh regular toast:

Our future wives—distance lends enchantment to the view.

LOCAL.

☞ The Temperance Meeting on Monday evening, at the Temple, was attended by a large audience. Mayor Walker presided.—The meeting was opened with prayer by Rev Mr Holman, and addressed by Rev. Messrs. Patterson and Lamson. Another meeting was appointed for next Monday evening, at the same place.

The friends of temperance in this city may well feel encouraged at the good attendance on these meetings, and at the harmony of feeling manifested by the ministers who unite in this moral movement.

☞ Rev. Dr. Burroughs's Lecture on Prophecy, comes, in course, on Wednesday evening of this week, at St. John's Chapel, State street.

☞ By an advertisement in our columns, it will be seen that Rev. C. G. Ames, Editor of the Minnesota Republican, will lecture next Friday evening at Hanover street Chapel, on Minnesota. He is said to be an able speaker; and the West is an interesting theme to nearly all.

LAUNCH.—The beautiful ship Witch of the Wave was launched on Monday afternoon, from the yard of George Raynes & Son, in the midst of a cold snow storm. If she proves as fast a sailer, and as successful generally, as did her namesake, her owners can not but be satisfied with her and the builders.

The labors of the day closed with a sumptuous repast, for all hands employed on the ship, provided by Charles W. Walker, Esq., under the direction of the owners of the ship, Messrs. Titcomb & Coffin. It is a noteworthy fact, that no spirituous liquors were to be had on the premises.

☞ The Journal says that the net receipts of the late Levee given by the Ladies of this city in aid of the Howard Benevolent Society will amount to $200.

For the Chronicle.

ANOTHER MURDER AT SO. BERWICK.

SOUTH BERWICK, ME., Jan. 28.

Dear Chronicle:—A most attrocious murder was committed in this town last week, the particulars of which, as far as I have been able to collect them, are as follows:

There had for sometime been a feud existing between two Irish families of the name of M'Cabe and Harlow, both of which lived in the same tenement. On Thursday evening, Mrs H. called on Mrs M'C. and recommenced the quarrel, while Mr M'C. was absent.—While the trouble was progressing, the two husbands came in, and took the business of quarreling from the hands and mouths of the amiable ladies. Harlow said that Mrs M'Cabe should have a story to tell before Saturday night, and left the house, and was gone some time. When he returned he recommenced the quarrel with M'Cabe, and soon drew a large butcher knife, and succeeded in cutting M'Cabe's throat. M'Cabe lingered for a day or two, when he died. Harlow has left for parts unknown, but it is to be devoutly wished that he may yet be obliged to suffer the punishment he so richly merits. A coroner's inquest has been held, but their verdict has not yet been rendered. The cause of the outrage is said to have been jealousy. M.L.G.

DEATH OF THE MURDERESS.—Sarah Ann Abigail Brown, who was tried, convicted and sentenced to be hung, at the fall term of the Supreme Judicial Court, for Merrimack Co. for the murder of Stephen C. Washer, died on Friday evening at the jail in Concord.—Subsequent to her trial, (says the Patriot,) she gave birth to a child, since which time she has gradually declined in health, until she expired of consumption.

BENEVOLENT LADIES.—Miss Elizabeth Oliver, of Dorchester, whose sister last year gave $500 to the "Sailors' Snug Harbor," has now given $1000 for the same object. These ledies evidently give their money because it is a pleasure for them to do so.—*Boston Transcript.*

The following is an extract from a letter dated Rome, 22d December:

For the last three days the weather has been intensely cold. It snowed an hour, day before yesterday, and ice quite thick formed in the open air. You know that a snow storm is such an extraordinary event here, that when it happens, schools, offices, and public establishments are closed. The same custom was observed day before yesterday.

A Mrs. Allen, of Bloomfield, Essex county, Vt., was tried sometime ago for poisoning a person residing with her, and to the surprise of everybody, was acquitted. The citizens of the town, still suspicious that all was not right, disinterred the bodies of two persons who have recently died at her residence, and found in their stomachs, two or three kinds of poisons' which the savans say caused their disease. The murderess accordingly will be tried over again.

VIGOROUS.—Rev. John Pierpont, within two years past, has traveled twenty-five thousand miles, and lectured five nights in the week on an average. Mr. P. is now upwards of seventy years old. Mr. Pierpont is indebted for his vigor and age to a life of temperance and abstinence. He believes in nature and her laws, and acts up to them.

Wendell Phillips made a vital thrust at a certain kind of party leaders, in saying—

They live only by whispering here what they would not for the world have known at Washington, and whispering at Washington what they would not for the world have known at home, and whose political death dates often from the day they are equally well known in both places.

CONGRESS.

SATURDAY, Jan. 26.

HOUSE.—Mr. Dunn of Indiana offered a resolution:—

1st. That no one shall be elected Speaker who does not fully and heartily sympathize with a large majority of the people of the country for the restoration of the Missouri Compromise, or will hesitate to exert himself for the restoration of that restriction.

2d. The restriction should be restored as a proper indication of the wisdom, patriotism and plighted honor of the great statesmen who imposed it, and as the necessary and certain means of reviving harmony and concord among the states of the Union.

3d. Useless and factious agitation of the slavery question, in or out of Congress, is unwise and unjust in every section of the Union, but until the restriction is restored, it is a solemn duty we owe to the past, present, and future, steadily and firmly to persist in the efforts to that end.

The first resolution was rejected by one majority, and the second resolution was adopted by one malority, and the third was rejected by three majority.

Mr. Fuller of Pennsylvania offered a resolution declaring any agitation of the slavery question unwise and unjust to a portion of the American people, injurious to every section, and ought not to be countenanced.—Adopted by one majority.

Mr. Meacham of Vermont offered a resolution that, in the opinion of the House, the repeal of the Missouri Compromise was an example of useless and factious agitation of the slavery question, and that it was unwise and unjust to the American people.

Adopted by 108 against 93, and without taking a ballot the House adjourned.

PHILADELPHIA, Jan. 26.—*Accident on the Delaware River.*—This afternoon a large company were upon the Delaware River opposite the upper part of the city, when the ice gave way, carrying down a sleigh containing a gentleman and four ladies. One of the ladies, a widow, by the name of Albright, was drowned. The others were rescued.

MARRIAGE.—Rev. Antoinette L. Brown was married to Samuel C. Blackwell, of Cincinnati, on the 24th inst. The marriage took place at Henrietta, N. Y., and was celebrated by the father of the bride, who is not a minister, nor, we believe, a magistrate. Mr Blackwell is probably a brother of Lucy Stone's husband, as the name is the same. Miss B's most intimate friends in this city, appear to have had no intimation of her intentions to marry, but had understood that she was about to remove to Ohio.—*Rochester Democrat.*

TONGUE FROZEN FAST.—In Cincinnati, on the 10th, one boy induced another to put his tongue against a fluted iron lamp post—the thermometer at the time indicating a temperature far below zero. The tongue stuck fast, of course, and the poor boy suffered great agony. Several passers endeavored to release him but in vain. Matters were in this situation for over five minutes, when a gentleman named Taylor went into the Telegraph House and brought some hot water and whisky, with which he bathed the tongue of the suffering boy, finally liberating about one-half, leaving the other sticking to the post, where it remained for the balance of the day, a warning to youngsters how they recklessly lick cold iron in freezing weather. The luckless boy was taken to his home in extreme agony.

DUTIES AND RIGHTS OF JURORS.—The Advertiser, speaks of the Senate's action yesterday on the question concerning the rights and duties of jurors, and says:

"An amendment was finally adopted, which takes away from jurors the right of judging or deciding the constitutionality of any law."

This is not correct. The amendment in question merely repeals "so much" of the law of last year as gave jurors any such right. Now as the law of last year did not undertake to give jurors any new right, but aimed merely to declare and sustain the right which they have always had, we leave the Advertiser to ascertain for itself how much of that law has been repealed.—*Boston Telegraph.*

INTOXICATING LIQUORS IN HOSPITALS.—A report has just been submitted by a Committee of the Governors of the Alms house of New York, of some importance. It seems that they were appointed to inquire into the extent to which intoxicating liquors are used in the hospitals of the department, and how far such use might be dispensed with, and how far whisky might be substituted for the more costly liquor, brandy.

From the report it appears that in the Penitentiary Hospital the use of all liquors has been suspended since the first of August last, and the following figures were submitted as best demonstrating the result:

PATIENTS TREATED IN THE PENITENTIARY HOSPITALS

	Total Number	No. of Deaths	Per ct. of Deaths
From Aug 1 to Dec 1, 1853	1612	44	2.7
" Aug 1 to Dec 1, 1854	2254	57	2.5
" March 1 to July 31, 1855	1307	34	2.6
" Aug 1 to Dec 1, '55, (when no liquors were used)	1133	15	1.3

The following is a statement of the quantity of liquors used in hospitals in 1854 and 1855:

	1854	1855		1854	1855
Al'hol, bls.	10	10	M'ria wine, gls	45	52
Ale, bls.	51	30	Port wine, gls.	5	25
Brandy, gls.	250	140	Whisky, gls.	100	30
Gin, gls.	80	25			

The report takes no cognizance of the question in regard to substituting whiskey for brandy. Dr. Sangert, who has charge of the Penetentiary Hospital, accompanied the above table with the following remarks:

"It is believed the coming year, will show a still greater reduction in item of expense, and that too, without injury, but with a gain to the patients. I am well aware that it requires longer experiment than the past six months, to arrive at a fixed principle in this matter; but at the same time I must say, that these poor inmates can be well and successfully treated with other stimulants than those with which they have been poisoned. Good diet, proper remedies, and careful watching, will accomplish as much, if not more, than the administration of ardent spirits."

The Monthly Nautical Magazine,

Devoted exclusively to the Maritime Interests of the United States, embracing Ship Building, Commerce, Navigation and Marine Engineering.

ONE of the leading objects of the Editors will be to furnish correct data, upon which mechanics, merchants and mariners may confidently rely in finding an epitome of mechanical, commercial and nautical intelligence.

It will be the province of the Nautical Magazine to chronicle the march of nautical enterprise, and sketch the achievements of the living age; to aid research and investigation, and present the truths of unfolding science; to combine the experience of the ship-builder and navigator, and direct in harmony their united efforts to elevate the altitude of this excelling art, by diffusing from a nautical press the mechanical wonders of the ship and sea.

The work contains draughts of some of the finest vessels of the age, with other engravings, and is one of the most valuable publications of the country. Lithographs of vessels will be frequently inserted. Terms $5 per annum.

The January number, containing eight Plates, may be seen at the Bookstore of

Singer's Sewing Machines.

THESE Machines have long sustained the highest reputation in the United States.

The First Prize—A Gold Medal,

Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.

The inventor has just added to these superior Machines an improvement whereby they can work on any kind of

FAMILY SEWING,

From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine possesses.

They will also Bar and close all kinds of Kid Boots and Shoes, and stitch the finest Gaiter Boots in every part without a skip—making them the most desirable for girls to use at home, or for any who wish to do more than one kind of work.

These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.

They run without noise, with ease to the Operator, and at double the ordinary speed, so that

Twice as much Work can be done in a Day.

The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely worthless.

They are simple, and cost scarcely anything to to keep them in repair; and can be operated by a child twelve years old.

Old Sewing Machines of any patent taken in part pay for new Machines.

These Machines may be had at Manufacturers' prices, of

THOMAS S. NOWELL,

Local Agent for New Hampshire, at his Shoe Manufactory, McDonough street, Portsmouth, where they may be seen in operation. d29

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington,

R. H. EDDY,

No. 76 State st. oppo. Kilby st. Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages, in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him (instead of twenty, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove this to be MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 27, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

LIQUID CATHARTIC,

—AND—

Family Physic,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe and agreeable Physic ever offered to the public.

THE necessity of such a Medicine has long been felt by the heads of families and Physicians. Its advantages over cathartics given in the form of Pills or Powders, must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, regulates the action of the Liver, frees the Stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as

RHEUMATISM, NEURALGIA, TIC DOLOREUX, GOUT, PAIN IN THE HEAD, SIDE, STOMACH, &c.

It may also be relied upon in all diseases of the Bowels; *Dysentery, Diarrhœa and Cholera Morbus* yield at once to its magic influence. Again we repeat, TRY IT!—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success, despair not—relief is now at hand. Are you suffering with Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness?—three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1.00.

OFFICE OF THE MARYLAND CONSOLIDATED LOTTERIES, Baltimore, Maryland, 20th June, 1855.

CAUTION.—LOTTERY FRAUDS.

THE Commissioner of the Maryland State Lotteries has deemed it his duty to caution the Public against the numerous Swindlers who circulate by mail and otherwise, fraudulent Lottery schemes, and pretend to be agents for the sale of tickets in Lotteries which are wholly fictitious.

The only legal Lotteries in Maryland are those drawn daily under the supervisionance of the Commissioner elected by the people of the State under the new Constitution to examine and approve the schemes and attend to the drawings.

All the tickets in these Lotteries, and all certificates of packages of tickets have the lithographed signature F. X. BRENAN, General Agent for the Contractor. Office of the Maryland Consolidated Lotteries, Baltimore, Md. All others are fraudulent. For full information on the subject of these frauds, address F. X. BRENAN,

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and it has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by W. Gibson, MD, Prof. of Surgery, Pa. University. Valentine Mott, MD, Prof. Surgery, N. Y. University. W. P. Dewees, MD, Prof. of Mid., Pa. University. N. Chapman, MD, Prof. of Physic, Pa. University. I. Parke, Prs. College of Physicians, Phila. Dr. Del Vallo, Prof. of Medicine, Havana. Jose Eourenco de Luz, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Barnes, Maj Gen British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA:"

and having the name Jas. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the dige-tive orgns, such as Worms, Cholic Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing a *somewhat* similar name, well calculated to deceive.

MISS LILLY AND HER PUPIL.

My father was a farmer, and a practical man, who always had as good crops and stock as the country produced. He wished his children to be educated well, so far as the stone school house of the district afforded facilities. It pleased him to see them stand at the head of the spelling class, and to hear that they wrote the best hand in school. He was one of the trustees of the district, and was very particular in selecting teachers, so much that it came to be understood, that if Captain Humphreys was pleased, that was at once a passport to the favor of the whole district.—A man was employed to teach the school in winter, when large boys and girls were in attendance, and a woman filled the post in summer. To the former four dollars a week were paid without a murmur, but to the latter one dollar was considered ample compensation.—My father was usually a just and benevolent man, but like many others, he had never thought of the injustice done to a woman in the small compensation allowed her.

When I was in my tenth year, full of fun and frolic, a perfect hater at fractions and syntax, and at enmity with teachers in general, there came to teach our summer school a delicate looking girl who could not have numbered more than seventeen years. Her fair face, deep blue eyes, and clustering auburn curls, her soft manners and graceful movements, at once won the admiration of the little girls, who treated her with the most gentle affection.

The older heads of the district were shaken in doubt that one so youthful and gentle could control and teach the band of mischief loving children that thronged the schoolhouse.

Miss Carey, or Miss Lilly, as she wished to be called, was soon so firmly enthroned in the hearts of all, both old and young, that their doubts gave place to earnest efforts for her success. A disobedient urchin soon found himself so unpopular that he was glad to pay his way back to favor by becoming a pattern of propriety.

I saw all this, yet I could not consent to yield my independence, as I thought, for I considered myself too much of a man to be longer under petticoat government. I assumed a lawless air, and amused myself by playing various tricks upon my more obedient neighbors. Miss Lilly reproved me gently, but I was not willing to acknowledge the power of kindness.

One day, in class, the word *patch* was given me to spell. In rapid succession I spelled patch, patched, patched dress, pointing at the same time to her well worn garment which had been neatly darned in various places. Instead of the laugh which I expected to raise, a feeling of horror, like an electric shock, pervaded every member of the school. Little faces, pale with anger and eyes flashing indignation, were turned upon me from all sides.

Miss Lilly first blushed to her eyes, then pale and trembling sank to her chair, while she forced back the tears that gathered in her eyes. Suddenly all that little band gathered around her, twining their arms about her neck, kissing her face and hands, and showing every kindness that little sympathizing hearts could devise. It being the hour for dismissing the evening school Miss Lilly sent all away with a kind kiss, until I alone remained; she then said gently, "Albert, you may be dismissed." I was completely subdued, and quietly leaving the house seated myself under a tree by which she must pass.

When she came, with tears trickling down my cheeks I begged pardon for my misdeeds. She wiped the tears from my eyes, and, seating me by her side, talked to me as I never before had heard woman talk. In that hour I felt myself a changed being; an ambition was born to become good and great and rich, that I might help such women as Miss Lilly.

She told me of her infirm father, of her mother's labors to support her little ones, and of the efforts she had made to give her, the eldest child, sufficient education to teach. She told me of her own efforts to assist her mother by sending her nearly all her little wages, and of her nightly studies to prepare herself for teaching a higher school.

I went home that night with my head full of grave reflections and good resolutions, some of which I strictly kept. Ever after I was ready to fight any boy who showed the least disrespect to a female teacher.

In after years, when wealth and opportunity were mine, I carried an open hand, heart and purse, for woman striving against difficulties to gain honorable positions. Miss Lilly lived to earn wealth and fame, and a rich store of love from all with whom she mingled.

SICKNESS EXTRAORDINARY.—Last week a man bolted a door and threw up a window.—*Punch.*

A SPICY CORRESPONDENCE.—There are intimations of a correspondence between President Pierce and Sam Houston, which will shortly find its way into the newspapers. *Boston Atlas.*

THE WORLD'S OPINION.—A mean man is a person with a small income who lives within it.

MAINE POLITICS.—The Democracy of Maine has repudiated President Pierce, and cast him out of its political church. On the evening of the 23rd inst., Wyman B.S. Moore of Waterville, J. C. Talbot of Lubec, Dudley F. Leavitt of Bangor, and William K. Kimball of Paris, were chosen state delegates to Cincinnatti in a Democratic convention at Augusta. They are all of the "hard" stripe, with Buchanan tendencies, and prevailed over the administration party by a vote of seventy to eighteen. The Belfast Journal says "these gentlemen are inflexible National Democrats, and as inflexibly in favor of some other presidential candidate than General Pierce."—*Boston Courier.*

Harrison's Blue Black Writing Fluid
PROGRESS in the arts has revealed a Writing Fluid which does *not*, as other Writing Fluids *do* destroy the *points* of gold pens, actively corrode steel pens, or *chemically decompose the paper* or *its coloring.* I have seen paper where every letter written with English Fluids was eaten entirely through, and a delicate blue tint changed to a dirty yellow. The best make of gold pens have been condemned for losing their points, and the best manufacturer of paper returned upon the dealer, where these Fluids were extensively used. Harrison's Fluid is subject to none of these evils. It writes a beautiful blue, and soon turns a jet black, and remains permanent. HARRISON'S is AMERICAN, *made* by an AMERICAN, and worthy the use of all Americans. It is wholesaled and retailed by

CHANGES.

The Newburyport Herald says, speaking of the Republicans—

The North is not wholly to blame for the existence of this party. They have been driven to it by a renunciation at the South of the spirit and faith of their fathers. Formerly the South asked that slavery should be *tolerated* as a local and domestic institution; now it *demands* that it shall live bearing the broad seal and endorsement of the nation. Formerly Washington, Jefferson, Madison, and their co-patriots, viewed it with sorrow and disgust as an evil; now it is claimed as essential to the most perfect state of human society. Formerly they sought to restrict this "sum of all villanies," and to that end themselves abolished the African slave trade, and the ordinance of '87, shut it out from all the unoccupied territory under national law; now they ask that it shall go free wherever the American name is, whether desired by the people or not. Formerly they confined it to the black race as the inferior; now they say it should apply to the laboring population, whether white or black—that there should be gentlemen to rule and slaves to labor, thus jeopardising the freedom of all, and actually shaking the chain and cracking the whip in the very face of the intelligent workers of every section of the land.

Under such declarations as we give below, we do not wonder that the working men of the North shrink back and become republicans, abolitionists or anything else against the invaders of their rights. The Richmond Enquirer, the most influential journal of the whole South, speaks thus, in one of its late numbers:

Until recently, the defence of slavery has labored under great difficulties, because its apologists, (for they were mere apologist,) took half way grounds.

They confined the defence of slavery to mere negro slavery; thereby giving up the slavery principle, admitting other forms of slavery to be wrong, and yielding up the authority of the Bible, and of the history, practices, and experience of mankind. Human experience, showing *the universal success of slave society*, and *the universal failure of free society*, was unavailable to them, because they were precluded from employing it, by admitting slavery in the abstract to be wrong. The defence of negro slavery involved them in a still greater difficulty. The laws of all the Southern States justified the holding white men in slavery, provided, through the mother, they were descended, however remotely, from a negro slave. The bright mulattoes, according to their theory, were wrongfully held in slavery.

The line of defence, however, is now changed, and the North is now completely cornered and dumb as an oyster. The South now maintains that *Slavery was right, natural and necessary*. It shows that all divine and almost all human authority, justifies it. The South further charges that the little experiment of *free society* in Western Europe has been, from the beginning, *a cruel failure*, and that *symptoms of failure are abundant in our North*. While it is far more obvious that negroes should be slaves than whites, for they are only fit to labor, and not to direct; *yet the principle of slavery is itself right, and does not depend on difference of complexion*. Difference of race, of lineage, of language, of habits and customs, all tend to render the institution more natural and durable; and although slaves have been *generally whites*, still the masters and slaves have generally been of different national descent. Moses and Aristotle, the earliest historians, are both authorities in favor of this difference of race, but not of color.

On this the Newburyport Herald remarks:

If African slavery is a blessing, then the African slave trade is a blessing, and should be restored; if free society is a cruel failure, then slavery should be established everywhere; if Moses and the Prophets are authority for our enslaving all different races, then it were proper for us to make of immigrants what the Virginians do of negroes—to have "white niggers." But to an intelligent people this is all nonsense; and therefore Virginia and the South generally, deny the light of intelligence not to blacks alone, but to whites, where the white skin is not accompanied with wealth.

SATAN'S KINGDOM TUMBLING DOWN.—A writer from Tuftonboro', to the N. H. Democrat, "as to the state of political feeling in that section, describes it as it is everywhere else," (says the Patriot,) as follows:

Last year Hindooism is sick in this vicinity—dying of galloping consumption, brought on by exposure to the cold night air and imbibing too large quantities of bad R. G. We wait confidently for the Ides of March to sweep away the last vestige of the miserable concern from this quarter! The Democratic army is on the march—its ranks are increasing—the clarion blast is ringing—the voice of common sense is being listened to—and on the second Tuesday of March next a glorious victory will perch upon the banners of the Democracy!

We hear that the Right Reverend Manton Eastburn, the Protestant Episcopal Bishop of the Diocese of Massachusetts, is about to lead to the hymeneal altar a wealthy lady, of some twenty-seven summers, from the "best society" of Boston. The first wife of the Bishop died some two years since.

WASHINGTON, Jan. 28.—The troublesome movements of professed anti-Nebraska men in the House to-day did no harm, except by relieving the Nebrascals temporarily from the pressure of their responsibility to aid in an organization—thus postponing a definite result.

The republicans are still firm and united, and await the result with confidence, believing that the administration will eventually concede that any organisation of the House is better than that the government should be paralyzed.

The Senatorial caucus to-morrow morning is expected to re-nominate A. O. P. Nicholson for Printer, but it is still doubtful whether he will be successful.

The article in the Union of Sunday morning, coaxing the Southern "Americans" to unite with the democrats against Mr Banks, is by no means satisfactory to the Western democrats.—*Cor. Boston Advertiser.*

RAILROAD CASES.—*Philadelphia, Jan. 28.*—In our Supreme Court, to day, Judge Black delivered the unanimous opinion of the Court on the matter of the Cleveland, Painsville, and Ashtabula Railroad, vs. the City of Erie, to the effect that the Railroad Company have the right to extend their road through Erie to the Eastern Boundary, to connect with the Northeast Road, and that resistance and destruction of property by the Mayor and Council of Erie is unlawful and must be restrained. The injunction sought for was granted.

In the case of the Erie and Northeast Road vs. Joseph Casey, the Court was divided.—Judges Black, Lowrie and Knox held the repeal of the charter of the road was constitutional and valid, while Chief Justice Lewis and Judge Woodward held it to be unconstitutional and void. The case is to be taken up to the United States Supreme Court.

INDIAN DEPREDATIONS AND MURDER.—*Key West, Jan. 21.*—By a boat from Miami we learn that the Indians have commenced their indiscriminate slaughter of the whites by murdering two of the settlers twelve miles from Fort Adams. Two men, Peter Johnson and E. Fanall, were killed by them on the 7th. The U. S. troops were sent in pursuit of them, but after scouring the country for several days they could not succeed in falling in with them. The settlers were in great trepidation, and were coming in demanding the protection of the troops.

The U. S. transport schooner Delaware, Johnson, arrived from Philadelphia with materials destined for the new Light House at Quibito Inlet. On account of the Indian disturbances, the erection of the Light is postponed, and the materials of the Delaware will be sold here.

EASTERN EXCHANGE HOTEL, BOSTON.—The Traveller says that this large granite hotel, erected some years since, opposite the old Eastern Railroad depot, at an expense of $70,000, and which has been closed up for many months, has at last fallen into the hands of a party who has turned the grand structure from a public house into a baracoon for Irish families. The building will probably accommodate from seventy-five to a hundred families.

SHOP BREAKERS ARRESTED IN NEW YORK.—The silk and lace store of Mr C. L. Merchant, corner of Broadway and Broad street, New York, was entered on Saturday night by burglars and, robbed of about six thousand dollars worth of rich goods. The thieves packed in bags about $3000 worth of silks, ready to be carried away, and returning to the store, selected upwards of $3000 more, which they piled up for transportation. The rascals had a wagon in the neighborhood, in which they intended conveying away their plunder, and this they procured; but while in the act of driving up to the store, they were observed by the police, and at once arrested. The prisoners gave their names as Thomas Wells and Henry Franklin; they appear to be Englishmen.—*Boston Chronicle.*

ALMOST ANOTHER MURDER.—We learn from the New Haven Journal, that on Friday evening a shoemaker, named Hawley, attempted to murder his fellow-workmen. In the evening he appeared at the shop with a loaded revolver, and found four of the workmen in the back shop, or back part of the store, who were very much frightened when he presented his revolver and swore that he would shoot them through the window, or glass in the store door. While attempting to get out of pistol shot, he fired at them three times, but owing to his being so intoxicated, neither of the shots took effect on either of the four persons. He was arrested and committed.

NEW FORM OF PRAYER.—The Chaplain of the Massachusetts Senate prayed on Tuesday morning, that at the last great day, those present might be admitted to the *"Senate of the skies!"* We have thought that there were some religionists who believed there was an "upper branch" in the great Hereafter, to which they alone had a clear and exclusive title, while their less wealthy and fortunate neighbors would be obliged to take their seats in the "lower house."—*New Bedford Standard.*

BORDER RUFFIANS—NOT ENDORSED.—The N. H. Daily Patriot of the 26th, says:

The "Stars and Stripes," utters deliberate falsehood when it asserts that the Patriot "endorses the propriety of the whole scheme of border ruffianism,'" in Kansas.

Well: we are glad of it: not of the falsehood,—but of the denial,—very glad indeed to find that the Patriot is willing to let the Border Ruffians *slide*, without endorsement. We deem them base coin—and their endorsers also.

SMASH UP.—There was a grand *demolification* on the turnpike Thursday afternoon, 24th. A drunken rowdy dashed recklessly over the ground, giving rise to inferences and disturbances among the numerous sleighing parties present, and resulting in the *smashing up of six sleighs*. One horse received a very severe wound from the shaft of one of the sleighs, which may occasion his death. A lad, likewise, was considerably injured. Where are we *safe* from the maddening influence of *rum!*—*Providence Transcript.*

LOCAL.

POLICE COURT.

TUESDAY, Jan. 29.

Before Justice Odell.—John H. Wells was charged with selling liquors at four different times, contrary to the statute. Plead not guilty; waived further examination, and gave bonds in the sum of $200 to appear for trial at the S. J. Court in Exeter. The liquors were purchased by boys, who used for that purpose, the money given to buy a writing book, and some other money procured in other ways. Having drank the liquor in one instance, they went to school, where in the warm room they first became so disorderly drunken as to be whipped, and then presently so helplessly drunken as to be carried out.—On enquiry by parents and teachers, the boys disclosed their purchase as above charged.—This allegation of course remains to be proved or disproved, at the trial. But of the boy's intoxication, in consequence of such a purchase somewhere, there is no doubt.

John Lowd was charged with keeping open his shop in Water street on Sunday. [The shop has the reputation of being a groggery.] Plead guilty. Fined $5, and costs, $6 47, total, $11 47. Paid.

☞ The lecture before the Mercantile Library Association on Tuesday evening, was by Rev. Dr. Cleaveland of Lowell.

His subject was The Right of every man to all the knowledge he can attain. This right he defended against the arguments of Cobbett and Rousseau, Calhoun and a nameless American teacher.

The lecture was by turns able and humorous; containing merit and matter enough to make two good lectures, and embodying defects enough to spoil half a dozen in ordinary hands. They did not spoil his, however, for though it was long and rambling, and in some places disjointed, yet it interested and amused the audience to the end.

The prelude to the lecture was music on the Grand Piano by Mr Pearson.

☞ Ship Mary Hale, Rollins, of this port from New Orleans for Trieste, with 2000 bales of cotton, was totally lost on Dog Rock, Salt Key Bank, Jan. 3d. The captain and crew landed upon the island. Wreckers were engaged in taking out her cargo, only 600 bales of which is dry. About 400 bales of damaged cotton would be raised, as also the anchors, chains, sails and rigging. The Mary Hale was built here in 1849, by Samuel Badger, was 648 tons, and owned by Messrs. Ichabod Rollins, Sam'l Sheafe, and Horatio Coffin.

☞ We understand that the Secretary of the Navy has removed Col. Jefferson McIntire, Master Machinist and Steam Engineer of the Navy Yard at this station, and appointed Mr. Nathaniel D. Miller of this city, in his stead.

NAVAL.—The U. S. sloop-of-war Cyane, Capt. Fairfax, arrived at Key West, Jan. 14, from a cruise. She remains in port until the 25th. The officers and crew of the vessel are all well.

DEATH OF COMMODORE MORRIS.—The Providence Journal learns by a private dispatch that Commodore Charles Morris died on Sunday afternoon at Washington. He had been ill for two or three weeks with pneumonia and pleurisy.

PUTNAM'S MAGAZINE FOR FEBRUARY has reached this city. The opening article relates to the visit of Washington at Boston sixty-six years ago. The pleasant papers on "Living in the Country" are continued.

The ballad, "The Ranger," is by Whittier. The number is received by J. F. Shores' jr., of this city, and Fetridge & Co., Boston.

SUDDEN DEATH.—Jacob G. Loring, Esq., of North Yarmouth, Me., died suddenly in Philadelphia on Friday last. He was on his way South upon a tour of pleasure. He was well known as a prominent citizen of North Yarmouth. He was 56 years of age.

☞ Ex-Governor Walker, of Louisiana, died at New Orleans, Jan. 24.

The following is the superscription of a letter received at South Danvers Post office, postmarked Boston:

"Mister Jon Mac Farland State of Amerikey Town of Mass in South Danvis which was set of another Danvis deliver to Cousin Briget if Jon is not here."

A PIOUS PAPER.—The Mobile Evening News, a Know Nothing paper, says:

"Beyond all doubt, these same 'Border Ruffians' have been the only means *under God* of teaching such miscreants as the editor of the Missouri Democrat and his Lawrence friends, that the way to the abolitionising of Missouri and Kansas, is a road of the reddest blood for them to travel.'"

Mrs. Abigail Chapman, wife of the senior editor of the Salem Register, died in Salem on the 24th inst. at the age of 57 years, and after a happy married life of more than forty years.

A man "bent" on folly, eventually finds himself "straightened" in circumstances.

MARRIED

CONGRESS.

MONDAY, Jan. 28.

SENATE.—William Bigler, the newly elected Senator from Pennsylvania, took his seat.

Mr Fitzpatrick gave notice that to-morrow he should move to proceed to the election of the printer.

Lobbies and galleries densely crowded.

Mr Cass then addressed the Senate on the subject of Central American affairs, alluding to the remark of the National Intelligencer that this country might be drifting into difficulties. He said that he did not believe it. He thought the ship of State was on its true course and the pilot doing his duty.

After remarks by Messrs. Cass, Collamore and Clayton, all quite national and hopeful, peaceful and patriotic, Mr Seward obtained the floor, when the subject was postponed, and the Senate adjourned until Thursday.

HOUSE.—Mr Setter offered a resolution for the election of a Speaker by a plurality vote.

On motion of Mr Wheeler, the resolution was tabled, by 106 against 100.

Mr Tyson submitted a resolution in a spirit of compromise for the election of a Speaker by a plurality, giving candidates receiving not less than 24 votes the appointment of standing committees, in proportion to their relative strength. The resolution was rejected.

Mr Campbell, of Ohio, called attention to a letter written by his colleague, Mr Wade, published in the Cleaveland Herald, severely reflecting on him (Mr Campbell) and others, in connection with the resolution of Mr Thorington, declaring Mr Campbell Speaker. He denied that he had any knowledge of Mr Thorington's intention, and repelled the imputation of treachery on his part. Mr Thorington testified to this, and pronounced Mr Wade's statements as to Mr Campbell unmitigatedly false in inference and fact.

Messrs. Lester and Sherman each said that Mr Campbell would have appealed to Mr Thorington to withdraw his resolution, while it was being voted on, had they not dissuaded him.

Mr Dunn said Mr Wade sent his slanders abroad covertly, not having the courage to assert them openly; the attacks were like those of an assassin.

Mr Wade explained. He still thought the introduction of that resolution, without consulting Mr Banks's friends, damaged the prospects of the Republicans. He made no direct charge, but was warranted in drawing this inference, from the facts these transpiring. After some other unimportant explanations, the House proceeded to take the 128th ballot.

Banks 97, Fuller 35, Edie 2, Williams 1, Orr 67, Pennington 3, Harris, (of Ill.,) 1, necessary for a choice 104. Adjourned.

LATER FROM CALIFORNIA.

ARRIVAL OF THE STAR OF THE WEST.

NEW YORK, Jan. 29.

The steamship Star of the West arrived from San Juan 19th inst., arrived this morning, bringing $1,276,000 in gold.

CENTAL AMERICA.—Gen. Walker it is said has now 850 Americans under arms. The suburbs of Grenada has been laid out into building lots and already sold. Walker has received by the last steamer an addition to his forces of 105 men besides 15 officers—120 in all.

CALIFORNIA.—From the mines we have the most cheering accounts. The recent rains have given the miners plenty of water and plenty of work. The exports of wheat during the past year has been quite large—equivalent to 132,566 bbls of flour. The total amount of wheat raised in California during the past year, is estimated as high as 2,526,442 bushels.

SANDWICH ISLANDS. — The dates from are to Dec. 8. G. M. Chase, late U S Consul at Lahaina, died there after an illness of three days. He was about 50 years of age. Mr Chase was born in Vermont, but has resided many years in Maine, which State he has represented in Congress.

They complain of a very dull business season at the Islands; but few vessels in, and generally with light cargoes.

OREGON.—The latest dates from Oregon are to Dec. 20. Previous accounts give the intelligence that Col. Kinney was marching with his command to attack Fort Walla Walla, which was then in possession of the Indians. No intelligence had been received from the expedition up to the date of the sailing of the Panama, and fears were entertained for the safety of Col. Kinney's party.

MARKETS.—*San Francisco, Jan. 4.*—Flour—Domestic and Oregon at $9 50 a 10 50; 300 do domestic self-raising at $11, and 90 bbls Haxall and Gallego at $15. Sugar—Sales 50 bbls crushed at 11 1-2 cents, cash.

SLAVE TROUBLES IN KENTUCKY.—*Cincinnati, Jan. 28.*—A stampede of slaves from the border counties of Kentucky took place last night, the whereabouts of several of the fugitives having been discovered here, officers at noon proceeded to make arrests. Upon approaching the house where the slaves were secreted, the latter fled, wounding two or three spectators, but not seriously. One slave, finding escape impossible, cut the throats of her children, killing one instantly and severely wounding two others. Six of the fugitives were apprehended, but eight are said to have escaped.

LATER FROM MEXICO.—*New Orleans, Jan. 28.*—By the steamer Texas we have Vera Cruz dates to the 22d inst. Talirey had conspired to overthrow the Government and establish an empire, but was arrested before his plans could be put into execution. He subsequently, however, escaped, and was joined by a powerful army with which he was besieging Puebla with good prospects of success.

Generals Pacheco and Seirco came passengers by the Texas, having been exiled for their connection with Haro.

HORRIBLE.—We learn from the Harrisburg Telegraph that a young lady of Cumberland County, while sleighing, one night last week, was frozen to death. She complained to her companion early in the evening of being very cold, but there being no public house near they did not stop. Soon after, on coming to a tavern, she refused to get out, saying she felt very comfortable, and they drove on. Arriving at home, she had to be assisted out of the sleigh, in a stupor like manner, and shortly afterwards expired.

The Monthly Nautical Magazine,

Devoted exclusively to the Maritime Interests of the United States, embracing Ship Building, Commerce, Navigation and Marine Engineering.

ONE of the leading objects of the Editors will be to furnish correct data, upon which mechanics, merchants and mariners may confidently rely in finding an epitome of mechanical, commercial and nautical intelligence.

It will be the province of the Nautical Magazine to chronicle the march of nautical enterprise, and sketch the achievements of the living age; to aid research and investigation, and present the truths of unfolding science; to combine the experience of the ship-builder and navigator, and direct in harmony their united efforts to elevate the altitude of this excelling art, by diffusing from a nautical press the mechanical wonders of the ship and sea.

The work contains draughts of some of the finest vessels of the age, with other engravings, and is one of the most valuable publications of the country. Lithographs of vessels will be frequently inserted. Terms $5 per annum.

The January number, containing eight Plates, may be seen at the Bookstore of

Singer's Sewing Machines.

THESE Machines have long sustained the highest reputation in the United States.

The First Prize—A Gold Medal,

Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.

The inventor has just added to these superior Machines an improvement whereby they can work on any kind of

FAMILY SEWING,

From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine professes.

They will also Bar and close all kinds of Kid Boots and Shoes, and stitch the finest Gaiter Boots in every part without a skip—making them the most desirable for girls to use at home, or for any who wish to do more than one kind of work.

These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.

They run without noise, with ease to the Operator, and at double the ordinary speed, so that

Twice as much Work can be done in a Day.

The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.

They are simple, and cost scarcely anything to keep them in repair; and can be operated by a child twelve years old.

Old Sewing Machines of any patent taken in part pay for new Machines.

These Machines may be had at Manufacturers' prices, of

THOMAS S. NOWELL,

Local Agent for New Hampshire, at his Shoe Manufactory, Mechanics Block, Portsmouth, where they may be seen in operation. d29

QUEER THINGS.—In 1528, the magistrates of Lucerne ordered the house of Collings to be searched, for heretical books. Hess, the biographer of Zuinglius, relates, that the monks, finding a copy of Homer, pronounced it, at once, to be a Lutheran work, and condemned it to be burnt. "All, that is Greek," said they, "is Lutheran." The works of Aristotle, Plato, and the Greek poets were therefore given to the flames.

A Swiss monk said to his congregation—"Beware of Greek. There is a new language, called Greek, invented by the heretics. A book printed in that language, called the New Testament, contains dangerous things, daggers and poison. Hebrew is another new language; whoever learns it becomes a Jew."

The faculty of theology at Paris boldly proclaimed, before the French parliament, in those days, that religion would come to an end, if the study of Greek and Hebrew were permitted.

Wishart, the martyr, was summoned, in 1534, before Chisholm, Bishop of Brechin, on the charge of teaching Greek, and fled the realm, to save his life.

"We must root out printing," said the Roman Catholic warden of Merton College, "or printing will root out us."

Roman Catholic ignorance, in those days, was not greater than some other. Fuller says, that, when the monasteries were about to be broken up, all books, having crosses upon them, were condemned for *popery*; and those with squares and circles, for *conjuring*.—*Boston Transcript.*

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with U S Patent Office, Washington.

B. H. EDDY,

No. 76 State st., oppo. Kilby st., Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered in previous by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the whole business through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not unquestionably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and its usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries through agents of the highest respectability.

B. H. EDDY,
Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, B. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1858.—During the time I have held the office of Commissioner of Patents, B. H. Eddy, Esq., of Boston, has been extensively engaged in the prosecution of business with the Patent Office, as Solicitor. It is the thought, acquainted with the laws and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MAGINN,
Commissioner of Patents.

LIQUID CATHARTIC,

Family Physic.

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe and agreeable Physic ever offered to the public.

THE necessity of such a Medicine has long been felt both by the heads of families and Physicians. Its advantages over cathartics given in the form of Pills or Powders, must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely cures habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, regulates the action of the Liver, frees the Stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as

RHEUMATISM, NEURALGIA, TIC DOLOREUX, GOUT, PAIN IN THE HEAD, SIDE, STOMACH, &c.

It may also be relied upon in all diseases of the Bowels; *Dysentery, Diarrhea and Cholera Morbus* yield at once to its magic influence. Again we repeat, TRY IT!—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success, despair not—relief is now at hand. Are you suffering with Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness?—three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles—In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1.00.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, an I has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by W. Gibson, MD, Prof. of Surgery, Pa. University. Valentine Mott, MD, Prof. Surgery, N. Y. Univ'ty. W. P. Dewees, MD, Prof. of Mid., Pa. University. N. Chapman, MD, Prof. of Physic, Pa. University. I. Parke, MD, Pres. College Physicians, Phila. Dr. Del Valle, Prof. of Medicine, Havana. Jose Devergie de Luz, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain.

J. Chipman, Member Royal Col. Surg., London. Sir Thomas Parsons, Maj Gen British Army. Gilbert Robertson, British Consul, &c., &c.

And also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA."

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, Philadelphia, in the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine Swaim's PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing the *somewhat* similar name, well calculated to deceive.

A FEW WORDS ON THE RATIONAL TREATMENT, without Medicine, of Spermatorrhea or Local Weakness, Nocturnal Emissions, Genital and Nervous Debility, Impotency, and Impediments to Marriage generally.

BY R. DE LANEY, M. D.

The important fact that many alarming complaints, originating in the imprudence and solitude of youth, may be easily removed without Medicine, in this small tract clearly demonstrated; and the new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled to CURE HIMSELF PERSONALLY, and at the least possible cost, thereby avoiding all the advertised nostrums of the day.

Sent to any address, gratis, and post free in a sealed envelope by remitting (post paid) two postage stamps to Dr. R. DE LANEY, No. 17 Lisgard Street, New York City. s12 d&w6m*

AN APPEAL

TO WHOEVER MAY CHANCE TO READ IT.

BY W. A. P.

Up, brother man, and be
True to thine own deep soul;
Be thou in thought and action free;
Spurn thou the world's control!

Fear not to singly stand
And battle for the right;
God's angels, on thy either hand,
Go with thee to the fight.

Nor church, nor clan, nor state,
Thy labors can annul;
None can destroy, and none create,
Such gems as thou dost cull.

If rightly thou dost go,
Through truth's fair field and broad,
To gather newer seed to sow,
To bear its fruits for God.

The past its work has done,
The present it is thine,
Thy race must here and now be run,
Thy mission is divine.

Seek, think, and dare, and do,
And suffer, if thou must;
But be to thine own conscience true,
And thus fulfil thy trust.

South Berwick, Jan. 27, 1856.

FLIRTATIONS OF MARRIED WOMEN.—The recent occurrences in Boston form the text for a sensible sermon by the Hartford Courant. The improper "flirtations" of the two married women with young men has blasted their characters forever, caused the death of an amiable but weak young man, and imprisoned the husbands on a charge of murder. Says the Courant:

The "innocent flirtation" of married women is one of the abominations of modern society. Even the promiscuous desire for admiration is wrong in the wife. Let her be ever so beautiful, it is a disgusting, an appalling sight, to see her decorating that beauty for the public gaze—to see her seeking the attention of all the senseless fops around her, and rejoicing in the admiration of other eyes than those of her husband. There is always among the sedate and the wise a sensation of disgust when a married lady attempts to ensnare and entrap young men by a profuse display of her charms, or an unlicensed outlay of her smiles. Such charms and such smiles are loathsome to the indifferent beholder—"the trail of the serpent is over them all."

Such wives should know, if they do not know it already, that their influence over the virtue and prudence of young men is as deleterious as if they were the most abandoned of women. They lead them to believe there is no purity in the sex—that married virtue is but an outside show—and that delicacy and propriety are but masks or outside dresses. The effect of their character is that of a silent corruption, sapping the foundation of honor, and probity and truth. Let them beware.

HE CUT HER NOSE OFF.—A widower with three grown-up girls, who lived near Warren's landing, on the Wisconsin side of the Mississippi, felt a natural desire to see them married. For this purpose he encouraged the visits of an Italian at the house, and did what he could to induce his eldest daughter to have him.—She, however, strenuously refused. Last week the fellow called and requested a few words at the door with the girl, and when they were alone, he seized her by the nose, and with a pocket knife cut it off close up to the bridge. He escaped.

THE GREATEST SLEIGH RIDE OF THE SEASON.—The citizens of Great Barrington, Egremont, Van Deusenville, and Houssatonic, to the number of some two hundred or three hundred, turned out last Tuesday for a sleigh ride to Lee. They filled some 13 omnibuses, besides some smaller vehicles for courting purposes. The Mahaiwe Cornet Band of Great Barrington, and a Quadrille Band from Bridgeport, were in attendance, and music ruled the merry hours. The gay procession, with its flags and pennons, and its brilliant equipages, made a rare spectacle on our wintry roads.—*Pittsfield Eagle.*

Harrison's Blue Black Writing Fluid
PROGRESS in the arts has revealed a Writing Fluid which does *not*, as other Writing Fluids *do* destroy the *points* of gold pens, actively corrode steel pens, or *chemically decompose the paper* or its *coloring*. I have seen paper where every letter written with English Fluids was eaten entirely through, and a delicate blue tint changed to a dirty yellow. The best make of gold pens have been condemned for losing their points, and the best manufactorys of paper returned upon the dealer, where these Fluids were extensively used. Harrison's Fluid is subject to none of these evils. It writes a beautiful blue, and soon turns a jet black, and remains permanent. HARRISON'S AMERICAN, *made* by an AMERICAN, and worthy the use of all Americans. It is wholesaled and retailed by

GAMMON.

Under the above most appropriate head, the Concord Daily Patriot of Jan. 26 has the following item:

The mayor of Nashua, in a communication in the Telegraph, states his opinion that liquor is "sold more boldly of late, at all or nearly all the old haunts" where it was formerly sold; and he says the police officers have orders to prosecute all violations of the liquor law, &c. This admission that liquors are "sold more boldly of *late*," is worth something as proof of what we have asserted, viz: (1) that the supporters of the liquor law do not try to enforce it—that they do not intend to enforce it(1), that they intend to wink at its violation *until after* election, and that it is so understood by those interested in the liquor trade.(2) But the talk about orders to prosecute, is probably all gammon; or if such orders have been given, the officers well understand that they are not to be obeyed.(3) If liquor is sold so boldly as the Mayor admits, there will be no difficulty in finding evidence, and therefore no excuse for a failure to prosecute.(4)

In another article in the same Patriot, purporting to be condensed from the N. H. Democrat, and speaking of a temperance meeting at Tuftonboro', we read as follows:

It was more truly and appropriately stated that rum-drinking is alarmingly on the increase in this State, while we have a law which, if enforced, would stop the sale of rum at once. Why then is rum-drinking on the increase? The answer is plain; the liquor law is not only not enforced, *but it is used by its supporters to increase the sale and use of rum.*(5) Its supporters not only counsel and protect its violation *until after the election*,(6) but the hundreds of rum-holes established under it are dealing out rum freely and for the basest of purposes;(7) the ranting advocates of the law are aiding in and facilitating this alarming increase of rum-selling and rum-drinking, and that too for political purposes.(8) This cannot be truthfully denied.(9)

Mr Wells, who is now stumping the State, against the new law, says, as reported in the Patriot:

If these party men had been sincere, they would have enforced the law; but it was not so. Perhaps they would have less compunction in acting after election.(10) Possibly they deem it bad policy to enforce the law at present.(11)

We copy the words in *italics*, as they stand in the Patriot, and add a few NOTES ON GAMMON, by Uncle Toby.

1. A statement something like this, included between the two figures 1—1, has been made many times and in many papers, but in our judgment on all the facts, in this corner of the State, it is not *true*. At No. 5, the N. H. Democrat says nearly the same; and at No. 10 Mr Wells repeats it for substance.

2, 5, 10. The amount of these three kindred items, is, that by the consent and connivance of the friends of the law, it is to be violated till after election, in order to effect that election—and that this is not so merely in a solitary case, or in a few cases, but is so general that the Patriot says "*the supporters* of the law do not *try* to enforce it—do not *intend* to enforce it—but *intend* to wink at it till after election—and that it is so *understood* by those interested in the liquor trade!"

The answer to this is, that the whole people in this city know it is not true as applied here. The liquor interest in this city, one and all, have no such understanding. On the contrary, they know that prosecutions have been commenced in several cases which have been stove off or defeated in various ways; that one of their number now lies in jail, and two more are under bonds to go to Court for trial.

3. This is gammon—not the talk, nor the orders—but the statement. The *orders* are observed, here, and in Exeter, as we learn from the best authority, both printed and verbal.

4. The *more boldly* sales are made, of course the easier it is to get proof—yet when lies are told for a three or six cent drink, and boldly sworn to, there is "*some difficulty*" after all in getting *legal proof*, even where a sale is well known, and generally believed.

5. So far as our part of the State is concerned this is not true.

6. See notes on 1, 2, 6 and 10.

7. The writer here means to throw a slur against Agencies. But so far as regards the agency in this city it is utterly without foundation. Its sales are not *free*—but made with care,—its books are open and can be examined.

8. So of this statement. It is utterly untrue so far as this neighborhood is concerned.

9. We deny it and call for proof.

10, 11. Mr Wells seems to speak as if he thought some political party responsible for this law, either in its passage, its enforcement, or its preservation. But a man of his years and experience should know better.

It was loudly called for, by the great body of active temperance men, for years—it passed the House some time ago—and was hailed with even extravagant hopes, by a great majority of people in the State, both men and women.

Uncle Toby didn't indulge these extravagant hopes. He had seen how often better means than human statutes have proved ineffectual, and therefore he warned his ardent friends against expecting too much from a law.

Now that the law is passed, however, he obeys it, and counsels others to obey. He sees no good reason to oppose it, and certainly can see none for telling lies either about the law or its friends and authors. He would rather let the law do all the good it can,—while he and those of his views, would rely chiefly on moral suasion, for the reformation of those who have themselves gone astray, and even of those who have tempted others.

He would also call on all lecturers and presses which speak so often in praise of *moral suasion* as the promoter of temperance—to use that suasion—not merely to talk about it, and especially not to "*denounce*" the law men.

REEDER ON KANSAS.

Our readers know already, that President Pierce sent in a message about Kansas affairs, to both Houses of Congress, some days ago, in which he laid the blame of the troubles in Kansas, at the doors of the Free State men, and of the Free States, and especially charged Mr Reeder, ex-Governor of Kansas and the free state delegate from that territory, with much of the blame.

To these charges Reeder has just issued a reply, which, though much shorter than the President's message, is yet too long for us.—We therefore give only an extract or two:

Unless the message shall incite and stimulate now invasions of our territory and fresh outrages upon our citizens, it will produce to us no regret, as it has caused no surprise.—After having seen our people trampled on, oppressed and robbed, on the one hand by the invaders of their soil, and on the other by the influence, the authority, and the officers of the present administration; after having witnessed the cold-blooded murder of an unarmed and unoffending citizen by an officer of the administration, who is not only unmolested by the laws, and unrebuked by the President who appointed him, but who has, perhaps, strengthened his official tenure and enhanced his chances of promotion by the act: it is not at all surprising that we should, by the head of that administration, be misrepresented and perverted. * * * * *

After having thus seen our natural and legal protectors joining in the most atrocious measures of oppression and wrong, it is no matter of surprise to see misrepresentation of our position and our objects emanating from the same source.

This is not the mode nor the time in which to discuss the themes of this message. Expecting, as I have a right to expect from the clearness of the exclusive title I am prepared to show, that I shall enjoy a seat and a voice on the floor of the House, I am willing patiently to bide my time." At the proper time and place, however, I pledge myself to meet and expose the mis-statements of facts and the errors of law and logic which it contains. I will show that there is nothing but cold cruelty and insult in the request of an appropriation to pay an army or a posse to prevent the *people of Kansas* from the commission of outrage and treason.

I will show that the movement for a state government is mis-stated as to its origin and progress, and that all we have done in this direction has been under the sanction of the precepts and examples of all the great men of the country for the last fifty years—of the legislation of Congress and the action of the Executive in repeated and well considered cases, and of deliberate opinion of a high and distinguished Attorney General of the United States, and which, as it is a part of the archives of the Executive Department, it is to be regretted the President did not consult before the delivery of the message. If it is illegality and incipient treason for a new state to be formed without an enabling act of Congress, I will show that fourteen Senators of the United States hold their seats, and seven states stand in this Union by virtue of illegal and treasonable proceedings—that Congress has sanctioned revolution, illegality and treason, again and again; and that the rank and noxious weed has even flourished in the White House and the Executive Department; and, having vindicated my people, I will also, with the utmost confidence of success, proceed to the minor and secondary task of vindicating myself in such a manner, I trust, as to show the attack to have been ill-advised and unfortunate.

Mr Charles A. Randall, for the past fifteen years connected as compositor with the daily press of Boston, died on the 28th inst. His disease was consumption, from which he had suffered for nearly twelve months. Mr Randall was a native of Lenox, Mass., and was 37 years of age. He leaves a wife and five children. The deceased was remarkable for his industry, regularity of life, and probity of manners.—*Courier.*

GAMBLING IN KENTUCKY.—A bill containing some very stringent provisions against gambling passed one branch of the Kentucky legislature last week. It interdicts gambling with cards among friends, and provides for the incarceration of a faro dealer in the penitentiary who allows a person under 21 years of age to bet at his bank.

The Life-Saving Stations along the shores of New Jersey and Long Island are without means, owing to the inability of Congress to provide appropriations, consequent upon the non-organization of that body. Private aid will do something, but serious result are liable to occur if these life-saving shelters for wrecked mariners are not kept up by the government as usual.

The government has ordered two brass mortars for the port of New York, with shells for throwing lines to ships in distress.

ARRIVAL OF THE GEORGE LAW.—The steamer Geo Law, with the California mails of Jan. 5th, arrived at New York on Wednesday forenoon. She brings $880,000 in gold.

Peru and Bolina were quiet, but there were indications of another revolution in the former country.

Sloop-of-war St Marys, from Sandwich Islands, was at Talcahuano, Dec 13, recruiting.

LOCAL.

☞ A gentleman of this city informs us that in 1770, as he learns from a record, there were in the Town of Portsmouth 10 licensed taverns, and 122 licensed retailers of spirits. The population at that time was not over 5000, or half what it is now. All licenses then were given "for the public good."

AN ATTRACTIVE ENTERTAINMENT.—The celebrated Tyrolean Alpine Singers, the Hoffer Family are to give a Concert in our city on Saturday evening. We congratulate our readers, on the treat that is in store for them, for we have no doubt that the above named family will make as favorable an impression on the musical public of Portsmouth, as they have in other places, if they are all they are represented to be by the press which has bestowed on them very flattering encomiums. The Tyroleans are emphatically accomplished musicians, and there is therefore little doubt that those who patronize them will get their money's worth. It is said that it is alone worth a "quarter" to look at their beautiful and costly costume. *

☞ The dedication of Exeter Town Hall is to take place this evening.

ROBBERIES AT GREAT FALLS.

SOUTH BERWICK, Jan. 29.

Dear Chronicle:—I have just learned that the Depot at Great Falls and the N. E. Protective Union Store, were broken into on Friday night of last week, and robbed of money and various other articles which could conveniently be moved. On Saturday night an ineffectual attempt was made to gain an entrance into the Post Office. It is supposed that the reason of their desisting in their efforts at this point have must either been that the shutters of the window were so securely fastened that they could not be removed without too much noise, or the robbers were frightened while at their task. Robberies have become quite frequent of late in that village, as it is but a short time since robberies were committed there to the extent of several thousand dollars.

Rev. Mr Tomlinson, who was a few weeks since invited to asume the pastoral charge of the First Congregational Church in this place, has to-day declined the invitation, much to the regret of the Society. M. L. G.

WASHINGTON NEWS.

Washington despatches of the 29th, say:

As Mr Horace Greeley was leaving the capitol this afternoon, he was attacked by Mr Rust of Arkansas, who with his fist inflicted several blows on his head; and afterwards, when Mr Greeley was approaching the National Hotel, Mr Rust struck him a severe blow on the arm with a stick. The assault is presumed to be in consequence of strictures in Mr Greeley's Washington letter in Monday's Tribune, on Mr Rust's proposition in the House, requesting candidates for the Speakership to withdraw from the contest.

The Boston Advertiser's special despatch says that Rust, the assailant, is a large man, perhaps the strongest man, physically, in Congress. Greeley, it is well known, is slender; and it is said he defended himself as well as he could, but was severely injured, though not disabled. It is also said that he will not prosecute him for the assault.

On the 29th the House of Representatives made a single attempt to elect a Speaker, with the result which has followed its previous trials. The Boston Courier says:—

The proposition of the Washington Union for a connection between the National Democrats and the National Know Nothings was broken to pieces by a very decisive vote, and by the *arguments* of Mr Valk of New York and Mr Letcher of Virginia.

The ground appears now to be fairly covered. The Democrats will not agree with the Republicans—in principle. They cannot unite with the Southern Americans—upon policy—and the latter named party will not unite with them except they have the privilege of selecting their man for Speaker, and that man is not to be one who has been named in any Democratic caucus. The chance for an agreement does not appear to be favorable, and the different parties lie off in opposition to each other through dislike. The predictions of the telegraphic wire that a Speaker will be made in a day or two are merely chips or shavings.

CITY OF SAN FRANSISCO.—On Dec. 20th the U. S. Land Commissioner confirmed the claim of the Catholic Church to the Mission Church buildings, the graveyards, orchards, and vineyards attached to them in the twenty-one old missions of California. Since then the claim made by Bishop Allemany for one league of land in each mission in behalf of the Christian Indians has been rejected.

The election for Aldermen in the 4th and 7th wards resulted in the choice of H. D. Jones and G. W. Bryant, the K. N. candidates.

It is understood that a suit will soon be instituted for the possession of the celebrated Leidesdorf estate for which the late Capt. Folsom held a deed from Ania Maria Spark, who professed to be the mother of Leidesdorf. It is stated that she was not, and a deed is on file here from parties residing in Copenhagen and professing to be the heirs of Leidesdorf, transferring the entire estate to a man named Nozar. The property is advertised for sale with the remainder of Folsom's estate, on the 10th inst., but these proceedings may stop the sale.

Of the Governors of the States, 18 are Democrats, 3 Know Nothings, and 5 Republicans.

CONGRESS.

TUESDAY, Jan. 29.

SENATE.—The Senate Democratic caucus this morning nominated the Union newspaper for Senate printer by a vote of 18 to 5.

HOUSE.—Mr Underwood (Know Nothing) of Kentucky offered a resolution that each member of the House be voted for in rotation until some one receives a majority of the votes, provided it be a majority of the quorum any gentleman having the privilege of excluding his name who might desire. If no Speaker is elected in this way, the selection shall be made from the two who receive the highest votes. While thus voting no debate for personal explanation shall be in order except by unanimous consent.

Mr Richardson of Illinois, remarked the difficulty was there were already too many candidates, and the resolution made more.

Mr Underwood said he would not press the consideration of his resolution until to-morrow.

Mr Crawford of Georgia gave notice that he should to-morrow offer a resolution to elect a Speaker in one of the ways provided in the Constitution for the election of President, namely, by states, each state casting one vote for that officer.

Mr A. K. Marshall of Kentucky offered a resolution, suggesting that it is the duty of the respective parties to withdraw their nominations, leaving each member free from the control of caucus dictation, so that the House may make such selection of Speaker as the best interests of the country require. Mr M. said that although he had not consulted with the American members, he ventured to assert that if the tesolution passed, they would be ready to accede to one of the two proposals. First they will name a man of the Democratic party and unite on him, or secondly the Democrats may take a candidate from among the American members, both parties voting for him. He knew that if the candidate was chosen from among the Americans he would be elected.

Mr Milson of Virginia thought probably the election was defeated by the nominations made at the commencement of the session. The blame blame is attributable to all parties, and he took his share of the censure.

Mr Allison of Pennsylvania said the resolution violates the principle of squatter sovereignty as asserted by the Democratic party, which was to let people take care of themselves. The Republicans have selected their candidate.

Messrs Whitney of New York, and Cullen, said they could vote for no Democrat.

Mr Marshall withdrew his resolution.

Mr Stewart offered a resolution, to be concurred in by the Senate, that if no Speaker be elected before the 5th of February, the House adjourn until the 15th of May. The resolution was laid on the table and the House proceeded to vote:—

129*th Ballot.*—Banks, 99; Orr, 69; Fuller, 34; scattering, 8. Necessary for a choice 106.

Mr Whitney (K. N.) of New York offered a resolution for the election of a Speaker, leaving a blank therein to be filled with the name of the person who shall receive a majority of the votes.

Mr Letcher of Virginia asked Mr Whitney if he would vote against every Democrat who is friendly to the administration.

Mr Whitney replied that he would vote against a man who had taken part in the Democratic caucus, and denouncee the American party.

Mr Letcher remarked that every other National American would answer in the same way.

Mr Valk (Know Nothing) of New York in reply to a question by Mr Letcher, said there was one Democrat he would vote for.

Mr Letcher—"God bless me, what liberality."

Mr A. K. Marshall of Kentucky (to Mr Letcher)—Is there one American you would vote for?

Mr Letcher—No, sir. I declare myself a bitter, unyielding enemy to Know Nothingism. (Applause)

Mr Valk—In the language of the gentleman himself, "God bless me, what liberality." (Laughter.)

After further debate, the resolution was tabled by 133 against 49. Adjourned.

WEDNESDAY, Jan. 30th.

HOUSE.—Mr Crawford offered a resolution to elect a Speaker by States. He said the House was absolutely bringing itself into contempt.

There was less anxiety on the part of the people relative to an organization now than there was four weeks ago. He appealed to State rights men to sustain the proposition.

Mr Todd remarked that the proposition is repugnant to the constitution of the House. Members are here to represent the people, and not independent sovereignties. It would be unjust, because it would give the power to organize to the minority.

If gentlemen were anxious to organize on the expressed will of the people, they should give way to the great majority.

On motion of Mr Todd the resolution was laid on the table by a vote of 175 to 52.

Mr Clingman offered a resolution to elect a Speaker by plurality vote, if no choice shall be made in the next three trials.

HAYTI.—The defeat of Souloque, the black emperor of Hayti, is confirmed by a late arrival at New York from Jamaica.

In the conflict General Defresn of the Haytien army and another General officer were surrounded by the Spaniards and fell before superior numbers. The fortunes of war decided in favor of the Dominicans and the forces of Soloque were driven back with great slaughter. The Emperor had disappeared altogether, and it is said he ran like a coward on the day of battle, it is supposed he has been killed by the Spaniards, or died from the fatigue of the match homewards.

Soloque's mutilated army had not yet returned, but as soon as the disappearance of the Emperor was made known at the Capitol, a provisional Emperor was proclaimed who will in all probability succeed to the reins of power.

☞ The Lowell Museum building was again destroyed by fire on Wednesday morning, about 4 o'clock. Loss in building and contents $17,000. Insurance 4 or $5000.—Three years ago, the building was burnt out. It was a brick building of four stories.

Singer's Sewing Machines.

THESE Machines have long sustained the highest reputation in the United States.

The First Prize—A Gold Medal,

Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.

The inventor has just added to these superior Machines an improvement whereby they can work on any kind of

FAMILY SEWING,

From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine professes.

They will also Bar and close all kinds of Kid Boots and Shoes, making the finest Gaiter Boots in every part without a skip—making them the most desirable for girls to use at home, or for any who wish to do more than one kind of work.

These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.

They run without noise, with ease to the Operator, and at double the ordinary speed, so that

Twice as much Work can be done in a Day.

The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.

They are simple, and cost scarcely anything to to keep them in repair; and can be operated by a child twelve years old.

Old Sewing Machines of any patent taken in part pay for new Machines.

These Machines may be had at Manufacturers' prices, of

THOMAS S. NOWELL,

Local Agent for New Hampshire, at his Shoe Manufactory, McDonough street, Portsmouth, where they may be seen in operation. d29

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington,

R. H. EDDY,

No. 76 State st. cor. Kilby st. Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered at these elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him peculiarly competent, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procurel of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability.

R. H. EDDY,

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS. MASON,

Commissioner of Patents.

G. W. STONE'S

Cough, Consumption, and Bronchitis

ELIXIR.

THE Proprietor would respectfully call the attention of the public to his invaluable Remedy for all Affections of the Throat and Lungs and begs of those who are undecided what to select, from the numerous medicines advertised, and recommended for such complaints, to give his ELIXIR a trial. Having done so, they will no longer hesitate what to take themselves, or recommend to others. A single trial will prove to them that this is the most valuable remedy ever discovered for the various affections of the Throat and Lungs. It will immediately relieve the most violent Cough, and in a few hours completely cure the most severe Cold. As a Preventive and Cure for Consumption, it has no equal.—It is purely Vegetable, contains no poisonous ingredients, is pleasant to the taste, and may be given with perfect safety to the delicate child. The numerous testimonials received almost daily from those who have been cured by it fully justify the assertion that no family should be without this Medicine. Let the sick give it to their Children who have the Whooping Cough or Croup, and they will alleviate at once the sufferings of their little ones. Price 50 cts.

Call for G. W. Stone's Cough Elixir, and see that his name, and Cough Elixir, with the words Boston, Mass., are blown upon the Bottle, without which none will be genuine.

G. W. STONE'S

LIQUID CATHARTIC,

—AND—

Family Physic,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe and agreeable Physic ever offered to the public.

THE necessity of such a Medicine has long been felt both by the heads of families and Physicians. Its advantages over other Cathartic Pills or Powders, must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It effectually clears all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels [illegible] It expels all humors from the blood [illegible] cures for the Piles, regulates the Liver and Stomach, cures the Dyspepsia, Bile, and invigorates the whole Nervous System, and removes the causes of all critical pains, such as

RHEUMATISM, NEURALGIA, TIC DOLOREUX, GOUT, PAIN IN THE HEAD, SIDE, STOMACH.

It may also be relied upon in all diseases of the Bowels; *Dysentery, Diarrhœa and Cholera Morbus* yield at once to its magic influence. Again we repeat, TRY IT—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success, despair not—relief is now at hand. Are you suffering with Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness?—three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1.00.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases springing from Impurities of the blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and it has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by

W. Gibson, MD, Prof. of Surgery, Pa. University.
Valentine Mott, MD, Prof. Surgery, N. Y. Univ'ty.
W. P. Dewees, MD, Prof. of Mid., Pa. University.
N. Chapman, MD, Prof. of Physic, Pa. University.
I. I. Parke, MD, Pres. College Physicians, Phila.
Dr. Del Valle, Prof. of Medicine, Havana.
Jose Eourenco de Lima, Prof. of Surgery, Lisbon.
G. W. Irving, late Minister to Spain.
J. Chipman, Member Royal Col. Surg., London.
Sir Thomas Parsons, Maj Gen British Army.
Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infants.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION

Swaim's Panacea is put up in green glass, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA;"

and having the name Jas SWAIM stamped on the sealing wax, also, on the label covering the cork; and a splendid engraving for the neck of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Du, bank note engravers, Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing a somewhat similar name, well calculated to deceive.

A FEW WORDS ON THE RATIONAL TREATMENT, without Medicine, of Spermatorrhea or Local Weakness, Nocturnal Emissions, Spiritual and Nervous Debility, Impotency, and Impediments to Marriage generally.

BY B. DE LANEY, M. D.

The important fact that many alarming complaints, originating in the imprudence and solitude of youth, may be easily removed without Medicine, in this small tract clearly demonstrated; and the new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled to cure himself perfectly, and at a trifling expense and cost, thereby avoiding all the advertised nostrums of the day.

Sent to any address, gratis, and post free in a sealed envelope by remitting (post paid) two postage stamps to Dr. B. DE LANEY, No. 17 Lingenard Street, New York City. s12 d&wcm

THE SMALL BILLS.

The Newburyport Herald, a paper of good ute among business men, laughs at the mbug crusade against small bank-bills, af- the following fashion:

There is something, however, wrong about s paper money, the great houses of Boston , though the Bank Commissioners don't ention it. The circulation of small notes is beneficial; and so the Lawrences, Millses, rders and Tuckers, who don't want the all notes, though they are about all we see the country towns where the people do all business—ask the legislature to abolish bills under $5. The argument they adce in favor of their motion is that it will p gold and silver in circulation, and give aracter and stability to our currency. Some ve been so wicked as to say, that it would this to a still greater extent, if they should olish all bills. It happens, however, that e of the small bills, that they are the chief pendence of the country banks, and of ss nsequence to the banks of Boston; and ce Boston cannot control the State, he asure is likely to be lost; at least it is as far found little favor in the legislature.— thout going into the question whether pa r money as a whole, is advantageous, it is dent that the suppression of small bills has been pop ar. EATHS FROM DRUNKENNESS AND

PLYMOUTH, MASS. Jan. 14, 1856.
Editor of the Telegraph:—Allow me her startling fact to that long catasffering and crime caused by rum. Saturday evening, a young man by ame of Samuel R. Dixon, induced two d women, both married and both moth- to accompany him to a locality where he d get the creature, by a promise of a pint o each. Here they obtained liquor a man by the name of Dugan. They all nk, and Dixon gave a bottle of the article one of them. Thus prepared, they proed a sleigh ride. They induced Samuel man to take a horse and sleigh from the ble where he was ostler. About 10 o'clock, M., they started for South Pond, about miles distant, where one of the colored men had two young children. The track s not broken. They were all more or les oxicated. They got into the snow; tipped r four or five times, and when within a rter of a mile of their destination, found horse could go no further. They wand about, became bewildered and exposed he rain and sleet all night; toward morn- the women laid down in the snow from r exhaustion. Dixon then proposed to of the women to return with him to Plym- on foot, following the track of the sleigh said she could not move, and asked her panion to give her a little rum left in the . She drank and soon cosed to speak, as found dead next morning. About lock Sunday morning Lanman crawled cabin where the father and mother and n of the dead woman lived. They n search and found Martha Ann Melleir daughter, dead, while the other ne- sat by the body alive, but much exd. When the women became exhaust- xon attempted to find his way back to nth, but was found this morning with- ile of the town, dead. He had lost his d evidently fallen and bruised his face— able to make his way through the snow dropped down to die a miserable death t of a house. I have just returned the inquest on the bodies. Verdict— enness and exposure during Saturday and Sunday, Jan. 12 and 13.

ung Dixon is about 22 years old, a ome young man, white, of respectable s, who has run a short career of drunk- e and licentiousness, and died a miserable. The woman's husband was away at They can be loaded more rapidly than Sharp's, and will carry a two ounce ball or slug with great precision for a mile. They load at the breech. Common United States muskets can be supplied with the improvement, and furnished complete with bayonets, by the wholesale, at $12 apiece. Every pioneer to Kansas from the East should provide himself with a weapon of defence, with a good stock of powder and ball. The border ruffians have not yet given up their designs on Kansas. The only arguments with tyrants are those of a personal nature. Thayer's rifles are sold only to Free State men.—*Kansas Pioneer.*

Harrison's Blue Black Writing Fluid
PROGRESS in the arts has revealed a Writing Fluid which does *not*, as her Writing Fluids do destroy the *points* of goldpens, actively corrode steel pens, or *chemically decompose the paper* or its *coloring*. I have seen pap where every letter written with English Fluid was eaten entirely through, and a delicate blue tint changed to a dirty yellow. The best mat of gold pens have been condemned for losing their points, and the best manufactures of pap returned upon the dealer, where these Fluids are extensively used. Harrison's Fluid is subject to none of these evils. It writes a beautiful blue, and soon turns a jet black, and remains permanent. HARRISON'S is AMERICAN, *made* by an AMERICAN, and worthy the use of all Americans. It is wholesaled and retailed by

Morning Chronicle.

FRIDAY, FEBRUARY 1, 1856.

WASHINGTON NEWS.

The regular despatch of the 30th, from Washington, says:

When the main question was ordered to-day on Mr Clingman's plurality resolution, there was considerable applause from the galleries and some parts of the floor. The rumor soon spread through the city that the House was on the eve of electing a Speaker, and general satisfaction was expressed. The joy, however, was turned to sadness, by the announcement of the result of the vote. The resolution was voted for by Messrs. Clingman, Hickman, Barcklay, Herbert and Kelly, Democrats, together with the Republicans, but was defeated by the votes of the Democrats and Americans, joined by Messrs. Dunn, Scott, Harrison, Moore, Haven and Wheeler, impracticables usually so styled, with Mr Campbell of Ohio.

The Boston Advertiser's special correspondent accounts for some votes by pairing off, and suggests that the plurality motion may be reversed and prevail to-morrow. But he prints *to-morrow* in italics, and puts in a query(!)

The Boston Courier says:

As the majority appears to be disposed to have no Speaker, it may be presumed that another month at least will elapse before a candidate may be chosen. The friends of Mr Banks should now take him out of the field, and present some other man who is less obnoxious to the majority. It is very plain that they cannot elect him.

Not quite so *plain* yet,—although it is not certain they can. We have seen nothing yet so promising for an election, as the vote of the 30th, on the plurality resolution. Nevertheless, there is no *certainty* about the matter.

Correspondence of the Chronicle.

THE ABOLITIONISTS AND THEIR LATE MEETING.

REPLY TO THE GAZETTE.

SOUTH BERWICK, Me., Jan. 29.

Messrs. Editors:—I perceive that the Portsmouth Daily Evening Gazette of Saturday last takes exception to an epistle of mine which appeared in the columns of the Chronicle of a few days previous, entitled "Progress in Freedom's Cause." I beg leave to reply through your columns. The subject was a meeting of the Massachusetts Anti Slavery Society. The Gazette says I represented the Radical Abolitionist meeting as being unusually well attended. It was, and of this fact I consider myself fully competent to judge, as I have attended them for the last five years. Those meetings have never been so well attended as Rum and Pro-Slavery meetings in Boston, and this one was not, and probably from this the casual looker-on of the Boston Herald judged. It was unusually well attended for a meeting of Abolitionists.

S. S. Foster did not say that disunion sentiments were *growing unpopular*, but that he could make no new converts.

The editor of the Gazette may look at the church for his criterion of Christianity, if he looks any where, but we do not. We look directly to the founder of Christianity, Jesus of Nazareth, and judge from his acts and his teachings whether a thing be truly Christian or not, and the life he lived and the precepts he taught, we contend, are directly and distinctly opposed to all oppression and slavery. Abolitionism teaches as its prominent principles the universal brotherhood of man, universal justice, freedom to the captives, and enjoins upon its adherents the remembrance "of those in bonds as bound with them." We can safely leave it with the intelligent readers of both the Chronicle and the Gazette to judge for themselves, whether these things are Christian or not. The Gazette closes by asking, "Is it not rather too late in the day for such sentiments to be circulated by sensible men or presses that claim the support of a reasonable public?" We ask is it not too early in the day for this, if the people of the United States are prepared to follow in the filthy wake of such corrupt and unprincipled men as ——— ——— and ——— ———, images in the presence of whom the "stocks and stones," and "strange Gods" of past ages, and even the Jews who crucified Jesus, are comparatively as pure as the virgin snow which to-day rests upon the bosom of the earth? Is it not *too early* if the people of this land are willing to say theoretically and practically that there is no law higher than the constitution of the United States? I have put the question; let each man answer in the secrets of his own heart.

But in closing let me acknowledge the useful emanating from the midst of evil. We would say a word of Mr Fuller's "Portsmouth Almanac and Rockingham County Hand-Book," which we have recently had the privilege of examining. It is a useful publication, and should be in the hands of every citizen of the county. W. A. F.

SUICIDE.—On the 23d December a young man entered a tavern in Leeds, Eng., and sitting down by the fire, put the poker between the bars of the grate until red hot, when he deliberately thrusted the heated end down his throat. The bystanders immediately seized him and removed the poker, but he died on the 28th ult.

OHIO.—On the 30th, in the upper House of the Ohio Legislature, Mr Brown introduced a preamble and resolution reciting the circumstances of the recent slave case in Cincinnati, denouncing the participators in the arrest, and requesting the Judiciary Committee to inquire into it, and report a law to prevent the recurrence of such scenes in Ohio. After debate the resolution was adopted, but afterwards reconsidered and referred to a committee.

LOUISIANA.—New Orleans papers contain the message of Gov. Herbert of Louisiana, which treats altogether of local matters, except in the concluding passages, which speak of the aspect of the slavery question and anticipating continual aggression, considers the time for compromise as past, and advises preparation for the issue.

☞ A proposition has been introduced into the Senate of Massachusetts, for a legislative celebration of Washington's birthday, to which the Governor and all the departments of State shall be invited, and where shall be read Washington's Farewell Address.

☞ The morning passenger train from Portland for Boston, on Thursday, met with an accident near the Ice house one mile south of Wenham station, on the Eastern Railroad. A wheel of the locomotive broke, and the engine ran off the track on one side, and the baggage car on the other. The first passenger car, as it went on, pressed against a corner of the baggage car, and tore a sad hole in its own side. Several persons were injured. Among them were Messrs Ira Haselton, A. J. Penhallow, George Akerman (baggage master), and James Akerman (engineer), of this city; Mr Jones of Rye, and Mr Lamprey of Hampton were injured by broken glass.

The accident caused a delay of two hours and a quarter. A freight train was at Wenham, to follow the passenger train, and a messenger was dispatched to notify the engineer of the accident. Mr Russ, the station master at Wenham, came out to the wreck; and, after aiding in clearing away the track, fell, and died in the snow, just as he was about to return. He was subject to a disease of the heart, and his exertions doubtless occasioned his sudden death.

FROM AUSTRALIA.—The advices from Melbourne are to the 2d of November, and from Sydney to the 27th October.

The Melbourne Argus informs us that rich veins of quartz have been discovered about 20 miles from Geelong. An assay by crushing and amalgamation gave at the rate of 880 ounces to the ton. There was a great rush of miners to the spot.

Several failures had taken place in Sydney, which created considerable want of confidence in monetary circles, and especially in the Joint Stock Bank, on which a run had been made, although to a small extent. Other failures have been anticipated, but it is supposed the crisis had passed.

A severe shock of an earthquake was felt at Taranaka on the 22d of October, by which several buildings were destroyed.

THE NORTH AND THE SOUTH.—In the State of Maine, which has no slaves and not enough of free colored inhabitants to give that State the least direct interest in emigration to Liberia, the shipbuilders have subscribed money to build a ship to be presented as a free gift to the Colonization Society.—The State of Virginia, under pretence of aiding the same society, has laid a capitation tax upon the free colored people. Under this tax act fifty thousand dollars will be raised, which sum the generous and high minded State of Virginia has nobly appropriated to meet the expenses of the State Government, leaving the Colonization Society to whistle.—*N. Y. Tribune.*

PLAGIARISM.—Many of the English clergy are noted for preaching sermons which they never wrote. One of them was charged in one of the journals with having announced to his congregation that the sermon he was about to give them was borrowed, and he thus defends himself.

"I have mostly preached my own sermons, and still do—such as they are; but I have not hesitated to preach other persons' sermons when time and circumstances rendered the production of two original sermons of my own either inconvenient or intolerably irksome. I justify the practice to my own mind by some such considerations as these; —1. That all ministers, at times, borrow the *thoughts*, and very many, the *language* of other writers, although they may not acknowledge it; 2. That it is better to do this than to preach crude and vapid discourses, hastily and imperfectly thrown off at the moment for want of leisure or spirit to write; 3. That, after all, it is the *truth* of a sermon, and not the writer of it, that does, or ought to do, the good; 4. That by this occasional use of sermons time and energy are husbanded for other ministerial employments; 5. I did not feel comfortable at the thought of palming off other men's sermons as my own, (a sort of pious fraud) and, therefore, I candidly told my people what I intended to do."

Washington Irving, it is said, is much blamed by the members of the Masonic fraternity, for having omitted all notice of the connection of General Washinton with the "Mystic Tie," while the records of lodges in Virginia show that he was not only a "bright mason" but much attached to the fraternity. The Potomac Lodge still possesses the "gavel" used by Brother George Washington when he laid the corner stone of the capitol, on the 21st day of September, 1793.

The Episcopal Recorder recommends the institution of class meetings in Episcopal churches, upon the Methodist model.

LOCAL.

JERRY'S POINT.—Every mariner hereabouts, and many other people, know that the South Western extremity of New Castle or Great Island, is called Jerry's Point. But who was Jerry? Uncle Toby has often put this question, but could get no answer.

Lately, however, the Surveyors of the Coast have called it, on their chart, Jevry's Point. And, all at once, as Uncle T. looked at this name, it occurred to him that Mr. Jaffrey or Jeffrey, a merchant of Great Island near two hundred years ago, owned this point, and built his house there, which is still standing,—and therefore it may be set down as a certain thing that the old name was *Jaffries Point*, or Jeffries! We have Jaffrey's ledge on our charts, probably named from the same person or family. Jeffrey's, by the Shoalers and others would easily be corrupted to Jevrey's, and then to Jerry's. This was doubtless the origin of the unmeaning name, Jerry's Point. On the new map of Rockingham County, it will read Jaffrey's Point.

SINGULAR ACCIDENT.—A young lad named Stearns, residing in Winter street in this city, was badly wounded in the hand, by the premature discharge of his gun, which he was loading in the house, on Thursday forenoon. The gun was not capped or cocked, and had not been fired since the previous day, yet while he was ramming the rod home, the charge exploded,—shattering his hand, blowing off a portion of the barrel at the muzzle, and sending the ramrod half into the chamber above. There were several other persons in the room with him, but they were not injured. Dr. Perry dressed the boy's hand, and he is now doing well.

"Don't meddle with that gun, Billy! it may go off, even if it isn't charged!"

STRIKE WHILE THE IRON'S HOT.—A capital illustration of doing the right thing at the right time, was given on the occasion of the Anniversary Meeting of the City Missionary Society, at the North Church in this city, a few weeks since. After the Missionary read his report, brief, but feeling and effective speeches were made by Rev. Messrs. Lamson, Holman and Whiting. Mr Whiting spoke last, and at the close of his remarks, requested some gentlemen who were prepared for the occasion, to circulate subscription papers, among the audience, for replenishing of the City Missionary funds. One gentlemen subcribed $20, one $15, many $10, and $5, and many gave each $1. Upwards of $200 were realized.

Besides this, about $40 has been furnished directly to the City Missionary, since that time, by different individuals, for the benefit of the "cherry toes" family,—thus making a handsome aggregate of about $250 for this valuable charity, which had before received no outside aid for several months.

POPULATION OF PORTSMOUTH.—We stated the population of the town to be in 1770, not over 5000. We perceive, on reference to our old Gazetteer, that in 1775 it was 4590; in 1790 it was 4720; in 1800, 5339; 1810, 6934; in 1820, 7327.

☞ Rev. Mr Ames, editor of the Minnesota Republican, lectures this evening at Hanover Street Chapel, on Minnesota.

☞ The Rehearsal for the Old Folk's Concert, takes place this evening, at Exchange Hall.

Correspondence of the Chronicle.

FIRE AT SOUTH BERWICK.

SOUTH BERWICK, Jan. 31.

Dear Chronicle:—A wooden building owned and occupied by William Preston, Esq., as a manufactory of cotton table-cloths, was burnt to the ground last evening, at about 10 o'clock. The building was situated in the Berwick portion of South Berwick village on the old road to Great Falls. It had just been built by Mr. P., and at the time of its destruction contained about $700 worth of goods, besides 40 looms. The loss cannot be less than $1000, over and above a small insurance at the York Co. Mutual,—a loss which Mr. P. is illy able to sustain. The fire is supposed to have been the work of an incendiary.

John Frost, Esq. the post master at this place, has been removed, and William A. Cromwell, Esq. formerly of your city, appointed in his place, and enters upon his duties to-morrow, Feb. 1. Both gentlemen are members of the Administration party. M.L.C.

MORE HOLIDAYS NEEDED.—The heart of man craves occasional relaxation and diversion. So does his body. Nature will indemnify herself, if these shall be denied. Our Sundays, which all of us are desirous of preserving and keeping holy, as of yore, will be desecrated and turned into days of sport and amusement, if other occasions shall not be supplied. We may regret, we may condemn, but cannot help it. To prevent so great an evil, of which Europe furnishes a sad example, let us add to the number of holidays from time to time, and thereby do what we can to rescue the Sabbath from that desecration, which is growing more common every year, and from which religion has so much to apprehend.

CONGRESS.

WEDNESDAY, Jan. 30.

HOUSE.—[Continued.]

Mr Clingman offered a resolution to elect a Speaker by plurality vote, if no choice shall be made in the next three trials.

He (Clingman) said if the resolution was adopted the majority must concur in the election. It was necessary to organize, and two months had been spent in vain expedients to do so. It would devolve on the American party, upon the adoption of the resolution, to take their choice between Mr Orr and Mr Banks.

Mr Herbert earnestly appealed to gentlemen entertaing conservative principles to oppose the election of Mr Banks, whom he regarded as the representative of that fanaticism which would destroy the vitality of the Union.

Mr Letcher, looking at the present state of the political elements, could not recognise the principle which is calculated to place the South at a greater disadvantage than she now occupies. The result of the adoption of the resolution would be the [illegible]ction of Mr Banks.

Mr [illegible] opp[illegible]e resolution, looked up[illegible] Banks as one of the [illegible] storm that could befall the c[illegible] on accou[illegible] of the political principles [illegible] Mr B[illegible], which if carried out, [illegible]ld result in [illegible] death of the principles of the constitution and the revolution. He appealed to the Democracy to pause before they assisted in the election of Mr Banks.

Mr Bennett (of N. Y.) thought the only fair way of effecting an organization, under the present circumstances, was by the plurality vote.

Humphrey Marshall expected the Democratic party would generally vote against the resolution, but that there would be sufficient division in their ranks to effect its adoption. The people would hold them to as much responsibility for it as they would if they had thrown a lighted squib into a powder house.

Mr Greenwood made a motion that the resolution be tabled. Lost by a tie vote.

Mr Clingman's plurality resolution was rejected by 106 against 110. Adjourned.

SINGULAR ACCIDENT.—The queerest of all experiments occurred several times last week at Cincinnati. Little girls would, in returning from school, walk up to the lamp-post and touch it with their tongues, just to "see how funny it would feel." One morning, when the atmosphere was more than usually cold, a little girl put out her tongue to the chiselled metal, and the lamp-post embraced the talking organ so tightly that it was some fifteen minutes before she was released from her unenviable situation, although hot water and alcohol were brought into requisition. At last the relief was afforded by a gentleman who was passing, by placing his hand over the tongue of the child and blowing his breath thereon. The tongue was very much swollen, and the little girl could not speak for several days.

THE FIRST ALARM.

When the dred fire-bell shakes the air,
And upward shoots the lurid glare,
We do not wait the *second toll*—
Swift through the streets the engines roll,
And water, the fierce foe to tame,
Is poured in volumes on the flame.

And so when *Cough, Catarrh or Cold*,
Of Pleura, Lungs, or Throat takes hold,
The all-important thing to do
Is *Inflammation to subdue!*
For this the grand specifics are
Syrup of LIVERWORT and TAR,
Combined with CHANCHALAGUA.
If health renewed—*not death*—you choose,
This famous combination use.
Since *Dr. Rogers*—with whose name
Is linked this great specific's fame—
Proclaimed its virtues far and wide,
Thousands the remedy have tried,
To which this name they freely give,
Consumption's sure Preventative!

The Monthly Nautical Magazine,
Devoted exclusively to the Maritime Interests of the United States, embracing Ship Building, Commerce, Navigation and Marine Engineering.
ONE of the leading objects of the Editors will be to furnish correct data, upon which mechanics, merchants and mariners may confidently rely in finding an epitome of mechanical, commercial and nautical intelligence.
It will be the province of the Nautical Magazine to chronicle the march of nautical enterprise, and sketch the achievements of the living age; to aid research and invention, and present the truths of unfolding science; to combine the experience of the ship-builder and navigator, and direct in harmony their united efforts to elevate the altitude of this excelling art, by diffusing from a nautical press the mechanical wonders of the ship and sea.
The work contains draughts of some of the finest vessels of the age, with other engravings, and is one of the most valuable publications of the country. Lithographs of vessels will be frequently inserted. Terms $5 per annum.

Singer's Sewing Machines.
THESE Machines have long sustained the highest reputation in the United States.
The First Prize—A Gold Medal,
Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.
The Inventor has just added to these superior Machines an improvement whereby they can work on any kind of
FAMILY SEWING,
From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine professes.
They will also Bar and close all kinds of Kid Boots and Shoes, and stitch the finest Gaiter Boots in every part without skip—making them the most desirable for girls to use at home, or for any who wish to do more than one kind of work.
These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.
They run without noise, with ease to the Operator, and at double the ordinary speed, so that
Twice as much Work can be done in a Day.
The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.
They are simple, and cost scarcely anything to to keep them in repair; and can be operated by a child twelve years old.
Old Sewing Machines of any patent taken in part pay for new Machines.
These Machines may be had at Manufacturers' prices, of
THOMAS S. NOWELL,
Local Agent for New Hampshire, at his Shoe Manufactory, McDonough street, Portsmouth, where they may be seen in operation. d29

FATE OF THE MURDERERS OF LOVEJOY.—A correspondent of the Ravenna Democrat, writing from Alton, Illinois, says:

"An old and intelligent citizen, formerly of the East, who was present at the death of Lovejoy, stated to me that as he was acquainted with the two men who shot him, he resolved to mark their after history. The first, a Dr Beall, went to Texas, was taken by the Indians, and chopped to pieces and divided among the tribes. The other man, by the name of Jennings, went to New Orleans, and in an affray in a gambling-house, was cut to pieces with a bowie-knife. Thus perished the miserable murderers of Lovejoy.

The fall of Lovejoy was the death blow to the growth and prosperity of Alton. Many business men became disgusted, and abandoned the place, and others who were seeking homes and business places in the West passed it. Thus, for more than twelve years, Alton was a bloc and a by-word, and it is only very recently that it has exhibited signs of life and growth. It is a fixed fact in the minds of the people of Alton that no such occurrence would be permitted to transpire in their midst again."

Cough, Consumption, and Bronchitis

ELIXIR.

THE Proprietor would respectfully call the attention of the public to his invaluable Remedy for the Affections of the Throat and Lungs and begs of those who are undecided what to select, from the numerous medicines advertised, and recommended for such complaints, to give his ELIXER a trial. Having done so, they will no longer hesitate what to take themselves, or recommend to others. A single trial will prove to them that this is the most valuable remedy ever discovered for the various affections of the Throat and Lungs; it will immediately relieve the most violent Cough, and in a few hours completely cure the most severe Cold. As a Preventive and Cure for Consumption, it has no equal—It is purely Vegetable, contains no poisonous ingredients, is quite agreeable to the taste, and may be given with perfect safety to the most delicate child. The numerous testimonials received almost daily from those who have been cured by it, fully justify the assertion that no family should be without this Medicine; let Mothers give it to their Children who have the Whooping Cough or Croup, and they will alleviate at once the sufferings of their little ones. Price 50 cts.

Call for G. W. Stone's Cough Elixir, and see that his name, and Cough Elixir, with the words Boston, Mass., are blown upon the Bottle, without which none will be genuine.

EGGS, BUTTER, CHEESE and BREAD for sale by LAFAYETTE LAIGHTON. jy6

Swaim's Celebrated Panacea,

FOR THE CURE OF
INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by W. Gibson, MD, Prof. of Surgery, Pa. University. Valentine Mott, MD, Prof. Surgery, N. Y. Univ'ty. W. P. Dewees, MD, Prof. of Mid., Pa. University. N. Chapman, MD, Prof. of Physic, Pa. University. I. Parke, MD, Pres. College Physicians, Phila. Dr. Del Valle, Prof. Medicine, Havana. Jose Eurenco de Lus, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Parsons, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been secured for the exclusive use of the proprietor, by Draper & Co., bank note engravers, Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing a *somewhat* similar name, well calculated to deceive.

MORNING CHRONICLE.

BY MILLER & GRAY. PORTSMOUTH, N. H., SATURDAY, FEBRUARY 2, 1856. VOLUME 7. NO. 158.

THE DAILY MORNING CHRONICLE

is published by
FRANK W. MILLER & SAMUEL GRAY,
At No. 4 Exchange Buildings,
Pleasant Street,.....PORTSMOUTH, N. H.
TERMS $4 a year, or $3 if paid strictly *in advance.*

The Weekly Chronicle,

A family newspaper, containing the news of the week, with carefully selected miscellany, &c., is published as above, every Saturday morning. TERMS $1 a year, in advance. Delivered on any railroad or stage route leading from Portsmouth, free of expense to subscribers. Postage in Rockingham County, free.

JOB AND CARD PRINTING promptly executed.

CHARADE.

Although a weak and slender blade,
That bears a worthless name,
My *First* has caused a retrograde
On mountain, field and plain.
The veteran Mad Anthony
Made use of it for victory.

My *Next*, coeval with the dawn,
It spread afar at God's command,
O'er valley, plain, and distant lawn,
And yet it dwelt at his right hand—
Aye, aye, in Jesus' face it shone,
Who bore the sins of men alone.

My *Whole* reveals a darkened cell!
The iron bars, the prisoner, see!
Tho' dampness it cannot expel,
Nor from his bondage set him free.
'Tis but a shadow, soon to flee,
And leave him to sad destiny.

BOITING ROCK.

Answer to Charade in the Morning Chronicle of Jan. 14, is *May Day.*

HOUSEHOLD TREASURES.—A Treasure of a Husband.—Carries the baby.

A Treasure of a Wife.—Never asks for money.

A Treasure of a Son.—Has money in the funds.

A Treasure of a Daughter.—Looks the same age as the mother—if anything, a trifle older.

A Treasure of a Servant—Runs to the Post in less than half an hour.

A Treasure of a Cook.—is not hysterical whenever there is company to dinner.

A Treasure of a Baby.—Doesn't disturb his dear papa in the middle of the night.—*Punch.*

THE LATE DUKE OF SOTOMAYOR.—In the telegraphic report of the America's news sent on from Halifax, was a single line, saying, "The Duke of Sotomayor has committed suicide." Not many Americans probably thought that the subject of this line was a Philadelphian by birth, although he was also a nobleman of distinction in Spain.

In 1796, while the seat of government of the United states was in the city, Don Carlos Martinez, Marquis La Casa Yurujo arrived here as an ambassador from Spain. He was a young and accomplished man and soon after his arrival here he married Sally McKean, daughter of Governor McKean, of Pennsylvania, a lady celebrated among the beauties of that time. The Marquis resided at the corner of Second and Pine streets, and there his son, the subject of this notice, was born. he inherited the titles and estates of his father, but on his marriage into the house of Sotomayor, took the name of Duke of Sotomayor. Having resided in this country till he was twelve years of age, he received his early education here, and those who have met him in Europe of late years, observed in him many traces of his American birth and training.—*Philadelphia Bulletin.*

REMARKABLE FEAT OF TWO HORSES.—A pair of horses belonging to Charles Symonds of Danvers, becoming frightened, cleared themselves from a carriage in one of the streets of Salem, on Wednesday evening, and ran furiously through the Eastern Railroad depot, and out upon the track about a mile, towards Lynn. They were stopped by falling into a culvert nearly twenty feet deep, in the vicinity of "Castle Hill." An engine was started after them, and the horses, with a portion of the front runners of the sleigh attached to them, were found so entangled as entirely to prevent any further progress. They were extricated and led back over the road, having apparently sustained no injury except the loss of all their shoes.—*Journal.*

A VETERAN GONE.—Major Thomas Harrison died on Sunday, in Boston, aged about 70 years. He was an officer in the U. S. Army, during the war of 1812, was in the battle of Lundy's Lane, and has been an officer in the Boston Custom House for some years. He was a gentleman of the old school, kind-hearted, intelligent and affable, and his loss will be mourned by a wide circle of friends.

FORTUNATE ESCAPE.—On Saturday evening a young son of Mr. H. R. Fillebrown of Watertown, Mass., while coasting on the Waverly Highlands, unknown to his companions coasted into a well thirty-five feet deep.—About an hour afterwards he was missed, and search being made he was found at the bottom of the well. He was drawn up with ropes, and was found to have sustained not the least injury. He walked about a quarter of a mile to his home without assistance, and on Sunday he attended church.—*Boston Telegraph.*

Harrison's Blue Black Writing Fluid

PROGRESS in the arts has revealed a Writing Fluid which does *not*, as other Writing Fluids *do* destroy the *points of gold pens*, actively corrode steel pens, or *chemically decompose the paper* or its *coloring*. I have seen paper where every letter written with English Fluids was eaten entirely through, and a delicate blue tint changed to a dirty yellow. The best make of gold pens have been condemned for losing their points, and the best manufactures of paper returned upon the dealer, where these Fluids were extensively used. Harrison's Fluid is subject to none of these evils. It writes a beautiful blue, and soon turns a jet black, and remains permanent. HARRISON'S is AMERICAN, *made* by an AMERICAN, and worthy the use of all Americans. It is wholesaled and retailed by

Morning Chronicle.

SATURDAY, FEBRUARY 2, 1856.

MAINE.—It may be regarded as a significant fact that the national office holders of Maine look with terror upon the result of the late convention in that state for the choice of representatives to the Democratic National Convention, and the Secc Democrat does not vouchsafe a line in regard to this important meeting, while it bestows a column of wishy-washy matter upon the propriety of peace and harmony in the party. The editor is *Collector of the Port.*

The Bangor Democrat is almost as dumb as its brother at Saco, but it states the naked fact that the meeting was holden and the delegates chosen. The editor is *Postmaster* of his city, and his patriotism and his party sympathies are with himself and General Pierce.

Had the meeting of the Maine Legislative Democracy resulted in a recommendation of the renomination of General Pierce for the Presidency, and the choice of an office holder from every one of the important points in the state as a delegate to the Cincinnati Convention, there would have been a great flourish of trumpets in the camp of the adherents of the President, and laudatory accounts of the meeting would have found a place in every Democratic journal from Maine to the city of Washington. The paralyzing effect of the anti-democratic influence of the administration upon the people is seen in this small indication of party servitude.—*Boston Courier.*

We copy the above remarkable political straw, because it condenses much information into a small space. We add to it only the suggestion that some *very straight* whigs in that state, would be quite willing to vote for some new candidate of the democratic party, though not for the re-election of President Pierce.

GOOD NEWS FROM HAMPTON.—A correspondent of the Gazette, dating from Hampton, Jan. 22, says:

In this town, Mr Editor, formerly, new rum was the order of the day, every one using it freely; but those days are gone, yes, long since gone. A great reformation has transpired, and all brought about without the aid of the Gun Cotton League, Neal Dowism, or Hindooism. There are a few individuals who still are disposed to drink to excess, but they cannot obtain liquor here.

So far, we call the news excellent. And so do we another sentence in the same letter, viz. "Moral suasion has done wonders in this region." To this we respond, we know it to be true,—for we have labored in this *region*, and in this *cause*, as abundantly as we could, for more than twenty-five years,—and we know too, how steadily and earnestly every advance of temperance has been opposed.

The writer then goes on to tell some bad news, as follows:

Such characters go to the liquor agent in North Hampton, and purchase of him by the gallon, and lay drunk until it is all gone, and then go the same agent, or to some other adjoining town, and replenish their stock. Before the passage of the last liquor law there was no rum sold either in North Hampton or Hampton Falls, and but a very little in Hampton; now, under the law, it is sold by the agents in large quantities to all who can muster courage enough to plead sickness, in each of those towns. Yes, sir, I have within a few days, heard men who are fond of the "critter," boast as to how easily they could obtain it from these agents. Moral suasion has done wonders in this region; a good and wholesome license law would aid the cause of temperance, but the present legislation is utterly abortive. On the other hand, it has and will cause much lying and stealing, much sickness and drunkenness, and, as is generally acknowledged, the sooner repealed, the better. MODIFY, OR REPEAL.

The man's opinions, of this or that law, may pass for what they are worth. But his statements or assertions, are worthy of attention.

1, Of Hampton. Some time ago, somebody asserted and published that the Agent in Hampton sold liquor there for certain purposes, and called on Uncle Toby to explain. He answered that there was *no Agent* in Hampton. Now this writer *confirms* Uncle Toby's reply,—and says, No liquor is to be had there! A great day this, for Hampton.

2, Of North Hampton and Hampton Falls. The assertion is, that these agencies sell readily and abundantly, to improper persons whose word is too readily taken. We doubt the truth of the assertions, as they appear in the above extract to be proved only by "those fond of the critter," who *boasted*, &c. But the places are not so very far off that we cannot find out how it is. We will endeavor to do so, as soon as may be, and so set history right.

In the mean time we will rejoice over Hampton, as purified by moral suasion, and kept pure by either law or gospel. No liquor is sold there now. How could *less* be sold under a license law?

LATEST FROM THE SEMINOLE WAR.—The Tampa Peninsula of the 19th inst., contains the following paragraphs concerning the Indian war in South Florida:

The news from Fort Myers is very indefinite. Scouting parties have returned without discovering Indians of recent signs, having accomplished nothing but the destruction of several encampments and the five stock and all the Indian property they met with.

We understand that the Block House, burned by the Indians, will be rebuilt, as well as several others at important posts—three at Fort Myers.

The volunteer companies are organized on the Manatee River, under Capts. Gates and Addison.

ONE WEEK LATER FROM EUROPE.

HALIFAX, Jan. 31.

The royal mail steamship Arabia, from Liverpool about 9 A. M., Saturday 19th, with 107 passengers, arrived here at 9:30, this P. M.

THE WAR.—The grand news of the week is that Russia agrees to negotiate on the terms proposed by the Allies. The first announcement was made by the Vienna telegraph to the London Times in these words:—"Russia accepts the Allied propositions unconditionally. This is authentic."

The announcement caused immense sensation. Funds rose 3 per cent., cotton one farthing. The next day government published a despatch from Minister Seymour at Vienna, as follows:—

Russia agrees to accept the Allies proposals as a basis of negotiations. This qualified announcement curbed the excitement, and alarmists begin to fear that Russia merely seeks to gain time by deceptive negotiations. Meantime funds remain steady. Previous to the above announcement Vienna papers represented the state of affairs as most serious, unexpected and alarming, and that all the *personnel* of the Austrian embassy had received orders to quit St. Petersburg, and the Russian embassy was ordered to leave Vienna.

The actual circumstances were that when Count Esterhazy handed to Count Nesselrode at St. Petersburg the Austrian Allied note of Dec. 2, he said he was not authorized to enter into discussion, but if the note was not accepted unconditionally before Jan. 8, he and all the Austrian Embassy must leave St. Petersburg. To prevent this Count Nesselrode communicated with Vienna direct, and on Jan. 11, Prince Gortschakoff, at Vienna, had a talk with Count Buol, in which Gortschakoff produced a memorandum expressing a general inclination on the part of Russia to negotiate, but proposed certain alterations in the programme. Count Buol formally received the document next day, (Friday, the 12th,) but inasmuch as it did not contain an acceptance, pure and simple, of the propostions, Austria could make no reply without the concurrence of France and England.

The Ambassadors of those powers accordingly sent to Paris and London, and received for a reply, that the western powers had no motive to give up a decision which had been already carefully considered. Further that if by Jan. 18, Russia did not accept the ultimatum, Esterhazy and the Austrian Legation would leave St. Petersburg, and Austria would immediately seek to obtain the armed co-operation of the Germanic Diet against Russia.

During the week that elapsed between Russia's first and second reply, intense apprehension existed in Vienna, although without sufficient cause, for the Austrian Cabinet had taken the precaution to notify the Western Powers that notwithstanding a rupture of diplomatic relations, Austria would not be in a position to commence hostilities this year.

On the 16th apprehensions were so at rest by the announcement above stated, that Russia agrees to accept on the terms proposed.

There is very little other news.

From the Crimea nothing important. Numerous ambuscades of Cossacks are distributed around the Allied camp, but vigilance prevents many stragglers being captured. Several additional explosions had been made in the Sebastopol docks. The docks are now almost destroyed. France and England each reserve one gate as a trophy.

The Invalide Russe publishes a despatch from Gortschakoff saying that a party of French, wearing white cloaks, to prevent being seen in the snow, advanced by night and surprised Baidar, bayoneted the outpost, and retreated when the Russian reserves came up. Gen. Codrington's latest despatch, dated Jan. 1st, reports merely the health of the army good. Baron Leibach left Berlin on the 13th on his return to Paris.

St. Petersburg letters say that Marshal Paskiewitch has bequeathed, as his dying injunction to the Emperor, to make peace. He would never have given this advice to Nicholas, whose battles he had fought; but to the young Emperor, who had no hand in raising the war, he urged the policy of peace.

THE BALTIC.—A Dantzic letter of the 11th says the American ship Washington, that lay all summer at Copenhagen, had landed her cargo on the ice, and conveyed it in sleighs into Riga.

The American ship Telegraph is reported in Cattegat, and another American ship at Revel.

AUSTRIA.—The Emperor has signed a decree relating to Protestants. It is liberal except in prohibiting the marriage of Catholic Priests converted to Protestantism. Government has been already obliged to restrain the Italian Bishops in their administration of the Concordat.

HIGH LIFE.—In Boston on Thursday evening, at Trinity Church, Right Rev. Manton Eastburn, Bishop of the Massachusetts Episcopal diocese, was united in the holy bonds of matrimony to Mary Jane, daughter of George Head, Esq. The marriage ceremony was performed by Rev. John Cotton Smith, in the presence of a large number of the friends of the happy couple.

BELOW STAIRS.—In Boston, on Thursday forenoon, Deacon Foster, a well known black man, was married to Miss Harriet Low, in St. Paul's Church.

The Deacon was dressed in a blue frock, with drab pants, grey vest, black cravat and grey gloves. The bride had on a slate colored silk, with a short brown cloak, and bonnet to correspond. She stood about a head above the Deacon. Rev. Dr. Vinton performed the ceremony after the manner of the Episcopal Church.

RICHMOND, Va., Jan. 30.—The Southern Commercial Convention met here to-day, and temporarily organized with Joseph Mace of Richmond in the chair. There was a slim attendance. Adjourned until to-morrow.

The Albany Knickerbocker speaks of a sleigh which appeared a day or two since which had wooden runners shod with *sole leather*. The builder had an eye to saving the wood.

LOCAL.

HOWARD BENEVOLENT SOCIETY.—The ladies at their Levee, at Jefferson Hall, one evening last week, cleared $240 for the funds of the Society. $60 were also received in private subscriptions, by one of the half-dozen ladies who arranged and so successfully carried through, this enterprise—so that the total benefit to the poor of our city, will be $300, instead of $200, as before announced. This is even better than the managers themselves expected, before "counting the cost;" and proves the affair to have been well conducted and liberally patronized.

We learn that the ladies are about to form a Howard Society, to aid the old Society, in the getting up of such social gatherings occasionally.

☞ In accordance with orders from the Navy Department, minute guns were fired at the Navy Yard at this station on Tuesday, at noon, on account of the death of Commodore Morris. The flag at the yard was at half mast through the day.

The Hoffers will appear this evening at the Temple, and our concert goers are on tip toe to hear this celebrated band of Tyrolese vocalists. We advise every one to go early, as seats will not be at a discount this evening.—The price of admission is set as low as 15 cts. to accomodate families.

☞ Rev. Mr Holman will lecture to young men, to-morrow evening, at the Methodist Church.

☞ The Dedication of the new Town House in Exeter, *came on* with the usual ceremonies and solemnities, on Thursday evening, and was attended by a great concourse of people. It did not *come off*, however, until Friday morning, as the Dancing and other amusements lasted till half past 5.

Their new town house is a fine building; it includes a Court Room, Town Offices, and various accommodations—and is highly creditable to the liberality and taste of the people of Exeter.

WASHINGTON, Jan. 31.—It is understood beyond dispute that but for Walker's revolutionary movements, Nicaragua and Great Britain would, before now, have concluded a treaty satisfactory to the former, regarding the Musquito Territory and kindred questions, and at the same time not conflicting with the Clayton and Bulwer treaty.

The 100 votes for Mr Smith of Va., for Speaker, were cast by the Orr and Fuller men, with Mr Wheeler added. Messrs. Barclay, Hickman, Williams and Haven voted with the triumphant opposition. The plurality rule will be again voted on to-morrow, with a better prospect of success than heretofore.

The President this evening is dining a large party of members of Congress and other dignataries.

Judge Ebenezer Clapp, of Bath, Me., died on Monday evening, at the age of 77 years.

CONGRESS.

THURSDAY, Jan. 31.

SENATE.—On motion of Mr Fitzpatrick, the Senate proceeded to ballot for a Printer.—First ballot— Nicholson 24, Beverly Tucker 8, Gales & Seaton 2, Scattering 19. Necessary for a choice 27.

The Senate continued to vote until Mr Nicholson was chosen on the fourth ballot—Nicholson 29, Tucker 8, Scattering 15.

THE CENTRAL AMERICAN QUESTION.—*Mr. Seward's Remarks.*—Mr Seward then addressed the Senate.

Mr Seward reviewed at length the history of the Central American Question, including the proceedings of Great Britain in the Island of Ruatan, and combatted with great power the argument of Lord Clarendon on the points at issue between the two governments, and he arrives at the conclusion that the American positions are just, and the American demands right. He then asks what ought the United States now to do. *

* * * * It was for three hundred years the business of European nations to colonize, discipline and educate the American nations. It is now the business of those nations to govern themselves.

The decline of the European power here practically began with the fall of Canada out of the control of France in 1763. It has steadily continued until now. Only some relics, possessing little vitality, remain.—Without any war on our part, Great Britain will wisely withdraw and disappear from this hemisphere within a quarter of a century, at least within half a century. War might hasten, but might also delay it. I regret, also, that a war, if it must come, must also partially concur with the great conflict which now convulses Europe.

The British Administration has long been unfaithful to the cause of free institutions in Europe, and the French Empire is, in my eyes, a hateful usurpation. Nevertheless, both of these administrations are temporarily and practically ephemeral, while the Russian Empire is an obstinate and portentous reality. I accept the oracular exposition of the first Napoleon, and believing that Europe must soon be either Republican or Cossack, I recognize beneath the monarchical mask of the Allies, the Western nations contending against an advancing despotism, although no duty and no propriety requires us to intervene on their side. I should be very unwilling to engage my country in a combination against them.

Nevertheless, a war with Great Britain is now among the possible solutions of the present embarrassment. We certainly can look for no moderation on her part hereafter if we overlook her persistent refusal to fulfil this most solemn and important of all our international engagements.

The general tone of his speech may be understood by the last paragraph above cited.—He closes as follows:

I have thus expressed my opinions with frankness. I am not tenacious of them all. I invoke equal frankness and the broadest patriotism on all sides of this chamber and in all parts of the country. If these shall be fully exercised, this day will inaugurate a new and important and yet a *peaceful triumph* over the ancient colonial policy of Europe, honorable to ourselves and auspicious to all nations.

HOUSE.—Mr Cox (Know Nothing) of Kentucky offered a preamble proposing in a true spirit of patriotism to waive some of the political principles in order to secure the election of a Speaker, members reserving the right to insist on them practically hereafter, and concluding with a resolution that all who thus agree will first vote for Mr Orr, and if he be not elected, then vote for Mr Fuller of Pennsylvania, inviting all conservatives to unite in this arrangement, with the reservation herein contained.

Mr. Clingman of North Carolina, in explaining his reasons for offering the plurality resolution yesterday, said nothing was farther from his purpose than the election of Mr. Banks; but he desired the National Americans who stand on the 12th section of the Philadelphia platform as the corner stone of their party, as patriots to let the axe fall on Mr. Banks.

Mr. Humphrey Marshall of Kentucky said that his friends could never procure a satisfactory response regarding the measures the latter advocated, and denied that they had the right to calculate on any line of principle to drive the Americans to the wall by forcing them to choose between Banks and Orr.

Mr. Cobb of Georgia said that he was determined not to vote for Mr. Fuller, even in the event that Mr. Orr could not be elected. He would be acting in bad faith were he to favor the resolution. He would act irrespective of all combinations.

Mr. Cox said he would vote for any man who maintains the constitutional guaranties and reserved rights of the states. No party ties should in this peculiar condition of affairs prevent him from discharging his duties to his country. If the course indicated by Mr Cobb of Georgia was pursued, the House would never organize.

Mr. Bocock of Virginia opposed the resolution of Mr Cox, fearing that some Fuller men would refuse to vote for Mr Orr.

Mr. Lindley (Know Nothing) of Missouri never could vote for the nominee of the Democratic caucus with the platform annexed.

Mr. Cox's resolution was rejected by a vote of 30 against 176.

Mr. Hickman of Pennsylvania offered a a resolution to elect by plurality.

A motion to lay the resolution on the table was lost by one majority.

Mr. Trippe of Georgia then submitted as a substitute a resolution declaring Mr. William Smith of Virginia Speaker. Mr. Trippe said his proposition presented to Democrats the question whether they would adopt the plurality rule and thereby elect Mr. Banks, or vote for his resolution and elect a man who is a Democrat and who has voted for Mr Richardson and Mr. Orr. Mr. Trippe closed with a remark that he would never vote for the nominee of the Democratic Caucus.

A motion to lay the whole subject on the table was disagreed to by 84 against 132.

Mr. Trippe's substitute was then rejected by a vote of 100 against 110.

Mr. Hickman's resolution was not acted upon. Adjourned.

FRIDAY, Feb. 1.

HOUSE.—The House refused by one majority to table Hickman's resolution to elect a Speaker by plurality vote.

Vegetable Spiced Bitters.

The Monthly Nautical Magazine,

Devoted exclusively to the Maritime Interests of the United States, embracing Ship Building, Commerce, Navigation and Marine Engineering.

ONE of the leading objects of the Editors will be to furnish correct data, upon which mechanics, merchants and mariners may confidently rely in finding an epitome of mechanical, commercial and nautical intelligence.

It will be the province of the Nautical Magazine to chronicle the march of nautical enterprise, and sketch the achievements of the living age; to aid research and investigation, and present the truths of unfolding science; to combine the experience of the ship-builder and navigator, and direct in harmony their united efforts to elevate the altitude of this excelling art, by diffusing from a nautical press the mechanical wonders of the ship and sea.

The work contains draughts of some of the finest vessels of the age, with other engravings, and is one of the most valuable publications of the country. Lithographs of vessels will be frequently inserted. Terms $5 per annum.

The January number, containing eight Plates, may be seen at the Bookstore of

A Bible Movement.—The British Banner states that a proposal has been set on foot for posting placards all over London, containing passages from the Bible, printed in the largest characters—each placard to contain only one verse, and sometimes only one sentence—and to be renewed as frequently as the funds obtained will permit. A society is to be organized for carrying out the idea.

The Alexandria Sentinel says a lady, with hair cut short, pistol in her belt, and masculine air generally, went up the Orange and Alexandria Railroad a day or two since. She is a student in the Philadelphia Female College, and her dress and equipments are said to be the *uniform* of her college mates.

Mr. Wm. H. Warner was instantly killed in New York, on Tuesday, by a heavy mass of snow which had been thrown from the roof of a building and struck him upon the head.

G. W. STONE'S

Cough, Consumption, and Bronchitis

ELIXIR.

THE Proprietor would respectfully call the attention of the public to his invaluable Remedy for all Affections of the Throat and Lungs and begs those who are unbelieving what to select, from the numerous medicines advertised, and recommended for such complaints, to give his ELIXER a trial. Having done so, they will no longer hesitate what to take themselves, or recommend to others. A single trial will prove to them that this is the most valuable remedy ever discovered for the various affections of the Throat and Lungs; it will immediately relieve the most violent Cough, and in a few hours completely cure the most severe Cold. As a Preventive and Cure for Consumption, it has no equal.—It is purely Vegetable, contains no poisonous ingredients, is quite agreeable to the taste, and may be given with perfect safety to the most delicate child. The numerous testimonials received almost daily from those who have been cured by it, fully justify the assertion that no family should be without this Medicine; let Mothers give it to their Children who have the Whooping Cough or Croup, and they will alleviate at once the sufferings of their little ones. Price 50 cts.

Call for G. W. Stone's Cough Elixir, and see that his name, and Cough Elixir, with the words Boston, Mass., are blown upon the bottle, without which none will be genuine.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington,

R. H. EDDY.

No. 75 State st., opp. Kilby st., Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby, on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unexpected. It not unfrequently superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS is THE REPORT OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY.

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

Augusr 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have official intercourse.

Commissioner of Patents.

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by W. Gibson, MD, Prof. of Surgery, Pa. University. Valentine Mott, MD, Prof. Surgery, N. Y. Univ'ty. W. P. Dewees, MD, Prof. of Mid., Pa. University. N. Chapman, MD, Prof. of Physic, Pa. University. I. Parke, MD, Pres. College Physicians, Phila. Dr. Del Vallo, Prof. of Medicine, Havana. Jose Lourenco de Luz, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain.

J. Chipman, Member Royal Col. Surg., London. Sir Thomas Parsons, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the name Jas. Swaim stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, Philadelphia. In the centre is a portrait of the late Wm. Swaim, engraved by Sartain.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing a *somewhat* similar name, well calculated to deceive.

G. W. STONE'S
LIQUID CATHARTIC,
—AND—
Family Physic,
The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe and agreeable Physic ever offered to the public.

THE necessity of such a Medicine has long been felt both by the heads of families and Physicians. Its advantages over cathartics given in the form of Pills or Powders, must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, regulates the action of the Liver, frees the Stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as
RHEUMATISM, NEURALGIA, TIC DOLOREUX, GOUT, PAIN IN THE HEAD, SIDE, STOMACH, &c.

It may also be relied upon in all diseases of the Bowels; *Dysentery, Diarrhea and Cholera Morbus* yield at once to its magic influence. Again we repeat, IT—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success, despair not—relief is now at hand. Are you suffering with scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness?—three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1.00.

Singer's Sewing Machines.
THESE Machines have long sustained the highest reputation in the United States.
The First Prize—A Gold Medal,
Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.
The Inventor has just added to these superior Machines an improvement whereby they can work on any kind of
FAMILY SEWING,
From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine professes.
They will also Bar and close all kinds of Kid Boots and Shoes; and stitch the finest Gaiter Boots in every part without a skip—making them the most desirable for girls to use at home, or for any who wish to do more than one kind of work.
These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.
They run without noise, with ease to the Operator, and at double the ordinary speed, so that
Twice as much Work can be done in a Day.
The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.
They are simple, and cost scarcely anything to keep them in repair; and can be operated by a child twelve years old.
Old Sewing Machines of any patent taken in part pay for new Machines.
These Machines may be had at Manufacturers' prices, of
THOMAS S. NOWELL,
Local Agent for New Hampshire, at his Shoe Manufactory, McDonough street, Portsmouth, where they may be seen in operation. d29

Harrison's Blue Black Writing Fluid
PROGRESS in the arts has revealed a Writing Fluid which does *not*, as other Writing Fluids *do* destroy the *points* of gold pens, actively corrode steel pens, or *chemically decompose the paper* or its *coloring*. I have seen paper where every letter written with English Fluids was eaten entirely through, and a delicate blue tint changed to a dirty yellow. The best make of gold pens have been condemned for losing their points, and the best manufacturer of paper returned upon the dealer, where these Fluids were exclusively used. Harrison's Fluid is subject to none of these evils. It writes a beautiful blue, and soon turns a jet black, and remains permanent. HARRISON'S is AMERICAN, *made* by an AMERICAN, and worthy the use of all Americans. It is wholesaled and retailed by

Morning Chronicle.

MONDAY, FEBRUARY 4, 1856.

VOLUME EIGHT.

We have entered on the eighth volume of of the Daily Morning Chronicle, which is now, in the estimation of our readers and advertisers, one of the useful and pleasant Institutions of the day.

We don't know but it ought to be proscribed, as the Free Schools are, because it leads the people to think for themselves, and so promotes Free Thought, Free Speech, Free Voting, and other abominations of that class, so distressing to those whose position or policy makes them afraid to have the light shine for all.

We aim to give facts as they are, on all subjects, briefly; and, so far as we can, a fair view of the arguments on both or all sides of a question. Our readers understand this,—and we believe generally approve it. At any rate, our list of regular subscribers for the Daily and the Weekly Chronicle, indicate such approval, by their permanency, no less than by their gradual increase.

We do not feel called upon to make a new platform, as we stand square on our independence of all sects and parties, without a particle of enmity to any of them. We advocate freedom and progress, law and order, temperance and patience. And we do this in our own way; asking, after the manner of the quakers, no one to go to our meeting unless he likes it. We also advocate parity and peace—the latter depending somewhat on the former. And last, but not least, we recognise and acknowledge the Higher Laws of God and nature as paramount to all human devices, constitutions and compacts—and consider every Man an accountable being, who, to his own Divine master, must either stand or fall.

With these views we look on our fellows, of all grades, colors and nations, as standing nearly on a level, the little elevations and depressions being both temporal and temporary—lost entirely in the darkness, as the great mower death, sweeps over the field—and quite invisible in the light of the immortal state, to which the lapse of time admonishes us, we are passing as rapidly as "the swift ships."

NEWS FROM MAINE.—The Portland State of Maine newspaper of Feb. 1. says:

We, in Maine, have gone through with a four-years' experience of the prohibitory liquor law, and the result can be seen and read of all men. It is enough that professed temperance papers themselves—devoted body and soul to the interests of the Maine Law—confess, more in anger than in sorrow, that drunkenness has largely increased among us.

Now if these two sentences taken together, are to be understood according to the common use of language, they mean that there is more drunkenness in Maine to-day than there was four years ago, and that the professed temperance papers confess it.

We have seen no such confession—and if the State of Maine will be so good as to make a quotation to that effect, with the proper credit, we will copy it for the benefit of the people of this neighborhood, before whom we endeavor to place every important fact bearing on the public welfare.

We have no doubt it may be true that drunkenness has increased in Maine since the state election, as the sellers of drink were greatly emboldened by the result of that election. And some temperance papers may have not only confessed, but asserted such a fact. But these statements are not to the present purpose, though they are bad enough in themselves considered.

The State of Maine will please to give the *confession* of any temperance paper, as to the increase of drunkenness in Maine, in the four years from Feb. 1852 to Feb. 1856.

☞ Rev. Thomas R. Lambert, of the U. S. N., has received and accepted a call to the Rectorate of the St. John's Church, Charlestown, Mass., and has already entered upon the duties of his office.

DEATH OF REV. DR. WILLISTON.—Rev. Payson Williston, D. D., died at his residence, in Easthampton, on Wednesday night, of typhoid pneumonia, in the 93d year of his age. His illness had continued one week. He was the oldest graduate of Yale College, and was the father of the enterprising and liberal founder and patron of the Williston Seminary in Easthampton.

BURNED TO DEATH.—On Monday night, Miss Sherburne, daughter of W. H. Sherburne of Duxbury, Mass., after retiring for the night, got up and went to the closet for some food, and while there accidentally caught her night clothes on fire and was burnt so badly that she lived about six hours.

The Elmira, N. Y., Republic says that on Thursday last a boy and girl named Burgiss were burned to death, they being in a building which was destroyed by fire.

At Patrick Court House, Va., such has been the intense cold and the great fall of snow, that nearly all of the sparrows or gray snow birds have died. The blue or slate-colored snow birds have flocked into the houses and barns for shelter from the cold. The partridges, hares, and many of the chickens have been frozen to death—in short, the cold has been dreadful in the extreme.

SPEAKER ELECTED.

Telegraphic despatches were received in this city on Saturday evening, to the effect that Hon. N. P. Banks, Jr., was elected Speaker of the U. S. House of Representatives, by one majority.

BURKE'S OLD GUARD,

Mr Edmund Burke has finally withdrawn from being a contributor to the Concord Reporter. That paper of the 1st of February says:

As will be seen by his Valedictory, Mr Burke withdraws his name as a contributor to the Reporter. To those who know our opinions as we have freely expressed them in this paper, we need not say that we dissent from many of the views and suggestions contained in that Valedictory. We have published it at Mr Burke's request, and for whatever it contains, he alone is responsible.

We copy his Valedictory, as an item of political intelligence. Mr Burke is not merely a writer on politics. He is also in some sense the leader of a small political party, which he aims to make the leading party in the State, by compelling the other democratic party to take him and them back into their fold with the highest honors,—after the manner of the late Gov. Hill. Burke has an eye to some office under some future president. He talks like a leader; and he has had, with General (now President,) Pierce, much experience in working the political machinery of New Hampshire.

TO THE READERS OF THE REPORTER.—For reasons which it is unnecessary here to mention, the undersigned withdraws his name as a contributor to this paper.

To the Old Guard Democracy, he would say, that, while they must ever hold in contempt and repudiate Mr. Franklin Pierce, who, in his weakness and his insatiable desire for re-election, has betrayed both the principles and the men to whom he owes his elevation to the highest of earthly honors, (except in the contingency of a choice between him and Black Republicanism,) the signs of the times are propitious for the nomination by the National Democratic Convention, of a man to whom, consistently upon principle, they can give their suffrages and support.

The alliance of the Old Guard Democracy with the present dominant party of the State, had for its only object the overthrow of the spurious Pierce Democracy, having no community with that party in sentiment or principle. It was therefore necessarily temporary in its duration. A similar alliance with the same party, was attempted by some of the leaders of the Pierce faction, but without success. The denunciations of the Know-Nothing movement in this State by the organs of the Pierce faction, are, under such circumstances, but exhibitions of the boldest and most impudent hypocrisy. If they had not been foiled in their attempt to get possession of the American organization, Pierceism at this day, would have been rampant in this State under the flag of Know-Nothingism.—We make this remark in order to furnish a key by which the Democracy of other States may be able to understand the true position of both parties and men here.

But, in view of the future, it is now necessary that the Old Guard, or Hard-Shell Democracy of this State, should fall back upon their original position, which is one of hostility to both the Pierce and Know-Nothing factions.

Therefore, we would say to all our friends who agree with us in sentiment, and have acted with us during the last two years, and who have no design by any clap-trap or device, to be drawn into the present dominant faction in this State, which is now essentially whig and abolition; — and who are equally determined not to contribute to the perpetuation of our present national dynasty headed by the imbecile, intriguing, and unreliable Pierce, and adorned by such shining lights of ancient Whiggery as the Cushings, the Wises, the Stephensons, the Toombses, &c., &c., who until comparatively a day since, were the bitter enemies of Democracy,—to such of our friends, we say, that it is important, in view of the future, that they should maintain an independent position in the pending State canvass.

We would respectfully suggest to them to withhold their votes from either of the factions now contending for the mastery. If there shall be no candidate in the field, nominated by the Old Guard Democracy, cast your votes for some private citizen whom you know to be true and worthy, no matter who he is.

And, with regard to the election of members of the Legislature—*select candidates from your own party, in every town in the State, and vote for them without regard to your prospect of success.* You will thus secure the election of your own men, or prevent a choice in every town in which you are strong enough to hold the balance of power. The probability is, the election will be so close, that the Old Guard Democracy will hold the balance of power in the next Legislature, if they shall act energetically upon the suggestions which we have above thrown out.

EDMUND BURKE.

RAVAGES OF CHOLERA IN SYRIA.—A correspondent of the New York Journal of Commerce, writing from Beirut, Syria, under date of December 10, says:

"We have had serious times here for six or seven weeks. The cholera broke out, and made our city of 50,000 souls a solitude. From ten to thirty have died daily, when it would seem almost the entire population had fled the city. At last it reached my hotel, on the outside of the city, on the seashore, sweeping away the keeper and his three children in three days, when I fled to a village at the foot of the mountains, where it is perfectly healthy. One excellent missionary, and a missionary's child, have fallen. There is no abatement of the disease."

The British ship Kertch, cotton loaded, lying below Savannah, was on fire Sunday.

LOCAL.

UNIVERSALIST FESTIVAL.—The Festival under the direction of the ladies of the Universalist Society, opens to-morrow evening, at Jefferson Hall, to be continued three evenings. Among the entertainments provided, are a series of beautiful Tableau Vivans, or Living Pictures, the preparation for which, has occupied the younger portion of the Society for a number of weeks past.

On Saturday evening we attended a dress rehearsal of these Tableaux, and are sure they will give perfect satisfaction. Those who saw and admired the tableaux presented by the same Society two years ago, will find these even more beautiful than those exhibited on that occasion, when this kind of amusement was introduced to the people of this city for the first time. Other entertainments will be provided to gratify the taste of all ladies and gentlemen who attend; and every effort made to merit the patronage of the public. Undoubtedly the number of visitors will be large,

TEMPERANCE MEETING.—The temperance meeting at the Temple, this evening, will be addressed by Rev. Mr. Fanton and Rev. Mr. Whiting.

✓ GOOD FISHING—Three young men from this city, on Friday, between the hours of 9 A. M. and 7 P. M., caught between 90 and 100 dozen smelts, besides riding to and from Great Bay—5 miles. We call this a good days sport. The fish are sold at the bay for 8 cents per dozen by the quantity.

✓ BEST NURSERY.—The committee of the N. H. Agricultural Society on Farms, have awarded the first premium for the best nursery to Daniel H. Spinney, Esq., of Portsmouth.

The N. H. State Agricultural Society have decided to hold the next annual Fair on the 8th, 9th and 10th days of October, at a place hereafter to be designated.

✓ PRICE OF GAS.—The New York Gas Companies intend to reduce their rates from $3 to $2 50 in October next. Will the Portsmouth Gas Company follow the example?

MR. J. H. PEARSON.

This gentleman, a merchant of Boston, was the owner of the brig Acorn, which vessel carried back a slave to the South from Boston, not long after the *finality* compromise of 1850. A Mr Brown of Key West, having lost two human chattels, rightly supposed that they had gone to Boston in ship Middlesex, and wrote to Mr Pearson to catch them. P. answered him in the following letter—which shows the change that has come over State street, since the repeal of the Missouri Compromise:

BOSTON, Jan. 2d, 1856.

J. B. BROWN, *Key West.*

Dear Sir,—Yours of the 25th ult. is received, making inquiry of the two colored persons picked up by the ship "Middlesex" on her late passage from New Orleans. This ship I sold some five years since, but am able to state that on her arrival, Capt. Paine called on the authorities, and, I understood, on the U. S. District Attorney for advice; but as there was no one to claim them, or to know whether they were slaves or not, there was no process by which they could be held, and they were probably on English territory some time since. The ship has returned to New Orleans, and there is no one who can give any description of their persons; if they were here, it would be a very expensive job to get them away.

Since the violation of good faith by the southerners, in joining with those unprincipled politicians, Douglas and Atchison, and some few northern doughfaces, and repealing the long sanctioned Missouri Compromise in regard to slavery, the whole north is quite lukewarm in regard to rendering any assistance to return runaway slaves. The feeling up to this time was all correct, for the mass to assist; but I doubt if at this present time, a corporal's guard could be mustered, only by orders, and under the U. S. Marshal. The North are *loyal to the whole Union*, but when they see that the old slave states are disposed to extend their creed over land now free, they cannot do so, only by corrupt and venal rulers. As the lamented Mr Webster said on the passage of the Fugitive Slave Act, "not another foot of free territory to be made slave territory." This was the understanding, and unless the South retrace their steps to that standard, they cannot expect there will be much enthusiasm to catch and return such locomotive property.

I am too well known, to have any of the Abolition sentiments flow in my veins; but when one part of this Republic will not keep long respected acts or compromises in good faith, they must not expect the other part will have much regard for their peculiar laws of servitude. I am, respectfully,

JOHN H. PEARSON.

The Calais Advertiser says:—"We are glad to learn that the friends of Temperance in St. Stephen are enforcing their Liquor Law in a manner that must speedily put a stop to the traffic. They have had Tom Shannon, one of the most notorious and determined of the rumsellers over there, arraigned before Justice Rose, on a charge of violation of the law, and he was tried and convicted, and fined $40 and cost of suit. The liquors found in his possession were also seized, and are to be dealt with as the law directs.

Shoughnacy, a fellow who was tried sevetimes for selling liquor while on this side, has been fined over there, and his liquors taken from him. He has gone to St. Andrews to pay his fine, we are informed. Those who take that method of paying their fines will soon get tired of it.

WASHINGTON NEWS.

The special correspondent of the Boston Advertiser telegraphs from Washington on the evening of Friday, Feb. 1:

The greatest excitement prevails to-night relative to the contest for the Speakership. It would appear that a cordial coalition has at last been formed between the Southern Americans and the Nebraska democrats, and owing to this Mr Aiken to-day received one vote more than Mr Banks. It is said that this can be increased two votes to-morrow, and there are some apprehensions that Mr Aiken may thus be elected under the plurality rule. Nevertheless, if the plurality rule is offered, the anti-Nebraska members will sustain it, what ever the consequences.

The votes of Messrs. Broome, Whitney and Clarke for Mr Aiken occasioned great surprise, since he is a bitter anti-American, a Nebraska democrat, and probably the largest slaveholder in the United States, owning upwards of thirteen hundred negroes. I hear that Mr Broome repents his vote, and will endeavor to retrieve it Mr Whitney's conduct to-day is ridiculed.

Mr Robinson returned to-night—this will increase Mr Banks' vote one.

The Aiken resolution to-day was in fact Mr Kelly's, although offered by Mr Cobb.

My own impression of the probable course of events is this—that the plurality rule will be adopted to-morrow, that Mr Aiken will fail under it, and Mr Banks will be elected—unless Messrs. Scott, Harrison, Dunn, &c., should carry their dislike to Mr Banks so far as to vote for Mr Aiken. The contest however is very close and *the result is extremely uncertain.*

The crisis has at last come, and we shall now see how members stand.

I do not think the Nebraskals will support Mr Aiken under the plurality rule; but having committed the Southern Americans to his support, they will drop him and substitute Mr Orr, leaving the responsibility on their allies. Their game to-day was one of desperate brag.

The U. S. steamer Fulton, at Pensacola, was to-day telegraphed to go in search of the missing barque "Amelia," which left Port au Prince sixty days ago for New York, in charge of Lieutenants Werden, Maxwell and Erben. Great anxiety is felt for her fate.

The Monthly Nautical Magazine,

Devoted exclusively to the Maritime Interests of the United States, embracing Ship Building, Commerce, Navigation and Marine Engineering.

ONE of the leading objects of the Editors will be to furnish correct data, upon which mechanics, merchants and mariners may confidently rely in finding an epitome of mechanical, commercial and nautical intelligence.

It will be the province of the Nautical Magazine to chronicle the march of nautical enterprise, and sketch the achievements of the living; to aid research and investigation, and present the truths of unfolding science; to combine the experience of the ship-builder and navigator, and direct in harmony their united efforts to elevate the altitude of this excelling art, by diffusing from a nautical press the mechanical wonders of the ship and sea.

The work contains draughts of some of the finest vessels of the age, with other engravings, and is one of the most valuable publications of the country. Lithographs of vessels will be frequently inserted. Terms $5 per annum.

FRIDAY, Feb. 1.

HOUSE.—The House refused by one majority to table Hickman's resolution to elect a Speaker by plurality vote.

Mr Jones of Tennessee offered as an "olive branch" a resolution that Mr Oliver of Missouri be Speaker, which was tabled by 15 majority.

Mr Letcher of Virginia offered a resolution that Messrs. Banks, Orr and Fuller be appointed to confer together, and report to-morrow morning the name of some member, on whom they or a majority of them shall agree, who shall be Speaker. He said various attempts had been made, proving it impossible to elect a Speaker by a direct vote. If his expedient to secure a result should succeed, it would carry joy throughout the country, and show the people that heaven's first law, "order," reigns in Washington. Tabled by 26 majority.

Mr Lindley of Missouri offered a resolution declaring Mr Porter of Missouri Speaker. He said Mr Porter was unobjectionable to all parties, being neither a Know Nothing or a Democrat, nor the least tainted with Republicanism; but an old fashioned Whig, which every one seemed to admire now that the party was dead. (Laughter.) Tabled by 76 majority.

Mr Ball of Ohio submitted a resolution declaring Mr Banks Speaker. Negatived by 102 against 115.

Mr Cobb of Georgia, after a speech convulsing the House with laughter, offered a resolution declaring Mr Aiken of South Carolina Speaker. After the roll had been called, Mr Whitney of New York said he had been informed that his vote would effect an election. As he understood Mr Aiken was not a member of the administration party he would change from nay to the affirmative.—[Deafening applause in the galleries and on the floor, mingled with impatient cries to declare the vote.] Amidst breathless anxiety, the Clerk announced, yeas 103 nays 110.—This result so unexpected, was received with violent outbursts of laughter, intermingled with hisses and applause. Adjourned.

WASHINGTON, Feb. 2.—I telegraphed you that Com. Dahlgreen would be appointed to the Bureau of Ordinance and Hydrography. The President and Secretary of the Navy declare openly their decided preference for him; but the law, it is ascertained, confines the appointment to the upper sixty-five, and consequently Com. Perry will be put in charge.

The Coburn and Dalton trial is progressing in Boston, but will consume all the week. From the course of the defendant's counsel, it is evident that they rely upon the medical testimony to show that Sumner probably came to his death from other causes than the whipping. The counsel may succeed, as well as Choate did in the Tirrel case, when he convinced the jury that his client was asleep when he cut the woman's throat; but nevertheless the public will forever believe that Sumner was killed—murdered by the meanest and most brutal means.—*Newburyport Herald.*

On Wednesday morning, the new and beautiful cottage residence of ex-Lieutenant Governor Leake, at Madison C. H., Va., was destroyed by fire. The family—all ladies and girls—escaped in their night dresses, and walked through snow twenty inches deep to a neighbor's house. Loss $5000.

On Sunday night, the 20th inst., a quarrel arose between Mr Reid, a law student at the North Carolina University, and a man by the name of Cheek, living in the village of Chapel Hill. Cheek raised a chair to strike Reid, whereupon the latter drew a revolver and fired three balls into Cheek, killing him instantly.

GREAT DECLINE IN PRICES AT CHICAGO.—The Chicago Democrat has the following on the state of trade in that city.

Business is quite dull in our city, unusually so indeed; and we notice a continual tendency to a decline in prices of all descriptions of produce. Our packers who contracted early in the season for hogs must lose a great deal, and prices have gone down from six and a half and seven dollars to four and a half and five dollars. Wheat has also declined, while corn is almost unsaleable, and the small quantity forwarded is generally stored on holders' account.

SAD ACCIDENT.—Last week, the wife of Charles P. Emerson of Alton accidentally upset a fluid lamp upon the stove. The fire communicated to her clothes, and she was instantly enveloped in flames; her cries brought her husband, who was near, to her assistance, who succeeded in staying the flames but had his hands sadly burned in the effort. She was severely burned upon her arms and one side, but will recover.—*Dover Gazette.*

T. K. Lane, Esq., has declined the office of Sheriff of York county, to which he was appointed by Gov. Wells.—*Portland Advertiser.*

Elk meat is one of the luxuries of the Dubuque market this winter.

A member of the bar of Lancaster, Pa., came home intoxicated, a night or two ago, and began to abuse his wife. A step son, 14 years old, interfered, when the step father turned upon him; the boy seized a pistol, and shot his step father through the head.

Eli Thayer of Worcester gave an address on Kansas in Henry Ward Beecher's church, Brooklyn, Wednesday evening, and $40,000 was taken in Emigrant Aid Company's stock. A gentleman from New York, formerly a "silver gray" in politics, has presented fifty shares—$1000—of Emigrant Aid stock, to Rev. Dr. Bushnell, who is about to emigrate from Hartford to Kansas.

G. W. STONE'S

Cough, Consumption, and Bronchitis

ELIXIR.

THE Proprietor would respectfully call the attention of the public to his invaluable Remedy for all Affections of the Throat and Lungs and begs of those who are undecided what to select, from the numerous medicines advertised, and recommended for such complaints, to give his ELIXER a trial. Having done so, they will no longer hesitate what to make themselves, or recommend to others. A single trial will prove to them that this is the most valuable remedy ever discovered for the various affections of the Throat and Lungs; it will immediately relieve the most violent Cough, and in a few hours completely cure the most severe Cold. As a Preventive and Cure for Consumption, it has no equal.—It is purely Vegetable, containing no poisonous ingredients, is quite agreeable to the taste, and may be given with perfect safety to the most delicate child. The numerous testimonials received almost daily from those who have been cured by it, fully justify the assertion that no family should be without this Medicine; let Mothers give it to their Children when they have the Whooping Cough or Croup, and they will alleviate at once the sufferings of their little ones. Price 50 cts.

Call for G. W. Stone's Cough Elixir, and see that his name, and Cough Elixir, with the words Boston, Mass, are blown upon the Bottle, without which none will be genuine.

No. 70 State st. oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a rare collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessary drawings to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY,

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office, and there were few who conducted it with more fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business at the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

Commissioner of Patents.

NEW CLEAR AND MESS PORK—for sale by A. A. PAYNE. jy22

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION.

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and it has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by W. Gibson, MD, Prof. of Surgery, Pa. University. Valentine Mott, MD, Prof. Surgery, N. Y. University. W. P. Dewees, MD, Prof. of Mid., Pa. University. N. Chapman, MD, Prof. of Physic, Pa. University. I. Parke, MD, Pres. College Physicians, Phila. Dr. Del Yallo, Prof. of Medicine, Havana. Jose Kouruco de Lanz, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Parsons, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA."

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing a somewhat similar name, well calculated to deceive.

JOB AND CARD PRINTING promptly executed.

A TRUE WIFE.—She is no true wife who sustains not her husband in the day of calamity; who is not, when the world's great frown makes the heart chill with anguish, his guardian angel, growing brighter and more beautiful as misfortunes crowd around his path. Then is the time for a trial of her gentleness—then is the time for testing whether the sweetness of her temper beams only with a transient light, or like the steady glory of the morning star, shines as brightly under the clouds. Has she smiles just as charming? Does she say, "Affliction cannot touch our purity, and should not quench our love?"—Does she try, by happy little inventions, to lift from his sensitive spirit the burden of thought?

There are wives—no there are beings who when dark hours come, fall to repining and upbraiding—thus adding to outside anxiety harrowing scenes of domestic strife, as if the blame in the world would make one hair white or black, or change the decree gone forth. Such know not that our darkness is heaven's light—our trials are but steps in a golden ladder, by which, if we rightly ascend, we may at last gain that eternal light, and bathe forever in its fulness and beauty.

"*Is that all?*" and the gentle face of the wife beamed with joy. Her husband had been on the verge of distraction—all his earthly possessions were gone, and he feared the result of her knowledge, she had been so tenderly cared for all her life! But says Irving,s beautiful story, "a friend advised him to give not sleep to his eyes, nor slumber to his eyelids, until he had unfolded to her his hapless case."

And that was her answer, with the smile of an angel—"*Is that all?* I feared by your sadness it was worse. Let these things be taken—all this splendor, let it go! I care not for it—I only care for my husband's love and confidence. You shall forget in my affection that you were ever in prosperity—only still love me, and I will aid you to bear these lille reverses with cheerfulness."

Still love her! a man must reverence, aye, and liken her to the very angels, for such a woman is a living revelation from heaven.—*Hall's Journal of Health.*

SAD BEREAVEMENT.—Z. M. Smith, of the late Auburn (N. Y.) Female Seminary, passed through this city on Tuesday, on his way to Providence, to bury his three little children, who have died within the last week of croup. Mr. Smith,s Seminary was entirely destroyed by fire on Friday morning the 18th, at a loss of some $50,000, on which there was but a trifling insurance. This loss, although not exclusively his, fell heavily upon him, robbing him of his entire property. Within a few days two of his children sickened and died, and the bereaved parents starting with their only remaining child for the home of their friends, that their darlings might be buried near the old homestead, arrived at Albany only to have the third and last sicken and die. The three little coffins arrived here on Monday evening, and left on the following day. Mr. Smith is a young man, and his children were between the ages of six years and twelve. A purse was made up at Albany for his assistance, and he met with kind and sympathizing friends.—*Springfield Republican.*

It is stated that the delegates just chosen to the next Democratic State Convention of Pennsylvania, stand 72 for Buchanan, 5 for Dallas, and 3 doubtful.

The court house at Wyuesboro', Ga., was destroyed by fire on the 24th, together with nearly all the papers and records in the various offices.

Singer's Sewing Machines.

THESE Machines have long sustained the highest reputation in the United States.

The First Prize—A Gold Medal,
Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.
The Inventor has just added to these superior Machines an improvement whereby they can work on any kind of
FAMILY SEWING,
From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine professes.
They will also Bar and close all kinds of Kid Boots and Shoes, and stitch the finest Gaiter Boots in every part without a skip—making them the most desirable for girls to use at home, or for any who wish to do more than one kind of work.
These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.
They run without noise, with ease to the Operator, and at double the ordinary speed, so that
Twice as much Work can be done in a Day.
The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.
They are simple, and cost scarcely anything to keep them in repair; and can be operated by a child twelve years old.
Old Sewing Machines of any patent taken in part pay for new Machines.
These Machines may be had at Manufacturers' prices, of
THOMAS S. NOWELL,
Local Agent for New Hampshire, at his Shoe Manufactory, McDonough street, Portsmouth, where they may be seen in operation. d29

Harrison's Blue Black Writing Fluid
PROGRESS in the arts has revealed a Writing Fluid which does not, as other Writing Fluids *do* destroy the *points* of gold pens, actively corrode steel pens, or *chemically decompose the paper* or its *coloring.* I have seen paper where every letter written with English Fluids was eaten entirely through, and a delicate blue tint changed to a dirty yellow. The best make of gold pens have been condemned for losing their points, and the best manufactures of paper returned upon the dealer, where these Fluids were extensively used. Harrison's Fluid is subject to none of these evils. It writes a beautiful blue, and soon turns a jet black, and remains permanent. HARRISON'S is AMERICAN, *made* by an AMERICAN, and worthy the use of all Americans. It is wholesaled and retailed by

Morning Chronicle.

TUESDAY, FEBRUARY 5, 1856.

A NEW REFORMER.

We have carefully read, in the Concord Daily Patriot, what we presume to be a correct abstract of the speech which Hon. John S. Wells is delivering about the State.

From it we make two or three brief extracts.

In speaking of the Maine law passed by the last Legislature, Mr. Wells said he was opposed to it, although he was no advocate for drunkeness. * * * Mr. Wells said he would go for such regulation as would more effectually put a stop to the indiscriminate sale of liquor and to drunkenness.

Here he is the advocate of a *law, more effectual* than the present. Next, after condemning the present law in an ingenious special plea against it, he says:

This moral responsibility would have to be reinstated, sooner or later, if a temperate community was to be preserved; for as no man was ever made a christian by the power of legal force, so no man would ever be constituted a temperance man purely through the operation of law—no matter how perfect it might be.

Just as true as the gospel: and who doubts it? Not a temperance man of our acquaintance—not one within our knowledge has any doubt of it at all. We never heard of Mr. Wells before as a temperance lecturer—but if he will ply moral suasion well, and circulate the pledge briskly, we welcome him to the field. Most of the men round here, who scold against the law, have either never signed the pledge, or have broken it long ago. Scolding at the law is one thing—promoting temperance by moral means is quite another thing. But—

Mr. Wells said he went against intemperance to the hilt.

To the hilt of what? Not the sword or bayonet, he says. But read on, and let us get his plan.

He had done his best, with others, to make men see the folly and culpability of indulging in drunkenness, and the many social and personal evils it provoked and created, but he never could see that the remedy lay at the point of the bayonet, or that a man could be made honest, or temperate, or good, by legislation. The Saviour of mankind, in his treatment of iniquity, gave no approval of *law* as a *remedy*. He taught that change of heart without which law is held as nothing; and through such change, and such only, can intemperate habits of any description be corrected.

Here is the moral view again, all well and not at all new or strange.

When appeal is made to men's better sense, when law treats men *as* men, and not as things to be trampled upon and persecuted, then he will reform his ways; but through the operation of a tyrannical and unjust law, no man was ever reformed. The idea of employing *over* stringent laws to moral reform purposes, is an erroneous one, and no faith could be placed on them. Nothing but the powerful influences of religion and a lively sense of moral responsibility could beget a safe and a certain reform.

Mr. Wells is a lawyer. Will he please to apply the above remarks to our laws against gaming, bad houses, &c., &c. His lawyer-like caution in speaking of *over* stringent laws, is admirable, as it really begs the whole question.

Now for the Gospel, as Mr Wells has it.

If ministers of the Gospel would refrain from associating those who sell and use liquor with the thief and the murderer, with an added charge of enormity appended to the comparison, and instead of *driving them without the pale of the church*, as they are doing, *draw* them in the bonds of kindness to the realization of the evils they practice, they would do much more good in the cause of temperance than they are now doing.

The Church of sellers and drinkers! Well: we remember when the church was exactly in that condition;—and when our churches were not free from cases of discipline for drunkenness for years and years. In fact they were never free from them till the teetotal pledge cleared them out.

The ministers of Massachusetts had discovered this fact, and recognised its truth in the determination to daopt moral suasion in future in conjunction with some form of law, which would punish the abuse and not the moderate use of liquors.

The ministers of Massachusetts, so far as we are informed, have made no such discovery, and expressed no such determination.—What they, with other temperance men, have recently done, is this,—viz. to renew and increase the moral effort, including the pledge. We published some time ago, part of the Circular of the Massachusetts Temperance Committee, (which is no doubt what Mr Wells means,) *addressed* to ministers and others, expressing their expectation and desire to have the Massachusetts law *remain as it is*, this year,—and recommending that ministers and others should use all the moral means in their power to create a correct public sentiment on this subject, *viz. total abstinence* as a duty to ourselves and a blessing to community.—Those who have done and are doing this, have no faith in a law which shall at once encourage the use and check the abuse of dram drinking: they deem the whole usage more honored in the breach than in the observance.

These men, to use a phrase of Mr. Wells, "go to the hilt" of moral suasion. He, to promote temperance, goes "to the hilt" of a license law. Hear him.

Mr Wells said that we must have a stringent license law—one that would enforce itself, and have the respect of all men.

Solon and Lycurgus, stand back! Solomon and Moses, hide your diminished heads! We "*must* have," says Mr Wells, "a *stringent* license law": we understand what that is: But it is, he adds, to *enforce itself*. This is what those four old lawgivers just named, never dreamed of. It was left for the year of progress 1856, and for Mr Wells's wisdom to devise. And lastly, it is to have the respect of *all men!* We think it would, if it should *execute itself*.

But seriously, does Mr Wells, or any other man with half his talent, and a tithe of his knowledge, believe that any *license* law he can draw up can command the *respect of all men* in New Hampshire? or that *any* law on the subject, which has the least grain of stringency, can be enforced without effort?

If he does, he has lived fifty years to little purpose, and practiced law to less.

TRANSIT OF SLAVES.

The *majority* of the judiciary committee of the House of Representatives of Pennsylvania submitted a report a few days since with reference to the right of citizens of slaveholding States to transit through Pennsylvania with their slave property, and arguing that such right is abundantly secured both by the law of nations and the federal constitution, and that no local legislative enactment can impair or disturb rights so clearly founded in justice and comity. The committee say that before the adoption of the constitution of 1787 slavery existed in all the states but one, and the right of transit among them with slave property undisputed. Upon the adoption of the constitution, property in slaves was positively recognized, and especially protected by the provisions for the rendition of fugitives from labor. Pennsylvania, having adopted the constitution, and thus pledged her honor to the faithful observance of all its covenants, will not now dishonor herself by denying the bond or violating any of its obligations.

Reviewing certain laws of Pennsylvania, they say of the last one on this subject:

Then comes the "act" of the 3d of March, 1847, which repeals so much of the "act" of 1780 as to "authorize the masters or owners of slaves to *bring and retain* such slaves in the Commonwealth for the period of six months, in involuntary servitude, or for any period of time whatever." We believe that this act hugs the wind closely, and sails between the rock of the Constitution on the one hand, and the whirlpool of its open repudiation on the other. It does not purport to take away from their *masters* the domestic slaves attending upon their persons, as they pass through this state; it does not prohibit the bringing of them within it; it only forbids the *bringing* and *retaining* of them here. It may affect the slaves of *sojourners*, but it *cannot reach persons or slaves in transit*, because they are not both *brought* and *retained* within this Commonwealth.

The majority report concludes by asking to be discharged from further consideration of the subject, and the request was granted.

A *minority* of the committee, consisting of three members, submitted a report controverting the positions assumed by the majority.—They hold that slavery is exclusively a local institution, not recognized by the law of nature, the common law, or the civil law. They deny that the law of nations and the federal constitution confer upon slaveholders the right of transit through Pennsylvania with their slaves, and say:

"If this right of transit with slaves is incorporated in the Constitution itself, then all the State laws prohibiting the introduction of slaves are unconstitutional, and consequently void. But several of the States of the Union have enacted just such laws, and they have been passed upon by the Supreme Court of the United States, and their validity has never been doubted."

On this, the Boston Journal very properly remarks:

The position of the minority is undoubtedly a sound one, the opinion of Judge Kane and the report of the majority of the committee to the contrary notwithstanding. The constitution of Pennsylvania recognizes no *property* in man, but declares that all men are created equal. By no possible construction of international law can human beings be transmuted into "property" to be so held under the jurisdiction of Pennsylvania, and the utter absurdity of the argument of the majority of the committee will readily be seen when we reflect that if Southerners have a right to pass through the free States with their property, they have the same right to reside therein for an indefinite period. The right of property in human beings once recognized by a free State, even for a special purpose, and the barrier to the introduction of slaves is broken down.

☞ The case of Coburn and Dalton, indicted for manslaughter by causing the death of William Sumner, was concluded in Boston on Saturday. It was given to the Jury about 12 o'clock, and they afterwards returned a verdict of not guilty of manslaughter but guilty of assault and battery.

LOCAL.

☞ On Sunday evening the Methodist Church was filled with a large and attentive audience to listen to Rev. Mr. Holman's lecture to Young Men. His text was 1st Kings, 2:2—"Be thou strong and show thyself a man." He pointed out the dangers which beset young men, and endeavored to show that integrity, energy and a firm reliance on the word of God were requisite for success in life.

We are glad to see the interest manifested by Mr. Holman in the general welfare of young men, and especially in their temperance. Of all the dangers which beset the path of our youth, no one is more fatal, than the indulgence leading to intemperance. Hence no subject has a more important claim upon our feelings and energies than that of temperance. Mr. Holman, with the rest of our active ministers, is deeply interested in this holy cause, and is one of the most energetic and pleasing speakers that we have among us.

☞ The temperance meeting at the Temple on Monday evening was well attended.—The Mayor presided. Rev Mr Lamson opened the meeting with prayer; and addresses were made by Rev Messrs Fanton and Whiting. Another meeting was appointed for next Monday evening.

PUBLIC MEETING.—The citizens of Portsmouth who are in favor of adopting measures for procuring the erection of buildings in this city for the accommodation of the business and officers of the General Government, are requested to meet at the Common Council Room, on Wednesday (tomorrow) evening, at 7 o'clock.

☞ The northwest wind on Sunday so blocked up the railroads, that the trains on Monday to this city, were late. The morning train from Portland, which should have been here at 11 1-4, arrived between 12 and 1; and the train from Boston, due here about 10 A. M., arrived here at half past 4 P. M.

A NICE SALOON.—B. Harding & Co., at No. 35 Congress street, have one of the most inviting little saloons in the world, as most of our citizens are aware. A full supply of the choicest confectionery, fruits, cake, &c., always on hand; and everything in the order of a bee-hive, save the noise. Their advertisement will be found among the business cards on our outside.

☞ The Universalist Festival opens this evening at Jefferson Hall, to be continued on Wednesday afternoon and evening, and on Thursday evening. The Hall will probably be crowded.

☞ Prof. Russell being prevented by illness from fulfilling his engagement for this evening before the Mechanic's Lyceum, the lecture will be delivered by Prof. J. G. Hoyt, of Exeter.

☞ The Old Folks's Choir in this city, are to give a Concert very soon, in aid of the Howard Benevolent Society. They have a rehearsal on Thursday evening of this week, at Exchange Hall.

☞ The Old Folks' Concert at Hampton, by a union choir from all the adjoining towns, which was postponed from last week, will probably come off about the 20th of February.

K. N. CONVENTION.—The K. N. or American Convention, for nomination of State and County officers, is to be held at Concord today.

A Grand People's Convention will be held at Concord at the same time.

DISASTERS.—NEW YORK, Feb. 4th.—The packet ship Yorkshire, which arrived on Saturday and anchored in North river, was cut adrift this morning by the floating ice, and went ashore at Governor's Island. Her passengers had all been landed.

A British brig in the Walabout, near the Navy Yard, was sunk last night by the floating ice, taking down the captain and his wife.

Brig Wm H Safford, of Bangor, from Attakspas, anchored in East river, was cut through by ice and sunk. Her captain, Smith, his wife and children, and three seamen were drowned. Ten seamen were saved by a boat from the North Carolina.

REJOICING AT AN ASSAULT.—The Gazette of Friday evening says:

The philosopher of the Tribune we *hope*, will learn a lesson of decency, if it is possible to instil such a characteristic into his pate, by the recent *pummeling* which he received from Mr Rust. Greeley's interference in the affairs of Congress, and his *denunciation* and browbeating of the people's servants deserves a signal rebuke, and we are *glad* he has got it, whatever we may think of the manner of its administration?

Quere,—Whether the *people* themselves may denounce their servants? Quere, also, whether the editor of a newspaper, or a writer therein, may or may *not* interfere with a city council? or with a House of Representatives, in his remarks on their conduct? and if not, *why* not?

Is this liberty of speech? when an editor may say only what a drunken bully pleases to let him!

Greeley in his own account of the matter, says that Mr Rust was so drunk when he attacked him that he made a poor fist of it.

A free press on one side—and a drunken bully on the other. Freemen; which side do you prefer?

FIRE.—Syracuse, Feb. 4.—Jillayes Block of stores were burnt yesterday. They were occupied by numerous tenants, all of whom lost their stock of goods, the Syracuse Chronicle included. The building was valued at $35,000, insured for $22,000.

CONGRESS.

SATURDAY, Feb. 2.

HOUSE.—Mr Smith, of Tennessee, said he had heretofore voted against the plurality rule, but as yesterday's vote indicated some chance of an election of Speaker of a man of sound national views, he now offered a resolution for the adoption of that rule.

The House by 10 majority refused to lay the resolution on the table. The resolution was then adopted by a vote of 113 against 104.

Mr Orr then unconditionally withdrew his name as the Democratic candidate, there being now a probability that greater strength could be concentrated upon his colleague, Mr Aiken.

Mr Boyce moved to rescind the motion—tabled by 117 against 101.

Mr Jones of Tennessee, referring to the terms of the resolution, that if there is no election by a majority in the next three trials, the candidate receiving the highest vote on the 4th be declared Speaker, remarked that the Republicans were prepared for the contest, and moved an adjournment till Monday, to give the other parties an opportunity to arrange their plans. Disagreed to by 84 against 103.

Amid impatient cries of "Call the roll," Mr Walker moved to rescind the plurality resolution. Decided out of order by 45 majority.

Mr Payne moved an adjournment, which was refused. He then made an ineffectual motion to rescind the plurality rule.

The House then proceeded to vote as follows: Banks 102, Aiken 93, Fuller 14. Barclay and Hickman, Democrats, voted for Wells, and Dunn, Harrison, Moore and Scott for Campbell, of Ohio. Necessary to choice 108.

The second vote, excepting Fuller lost one, was the same as the first. The third was the same as the second, excepting Aiken lost one.

The excitement was intense during the final ballot, which resulted as follows: Banks 103, Aiken 100, Fuller 6, Campbell, of Ohio, 4, Wells 1.

Mr Benson, one of the tellers, then declared that Mr Banks was elected Speaker. Deafening shouts of applause followed from the Republican side and other quarters of the House. For several minutes the disorder was beyond description.

Mr A. K. Marshall raised the question that Mr Banks was not elected, saying that the Clerk had no power to authorize a result to be announced. It must be declared by the vote of the House.

The Clerk explained, giving reasons which appeared to be satisfactory for his conduct.

Mr Campbell appealed to the honor of gentlemen to carry the plurality resolution into effect, and end this disgraceful scene.

Mr Cobb, of Georgia, regarded Mr Banks as virtually elected by a majority of the House, under the plurality rule.

Mr Aiken asked to be allowed to conduct Mr Banks, as Speaker, to the chair. (Applause.)

Mr Smith, of Alabama, highly appreciated Mr Aiken's request. If granted, he thought it would heal division and pour oil on the troubled waters. When grown up men make a child's bargain they ought to stick to it. (Laughter.)

After further debate, Mr Clingman offered a resolution declaring that by reason of the adoption of the plurality rule, and the votes taken under it, Mr Banks had been duly chosen Speaker, and is hereby so declared.

Passed by yeas 156, nays 39.

Several gentlemen explained, though they had consistently voted against Mr Banks, they felt bound as judges, not as electors, to carry out the order of the House by voting for the above resolution.

Mr Banks was by request of the Clerk conducted to the chair by Messrs Aikin, Fuller and Campbell. He was greeted with loud and enthusiastic cheers.

Mr Giddings, being the oldest member of the House, administered the oath to Mr Banks, by request of the Clerk.

Mr Stanton then offered the following resolution:—

"*Resolved*, That the thanks of this House are eminently due, and are hereby tendered, to John W. Forney, for the distinguished ability, fidelity, and impartiality with which he has presided over the deliberations of the House, during the arduous and protracted contest for Speaker." Adjourned.

The Republicans were wild with exultation and lustily cheered Mr Banks, congratulating him on his success.

WASHINGTON NEWS.

The Boston Advertiser's special correspondent, under date of Washington, Feb. 3, says:

The election of Mr Banks causes the greatest satisfaction to his friends.

The chivalry are terribly disappointed.—They were not prepared for Mr Banks's success. But on this occasion their foresight failed them.

To-morrow the Speaker will swear in the members. No objection against Whitfield (claiming a seat as delegate from Kansas) or other members, whose seats are contested, will be pressed until after the organization is completed.

The election of Clerk will probably be made to-morrow, but it may be postponed until Tuesday. Mr Cullom of Tennessee will doubtless be chosen. After the allotment of members' seats the House will adjourn. Caucusses will probably be held in the evening.

Mr Babcock of Michigan is likely to be nominated for Sergeant-at-Arms. Mr Darling of New Jersey, and an Indiana man, are talked of for door-keeper.

Mr. Smith of Syracuse, N. Y., will probably be printer. Several candidates are named for post-master to the House.

Mr. Upton of Virginia, an old member of the press, and a good anti-Nebraska man, is prominent.

THE BIG STEAMER.—Mr. Bidder, Superintendent of the Grand Trunk Railway, has received information from England that "the big Ship is to go to Portland, if wharves are provided."

More than fifty children from the "Home of the Friendless," left New York on Wednesday for new homes in Illinois.

G. W. STONE'S

Cough, Consumption, and Bronchitis

ELIXIR.

THE Proprietor would respectfully call the attention of the public to his invaluable Remedy for all Affections of the Throat and Lungs and begs of those who are undecided what to select, from the numerous medicines advertised, and recommended for such complaints, to give his ELIXIR a trial. Having tried so, they will no longer hesitate what to take themselves, or recommend to others A single trial will prove to them that this is the most valuable remedy ever discovered for the various affections of the Throat and Lungs; it will immediately relieve the most violent Cough, and in a few hours completely cure the most severe Cold. As a Preventive and Cure for Consumption, it has no equal.—It is purely Vegetable, containing no poisonous ingredients, is quite agreeable to the taste, and may be given with perfect safety to the most delicate child. The numerous testimonials received almost daily from those who have been cured by it, fully justify the assertion that no family should be without this Medicine: let Mothers give it to their Children who have the Whooping Cough or Croup, and they will alleviate at once the sufferings of their little ones. Price 50 cts.

Call for G. W. Stone's Cough Elixir, and see that his name, and Cough Elixir, with the words Boston, Mass., are blown upon the Bottle, without which none will be genuine.

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington.

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) is determined to present advantageous applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty) as paid back by others, will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY,

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in recommending inventors that they cannot employ a person more competant and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

NEW CLEAR AND MESS PORK—for sale by A. A. PAYNE. jy22

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by W. Gibson, MD, Prof. of Surgery, Pa. University. Valentine Mott, MD, Prof. Surgery, N. Y. Univ'ty. W. P. Dewees, MD, Prof. of Mid., Pa. University. N. Chapman, MD, Prof. of Physic, Pa. University. I. Parke, MD, Pres. College Physicians, Phila. De. Del Valle, Prof. of Medicine, Havana. Jose Eonrenco de Las, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Parsons, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA."

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, Philadelphia. In the centre is a portrait of the late Wm. Swain, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all the disorders arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing a *somewhat* similar name, well calculated to deceive.

SPIRITUAL MANIFESTATIONS.

A correspondent of the Boston Post, under the signature of "W." has been making some developments concerning the so called "manifestations," in which he makes this enquiry; "Are these mysteries modern in their origin?" In order to show that they are not of modern origin he proceeds to quote from an old French volume published over one hundred years ago. One extract therefrom goes to show that departed spirits are not now for the first time, alleged to appear to mortal vision. That the spirits, or "hobgoblins," as they were then termed, not only overturned furniture, but suspended the laws of gravitation, as has recently been claimed to have been done in Boston. We quote a few passages.

"The devil having entered into the body of the young Biscayan, tormented him horribly day and night, *sometimes raising him up into the air, and at other times rendering him so heavy that ten men could with difficulty lift him. After* having vainly made use of the sign of the cross and the holy water, so formidable to demons, they told the demon that Ignatius was coming, and would quickly drive him from the valet's body. At these words the evil spirit cast forth the most terrible cries, and said, by the mouth of the Biscayan, do not speak to me of Ignatius: he is the greatest enemy I have in the world. I abhor and detest him."

The chief theater for the display of their antics was at the College of Loretto, at Bologna, where they disturbed the repose of the pupils in the following manner:

"These hobgoblins came every night and made a horrible noise in the chambers of this college. They overturned the furniture, and drew the clothes off the beds; and shook the house with peals of laughter that were quite insupportable. They endeavored to banish them by exorcisms; but they continued firm in spite of the most powerful means. At last they sent word to Ignatius of all this disorder, who answered that he had no power over these devils, because they were not capable of doing mischief without permission from God."

"The mother church," says W., "has a fruitful record of like occurrences for ages back, and notwithstanding Protestants have denied their existence, they are now compelled to yield to insurmountable evidence of the fact."

To this, the Amesbury Villager makes answer as follows:

It has never been claimed by the believers in "spirit manifestations" that the manifestations were "modern in their origin," but, on the contrary, they say the spirits have never ceased their manifestations since the time of the Apostles. That these manifestations have existed, unrecognized, until the present time, and are now operating on the minds and hearts of thousands of intelligent men and women. That the grand result of Spiritualism is to witness a new development of religious truth, chording with the pulsations of the heart of Deity. That its mission is to be "humanitarian," wherein the great body of humanity is to be made wiser and better. In fact, with such zeal have some of its educated followers been impressed with its influence, that they claim that it will become the national religion of the country.

NEGRO WIT.—The writer of the following vouches for its truthfulness, he being the party known as Mr L. The other parties are a speculator in negroes, of a brown complexion, whom we shall call Moore, a mulatto slave named Sam, who could read his Bible and was a member of the church, and an absentee named Enoch Manuel, who was a notorious rogue.

In one of our southern cities, not a thousand miles off, while Mr L. was standing on the sidewalk, conversing with Sam, Mr Moore came up, and pointing to Sam, said;

'Mr L. don't you want to see Enoch Emanuel's picture?'

Sam—Dar now, mass Moore, don't compare me to Enoch; kase Enoch is a rogue, and I'se honest.

Moore—Well, but the complexion.

Sam—Dar now, mass Moore, you ought not said dat, kase dare's not much difrence 'twixt you and me dare (drawing his finger across his own forehead).

L.—Moore, you'd better drop that boy.

Moore—No, he's just the boy I like; if I had him about New Orleans I could get a high price for him. (Then, turning to Sam, he continued): Boy, are you a slave or free?

Sam—I'm bofe, sir.

Moore—How do you make that out?

Sam—De Scripture say, "If you be called bein' free you Christ's servant; if you be called bein' a servant, you Christ's free man."

L.—Moore, I told you to drop that boy.

Moore—Look here, boy, I should like to see your master, where can I find him?

Sam—Mass Moore, do you really want to find my master?

Moore—I do.

Sam—Well, Mass Moore, do you go into de wilderness—you pull off your hat, you get down 'pon your knees, and ask him wid all your heart, you'll find him!

Moore walked off, and we gave Sam a fip and came away.—*Baltimore Patriot.*

Harrison's Blue Black Writing Fluid
PROGRESS in the arts has revealed a Writing Fluid which does *not*, as other Writing Fluids *do* destroy the *points* of gold pens, actively corrode steel pens, or *chemically decompose the paper* or its *coloring.* I have seen paper where every letter written with English Fluids was eaten entirely through, and a delicate blue tint changed to a dirty yellow. The best make of gold pens have been condemned for losing their points, and the best manufactures of paper returned upon the dealer, where these Fluids were extensively used. Harrison's Fluid is subject to none of these evils. It writes a beautiful blue, and soon turns a jet black, and remains permanent. HARRISON'S is AMERICAN, *made* by an AMERICAN, and worthy the use of all Americans. It is wholesaled and retailed by

Morning Chronicle.

WEDNESDAY, FEBRUARY 6, 1856.

Correspondence of the Chronicle.

DOWN EAST IN WINTER.

BANGOR, Feb. 1, 1856.

From Boston to Bangor, the trip is now accomplished, comfortably and pleasantly, in one day. By means of a new railroad, the "Penobscot and Kennebec," is this very desirable consummation at length reached; and for those accustomed to rough steamer trips, and the long agony of night stage rides over wind-swept wastes and hill-sides, when journeying down east in winter time, the relief will be past expression. It is quite passable, to start of a bright crusty morning, and enjoy a ride of thirty or even fifty miles, drawn by four briskly trotting nags; and by them changing for the cars, one is able to accomplish the remainder of a long journey without inconvenience. But let this arrangement be reversed—let the traveler, after a day's ride in a well warmed car, arrive at the point of change at night-fall; and then, bracing himself ever so firmly, enter the stage coach for a night passage, and he will be very apt to find it a night of misery—and in this case, unfortunately, (especially if the coach be crowded,) companions in distress do not abate that misery. Ventilation, that despised blessing, is not regarded here; and evil as the consequences are in tightly closed cars, it is tenfold more apparent in the hermetically sealed coach.

Let no one, however, hesitate now to embark with the utmost confidence, for the valley of the Penobscot. He will find the new road from Waterville to Bangor one of the pleasantest to travel. The surface is raised sufficiently above the ground, throughout nearly the whole distance, to prevent the accumulation of snow upon the track; and no fears need be entertained of a blockade. Not a trip has been lost, nor has the train been once too late to connect with other roads, during the entire winter.

We took occasion last evening to attend a lecture by Doctor Pomeroy, who gave us a graphic account of the exciting and momentous events which have lately transpired in Kansas. The audience was very large, and indicated a hearty sympathy with the speaker, and with those brave spirits who have so manfully and righ fully affirmed and maintained their rights as Freemen, upon that desecrated but not dishonored ground. The Doctor informed us that he purposed returning to Kansas about the first of March. May he carry with him from New England, not only well-wishes, but more, something that may be exchanged for thunder-speaking convincers from the breast-works of Lawrence; and an additional supply of those cogent reasoners, the Sharp Rifle, provided such may be required. We find a new and beautiful Hall, here in Bangor, built during the past year, which combines every convenience for lecturing purposes, with a very handsome exterior. The inside is finely painted and frescoed, well lighted and capacious.

There is one matter of some perplexity to travelers from a distance coming to Maine, which we wish to throw a little light upon. The people are so much attached to the Kennebec river, that they have appended that euphoneous tri syllable to nearly all the rail roads in the State. It is very much to be regretted that these routes had not been named from the towns at the termini, whereby much inconvenience and some mistakes might have been avoided. As it is, the names are not descriptive, and afford no information as to what places are connected by the roads. The "Kennebec and Portland" road connects Portland with Augusta, and is called the "Lower Kennebec" route. The "Somerset and Kennebec" road connects Augusta with Waterville, and forms a junction with the Bangor road at Kendall's Mills, on the Kennebec river. The "Androscoggin and Kennebec" road connects Danville Junction, on the Grand Trunk road from Portland, when it joins the Bangor road. The "Penobscot and Kennebec" connects Waterville and Bangor. Passengers from Portland may by either the Grand Trunk and A. & K roads, or by the Lower Kennebec route, reach Bangor at the same time, and at the same expense.

There is less snow on the Penobscot river than in the region of the Kennebec, and much less than in Massachusetts. Persons arriving at Bangor, will find the "Bangor House" a desirable stopping place. It is the best hotel building in the State, and the traveller will receive every attention from one of the best of landlords, Mr Abram Woodward. *F C.I.*

Justice E. M. Kellogg of Kent, Ct., one day last week was tarred and feathered, and ridden on a rail, at mid-day, by the friends of free liquor, for having executed the law on a rumseller. Who will now call Connecticut "the land of steady habits?"

Probably those friends of liquor would style themselves the friends of true temperance. That was the name they went by in Massachusetts, sometimes, before the late election. Since that time they have hardly been heard of.

LOCAL.

GREAT BAY.

THE SMELT FISHERY, &c.—It seems to us that the large and beautiful sheet of salt water, at the head of Piscataqua river, known as Great Bay, is not sufficiently appreciated. It is in summer one of the most beautiful and picturesque sheets of water, richly wooded along its shores; and affording, except at low tides, uncommonly fine ground for boat-sailing. It is many miles in extent, and offers a great variety of delightful scenery to the visitor. The filling and emptying of this broad basin, gives the great impetus to the waters of the Piscataqua. Wild fowl formerly abounded here, but the too near approach of railroads and other civilizing instrumentalities, have made them shy, and at last scarce. But we referred to Great Bay now, for the purpose of giving a brief notice of the great business now being carried on there, in the smelt catching line, or rather by the lines of the smelt catchers.

Large numbers of smelts were formerly caught from the Creek bridge, in Portsmouth, at high tide—when the fresh water, drained from above, was deep there. Of late years, however, the railroads have spoilt that fishing ground.

Now, the way to catch the smelts, is to go to Great Bay, cut a hole, (ten feet by two will accommodate four fishers with their three or four lines each,) through the ice, now three or four feet thick; put up an awning perpendicular to the ice—to keep off, *not* the sun, but the wind, ugh! and then go into the fish. That is, put your hook,—baited with worms, which you can dig only in the salt mud on the shore at the edge of the water, somewhere—we say, put your hook and bait down about five feet into the water, and let 'em bite. We were always entirely willing the fish should have a bite at *our* bait, but they never did seem to care much about it. Not so with other's worms, however, for we have known instances here of one man's catching in this way, from twenty to sixty dozen smelts a day. It is only at certain times of tide they can be caught—when the salt water drives them up into the channel for fresh water.

Very many men and boys from all the towns adjoining the Bay, are daily employed in this business; and make good wages,—the fish being sold at from 6 to 10 cents per dozen, for shipment to Boston—whither many hundreds of thousands must have been sent during the present season. It was estimated that about three hundred men were engaged in this business, on Great Bay, some days last week—the number varying some according to the *intensity* of the weather, and the time of the tides.

UNIVERSALIST FESTIVAL.—These Festivals, Fairs, Levees, or Tea Parties, or by whatever name those social gatherings are called, which are got up in the winter season by the benevolent societies connected with the several religious societies in this city, have always been popular, and are always successful pecuniarily. They always will be successful, if managed properly, so long as humanity desires association. Among the best managed Fairs are those under the direction of the ladies of the Universalist Society, who have been untiring in their efforts to produce new attractions, and prevent that monotony which must necessarily be felt by the attendants on several Fairs in succession. The representation of pictures—tableaux vivans—was first introduced by them two years ago, and was rapturously applauded by multitudes of spectators.

This Society opened their Fair last evening at Jefferson Hall, and were favored with an overflowing audience, particularly at the close of the Lyceum, at which time commenced the exhibition of the Tableaux, which have been put on the stage with beautiful scenic effect. The tables were well filled with the usual assortment of wares found at such places. The market active and prices firm.—The Hall is beautifully trimmed with flags and evergreen.

The Festival will be open this afternoon and evening, and tomorrow evening.

For the Chronicle.

CHURCH ETIQUETTE.—*Messrs. Editors:*—I wish to draw public consideration to a subject which may be of more importance than is generally supposed. There appears to be considerable difference of opinion respecting the position of an audience at church, during the different portions of service. A new minister in one of our Portsmouth churches, a few years since, requested all to be seated during prayer—contrary to the usual custom of that congregation; and he established a fashion, which has outlasted his stay here, of sitting through all prayers—but rising to face the choir during the singing of the last two hymns in each service. Another minister, who was supplying a pulpit in one of our churches, earnestly implored all the congregation to rise and stand during all prayers, though such had not been their custom.—Another, recently settled here, would have the congregation standing a portion of the prayers and singings only; and deems it improper for the people to turn their faces toward the choir, as thereby they turn their backs to the pulpit.

Now we like to have everybody do just as they please, in all such matters; but it seems to us that the adoption of a uniform custom in this matter would be an improvement.—And this would suit us best—to stand during every prayer and song; and face the minister or choir, as each is performing its portion of the service. Is not singing hymns, as sacred a performance, as reading the scriptures, preaching a sermon or making a prayer? Is the pulpit any more sacred than the singers' gallery? We certainly cannot join in the praises sung "with the spirit and the understanding," unless we can "face the music."

Suggestively yours, CHURCH MUSIC.

☞ The Lecture before the Mechanics Lyceum on Tuesday evening at the Temple, was by Prof. Hoyt, of Phillips Exeter Academy.

His subject was an Exposition of American Popular Errors, of which he enumerated and described Five, viz:

1. The confounding of Reverence with Servility.
2. The mistaking of Material Riches for true Wealth.
3. Not distinguishing between Law and the Forms of Legislation.
4. The mistaking of the Student for a Drone;—and supposing that the thinker and man of letters was disqualified for affairs of government.
5. The confounding of Religion with Creed.

The lecturer said he selected these five, not because they were the most obvious faults, but because they bore directly on the five prominent objects of National Culture, viz:

Manners; Industry; Jurisprudence; Legislation; and Religion.

The lecture was admirably written and well delivered: an intellectual and moral feast.

The audience, however, was considerably thinned by the Universalist Ladies' Fair, which took off about half the usual hearers.

BURGLARS.—Jefferson Hall has been for a few days occupied by the Universalist Society in preparing for a fair—and on Monday night four young men slept there, as watchers of the decorations and other property temporarily exposed. About three o'clock on Tuesday morning, one of them heard a noise at the western end of the hall, and on going to the window which opens upon the balcony, found it had been opened from the outside—by some one or two individuals who just then commenced to make their escape across Market Square with all speed.

There is no knowing what would have happened, had not "Ingomar the barbarian" appeared just at that moment, and frightened the assailants—who might have "stolen the livery of heaven to serve the devil in," or have pilfered so much of David's clothing, that he could not fitly "play before Saul." We should think thieves would be cautious of approaching so well-guarded a tent.

PUBLIC MEETING.—The citizens of Portsmouth who are in favor of adopting measures for procuring the erection of buildings in this city for the accommodation of the business and offices of the General Government, are requested to meet at the Common Council Room, this evening, at 7 o'clock.

HARTFORD FIRE INSURANCE CO.—It will be seen by the advertisement, that Edward F. Sise & Co., who have been agents in this city for this staunch and reliable Insurance Company, for the last twenty years or more; have resigned the agency to Mr John Sise,—who, at his store on Market Square, will be found as prompt and attentive to the issuing of policies, as the old firm have ever been.

ELOCUTIONARY ENTERTAINMENT.—Our advertising columns contain a notice of Readings, to be given by Mr Wm. Hawes, on Thursday evening.

His performance in this line, comes commended by Prof. Hoyt of Exeter, and by the following item from Newmarket where he has lectured. The note is addressed to the Exeter News Letter.

New Market, Feb. 2.

Mr. Editor:—Mr William Hawes, a student at Phillips Exeter Academy, gave a grand entertainment in Elocution at the Town Hall, last evening. His performance was of a high order, and was very pleasing to all who had the satisfaction of listening to it. He manifests a superior talent as an elocutionist. F.

DEMOCRATIC MEETING.—Gov. Cobb, of Georgia, and General Lane of Oregon, will address the Democrats of Portsmouth at the Temple, on Friday evening next, at 7 o'clock.

☞ Patten's Block, Manchester, N. H., was burnt on Tuesday morning at 5 o'clock. It contained four printing offices, a library, stores, &c. Loss $75,000. About half insured. The American newspaper's loss 10,000; insured 4000. Mirror, loss 6,500; ins. 2400; Stars and Stripes, loss 1500. Union Democrat, loss 8000; ins. 1000.

The Monthly Nautical Magazine,

Devoted exclusively to the Maritime Interests of the United States, embracing Ship Building, Commerce, Navigation and Marine Engineering.

ONE of the leading objects of the Editors will be to furnish correct data, upon which mechanics, merchants and mariners may confidently rely in finding an epitome of mechanical, commercial and nautical intelligence.

It will be the province of the Nautical Magazine to chronicle the march of nautical enterprise, and sketch the achievements of the living age; to aid research and investigation, and present the fruits of unfolding science; to combine the experience of the ship-builder and navigator, and direct in harmony their united efforts to elevate the altitude of this excelling art, by diffusing from a nautical press the mechanical wonders of the ship and sea.

The work contains draughts of some of the finest vessels of the age, with other engravings, and is one of the most valuable publications of the country. Lithographs of vessels will be frequently inserted. Terms $5 per annum.

The January number, containing eight Plates, may be seen at the Bookstore of

CONGRESS.

MONDAY, Feb. 4.

SENATE.—The Senate is engaged in receiving petitions from Naval officers aggrieved by the late Naval Board, and in discussing matters connected therewith.

Mr Toombs of Georgia said the Board should have kept a record to show that they had not exceeded the jurisdiction conferred upon them. Wrong and injustice had been done by their decisions, and no act of his should sanction their proceedings.

Mr Clayton defended the Board, but was willing to correct any errors that may have been unintentionally committed. The President and Secretary of the Navy have power to revise the action of the Board, and unless it was shown that the Board had exceeded their jurisdiction, it was to be presumed they had not.

Mr Benjamin of Louisiana contended that the Naval Board had not exercised any jurisdiction, but simply gave their advice and opinions on matters before them.

Mr Bayard of Delaware had no imputations to make against the Board. It was composed of honorable and meritorious men, but the law under which they acted was the most barbarous ever enacted by any legislative body of any civilized country. He recommended the passage of an act authorizing a revisory Board to be composed mainly of civilians.

Mr Crittenden believed it was perfectly competent for Congress to utterly annul and abrogate the action of the Board, and make it as though it never existed.

After further debate, the subject was postponed.

Many bills were introduced, principally for internal improvements; and one by Mr Adams, to extend the term of naturalization.

On motion of Mr Fiske, the Finance Committee were instructed to inquire whether the smaller Spanish coins may not be removed from circulation, or have a value established by law to accord with their intrinsic value and to avoid the fractional parts of a cent.—Adjourned.

HOUSE.— The Speaker administered the oath to support the Constitution of the United States to members, the representatives of each state advancing as their names were called for that purpose. The delegates from the territories were likewise sworn. When the name of Mr Whitfield was called, Mr Grow said that in deference to the wishes of his friends he would not object to his being sworn in. He thought, however, that circumstances would warrant the withholding of the oath. He hoped to be heard some other time on the question.

Mr Campbell of Ohio said that a constituent of his, a Kentuckian by birth, had been diabolically murdered in the most cowardly manner, having been shot in the back, as he was credibly informed, by an officer under the pay of the general government in Kansas.—As objecting to the administration of the oath to Mr Whitfield would only tend to greater confusion after their late exciting struggle, he would not insist upon it.

On motion of Mr Washburn of Maine, a committee was appointed to wait upon the Senate and inform them that a quorum of the House had assembled, elected Mr Banks, Speaker, and was now ready to proceed to business.

On motion of Mr Pennington of New Jersey, a committee was appointed, in conjunction with one from the Senate, to wait upon the President and inform him that a quorum of the two Houses had assembled, and were ready to receive any communication he might be pleased to make.

Mr Thurston of Rhode Island offered a resolution for the election of a Clerk *viva voce*.—Laid on the table by 103 against 85.

A resolution declaring Wm. Cullom of Tennessee Clerk of the House was adopted by 126 against 87.

As the Speaker administered the oath of office to Mr Cullom, there were manifestations of approval in the galleries.

The members then proceeded to select seats in accordance with a resolution moved by Mr Ball, that all the members retire without the bar and severally return, as their names were drawn by the Clerk from a box, and take possession of such seats as they might select. This proceeding consumed about an hour.

Mr Nichols then offered a resolution declaring Mr Glossbrenner, the present incumbent, Sergeant-at-Arms. Pending the consideration, the House adjourned.

After the adjournment, an anti-administration caucus was announced to be held in the evening.

WASHINGTON, Feb. 4.—The Senate to day confirmed Mr Dallas as Minister to England.

Chief Justice Taney was present in the United States Supreme Court to-day.

BURNT TO DEATH.—The Manchester American of Jan. 31, says:

Yesterday afternoon a child of James Lane, an Irishman, who lives in the back avenue between Amherst and Concord streets, was burned so that she died in a few hours. Lane was at the Police Court room, and Mrs. Lane and two children were at home. She went out at the back door after water, leaving the oldest child by the stove. When she returned the child had fallen upon the hot stove and was shockingly burned. She was able to talk a little, and answer questions. It appeared that she had attempted to put shavings into the stove, and that her cotton frock had caught fire, blazed up so as to suffocate and blind her, and cause her to fall forward upon the stove.

The mother was found to be *drunk*, and was taken to the lobby by the Police. She was raving like a maniac, and after the lobby was shut set the straw in the bunks on fire, which caused no small excitement and some alarm. When taken, last night, she insisted that a man named James Miller put the child upon the stove while she was out after water, but this morning she is rational and gives the facts as we have stated them above, which is probably the true state of the case.

The same paper says that on the 31st, in the police court:

James Miller was arraigned on complaint for drunkenness. Sent to the House of Correction for thirty days. Miller was up for the same offence on Monday, and was fined $2.00 and costs.

Singer's Sewing Machines.

THESE Machines have long sustained the highest reputation in the United States.

The First Prize—A Gold Medal,

Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.

The inventor has just added to these superior Machines an improvement whereby they can work on any kind of
FAMILY SEWING,
From a coarse Cotton fabric to the finest Linen Hosom, in such a perfect manner as no other Machine professes.

They will also Bar and close all kinds of Kid Boots and Shoes, and stitch the finest Gaiter Boots in every part without a skip—making them the most desirable for girls to use at home, or for any who wish to do more than one kind of work.

These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.

They run without noise, with ease to the Operator, and at double the ordinary speed, so that

Twice as much Work can be done in a Day.

The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.

They are simple, and cost scarcely anything to keep them in repair; and can be operated by a child twelve years old.

Old Sewing Machines of any patent taken in part pay for new Machines.

These Machines may be had at Manufacturers' prices, of
THOMAS S. NOWELL,

Harrison's Blue Black Writing Fluid

PROGRESS in the arts has revealed a Writing Fluid which does *not*, as other Writing Fluids *do* destroy the *points* of gold pens, actively corrode steel pens, or *chemically decompose the paper* or its *coloring*. I have seen paper where every letter written with English Fluids was eaten entirely through, and a delicate blue tint changed to a dirty yellow. The best make of gold pens have been condemned for losing their points, and the best manufactures of paper returned upon the dealer, where these Fluids were extensively used. Harrison's Fluid is subject to none of these evils. It writes a beautiful blue, and soon turns a jet black, and remains permanent. HARRISON'S is AMERICAN, made by an AMERICAN, and worthy the use of all Americans. It is wholesaled and retailed by
d16 GEO. W. TOWLE, 3 Congress Block.

Harrison's Columbian Ink, Black.

FOR the National Government, State Legislatures, Courts of Record, Banks, Railroads, Post Offices, Revenue Offices, Editors, Authors, Lawyers, Doctors, Clergymen, Commercial and Business men of every sort, Colleges, Academies and Schools, and that great class who sustain all, the Farmers—the GREAT INK of the country. 644,573 bottles sold in 1854, is significant that the AMERICAN PEOPLE appreciate THE AMERICAN INK, made by HARRISON the AMERICAN MANUFACTURER, and determine its great superiority over all foreign Inks. It is at wholesale and retail by

A FRIGHTENED DOG.—The Buffalo Republic relates the following ludicrous adventure:

"We were permitted for the first time in our life to accompany a handsome young lady, a day or two since, though our principal streets, she being dantily dressed, and wearing hoops. We could not get nearer than four feet of her, and consequently the conversation consisting of uninteresting scraps of commonplace, was conducted principally in screams and balloes. During our passage towards the young lady's domicil, a small dog, attached to a small tin pail, ran against her, and disappeared under the voluminous folds of hooped silk. There he was, and what to do she knew not. Finally the dog became quiet, owing to the darkness in the region where he had disappeared, and the lady started with tremulous and frightened steps towards her home, little bow-wow keeping time to the music, and we reflectingly preceding her, to inform the servants of the catastrophe. She arrived there perfectly safe, and after a few minutes, during which time shovels, tongs and fire-brands were pushed under the pavilion, the dog was ousted from his place of refuge, and shot from his lair like a ball from a musket. The last seen of him he was executing some very interesting pirouettes with the pan accompaniments, around the corder. The lady was not at all embarrassed by her unexpected companion, except that an occasional sound of the tin pan would attract the attention of the passers-by, who looked in vain for the cause. So much for the hoops."

G. W. STONE'S

LIQUID CATHARTIC,

—AND—

Family Physic,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe and agreeable Physic ever offered to the public.

THE necessity of such a Medicine has long been felt both by the heads of families and Physicians. Its advantages over cathartics given in the form of Pills or Powders, must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, regulates the action of the Liver, frees the Stomach from bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as

RHEUMATISM, NEURALGIA, TIC DOLOREUX, GOUT, PAIN IN THE HEAD, SIDE, STOMACH, &c.

It may also be relied upon in all diseases of the Bowels; *Dysentery, Diarrhea and Cholera Morbus* yield at once to its magic influence. Again we repeat, TRY IT!—it needs no other recommendation. No family will be without it after they have generally tested its merits. Reader, if you have tried other remedies, without success, despair not—relief is now at hand. Are you suffering with Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness?—three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1.00.

NEW CLEAR AND MESS PORK—for sale by A. A. PAYNE. jy22

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, an I has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by W. Gibson, MD, Prof. of Surgery, Pa. University. Valentine Mott, MD, Prof. Surgery, N. Y. Univ'ty. W. P. Dewees, MD, Prof. of Mid., Pa. University. N. Chapman, MD, Prof. of Physic, Pa. University. I. Parke, MD, Pres. College Physicians, Phila. Dr. Del Valle, Prof. of Medicine, Havana. Jose Eourenco de Lus, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Parsons, Maj Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and wrapper; or they may be imposed on by medicines made in imitation of them, by a person bearing a *somewhat* similar name, well calculated to deceive.

MRS. E. OAKES SMITH.—Mrs Smith or, "Eva," as her respondent in the Mirror chooses to call her, is a woman of remarkable genius, activity and industry. She is the wife of Seba Smith, the "original Jack Downing," the mother of a well brought up family of "grown up boys;" the author of the "Newsboy," "Bertha and Lily," and several other popular books, a poet of fair rank; and lastly the most successful public Lecturer in petticoats that ever mounted the rostrum.

In personal appearance, she is a feminine likeness of Daniel Webster. If any of our readers are skeptical on this point, and have not access to the "original," let them drop in at the Art Union Rooms in Broadway, and look at Stearns' portrait of the lady, recently painted, and they will be struck with its remarkable resemblance to the "god-like." As a thinker and a writer, judging chiefly from the two productions above named, we do not hesitate to pronounce "Eva" a great woman, and this is an adjective we have seldom, if ever, applied to an American authoress, with the phenomenal exception of Margaret Fuller. (We take it for granted there is not a woman in the world who had not rather be regarded as beautiful than great.)—*N. Y. Mirror*

BRIG WM. F. SAFFORD.—The following are some more particulars of the loss of brig Wm. F. Safford, of Bangor, cut through by ice in New York harbor on Monday morning.

The W. F. Safford, while lying at anchor near the Fulton Ferry, had her cable parted by the force of the ice and flood tide, when she drifted to the vicinity of the Navy Yard, and was brought to by her best bower anchor. This was about 3 o'clock this morning. All on board except the captain then repaired to their berths. At 6 A. M. it was discovered that she was filling very fast, with water up to the lower berths. All were aroused and went on deck, and the vessel immediately went down. Two men, named William Brown and Frank Ryder, mariners, got into the cross trees. They were afterwards rescued by a boat from the receiving ship North Carolina. They were brought on board the ship in an almost exhausted condition, but soon revived under the treatment of the surgeon of the ship. All the others on board the brig perished. These were the captain, named Smith, his wife and two children, a girl aged eleven and a boy four years of age. The names of the crew were Alexander Bainner, Henry Williams, and the cook, colored. The latter was shipped in Demarara. All the others were shipped in Boston, whence she sailed on her outward passage. The captain belonged to Frankfort, Me. The vessel hailed feom Bangor. She was about seven years old, and 350 tons burthen.

LIBERAL BEQUESTS.—The late Leonard Jarvis, of Baltimore, Md., has bequeathed one-half of the Melange edifice, on Baltimore street, in that city, to the President and Fellows of Harvard University, and the other half to the Baltimore Humane Impartial Society, the House of Refuge, the Aged Women's House, and the Orphans' Asylum. This estate, which is estimated at $20,000 per annum and increasing, will be the property of Mr. Jarvis's widow during her lifetime, but after her death will revert to the above institutions. Mr. Jarvis was a native of Cambridge, and graduated at Harvard College in the year 1797, in class with the Rev. Dr. Jenks, Dr. John C. Warren, Judge White, of Salem, and the Hon. Horace Binney, of Philadelphia. He was a relative to the Hon. Leonard Jarvis, of the class of 1800, who was quite a prominent member of the Democratic party, but who died some years since.—*Transcript.*

TRADE IN BOSTON.—It appears by the Telegraph that there are 2500 liquor stores, shops, and bars, in Boston. The same paper says:—

It is almost impossible to conceive how any man, in his senses, can deliberately drink down wine and brandy, and other liquors which are sold in our market. It is not probable that a single bottle of *pure* Champagne or Porter or Brandy can be bought in Boston. Consumers know this—they know that the very liquor they drink is drugged with the most deadly poisons, and yet they use it as they would coffee, tea, or other comparatively harmless drinks.

Does any body wonder at drunkenness and crime in Boston?

Nicholas Treweck, returning from a five years absence in California, to his home at Mineral Point, Wis., while attempting to get into a stage coach while in motion, near Galena, Ill., was thrown down and his skull fractured so that he died almost immediately.—The singular circumstance is related, that the wife of Mr. Treweck, although not expecting her husband to be at home until spring, had dreamed about three days before that her husband was killed, and had been bitterly lamenting it, so that she could not be comforted. When told that news had come from her husband, she burst out a crying, exclaiming—"He is dead!"

THURSDAY, FEBRUARY 7, 1856.

Two Extracts. — In the Portsmouth Daily Gazette of Feb. 4, we read the following sentences:

We are disbelievers in much of that bosh with which the public is so plentifully belabored by politicians of the clerical school and their hangers-on. We believe that church and state should be separated by an interminable gulf, and that the union of these institutions would speedily produce the ruin of republicanism.

In the same paper of the 5th, we read the following.

The Democrats of Merrimac County will be addressed on Tuesday afternoon and evening next, at Phœnix Hall, by Hon. John S Wells, Hon. Walter Harriman, Col. John H. George, the Rev. J. C. Lovejoy and others.

The Rev. J C Lovejoy and the Hon. and Rev. Walter Harriman are *politicians of the clerical school.* ¶Their hangers-on, we presume, are those who hear and sustain them. And the "*bosh*" with which they plentifully belabor the public—does the Gazette believe it? eh?

And how about Church and State? Messrs Harriman and Lovejoy, we take it, represent the Church,—and Messrs. Wells and George represent the State, or try to, and mean to be Governor and something else, if they get votes enough. And now, where is the great gulf? Certainly not between these two Noble Pairs of Brothers; for they stand cheek by jowl on the same platform,—and are to have the same hangers-on, at the convention. No, no; the gulf is not there! May be it is between these men and the offices they seek, and so they attempt to overleap it. But if it should happen, as the Gazette suggests, to be *interminable*, and if the voters of the State should happen to *let them slide* into it,—would not that be a dreadful accident for the newspapers?

We suspect after all, that it makes quite a *difference* what *sort* of politics these clerical scholars teach; and that if our clerical Bros. Lovejoy and Harriman came along this way, they might gather a political church of the first water,—or of another fluid of which Br. Lovejoy is the very chiefest Apostle.

WASHINGTON LEVEE.

The Portland State of Maine publishes a letter from its Washington correspondent, probably a straight whig, dated 28th January. The news in it we omit, because it is obsolete: but the items on Houston, Pierce and Cass, may amuse some readers.

The Levee at the President's last evening, though fully attended, and said to be the most brilliant of the season, was rather cold and lifeless. Some few notables were present, among whom, I noticed Crampton, the English minister, who I judge has not the remotest idea of being recalled or sent home. His looks did not indicate it. Gen. Sam Houston was there, but did not perambulate the East Room with the air of self-satisfaction that he was wont, when under better training for the Presidency. His aspirations for the Presidency must be "growing small by degrees, and beautifully less." We might have a President with less honesty, but certainly none with more vanity. The Levees and Receptions of Mr Pierce's, are generally admitted to possess less attractions than those of his predecessor, Mr Fillmore. In fact, I think there has been no President for a long time whose bearing in the White House has been more dignified, becoming and worthy the Chief Magistrate of our nation, than that of Mr Fillmore.

The White House has been entirely new furnished since Pierce's accession, decidedly improving it. I never saw the East Room look so magnificently as it did last night. The President looks haggard and care-worn. I should hardly know him as the Frank Pierce I saw three years ago. He undoubtedly flatters himself that he is to be the candidate of the democracy in the next campaign. No one could be more deceived. The South have used him what they care to, especially when it is taken into consideration, that he has become so unpopular at the North, that the idea of his re-election is altogether absurd. He can now go and "roll over," "lie down," or indulge in any canine tricks that will afford him gratification. So say the South.

Prof. Packard of Bowdoin, I learn, has been in Washington sometime this winter, the guest of the President. The idea of sleeping in the White House, no doubt, renders "squatter sovereignty" quite delightful.

It is understood that Gen. Cass is to speak in the Senate on Monday, in regard to our difficulties with England. The old Hero has been exceedingly fierce and warlike since Lord Brougham expressed it as his opinion that he, (Cass,) knew no more of international law than an inhabitant of the moon.

To spite himself generally on John Bull, he will say, "let Crampton slide," and throw up his hat for a general row. But Crampton will not slide, and the war with England will be on a smaller scale than when Polk cried out "54.40 or fight."

The Union Has not Slid.—Since last Saturday, we have not heard of one member of Congress resigning his seat, or fighting or dying to save the Union. This looks somewhat as if the "tall talking" we heard from many quarters, was "Bosh, Gammon, or Buncombe." The Washington Union acquiesces in the choice of Banks as speaker, and says "there is *reason* in acquiescing, as the Republicans have a *known majority* in the House."

CYRUS ALGER.

The Boston Advertiser contains the following just and appropriate notice of that eminent mechanic and successful business man Cyrus Alger, Esq., whose death took place at his residence in South Boston on Monday morning last.

Mr Alger was born in West Bridgewater, Mass., on the 11th of November, 1781. At the age of nineteen years he removed to Easton, Mass., when he commenced on his own account the business of an Iron Founder, which was the occupation of his father. After remaining there a few years, he removed to South Boston, where, in connection with Gen. John Winslow, he established a foundry near South Boston Point, and resided in the house now occupied by Dr. Samuel G. Howe, near the asylum for idiotic and feeble-minded children.

In this place he carried on his works some eight or nine years, when he purchased of Messrs. Jonathan Mason and Gardiner Green the land where his foundry now stands. At different periods he made purchases until he became owner of all the land lying between the two South Boston bridges. During the war of 1812, for about two years, the late Col. Thos. H. Perkins was connected with him as a silent partner. In his business operations he has been very successful, and has left a large estate. He made many and important improvements in the art of casting. He was the first who refined pig iron, thereby increasing its density, and adding materially to its strength and tenacity.

As a business man he was possessed of good judgment, was shrewd and far-seeing as to the results of his calculations. It has been his invariable practice to invest all his income beyond his necessary and incidental expenses, in real estate, and he thus became by far the largest land owner in South Boston. He also owned considerable tracts of land in Dorchester. His taxes in Boston and Dorchester amounted to about $4000 per annum. His extensive business served to add much to the prosperity of South Boston. His payments to his workmen have been for many years more than two thousand dollars per week; and he has probably paid more money for labor than any other man in the city.

In private life his character was unblemished. He was liberal in his views and benevolent in his feelings. His donations to the poor, and for charitable and religious purposes amounted in the aggregate to a large sum annually. He made no boast of his liberality. When he gave alms he did it in secret, and it was known only to his own family and the recipients of his bounty, but He who seeth in secret rewarded him openly. He was a kind husband and father, and his death is deeply regretted not only by his family, but by the community with whom he had been long associated.

☞ The United States Magazine for February, 1856, contains a number of illustrations on the Iron Manufacture—a fine view of Mt. Washington, with the *proposed* National Observatory;—Portraits of the Old Man of the Mountain, George Law, and James Buchanan—with interesting matter in abundance, including interesting biographies of the men whose portraits adorn the book.

Emerson & Co., publishers.

Coburn and Dalton.—The Boston Bee, of Feb. 5, says:

The jury in the case of Coburn and Dalton, had fourteen ballots before reaching a verdict. On the first they stood ten for conviction for manslaughter, and two for acquittal. On the 7th, the jury took a ballot on the question of guilty of aggravated assault, when nine were for such a verdict and three for simple assault. On the 11th ballot, ten voted for a verdict of aggravated assault; on the 15th and 13th, nine; when suddenly on the 14th the whole twelve voted for a verdict of assault and battery.

Coburn and Dalton.—The pleas of *nolo contendere*, entered by these persons, in the case of their assault upon Josiah Porter, have been accepted by the Government. They will probably be sentenced for their assault upon William Sumner in the early part of next week.—*Boston Journal.*

☞ The train of cars from Philadelphia for Harrisburg, Penn., was thrown off the track on the 4th, at 1 P. M. Abram B. Hunt of Cincinnati was killed, and a number wounded.

The Jury Bill.—The Judiciary Committee in the Massachusetts House of Representatives have reported that the Senate bill repealing the jury law of the last session ought not to pass.

The Washington Union now acknowledges that as the Republicans have a majority in the House, they are entitled to the Speakership. That is a good doctrine, but a late day to preach it, after Mr. Banks could no longer be defeated. Generally the northern papers are gratified with the election, and there is no reason why Massachusetts men should not be proud of the honored elevation of one of their representatives who is so well fitted for the station. This result will place Mr. Banks in a grand position, and we may hereafter regard him as the head of the new formed party that is seeking to obtain the control of the government under Col. Fremont as President. —*Newburyport Herald.*

The Last Victim to Law and Order in Kansas.—Mr Brown, of Leavenworth, who was recently butchered by the pro-slavery Missouri mob near Easton, Kansas, in a quarrel growing out of their attempt to break up the free state election, was formerly of this city, and did business here in the firm of Perkins & Brown, wool dealers. He had since lived in one of the western States, but early moved to Kansas, and has taken an active part in the defence of that territory from the outside barbarians. He visited Springfield last summer to procure contributions to assist the settlers in their work of self-defence.—*Springfield Republican.*

LOCAL.

Elocution.—The elocutionary entertainment, at the Temple, this evening, promises to be well worthy of patronage. Mr Hawes is a young man of fine voice and much dramatic talent; and is giving a few public readings in various places, to procure means to complete his education. Prof. J. G. Hoyt, who knows him as a pupil and companion, gave Mr H. a very high compliment and the strongest recommendation, at the close of his lecture before the Mechanics' Lyceum, on Tuesday evening. The programme offered is well selected and varied, and we hope will be read to a full house.

In aid of the enterprise, Mr Meinerth has kindly consented to preside at the Piano Forte.

The following recommendation is from our Exeter correspondent:

Exeter, Feb. 5.

Messrs. Editors:—Having learned by an advertisement in your paper of this morning, that Mr William Hawes intends to give one of his Elocutionary Entertainments in your city, on Thursday evening, we beg leave to say a few words through your columns in reference to his performances.

He has recently recited in this town, and at New Market, and if he is as well liked at Portsmouth—and we have no doubt that he will be—as at these places, it will be no more than he rightfully deserves. Among his pieces especially admired, we would mention "Catiline's Defence," and "Spartacus to the Roman Envoys." It may not be amiss to say that any one who contributes his mite will not only be richly repaid by the entertainment presented, but also aid one who is striving against adverse circumstances to gain that, which above all he desires, a liberal education. If he has a full house we shall feel that your city is not behind others in acknowledging talent and worth. T.

☞ The Festival at Jefferson Hall, by the ladies of the Universalist Society, will be open for the last time this evening. The number of visitors has been very large, and from the appearance of the tables at the close of the second evening we judge the receipts have been satisfactory. The tableaux have passed off with great eclat. The last of the series on Wednesday evening was a "Thanksgiving Dinner." After the dropping of the curtain, this picture suddenly changed from fiction to reality, the participants in the scene forthwith falling-to, to clear the bountifully spread board, in the centre of which was a fine large turkey, beautifully "done to a turn."

New School House.—We have lately spent half an hour in looking at the inside of the New High School House. We have already characterized the exterior, the walls and roof as they exhibit themselves to the passer by, saying the building is substantially elegant. The interior, so far as finished, is elegantly chaste and simple; and in a little month we can exhibit, in this city, one of the best school buildings to be found anywhere.

This costly and beautiful structure is highly valuable as well as ornamental to the city. The reader, if he pleases, will look at our notice of Rev. Mr Whiting's Dedication Sermon, especially the extract at the end of it, in which the author throws out a good thought about good buildings.

Major Stacey.—We understand telegraphic despatches from Washington announce the death, in that city, of Maj. Samuel S. Stacey, aged 65. Maj. Stacey was a Lieutenant in the U. S. Army in the war of 1812, and was disbanded at the peace of 1815. He was afterwards in Government service as a sutler, steward and clerk,—and in the Mexican War was a Paymaster in the Army, with the rank of Major. He was an honest, trustworthy, exemplary, and excellent man in all the relations of life, both public and private.

Dedication Sermon.—Messrs. C. W. Brewster & Son have just printed, and our booksellers have for sale, "The Recorded Name; a Dedication Sermon preached in the New Meeting House of the North Parish, Portsmouth, N. H, Nov. 1, 1855. With Historical Notices, etc. By Rev. Lyman Whiting, pastor elect."

It is a well printed pamphlet of 24 pages. Of the merits of the sermon we need not speak, any further than to say it was appropriate to the place and the occasion. But we please our own taste by copying the following fine paragraph on good public buildings.

Any valuable *public* work contributes to all *private* values about it. Every dwelling house, and useful building in a city, rises in worth when generous and useful public edifices surround and open to them. As a strong heart is to the vascular circulation, so liberal public buildings, and conveniences are to a borough. The whole body is kept strong and its life healthy through them. Would that *ten other* as good public structures enriched and ornamented this municipality! It might prove a profitable outlay for merely temporal prosperity. The projectors and builders of such edifices are truly *public benefactors;* they bestow a benefit on every permanent interest around them.

☞ At a special meeting of the Board of Aldermen on Tuesday afternoon, a license was granted to J P Addams, to give a theatrical entertainment, in this city.

☞ Meeting for business and rehearsal, of Old Folks Choir, at Exchange Hall, this evening.

United States Buildings.—Agreeably to a call in the newspapers of the day, a meeting of citizens was held at the Common Council Room, on Wednesday evening, to take measures to procure the erection of buildings in this city, for the accommodation of the business and offices of the general government.

The meeting was organized by the choice of Capt. Robert Lefavour, as Chairman, and E. N. Fuller, Esq. Secretary.

Mr Hackett explained the objects of the meeting, and set forth in their true light the wants of the government, in regard to accommodations for the Post Office, Courts, Navy Agent's Office, as well as a safe deposit for the various valuable records which are now exposed to the dangers of conflagration, and concluded by moving that a committee of five be appointed by the chair to nominate a committee of ten to take the matter in charge, and in all proper ways further the objects of this meeting.

The nominating committee reported the following gentlemen as a committee for that purpose:

Ichabod Goodwin, Richard Jenness, W. H. Y. Hackett, Daniel Marcy, Wm. P. Jones, Samuel Adams, G. H. Rundlett, Edward N. Fuller, Albert R. Hatch, Edward F. Sise.

The report was adopted, and the meeting dissolved.

As a part of their duty, the committee will immediately prepare a memorial to Congress, which it is hoped will receive the signature of every citizen.

Deaths in January.—The whole number of deaths in this city in the month of January, was seven, of the following ages:

Males—1, 30, 61.

Females—2, 17, 23, 46.

CONGRESS.

TUESDAY, Feb. 6.

SENATE.—A bill was introduced providing for the coinage at San Francisco of "unions" of the value of one hundred dollars, and half-unions of the value of fifty dollars.

The Central American question then came up. Mr Foote of Vermont, made a speech on the subject. He approved of Mr Buchanan's construction of the Clayton and Bulwer treaty, and maintained that the honor and interest of this country requires that we should insist upon the fulfilment of its provisions by England.

Mr Clayton's resolution, giving 200 cords of wood to the suffering poor of Washington, was lost by 7 majority.

HOUSE.—The House refused by 12 majority to lay on the table Mr Nichols's resolution, offered yesterday, declaring Mr Glossbrenner Sergeant-at-Arms. The resolution was then adopted by 103 against 98.

Mr Sherman offered a resolution declaring Nathan Darling door-keeper of the House. Adopted by 113 against 85.

Mr Campbell of Pa., offered a resolution declaring Robert Morris postmaster. Adopted by 108 against 87. The rules of the last House were adopted until otherwise ordered.

On motion of Mr Wheeler, there was ordered to be paid out of the contingent fund to John W. Forney, late Clerk, who presided over the House during its disorganization, $8 per day in addition to his regular salary from December 3d to February 4th.

Mr Bingham offered a resolution declaring O. Follett of Columbia, printer to the House, pending which the House adjourned.

NEW YORK, Feb. 6.—The Herald's Washington correspondent telegraphs: It has leaked out of the State Department that the French Government has assumed a position in relation to certain Russian vessels that have been transferred since the commencement of the Eastern War to citizens of the U. S., being at the time of transfer in American ports, which it is likely will make difficulty. A list of the vessels has been furnished to Mr Mason, our Minister at Paris, and the determination avowed on the part of the French and English governments, to hold them as lawful prizes of war, if they are captured. The correspondence will probably be called for in a few days.

CHICAGO, Feb. 5.—The new hotel near the Illinois Central Railroad passenger station was burnt last night. It was owned by the Gage Brothers of the Tremont House. Loss $25,000. Insured for $12,000. The passenger station was not injured.

SUDDEN DEATH.—Deacon Caleb Johnson, a well known and worthy citizen of Manchester, N. H., was found dead in his bed in Elizabethport, N. J., on Tuesday last. He was spending the winter in Elizabethport, with his son, and was in usual health when he retired.

CARLISLE Pa., Feb. 4.—*College Emeute.*—One hundred of the students at Dickinson College have rebelled against the faculty in consequence of the alleged expulsion of four members.

NEW YORK, Feb. 4.—*The Liquor Law.*—Judge Cassron, in the Court of General Sessions to-day, charged the Grand Jury in relation to the prohibitory law, fully sustaining its constitutionality.

The Southern Convention at Richmond, have voted that it is highly imortant to have a line of first class steamers between Liverpool and some Southern port.

Resolutions and votes will not build steamboats.—but much money and not a little hard work.

Singer's Sewing Machines.

THESE Machines have long sustained the highest reputation in the United States.

The First Prize—A Gold Medal,

Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.

The Inventor has just added to these superior Machines an improvement whereby they can work on any kind of

FAMILY SEWING,

From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine professes.

They will also Bar and close all kinds of Kid Boots and Shoes, and stitch the finest Gaiter Boots in every part without a skip—making them the most desirable for girls to use at home, or for any who wish to do more than one kind of work.

These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.

They run without noise, with ease to the Operator, and at double the ordinary speed, so that

Twice as much Work can be done in a Day.

The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.

They are simple, and cost scarcely anything to keep them in repair; and can be operated by a child twelve years old.

Old Sewing Machines of any patent taken in part pay for new Machines.

These Machines may be had at Manufacturers' prices, of

THOMAS S. NOWELL,

Local Agent for New Hampshire, at his Shoe Manufactory, McDonough street, Portsmouth, where they may be seen in operation. d29

Harrison's Blue Black Writing Fluid

PROGRESS in the arts has revealed a Writing Fluid which does *not*, as other Writing Fluids *do* destroy the *points of* gold pens, actively corrode steel pens, or *chemically decompose the paper* or its *coloring*. I have seen paper where every letter written with English Fluids was eaten entirely through, and a delicate blue tint changed to a dirty yellow. The best make of gold pens have been condemned for losing their points, and the best manufactures of paper returned upon the dealer, where these Fluids were extensively used. Harrison's Fluid is subject to none of these evils. It writes a beautiful blue, and soon becomes a jet black, and remains permanent HARRISON'S is AMERICAN, *made* by an AMERICAN, and worthy the use of all Americans. It is wholesaled and retailed by

d10 GEO. W. TOWLE, 3 Congress Block.

Harrison's Columbian Ink, Black.

FOR the National Government, State Legislatures, Courts of Record, Banks, Railroads, Post Offices, Insurance Offices, Editors, Authors, Lawyers, Doctors, Clergymen, Commercial and Business men of every sort, Colleges, Academies and Schools, and that great class who sustain all, the Farmers—the GREAT INK of the country. 644,578 bottles sold in 1854, is significant that the AMERICAN PEOPLE appreciate THE AMERICAN INK, made by HARRISON the AMERICAN MANUFACTURER, and determine its great superiority over all foreign inks. It is at wholesale and retail by

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington,

R. H. EDDY,

No. 76 State st. oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty as paid back by others), will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given show that more is SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessary Papers for Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

G. W. STONE'S

LIQUID CATHARTIC,

—AND—

Family Physic,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which form the most powerful, safe and agreeable Physic ever offered to the public.

THE necessity of such a Medicine has long been felt both by the heads of families and Physicians. Its advantages over cathartics given in the form of Pills or Powders, must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, so a certain cure for the Piles, regulates the action of the Liver, frees the Stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as

RHEUMATISM, NEURALGIA, TIC DOLOREUX, GOUT, PAIN IN THE HEAD, SIDE, STOMACH, &c.

It may also be relied upon in all diseases of the Bowels; *Dysentery, Diarrhea and Cholera Morbus* yield at once to its magical influence. Again we repeat, TRY IT!—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success, despair not—there is now no hardship in store for you suffering with Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness?—three bottles will effect all that you desire. If you are afflicted with Rheumatism, Neuralgia, or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1.00.

NEW CLEAR AND MESS PORK—for sale by A. A. PAYNE. jy22

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than fifty years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by W. Gibson, MD, Prof. of Surgery, Pa. University. Valentine Mott, MD, Prof. Surgery, N. Y. Univ'ty. W. P. Dewees, MD, Prof. of Mid., Pa. University. N. Chapman, MD, Prof. of Physic, Pa. University. I. Parke, MD, Pres. College Physicians, Phila. Dr. Del Vallo, Prof. of Medicine, Havana. Jose Lourenco de Lua, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Parsons, Maj Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints), or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing a *somewhat* similar name, well calculated to deceive.

Cough, Consumption, and Bronchitis

ELIXIR.

THE Proprietor would respectfully call the attention of the public to his invaluable Remedy for all Affections of the Throat and Lungs and begs of those who are undecided what to select, from the numerous medicines advertised, and recommended for such complaints, to give his ELIXER a trial. Having done so, they will no longer hesitate what to take themselves, or recommend to others. A single trial will prove to them that this is the most valuable remedy ever discovered for the various affections of the Throat and Lungs; it will immediately relieve the most violent Cough, and in a few hours completely cure the most severe Cold. As a Preventive and Cure for Consumption, it has no equal.—It is purely Vegetable, contains no poisonous ingredients, is quite agreeable to the taste, and may be given with perfect safety to the most delicate child. The numerous testimonials received almost daily from those who have been cured by it, fully justify the assertion that no family should be without this Medicine: let Mothers give it to their Children who have the Whooping Cough or Croup, and they will alleviate at once the sufferings of their little ones. Price 50 cts.

Call for G. W. Stone's Cough Elixir, and see that his name, and Cough Elixir, with the words Boston, Mass., are blown upon the Bottle, without which none will be genuine.

Morning Chronicle.

FRIDAY, FEBRUARY 8, 1856.

Guns—100 guns, and 103 guns, have been fired, as we see, in many places, as tokens of rejoicing at Mr Banks's election as Speaker of the House at Washington. This is not to our taste; and never was. If a nation has won an awful victory in a bloody battle by sea or land, then let the cannon thunder at once the victor's triumph and the victim's death. But to gain an election is a civil triumph, not over an enemy, but over an error; if the victory be indeed a moral one. Guns surely should have no place here. And if the election were only the victory of one party over another, or a personal success of A, by the failure of B,—then one gun is too many. We see no good reason why men in the same city or country who differ in political views, should account each other as enemies. They really have but one interest, and the honest among them but one object. Why then, yell over victory? or fire guns as if some giant had been slain?

The gunpowder celebration might do for noisy boys,—the rum celebration for sots,—and the yelling for fools—but men who are men, can surely find some manly outlet for their joy, in which, while it gratifies their feelings, it will not needlessly wound those of their defeated opponents.

Since we began this item, our eye fell on a communication in the Boston Telegraph from a Banks man, who says his friends

Should make some more tangible expression of satisfaction than the burning of a little powder, illuminations, and the like. Now, sir, I wish to suggest through the columns of the Telegraph, that the State Republican Committee get up a rousing Mass Meeting, at Faneuil Hall, and engage some of the able and talented speakers enlisted in the cause of *Freedom*, to address the thousands which would assemble on that occasion; and after the wants of the intellectual man have been satisfied, adjourn to some suitable place and have a good sociable sit-down, where sentiment, song, music and fun, shall play their part. And what more fitting day for the purpose than the 22d of February, the birth day of Washington, he who "fought, bled, and died" that we might be *free*, and enjoy the blessings of freedom?

A Wedding Toast.—A large company of Mr Banks's friends in Waltham, Mass., the place of his residence, met on Monday evening, to express their joy at his election.—Among other things, Mr Frost read from the Spiritual Telegraph, of Washington, the following announcement:

"Married in Washington City, on Saturday evening, Feb. 2, Mr Sam Republican, son of the gentleman popularly known as "Old Uncle Sam," and Miss National American, daughter of Old Seventy-Six. Officiating clergyman Joshua R. Giddings, Bishop of the Western Reserve."

☞ The State Mass Convention at Concord, on Tuesday, of the American Republicans or K. N.s, is spoken of in the highest terms of satisfaction by those who attended from this city.

The Portsmouth Evening Gazette says it "was a slim affair, some of the know nothings themselves estimating the number of strangers present at from 2000 to 2500, while the more sanguine and ardent set the number at from ten to twenty-five thousand."

The Boston Journal says that in the forenoon, when the time arrived for organization, "the Depot Hall was densely packed by an enthusiastic audience. Hundreds were obliged to leave, not being able to gain admittance."

Putting these two things together, we conclude there was a "smart chance of people" there.

John P. Hale and Geo. W. Nesmith spoke in the morning. In the afternoon the Mass Convention was addressed by Rev. C. W. Clark, of Kansas; Gen. Hamilton, of New York; Hon. T. M. Edwards, of Keene; Senator James Bell; John L. Swift, of Boston; W. H. Gove, of Weare; Mr Benson, of Lancaster; Mr Baker, of Manchester, and others. Letters were then read from Hon. A. H. Cragin, Hon. M. W. Tappan, Hon. James Pike, members of Congress from this State; also from Hon. Samuel Galloway of Ohio, Hon. Daniel Mace of Indiana, expressing their inability to attend. In the evening, Gen. Shankland, of Kansas, and others made addresses.

The Bee says, and so say the members and attendants, the Conventions were enthusiastic and harmonious in every respect.

Hon. G. W. Nesmith was President of the Convention; Thos. L. Tullock of this city and Ralph Hall of Greenland, were two of the Vice Presidents; and Thos. J. Whittem of this city one of the Secretaries.

In the evening both the Halls, the Phœnix and the Depot, were crowded full of hearers, and speeches were going on in both at the same time.

AN OLD SOLDIER GONE.

The Newburyport Herald chronicles the death, in that city, on the 5th, of Mr Thomas Stanwood, who was the oldest person in the city, and would have been 93 years of age, had he lived to the 30th of March next, having been born in 1763. At the age of 16 he volunteered in the war of Independence, as a private, under Capt Richard Titcomb, in Col. Huse's regiment, and was at West Point at the time of Arnold's treason, and present at the execution of Major Andre. Of the 120 men in his company he was the last; and now he who was born under a king, and fought for republicans, who outlived all of his comrades, and knew none older in the population around, has been gathered to his fathers.—Peace to the ashes of the revolutionary patriot; an eternal peace, where guns and tumults awaken him no more.

Mrs Owens and five children were lately found frozen to death on board the schooner Wm. Levering, on the coast of Virginia. The vessel capsized on Saturday night, Jan. 12th, off Onancock Creek. It is supposed that Mr Owens, two Mr Matthews, and the crew, five in number were drowned or frozen to death and lost, which, with the bodies recovered, makes 14 in all.

☞ A grand Vocal Concert is to be given at the City Hall, Newburyport, on Saturday Evening next, for the benefit of the Foreign Poor of that city.

The performances are to be under the direction of Mr Henry S. Thompson, who will be assisted by his Choir, the Quartette Club, and Miss Page.

Presentation to a Pastor.—The Boston Bee says the Park street Society recently presented to its pastor, the Rev. A. L. Stone, a purse of $1000. This is a generous tribute to worth of intellect and heart. Mr Stone enjoys an enviable and merited popularity, both in the pulpit and parish.

Georgia and Vermont.—Gov. Johnson of Georgia on the 28th ult. sent a special message to the Legislature of that state, which occupies about a column and a half, transmitting therewith a copy of the Vermont resolutions upon the Kansas question. The Governor argues the question of the resolves upon ultra slavish ground, complains of the continual attacks of Abolitionists upon Southern institutions, declares that there is no outlet for slavery at the southwest except through Kansas, which is a western boundary of Missouri, and which state will be hemmed in on three sides by free states, if Kansas shall be declared free from slavery.

The House of Representatives took up the subject in the following bellicose manner, as we learn by a letter to a Savannah paper:—

There was much high feeling and indignation in the House this afternoon upon the reading of the Vermont resolution. Every man expressed the utmost contempt and loathing for this string of insulting falsehoods and for their authors. The only point upon which they were not agreed was, what disposition should be made of them.

Mr Lewis of Green moved to refer them to the committee on the state of the Republic.

Mr Jones of Morgan opposed, and offered a resolution that the Governor transmit to the Governor of Vermont, with a request to lay the same before the Legislature of said state, the resolves of the Georgia Convention of 1850, and to enclose within the same a *leaden bullet*.

Mr Terhune said he would go for that if they would send powder with it.

Mr Jones—"And a coil of rope."

Mr Terhune—"Hanging is too good for traitors."

He was opposed to referring these resolutions to the Committee on the State of the Republic. Words were useless. The time for action had come. He, for one, was prepared to act, and he hoped they would not be bound in the form of a committee.

Mr Crook, chairman of the committee, assured the gentleman from Floyd that the committee had as much contempt for these things as he, and that some active indication of that would be recommended by them.

Mr Smith of Union offered the following resolutions, the reading of which was received with applause by the House;—

Resolved, By the General Assembly of the state of Georgia, that his Excellency, the Governor, be and is hereby requested to transmit the Vermont resolutions forthwith to the deep, dark and fetid sink of social and political iniquity, from whence they emanated, with the following unequivocal declaration inscribed thereon:—

Resolved, That Georgia, standing on her constitutional palladium, heeds not the maniac ravings of hell born fanaticism, nor stoops from her lofty position to hold terms with perjured traitors.

After some further discussion, the motion to refer prevailed. A motion was then made to print 500 copies of the Governor's message, (accompanying the resolutions) and the Vermont resolves. The House would not for a moment entertain the idea of printing these insults, but after some further debate, 100 copies of the message were ordered to be printed.

From Florida.—New York, Feb. 7.—A letter in the Tribune from Florida, dated Fort Myers, Jan. 19, says—

"An express has just arrived from Fort Deymand with the news of another Indian outbreak. A party of wood-cutters, consisting of a corporal and 5 men were fired at by 20 Indians, four miles from the post. One man only escaped—he slightly wounded. The rest were massacred, and 12 mules killed.—Lieut. Larned directly went in search of the savages, but though he scoured the country around not a sign or trace of them could be found."

LOCAL.

The oldest religious newspaper in this country, or the world, is not the Recorder, as stated by Mr Haskell in his lecture last week, but the "Herald of Gospel Liberty," now published in this city and printed at our office. That publication commenced in 1808, one year before the Recorder, and though it was out of New England one year, it has been continued in uninterrupted succession ever since, and is now in a flourishing condition, having a circulation in every State of the Union, some of the territories, and several of the British Provinces. It was first published in Portsmouth, N. H., by Rev. Elias Smith; afterwards in the same town, by Robert Foster; and since then by the Eastern Christian Publishing Association.—*Newburyport Herald.*

When published by Mr Foster, he called it the Christian Herald; and it was issued once in a month and a half, or eight numbers a year. Yet it was essentially the same publication, and the organ of the same denomination.

The President has exercised the authority conferred upon him by the last Congress, by purchasing the Baltimore Exchange building for the post-office, and by directing its embellishment, improvement, and adaptation in the most complete manner to the growing necessities of that office.

Congress will probably give authority for something of the kind here, if we make out a good strong and well signed petition.

☞ We hope there will be a general turn out of our citizens, to hear Messrs. Lane and Cobb, at the Temple on Friday evening. The latter, Mr Cobb, has been Speaker of the House of Representatives at Washington, and Governor of the State of Georgia. From him we may expect to hear as good a defence of slavery as can be made—perhaps even the most cogent reasons for preferring slavery to freedom. But by all means let us hear him.

Atlantic Mills.—Mr. J. A. Dorr having completed his new gravel-wall building on Linden street, in the place of the wooden bakery, burnt last year, has furnished it with a run of stone, and is prepared to grind almost anything, by steam. By his advertisement, it will be seen that the office of this Atlantic Mill is at the corner of Bow and Ceres streets, where meal of all kinds may be obtained.—Mr Dorr is an enterprising citizen, and wherever he turns his hand, makes the business move.

☞ It will be seen by their advertisement that Messrs Stewart & Beck have taken the Store No. 18 Daniel street, next to the old Morrison stand, and offer for sale a large stock of Dry Goods, cheap.

☞ We are informed by Mr John P Webster, that the marriage notice we published on Thursday morning, in which his name was inserted, was incorrect; and that he is not married. The notice was brought to our office by a lad, whom we supposed knew better than to incur the liability of such false publication, for himself or us.

Festival at Rye.—We learn that the ladies' Sewing Circle at Rye, are to hold a Social Festival in the Congregational Vestry, on Wednesday and Thursday evenings of next week, Feb. 13 and 14.

☞ A salute of 103 guns was fired on Wednesday evening, by the Republicans of Kittery, in honor of the election of N. P. Banks, Jr. as Speaker.

☞ Incidents in White Mountain History, is the title of a very pleasant volume, written by our old friend the Rev. Benj. G. Willey, who is a brother to the deceased Mr Willey that perished in the remarkable land slide.

The book is neat and well bound, with illustrations of the mountain scenery, and a good map of the mountain region. Every lover of N. Hampshire mountain scenery, and every student of New England History, should read this book.

The Portland Mirror truthfully says of the book:—

The novel-reader will here find 'truths stranger than fiction,' and more exciting; but it will be a healthful excitement, because produced by true narrative. Here are incidents related, which will cause the reader to hold his breath; perils in the wilderness; perils from the heathen, from fire, and flood, from threatened starvation, from heights and depths, assayed in darkness, or when their explorers were overtaken by darkness; fights with savage beasts as well as savage men.—The information is valuable, as well as interesting, to the patriot, the philanthropist, and the common citizen. It brings out to view a mass of historical, topological, and physical facts, which it must have cost much personal observation and long and diligent research to accumulate.

Published in Boston by Nathaniel Noyes; in Dover by E. J. Lane. Sold by J. H. Foster, in this city.

CONGRESS.

WEDNESDAY, Feb. 6.

SENATE.—Mr Clayton submitted a joint resolution authorizing the Sergeant-at-Arms of both Houses to ascertain without delay the cases in Washington of individual suffering for want of fuel, and appropriating $1500 for the relief of such suffering.

During the debate on the resolution, Mr Pierce said the Senate had paid $4500 to furnish Kossuth and suite with brandy, wine and cigars, and surely they could give this trifle to the poor.

Mr Adams thought if Congress furnished water for the rich, it ought to furnish food for the poor. After the adoption of an amendment making the Mayors of Washington and Georgetown the distributors of the money, the *resolution was passed.*

The resolution calling for the journal of the late Naval Retiring Board was then taken up, pending the discussion of which the Senate adjourned.

HOUSE.—The House proceeded to the election of a Printer, *viva voce.* First ballot, &c. [Pure nonsense this. Viva voce is not ballot.] They *voted* three times, but made no choice, and adjourned.

WASHINGTON, Feb. 6.—Recent despatches from Mr Wheeler, the United States Minister at Nicaragua, represent the military force of President Walker to be 1200 men, and say that he will ultimately succeed in effecting a union of all the Central American States. Mr Wheeler spiritedly defends his course in recognizing the new Nicaraguan Government. In reply to Mr Marcy's letter on that subject, P. H. French has again made formal application to be received as Minister from Nicaragua. As the former objections to him and his Government have not been removed, he will not be recognized as such until further developments.

Mr Dallas is in the city, on business of the Executive Department, preparatory to his departure for London.

The swarm of office seekers under the House organization has been largely increased by accession from abroad.

Capt. Shubrick, Commander Foot, and Lt. Biddle, representing three grades of the Naval Committee of the Senate, and interrogated concerning the reasons for the dismissal and furlough of the 201 naval officers. This is the first time the action of the Naval Board has been officially questioned.

Commodore Gregory left here to-day to take command of the steam frigate Merrimac at Boston, which vessel is soon to make a trial trip to Norfolk.

TO CONSUMPTIVES.—Every sufferer from CONSUMPTION, in whatever stage, should try *Dr. Rogers' Syrup of Liverwort, Tar, and Canchalagua,* and prove to their own satisfaction that this disease can be cured, even if the symptoms are very discouraging. This medicine acts like a charm in subduing the Cough, and restoring health to the whole system. All Druggists have it.

A Book of Thrilling Interest.

INCIDENTS IN WHITE MOUNTAIN HISTORY,

CONTAINING facts relative to the discovery and settlement of the Mountains, Indian History and Traditions, an authentic account of the destruction of the Willey Family; Geology and Temperature of the Mountains, together with many interesting anecdotes illustrating Life in Backwoods. By Rev. Benjamin G. Willey. 12mo 397 pp. Illustrated. Price $1.00.

Having sold *every copy* of the first edition of one thousand, I have published another, which is now ready. Please read the following

NOTICES OF THE PRESS.

The Evening Traveller says: "From long and familiar acquaintance with the locality, the author describes at greater length than any previous topographer the various objects of interest in the district, and related to us thrilling tales of wild adventure on its mountains, in its forests and caves; of conflicts with the catamounts, wolves, bears, and the scarcely less savage aborigines. The theme is fruitful of wonder, and the book may be read with *great interest* even by those who have never visited the locality, wandered up the Notch, or pic-nicked upon Mt. Washington."

The Boston Herald says: "The story of the destruction of the Willey Family, contained in the work, is worth more than the price of the book. The narrative of this single and terrible calamity is given in a simple but impressive style. *We are sure the book will attain a wide circulation.*"

The Congregationalist says: "The book may be purchased *with great certainty of a good investment of the money it will require.*"

Zion's Herald says: "Whoever intends to visit the White Hills should first read this book. It will add a hundred fold to the interest of a White Mountain tour."

The Bellows Falls Argus says: "This is one of the most interesting works it has ever been our good fortune to read. There are few romances of more thrilling interest, and this is the more valuable because it is all fact. It should be in the hands of every family in New England."

The Watchman and Reflector says: "We have seen no work comparable to this for comprehensive thoroughness of information and interesting detail. Its pages will be found entertaining and instructive, not only to travellers to our northern Alps, but by others likewise."

☞ An Agent will offer the book for sale in this place soon.

An active Agent wanted for every town or county in the New England States. To such a good chance will be given.

Singer's Sewing Machines.

THESE Machines have long sustained the highest reputation in the United States.

The First Prize—A Gold Medal,

Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.

The Inventor has just added to these superior Machines an improvement whereby they can work on any kind of

FAMILY SEWING,

From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine professes.

They will also Bar and close all kinds of Kid Boots and Shoes, and stitch the finest Gaiter Boots in every part without a skip—making them the most desirable for girls to use at home, or for sale in shoe stores, more than one kind of work.

These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.

They run without noise, without case to the Operator, and at double the ordinary speed, so that

Twice as much Work can be done in a Day.

The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.

They are simple, and cost scarcely anything to keep them in repair; and can be operated by a child (twelve years old.

Old Sewing Machines of any patent taken in part pay for new Machines.

These Machines may be had at Manufacturers' prices, of

THOMAS S. NOWELL,

Local Agent for New Hampshire, at his Shoe Manufactory, McDonough street, Portsmouth, where they may be seen in operation. d29

An Island Territory is once more talked of for the United States. The immediate prospect of the annexation of Cuba or Dominica has passed, but now it is said that Russia has suggested to Denmark, the propriety of settling the difficulties between this country and that, growing out of the piratical Danish Sound dues, by the sale of the Danish West India islands, so that instead of a capitalization of the Sound dues, which measure is not acceptable, Denmark should receive some $5,000,000 for her right to islands that are of little or no advantage to her. We wish that she would make such a proposition. There is scarcely anything the United States needs more than a well situated naval depot in the West Indies, with a capacious harbor; and St. Thomas is in the right position both for naval operations and commercial purposes, being at the windward of Porto Rico, overlooking the Bahamas on the one side and the passage to the Caribbean sea and to the Isthmus on the other; and on account of its fine harbor being the first place sought by vessels in distress.

St. Thomas has but about seven thousand inhabitants; and Santa Cruz, also Danish, near it, has thirty-two thousand. While they would answer the best of purposes as a rendezvous, they are yet too small to be objectionable on account of the slaves on them.—The commerce and the coasts of the United States demand the protection that such a naval station could afford, and so long as the Mississippi river is ours and the commerce of the Gulf of Mexico is worth preserving, we ought not to be indifferent to such a matter.—England has taken pains to possess herself of every available port along our coasts, from Nova Scotia away round to Vancover's island in the Pacific, so that she threatens us on all sides. For our own protection we ought to have what we may one day need, such stations as shall measurably make us her equal. We should not allow her to enclose us in time of peace, so that in war our whole coasts may be blockaded in one hour. Most of the West India Islands, while they were in weak hands and uncontrolled by Great Britain, we should be better without than with; but St. Thomas would be a valuable acquisition.—*Newburyport Herald.*

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with U.S Patent Office, Washington.

R. H. EDDY,

No. 76 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty as paid by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents in the Office, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procurel of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting invention, or infringement of patents. All necessity of a journey to Washington to procure a patent, and he usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY,

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

NEW CLEAR AND MESS PORK—for sale by A. A. PAYNE. jy22

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by W. Gibson, M.D., Prof. of Surgery, Pa. University. Valentine Mott, M.D. Prof. Surgery, N. Y. University. W. P. Dewees, M.D., Prof. of Mid., Pa. University. N. Chapman, M.D. Prof. of Physic, Pa. University. I. Parke, M.D., Pres. College Physicians, Phila. Dr. Del Vallo, Prof. of Medicine, Havana. Jose Eourenco de Lus, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Parsons, Maj Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA:"

and having the name Jas. Swaim stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing a *somewhat* similar name, well calculated to deceive.

Just Published, Gratis, the 20th Thousand.

A FEW WORDS ON THE RATIONAL TREATMENT, without Medicine, of Spermatorrhea or Local Weakness, Nocturnal Emissions, Genital and Nervous Debility, Impotency, and Impediments to Marriage generally.

BY B. DE LANEY, M. D.

The important fact that many alarming complaints, originating in the imprudence and solitude of youth, may be easily removed without Medicine, is, in this small treatise, clearly demonstrated, and the new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled to cure himself perfectly, and at the least possible cost, thereby avoiding all the advertised nostrums of the day.

Sent to any address, gratis, and post free in a sealed envelope by remitting (post paid) two postage stamps to Dr. B. DE LANEY, No. 17 Lispenard Street, New York City. a12 d&wsm*

G. W. STONE'S

Cough, Consumption, and Bronchitis

ELIXIR.

THE Proprietor would respectfully call the attention of the public to his invaluable Remedy for all Affections of the Throat and Lungs and begs of those who are undecided what to select, from the numerous medicines advertised, and recommended for such complaints, to give his ELIXER a trial. Having done so, they will no longer hesitate what to take themselves, or recommend to their friends. A single trial will prove to them that this is the most valuable remedy ever discovered for the various affections of the Throat and Lungs; it will immediately relieve the most violent Cough, and in a few hours completely cure the most severe Cold. As a Preventive and Cure for Consumption, it has no equal.—It is purely Vegetable, contains no poisonous ingredients, is quite agreeable to the taste, and may be given with perfect safety to the most delicate child. The numerous testimonials received almost daily from those who have been cured by it, fully justify the assertion that no family should be without this Medicine: let Mothers give it to their Children who have the Whooping Cough or Croup, and they will alleviate at once the sufferings of their little ones. Price 50 cts.

Call for G. W. Stone's Cough Elixir, and see that his name, and Cough Elixir, with the words Boston, Mass., are blown upon the Bottle, without which none will be genuine.

LIFE IN A POWDER MILL.—Dickens thus describes a visit to the powder mill of Hounslow, near London:

In this silent region, amid whose ninety-seven work places no human voice ever breaks upon the ear, and where indeed no human form is seen, except in the isolated house in which his allotted task is performed, there are upward of two hundred and fifty work people. They are a peculiar race, not of course by nature, in most cases, but by the habit of years. The circumstances of momentary destruction in which they live, added to the most stringent and necessary regulation, have subdued their mines and feelings to the condition of their hire. There is seldom any need to enforce these regulations. Some terrific explosion here, or in works of similar kind elsewhere, leaves a fixed mark in their memories, and acts as a constant warning.

Here no shadow of a practical joke or caper of animal spirits ever transpires—no witticism, no chaffing, or slang. A laugh is never heard; a smile is seldom seen. Even the work is carried on by the men with as few words as possible, and these uttered in a low tone. Not that any body fancies that mere sound will awaken the spirit of combustion or cause an explosion to take place, but that their feelings are always kept subdued. If one man wishes to communicate anything to another, or ask for anything from somebody at a short distance, he must go there—he is never permitted to shout or to call out. There is a particular reason for this last regulation. Amid all this silence whenever a shout does occur every body knows that some imminent danger is expected the next moment, and all rush away headlong from the direction of the shout. As to running toward it to offer any assistance, as is common in other cases, it is thoroughly understood that none can be afforded.

An accident here is immediate and beyond remedy. If the shouting be continued for some time (for a man might be drowning in a river,) that might cause one or two of the boldest to return; but this would be a very rare occurrence. It is by no means to be inferred that the men are selfish or insensible to the perils of each other; on the contrary they have the greatest consideration for each other, as well as for their employers, and think of the danger to the lives of others, and of property at stake at all times, and more especially in the more dangerous houses. The proprietors of the various gunpowder mills all display the same consideration for each other, and whenever any improvement tending to lessen danger is made by one, it is immediately communicated to all others. The wages of the men are good, and the hours very short: no artificial lights are used in the work. They leave the mills at 3 1-4 in the afternoon, Winter and Summer.

CRITICISMS.—There are some singular and inaccurate expressions in common use that deserve to be held up to the public eye, and an attempt made by all who employ them to discontinue their use. We will mention a few without further preface.

"I have burnt a hole in my cloak." The *fire* was the agent, and not yourself. You did not *burn* it. Besides to burn a *hole* is a strange mixture of causes and effects.

"I saw him, *the other day.*" What *other* day? Have there been *two* days, this one and *the* other?

"My friend has *enjoyed very poor health.*"—To *enjoy* sickness! "Bad health," "poor health" are likewise contradictions in terms. "Bad goodness" would be as appropriate.—So likewise, "ill success" is another contradiction.

"I should think you had *grown very thin.*" To grow is to increase in size; to increase in *thinness!*

"I had *liked* to have been drowned." This expression means, as we all know, "I came very near being drowned." But "to like" will never bear such a construction.

"How is your cold?" "Better." Is it the cold that is better or you?

James Parsons, Jr., of Virginia, who was held to bail in Pennsylvania on a charge of attempting to kidnap several colored persons, has been acquitted. The war threatened by Virginia upon Pennsylvania is thus prevented.

The nine Irishmen who have been on trial at Cincinnati, charged with violating the neutrality laws, have been discharged by Judge Leavitt.

SOUTHERN EMIGRATION TO KANSAS.—On the 5th of April a regiment of volunteers from Alabama, will leave Montgomery for Kansas, under the command of Major Buford. The regiment will be composed of 400 men, divided into companies of 50 men each, commanded and drilled by officers chosen by themselves. The outfit is to be six blankets, one gun, one knapsack and one frying-pan.

An Episcopal Church is about to be erected in Haverhill, designed for eighty pews; and $3000 have already been subscribed for that object. Haverhill is a growing place, and has need of public buildings.

The Queen CHRISTINA of Spain is about to marry her second daughter with the Prince DEL DRAGO, the heir of a grand name and a great fortune. It was this daughter who was on the point of marrying, last year, the Prince CORSINI, son of the Count CASIGLIANO, Minister of Foreign Affairs in Tuscany. During the preparations for marriage, it will be recollected, this young man died.

Another marriage in high life, announced this week as about to come off, is that between Prince GABRIELLI and the Princess CHARLOTTE BONAPARTE.

SATURDAY, FEBRUARY 9, 1856.

THE POOR YE HAVE ALWAYS.—The Newburyport Herald of the 5th says:

Now that we have a full board of Overseers of the Poor, who will probably serve till the end of the year, we hope they will set themselves about the reforms so long called for in that department of the government; and not wishing to interfere with their affairs, we would yet suggest that a revision of their list of families receiving supplies out of the house, might save expense. We heard of one family, yesterday, who have no house-rent to pay, consisting of three men and three females, all of whom are in health, and five of them in idleness, while the one that labors spends a part of his money for rum, and there are but two children incapable of supporting themselves; and that family are drawing one dollar every week. There are cases enough of actual want where aid is needed; but it is neither charity nor economy to throw away money upon those who will not help themselves.

The same paper of the 7th says:

One of the Overseers of the Poor informs us that the family we mentioned a few days since, in which there are six well, fat and lazy adults, who receive one dollar a week from the town, are Amesbury paupers, and the money is paid from Amesbury overseers. We are sorry to hear that the overseers of any town should foster and encourage such a nest; or that our overseers should become agents for such a work. We have Tewksbury for the Irish; and there ought to be chain-gangs for Americans, when what little they have goes for rum, and their time is wasted in indolence.

We have something, or rather some things, in this city, which obviate the need of the chain gang, viz. the Howard Society, the City Mission, and a pretty well established chain of knowledge between these charities and our board of Overseers of the Poor. Doubtless some charity gets abused even here,—but never since our recollection, has there been less abuse of this sort, than now. It is remarkable that the pauper bill of Newburyport last year, was $18,000, of which three quarters were caused by drink.

☞ The Mass Meeting of the Democratic party at Concord on the 7th was largely attended. The regular dispatch of that day says:

The Democrats of Merrimac county held an immense meeting this afternoon, in this city. It has been snowing violently all day, yet multitudes of people have poured into the place and filled Phœnix and Depot Halls to overflowing. At the former, speeches were made by Cols. Weller of California, Orr of South Carolina, and General Lane of Oregon;—at the latter, by Gov. Cobb of Georgia, Mr Lovejoy of Massachusetts, and by Hon. John S. Wells of this state. The Democrats claim, notwithstanding the storm, equal if not superior numbers to the opposition meeting on Tuesday. The speaking will be resumed this evening, when large additional delegations from other places will be present.

A NEW HOLIDAY.—In the House to-day the bill making the twenty-second of February, the birth-day of Washington, a legal holiday, was passed to a third reading.—*Boston Traveller, of Thursday.*

The bill makes notes payable on that day, payable on the 22d. The people, through the press, have called for this holiday—and they will have it.

CURE YOUR COUGH.—If Dr. Smart's Cough Medicine, advertised in our columns, is as sure a remedy for Coughs as its discoverer was successful in his treatment of all diseases of the lungs, the proprietors of the compound can exclaim, Eureka!! in their loudest tones. Dr. Smart of Kennebunk was one of the most successful practitioners in all lung complaints, in New England.

☞ Hunt's Merchant's Magazine for February, 1856, contains a valuable article on The Loss of International Steamships, in which he has many valuable thoughts on the need of steam-pumps for steam vessels, and better pumps for sailing ships.

"THE WORK GOES BRAVELY ON."—The intelligence from all parts of the State is of the most cheering and encouraging character. "The work goes bravely on" in all sections. Those, who were formerly democrats, and were entrapped into the dark-lantern order, last year, are by scores repudiating the corrupt oligarchy. Whigs and even free soilers denounce the midnight order. The people are arising in their might, from the White Hills to the Southern line of the State, and are preparing to hurl from power the corrupt minions who now control the State government.—*Nashua Gazette, 7th.*

Very important, if true.

COTTON FOR NORTHERN MANUFACTURERS. Among the late clearances at our Custom House, we observe that of the new American ship Isaac H Boardman, with 5,000 bales of cotton for Boston. This is the largest cargo of cotton ever taken from this place to that port. We also notice that the Merrimac cleared yesterday with 3,672 bales for Boston, and one or two other ships with smaller quantities. These shipments indicate that an active business is being done by our Northern manufacturers. It is seldom they receive such large shipments as early in the season. —*New Orleans Picayune.*

Hon. Mr Aiken, who was the rival of Mr Banks for the Speakership, is the largest slave owner in the United States—holding 1300.

BARNUM AND HIS EMBARRASSMENTS.—The New York Tribune, of a late date, says that the facts in regard to the unfortunate entangling alliance between the Jerome Clock Company and Mr Barnum, are that the latter for the purpose, among other inducements, of establishing a branch manufactory at East Bridgeport, where he was largely interested in land, agreed with the Clock Company to endorse and accept for them to the amount of $110,000. The notes and acceptances endorsed by him were generally left in blank as regarded the time they had to run, with the understanding that they were to be used mainly as renewals. He finds at last that the paper out with his name on it is over $450,000. If compelled to pay it, it would require the sacrifice of nearly $1 000,000 worth of such property as he owns to accomplish it. The whole affair, we understand, will be sifted through the law, and what the result will be time only can tell. Mr Barnum, we believe, provides promptly for his own private liabilities as usual. He has also amply secured Mr Leland and Mr Miller, who are his bondsmen in the Munn case. When he made the endorsements he supposed he was fully secured, but on examination the assets of the company are found to be of much less value than estimated. It is doubtful if the concern could have paid its debts fifty cents on the dollar any time in the last three years.

A BARRACOON.—A correspondent of the Boston Transcript, who adscribed in that paper a statement that the Eastern Exchange Hotel had been changed into a "barracoon," had the curiosity to go and see it, and reports that the building is well lighted with gas, divided into forty tenements of not less than a bedroom and kitchen each, occupied by laborers about the wharves, mostly foreigners.—Each room is ventilated, and has Cochituate water. Wood and coal boxes, with locks on them, are provided for each tenant. A room is also provided for sawing and splitting wood, and a place on every story for the occupants to throw their waste water into. A zinc tube, of the circumference of a barrel, passes from the top to the bottom of the building, with curiously contrived openings on each story, to prevent the dust from flying.—Into these openings all dirt and ashes are cast. These arrangements afford every facility for health, cleanliness and comfort to the inmates. He says that everything he saw was as quiet and orderly as a first class hotel, and is glad to learn that a "barracoon" in Boston is a place where a poor family may live in two or three rooms, with the blessings of sunlight, fresh air and pure water, at a low rent.

The difficulty between the students and faculty of Dickinson College, at Carlisle, Penn., has been amicably settled.

Bacon, Price & Co., extensive coal dealers in Philadelphia, suspended payment last week owing a very large amount. Their connection with a Boston house, lately dishonered, it is said, was the cause of the failure. The number of sufferers and the amount which will be lost by this unexpected calamity, it is said will be large.

J. T. Rockwood & Co., dry-goods retailers, of Springfield, Mass., have also suspended payment with liabilities amounting to $80,000 and assets to about $60,000. They propose a compromise with creditors, but thus far nothing definite has been concluded upon.

H. W. Bigelow of Chicago, Ill., in the same business, has also suspended with an indebtedness amounting to $130,000, a good slice of which is confidential. He offers 50 cents on the dollar, secure, payable on an average of 12 months. This is the second or third suspension.

A somewhat curious case of death by suffocation came to light yesterday. As a mason was employed in repairing a chimney that failed to draw well, he discovered the body of a man closely wedged in the flue. The coroner was summoned, and upon holding an inquest upon the body of the deceased, it was shown that the corpse was that of a man named Louis Miller, who had been missed since New Year's Day. The deceased, it appeared, got down into the chimney from the roof, while laboring under a fit of temporary insanity, and there perished, unknown to all the world. Miller was an occupant of the house wherein the occurrence took place, and was a man of very dissipated habits. The body was somewhat blackened and scorched, but was, nevertheless, in a good state of preservation, owing to the severity of the weather since the date of the accident. The corpse was found perfectly upright in the flue, and was frozen as solid as a piece of oak.—*N. Y. Herald, Thursday.*

A SAD CASE OF DESTITUTION.—A poor woman named Kelsey, living at 123 Purchase street, and mother of three children, one of which is a nursing infant, fell and hurt herself a few days since, and was unable to go out and procure means to purchase food for herself and children. For forty-eight hours the whole family were without food of any kind, when the oldest of the children informed officer Dodge of the circumstances of the family, and he instantly relieved their immediate wants. A sad case, truly.—*Boston Times.*

Hon. Robert Toombs, of Georgia, declining to receive any compensation for his lecture on slavery, the committee, at his request that the amount should be given to a society for aiding emigrants, has paid over the sum of one hundred dollars to the German Immigrant Aid Society of this city. Some kindred associations in the city are grumbling at the preference given to the society in question; but they will only have growling for their pains.—*Boston Times.*

ST. LOUIS, Feb. 7.—A foot of snow fell here yesterday. The weather is now moderating, with indications of a general thaw. There are no hopes of the Mississippi opening for two weeks, yet the railroads are all open in this vicinity.

WASHINGTON, Feb. 7.—*Illness of Mr Forney.*—Mr Forney is dangerously ill with inflammation of the bowels. His illness is supposed to have been produced by the excitement and over-exertion incident upon the discharge of his late duties as Clerk of the House.

LOCAL.

DEMOCRATIC GRAND RALLY.

☞ The Grand Rally of the Democratic party came off on Friday evening at the Temple.

Augustus Jenkins Esq. presided, and announced that two gentlemen of distinction from the South were present, and would discuss the questions that now interest the country.

He then introduced Governor Cobb, of Georgia, the very picture of good living and good natured jollity, a trifle too fleshy perhaps, but on the whole a remarkably good looking man, evidently well educated and self possessed, who spoke with great earnestness for an hour and a half, making as able a plea for his views of the constitution and the union, as we shall have this year.

He commenced with a brief appeal to love of country, and soon said that he must introduce the great question which agitated the country and threatened the Union, (tho' he trusted the Union would stand,) viz. slavery. Yet he said he would not discuss the question of slavery, (i. e. we suppose the merits of it, whether right or wrong,) but would plant himself on the Constitution.

This Constitution, he maintained, guarantees to each State its own right to self government, and the shaping of its own institutions. All this part of the speech was the familiar doctrine of State Rights, which he assumed must also hold good as to the Territories.

He then turned to the Know Nothings, and expended most of his eloquence in discussing the right and wrong of the matter. He said New Hampshire as a sovereign State, possessed the *power* to oppress the poor foreigner, who had fled here for refuge from his European task master! We possessed the power to grind him to powder! But had we the *right* to do so? Did our Revolutionary fathers purchase this right when they fought for their own liberties? No, No.

We were glad to hear him make the *distinction* between *power* and *right*—and every one of his arguments on this point, for at least twenty minutes, were as good a moral plea against slavery as we ever heard from Phillips or Burleigh.

Then he appealed to the religion and the conscience of those wandering democrats who had been seduced into the midnight K. N. lodges, and there sworn dreadful oaths to keep the Roman Catholics out of office, just as Washington and our old revolutionary people would not, when they made the Constitution.

[Gov. C. did not seem to be aware that the New Hampshire revolutionaries did, in our State Constitution in the exercise of State Rights, really shut out Roman Catholics from all high offices in this State.]

Gov. Cobb concluded with some odd compliments to the Whigs, whom he had always opposed—and by inviting them to come, (as come they must if they were *true* whigs in principle,) into the Democratic field, where they would find the true National party—all others were sectional and dangerous.

Mr Jenkins then introduced Gen. Lane, of Oregon, as the Marion of the Mexican war. He is spare, erect and soldierlike in appearance, not educated, and rambled in his speech, backward and forward, over the ground just trodden by Mr Cobb. Nevertheless, like all eminent men, he made some telling points, among them the statement that the Kansas Nebraska bill had made a great deal of trouble; that New Hampshire had gone so far astray as to send men to Congress who voted for a speaker who would let the Union slide; that people here ought not to discuss slavery at all—and finally that every body ought to join the Democratic party, elect Mr Wells Governor, and so save the Union.

The audience was very large and very good natured—composed of all sorts of men we have among us—and applause and cheers were frequent.

On the whole the occasion was a very pleasant one. It was pleasant to see men from two extreme points of the country—and to see them kindly received by a miscellaneous assembly here.

And we dreamed also, how pleasant it would be, for Messrs. Hale of New Hampshire, and Banks of Massachusetts, to visit Mr Cobb's sunny home, and address 1000 Georgians on the best way to save the Union, and discuss the right and wrong of a few matters there. But that will not be done this year.

☞ The house No. 17 Cabot street, owned and occupied by Mr Joshua Brooks, (conductor on the P. & C. Railroad,) was discovered to be on fire about half past 8 o'clock on Friday morning. The upper part of the house with the contents was considerably burnt,—but the furniture was mostly removed from the lower part, without being drenched. Insured in the Rockingham Mutual Ins. Co.

☞ Rev. Daniel P. Pike, of Newburyport, will preach at the Pleasant street Church tomorrow.

☞ Yankee Addams commenced his theatrical entertainment, last evening, at the Cameneum, with a very good company, which is to be increased on Monday evening. Addams is a host in himself in his representations of the Yankee character, and an actor of more than ordinary ability in any line of business. The second performance will be on Monday evening.

☞ Our thanks are due to Col. W. S. Hadley, for a polite invitation to attend a Venison Supper, which came off at his Eating House, last evening. Venison was not the only substantial article of food on the table, as we see by the bill of fare before us, but the whole variety spread before his guests, was sufficient to bring moisture to the mouth of Epicurus himself, had he chanced to appear at a so well filled board. The Col. understands such matters. Sorry we were not able to attend.

☞ Rev. Dr. Peabody and Rev. Mr Fernald will speak at the Temperance Meeting on Monday evening, at the Temple.

☞ The first thaw since Christmas took place here on Thursday, Feb. 7, when we had some rain; and a fine day followed on the 8th.

☞ Mr Jones, who was injured on the Eastern Railroad last week, has arrived at his home in Rye, N. H.

☞ Gen. Cass fell over the steps of the Patent Office at Washington, on the 8th, and is badly injured.

CONGRESS.

THURSDAY Feb. 7.

SENATE.—Mr Cass submitted a resolution directing the Committee on Naval Affairs to consider the expediency of an increase of the Navy.

Mr Bayard introduced a bill providing for the public printing, engraving and binding.

The resolution directing the Committee on Finance to prepare and report the general appropriation bill was considered. Mr Seward said that since the foundation of the government no appropriation bill has originated in the Senate. It was an ancient and established principle that the money of the people shall not be drawn from the public treasury without the consent of the representatives of the people. This conservative feature was borrowed from the British Constitution, as necessary to secure public liberty, and the spirit of the Constitution requires that the old established plan shall be adhered to.

Mr Hunter denied that there was any difference, as far as the question of power was concerned, between bills for the relief of individuals and general appropriation bills. If the Senate originate the French Spoliation bill, appropriating millions of dollars, why not one for the military academy?

Messrs. Toombs and Toucey supported the resolution.

Messrs. Sumner and Wilson opposed it.—Mr Sumner said it was an inopportune time to propose such a great change for the first time, when the popular branch of Congress promised to differ from the Senate on great questions of national policy.

The resolution was adopted, the object being to prevent a bill involving millions being hurriedly acted upon at the close of the session, sometimes without being read.

Adjourned till Monday.

HOUSE.—Mr Grow gave notice of his intention to introduce a bill to secure homesteads to actual settlers.

Mr Milson of Virginia gave notice of the introduction of a bill to repeal the act authorizing the establishment of the Naval Board.

The Speaker was authorized to appoint Standing Committees.

Mr Pennington, from the joint committee appointed to wait on the President, reported that the latter had expressed his high appreciation of the courtesy, and would be happy to co-operate with Congress in any measure promotive of the public interests.

Mr Campbell of Ohio moved a reconsideration of the vote on the resolution for the election of Printer. Agreed to, by 102 against 81.

Mr Campbell of Ohio made an ineffectual effort to reconsider the Senate's joint resolution for the relief of the poor of Washington and Georgetown.

The question then recurred whether to proceed to the election of Printer, pending which the House adjourned till Monday.

TWO CHILDREN BURNED TO DEATH.—About 3 o'clock yesterday morning a fire broke out in a block of wooden buildings on the river side of Water street, which consumed some three or four dwellings, and resulted in the death of two children (brother and sister) who perished in the flames. The name of the children were Burgess—the boy being about six years of age and the girl four. They were literally burnt to a crisp, and presented one of the most horrible and heart-rending sights which we have ever been called on to witness. Their parents, it seems, were out to a dance the preceding evening, having first locked the little creatures in their bedroom,) from which they returned in the morning to find themselves childless, bewail their sudden bereavement, and confront an indignant community. The children could easily have been saved fifteen minutes after the fire was discovered, had the fact that they were in the building been known.—*Elmira Adv. 26th,*

NEW YORK, Feb. 9.—The Herald's correspondent telegraphs from Washington:—Mr Dallas has received his instructions. Our interpretation of the Clayton and Bulwer treaty is to be insisted upon at all hazards.

Col. Parker H. French, in his late letter to Mr Marcy, says that the period when, in obedience to instructions, he must formally present his credentials, and respectfully ask the recognition of his government. Mr Marcy replied that the President had again taken the subject into deliberate consideration, but has not seen sufficient reason for changing the determination made known to you in the letter of the 21st December last.

I learn this evening that the Mexican Government has instructed Gen Almonte to withdraw the protest in the three million case, and that some of the parties have to-duy received their warrants at the Treasury Department for the money.

BATAVIA, Feb. 6.—No train has passed this place for the East since Monday evening. The train which left Buffalo yesterday morning at 8 o'clock now lies at Pembroke, eleven miles west of here, with four locomotives, two of them off the track. It is snowing fast in Buffalo. The weather here has been very cloudy, with the wind blowing a gale since Thursday last. This evening it is mild and pleasant. No trains have passed over the Batavia and Attica Road since last Friday. The Buffalo and Corning and New York Road is stopped up. The Central Road has hundreds of men at work, and if the wind will stop blowing, will soon have the road clear.

A New Orleans despatch says that advices from Texas of the 2d inst. report that the Texas debt bill had finally passed both branches of the Texas Legislature.

HILLSDALE, Mich., Feb. 7.—A collision occurred last night on the Michigan Southern Railroad, half a mile from this place, between the Eastern and Western express trains. The baggage master, fireman, and one other person, were killed. The engineer, brakeman and train boy, had each a leg broken. The baggage car of the Eastern train was burnt, together with all baggage and mails.

The country will be rejoiced to learn that the venerable Chief Justice (Taney) of the Supreme Court of the United States had so far recovered from his late severe and protracted illness as to be able to resume his high official duties. He appeared in his seat in the Supreme Court at Washington on the 4th inst.

Singer's Sewing Machines.

THESE Machines have long sustained the highest reputation in the United States.

The First Prize—A Gold Medal,

Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.

The Inventor has just added to these superior Machines an improvement whereby they can work on any kind of

FAMILY SEWING,

From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine professes.

They will also Bar and close all kinds of Kid Boots and Shoes, and stitch the finest Gaiter Boots in every part without a skip—making them the most desirable for girls to use at home, or for any who wish to do more than one kind of work.

These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.

They run without noise, with ease to the Operator, and at double the ordinary speed, so that

Twice as much Work can be done in a Day.

The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.

They are simple, and not scarcely anything to to keep them in repair; and can be operated by a child twelve years old.

Old Sewing Machines of any patent taken in part pay for new Machines.

These Machines may be had at Manufacturers' prices, of

THOMAS S. NOWELL,

Local Agent for New Hampshire, at his Shoe Manufactory, McDonough street, Portsmouth, where they may be seen in operation. d29

John Quincy Adams was the author of the celebrated declaration in Mr Monroe's message—since called the Monroe doctrine. Mr. Calhoun was a member of the cabinet at the time. Mr Calhoun's construction of the declaration was, that it applied to a definite, certain state of things, and was not acknowledged, notwithstanding there was an effort to make it so, to be a general declaration. The state of things referred to was the design imputed to the Holy Alliance of restoring the South American states to the Spanish crown. Mr Andrew Stevenson, in an article in the Union, argues against Mr. Calhoun's construction. Mr Cass, Mr Clayton, and others, also contend that it was a general declaration. *Boston Courier.*

The New York Mirror says "the impediments thrown in the way of Walker's progress by the administration, will drift back into the paddle-wheels of the Pierce party, and effectually block their progress for the Presidency. "Manifest Destiny' is manifestly against them. For once, the radical Democracy has shown itself too slow for the spirit of the age. Marcy is more conservative but less powerful than Fate; and John McKeon's 'processes' will never stop the engines of the Nicaragua Line. Cast off—and go ahead!"

Great American and Foreign Office

For Securing Patents for Inventions.

Agency for business with U S Patent Office, Washington,

R. H. EDDY,

No. 78 State st, oppo. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantages in applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty, as paid back by others,) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none BUT MOST SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting infringement, or infringement of patents. All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. **R. H. EDDY,**

Solicitor of Patents.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any personal acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure their claims as early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—Having for the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

Try it! Try it! Try it!

G. W. STONE'S

LIQUID CATHARTIC,

AND

Family Physic.

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe and agreeable Physic ever offered to the public.

THE necessity of such a Medicine has long been felt both by the heads of families and Physicians. Its advantages over catharics given in the form of Pills or Powders, must be obvious to every intelligent person. Its operation is immediate and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, regulates the action of the Liver, frees the Stomach from Bile, invigorates the whole Nervous System, and removes the cause of all local pains, such as

RHEUMATISM, NEURALGIA, TIC DOLOREUX, GOUT, PAIN IN THE HEAD, SIDE, STOMACH, &c.

It may also be relied upon in all diseases of the Bowels; *Dysentery, Diarrhea and Cholera Morbus* yield at once to its magic influence. Again we repeat, TRY IT!—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success, despair not—relief is now at hand. Are you suffering with Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness?—three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1.00.

NEW CLEAR AND MESS PORK—for sale by A. A. PAYNE. jy22

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures, for the certificates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, an i has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by W. Gibson, MD, Prof. of Surgery, Pa. University. Valentine Mott, MD, Prof. Surgery, N. Y. Univ'ty. W. P. Dewees, MD, Prof. of Mid., Pa. University. N. Chapman, MD, Prof. of Physic, Pa. University. I. Parke, MD, Pres. College Physicians, Phila. Dr. Del Valle, Prof. of Medicine, Havana. Jose Eozeneo de Lus, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Parsons, Maj Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA:"

and having the name JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been tarnec for the exclusive use of the proprietor, by Draper & Co., bank note engravers, Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person residing in *somewhat* similar name, well calculated to deceive.

On Manhood and its Premature Decline.

Just Published, Gratis, the 20th Thousand.

A FEW WORDS ON THE RATIONAL TREATMENT, without Medicine, of Spermatorrhea or Local Weakness, Nocturnal Emissions, Genital and Nervous Debility, Impotency, and Impediments to Marriage generally.

BY B. DE LANEY, M. D.

The important fact that many alarming complaints, originating in the imprudence and solitude of youth, may be easily removed without Medicine, is, in this small treatise, clearly demonstrated; and the new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled TO CURE HIMSELF PERFECTLY, AND AT THE LEAST POSSIBLE COST, thereby avoiding all the advertised nostrums of the day.

Sent to any address, gratis, and post free in a sealed envelope by remitting (post paid) two postage stamps to Dr. B. DE LANEY, No. 17 Lisbonard Street, New York City. s12 d&w6m*

G. W. STONE'S

Cough, Consumption, and Bronchitis

ELIXIR.

THE Proprietor would respectfully call the attention of the public to his invaluable Remedy for all Affections of the Throat and Lungs and begs of those who are undecided what to select, from the numerous medicines advertised, and recommended for such complaints, to give his ELIXER a trial. Having done so, they will no longer hesitate what to take themselves, or recommend to others. A single trial will prove to them that this is the most valuable remedy ever discovered for the various affections of the Throat and Lungs; it will immediately relieve the most violent Cough, and in a few hours completely cure the most severe Cold. As a Preventive and Cure for Consumption, it has no equal.—It is purely Vegetable, contains no poisonous ingredients, is quite agreeable to the taste, and may be given with perfect safety to the most delicate child. The numerous testimonials received almost daily from those who have been cured by it, fully justify the assertion that no family should be without this Medicine; let Mothers give it to their Children who have the Whooping Cough or Croup, and they will alleviate at once the sufferings of their little ones. Price 50 cts.

Call for G. W. Stone's Cough Elixir, and see that his name, and Cough Elixir, with the words Boston, Mass., are blown upon the Bottle, without which none will be genuine.

A Book of Thrilling Interest.

INCIDENTS IN WHITE MOUNTAIN HISTORY,

CONTAINING facts relative to the discovery and settlement of the Mountains, Indian History and Tradition, an authentic account of the destruction of the Willey Family; Geology and Temperature of the Mountains, together with many interesting anecdotes Illustrating Life in Backwoods. By Rev. Benjamin G. Willey. 12mo 307 pp. Illustrated. Price $1 00.

Having sold *every copy* of the first edition of one thousand, I have published another, which is now ready. Please read the following

NOTICES OF THE PRESS.

The Evening Traveller says: "From long and familiar acquaintance with the locality, the author describes at greater length than any previous topographer the various objects of interest in the district, and relates to us thrilling tales of wild adventure on its mountains, in its forests and caves; of conflicts with the catamounts, wolves, bears and the scarcely less savage aborigines. The theme is fruitful of wonder, and the book may be read with *great interest* even by those who have never visited the locality, wandered up the Notch, or pic-nicked upon Mt. Washington."

The Boston Herald says: "The story of the destruction of the Willey Family, contained in the work, is worth more than the price of the book. The narrative of this single and terrible calamity is given in a simple but impressive style. *We are sure the book will attain a wide circulation.*"

The Congregationalist says: "The book may be purchased *with great certainty of a good investment of the money it will require.*"

Zion's Herald says: "Whoever intends to visit the White Hills should first read this book. It will add a hundred fold to the interest of a White Mountain tour."

The Bellows Falls Argus says: "This is one of the most interesting works it has ever been our good fortune to read. There are few romances of more thrilling interest, and this is the more valuable because it is all fact. It should be in the hands of every family in New England."

The Watchman and Reflector says: "We have seen no work comparable to this for comprehensive thoroughness of information and interesting detail. Its pages will be found entertaining and instructive, not only to travellers to our northern Alps, but by others likewise."

☞ An Agent will offer the book for sale in this place soon.

POSTAL REFORM.

This is a practical subject. The present Congress, where no party has so great a majority as to be impudent or overbearing, will be a good one to improve our postage system.

Large meetings have been held on the subject in New York and Boston. In Boston the meeting was held on Wednesday evening, and Mayor Rice presided.

Mr Pliny Miles, whose pamphlet was the first to call marked attention to the imperfections of the present system, was in attendance.

The Mayor briefly introduced Mr Miles, of New York, to the meeting. Mr Miles said he believed the organization of a good postal system to be based upon a few simple principles. The chief of these, he thought consisted in *uniformity* of rates of postage. Then there should be no expense but that which legitimately belongs to it, and he went upon the principle that the Post Office should pay for itself. Government ought to pay for the conveyance of its own matter through the mails out of the U. S. treasury. He showed the want of uniformity in charges, and then combatted the assertion that the postal affairs of this country could not be compared with or assimilated to that of Great Britian. The local cost of handling letters in the British post office was now, with the uniform system of charge, only seven dollars a thousand, less than one-fourth of what it was in 1829, before the adoption of that system.

He advocated a free distribution of letters in cities, and showed that such local letters would not only pay all cost, but yield a large revenue. This might be made the most profitable arm of the service in this country. They wrote in England 100 times as many local letters as we do. Mr Miles then urged as another much needed reform the establishment of a money order system such as that of Gt. Britian. In that country $52,000,000 were thus sent. Not one letter in 17,000 of the orders sent ever failed to reach their destination. In this country many of the letters containing drafts are miscarried.

He next expressed himself oppose to the system of pre-payment of postage; and urged that all letters reaching the Dead Office at Washington should be sent back to the senders. Mr Miles then read the resolutions passed at a meeting in New York, and which he said would be taken into consideration by a committee to be appointed by this meeting.

These resolutions urged as needful reforms;

1st., a uniform postage of two cents on letters, and a cheap uniform rate on printed matter;

2nd., receiving boxes and letter carriers for the delivery of letters in the principal towns without charge;

3rd., money orders for sums not exceeding $25 to be drawn on postmasters;

4th., compulsory prepayment to be *abolished* and *double* postage on what is not prepaid;

5th., all dead letters to be returned to the writers, and, if possible, without opening; all franked matter to be paid for by government.

Continuing his remarks, Mr Miles said that Boston writes 33 per cent. more according to her population than any other city in the United States. Each person there wrote annually on the average 40 letters: in New York each person wrote 30; Philadelphia 20; Baltimore only 9 or 10; whereas country districts only write three letters per head on the average.

Mr Otis Clapp moved the adoption of the New York resolutions which had been read.

Mr Miles said the committee to be appointed here would confer with that of New York, and the resolutions would be well considered and modified, if necessary, before a petition was drawn up to Congress.

Wm. T. Eustis thought, instead of adopting the resolutions, it would be better to remit the whole subject, along with the resolutions, to a committee. He moved that a committee of 15 be appointed for the purpose.

Mr Clapp withdrew his motion, and that of Mr Eustis was unanimously adopted.

Let the reader look at the plan,—he will see that five changes are proposed. All but one of them are for the better. That one, the 4th, proposing to *abolish compulsory pre-payment*, is very much for the worse! It is not the poor man, but the mean person, who wishes to send an unpaid letter. We hope the Boston Committee will *crush out* this piece of folly, and if they doubt, let them ask the P. M. and Clerks in the Boston office, whether it would or would not be an improvement to make *full pre-payment* compulsory in case of every domestic letter.

It is rather difficult, we think to find out who the writer of a letter is, without opening. See the resolutions.

NOVEL EXCHANGES.—We perceive by the Dover Gazette, that an orthodox minister in Lee, was to exchange pulpits on Sunday, with Rev. Mr Greenwood of Dover, a universalist.

The Portland Argus of Saturday says:

We understand that Rev. Wm. B. Hayden, minister of the Swedenborgian Society in this city, will preach next Sunday in the Unitarian Church at Augusta, where he is to deliver a course of lectures, by invitation, on the doctrines taught by the Sweedish Seer.

We also learn that Rev. Mr Dillingham, pastor of the Universalist Church in Augusta, will next Sabbath preach in the Swedenborgian Temple in this city.

A NEW PROPERTY OF STEAM.—Persons in the city who are in the habit of receiving winter fruit, such as apples, &c. per railroad, frequently complain of the great reduction in quantity, which the fruit suffers *in transitu*.—This, we presume, is attributable to the motion of the cars or the whistle or the steam—although a suspicious friend suggests that steam hardly be able to force apples out of the barrels, and cram them into the mouths of the brakemen.—*Charlestown Advertiser.*

NEW HAMPSHIRE POLITICS.—The Independent Democrat states that the State Nominating Convention of the American party, held at Concord on Tuesday, was the largest delegated convention ever held in the state—six hundred delegates being in attendance. The utmost harmony and enthusiasm prevailed, both in the nominations and in all the proceedings. Governor Metcalf was renominated by acclamation. For Railroad Commissioner the Convention nominated Greenleaf Cummings, Esq., of Lisbon. The nominations for Councillors were:—

Rockingham district, John Dame of Portsmouth; Strafford district, Nicholas V. Whitehouse of Rochester; Hillsborough district, R. H. Messel of New London; Cheshire district, Milo C. McCluer of Claremont; Grafton district, William Tenney of Hanover.

For Senators, the nominations are as follows:—

No. 1, Marcellus Bufford of Portsmouth; 2, Thomas J. Melvin of Chester; 3, Moody Currier of Manchester; 4, Charles Rowell of Allenstown; 5, Geo. M. Herring of Farmington; 6, Larkin Dr Mason of, Tamworth; 7, Moody Hobbs of Pelham; 8, Oliver C. Fisher of Henniker; 9, Geo. W. Hanmond of Gilsum; 10, Nathan Mudgett of Newport; 11, John Clough of Enfield; 12, Aurin M. Chase of Whitefield.

The county nominations were also made. In most cases they are the present incumbents, who were chosen last year. The Democrat adds:—

The delegates, with scarcely an exception, gave the most encouraging reports from all their towns, that instead of gaining strength, the administration party, under the burden of Pierce's evil deeds and evil message, are staggering like a drunken man.

[Our readers will please to remember that we copied on Saturday, a statement from the Nashua Gazette, exactly the reverse of this. They will balance the account to suit themselves.]

We understand that the Convention adopted the following platform of principles, being the same adopted at their last November convention in Nashua:—

Resolved, That we cordially approve the course of the delegates from this state, who attended the National Council at Philadelphia in June last, and most heartily sustain their action in severing their connection with the present national organization.

Resolved, That freedom being national and slavery sectional, while the latter is left in the exercise of all its strictly constitutional rights in the states where it now exists, its further extension and longer connection with the general government should be uncompromisingly opposed and resisted, and the laws for the execution of its existing privileges be made to conform to the dictates of justice and humanity.

Resolved, That the question of the extension of slavery, as now presented to the country by the repeal of the Missouri Prohibition, by the outrages practised in Kansas under the sanction of the administration, and by the decision of an arbitrary and tyrannical Federal Judge, which, if adopted as to the judicial doctrine of the government, will make every free state in the Union slave territory, is the paramount question now before the nation, and that we believe the time has arrived when all who oppose the further encroachments of slavery, and would restore the policy of the fathers of the republic, should unite their efforts and co-operate for that purpose.

BENEFIT OF COURTS.—For a week past, the Court of Common Pleas (Judge Morris, of Springfield, presiding,) has been in session in this city, for the purpose of trying cases that originated at the Marblehead farms. The first case was brought by a maiden lady of forty years standing, against a neighbor, owning a large estate, for calling her bad names. The verdict of the jury was *five dollars*. The second case was against the same party for charging the father of the aforesaid lady, a substantial farmer, with keeping a bad house—words distinctly proved. The verdict of the jury was *five dollars*. The third was for obstructing a private way, from the main road, to the point on the shore where the Rockaway House formerly stood—1, by placing a heap of compost in the ordinary traveled path; verdict of the jury was *five dollars*: 2, by placing a gate across it; verdict of the jury was *five dollars*: 3, by placing a ladder against it; verdict of the jury was *five dollars*.

These are all the verdicts that have been returned, amounting to *twenty-five dollars*.—During the week thirty jurors have been in attendance, with all the other concomitants of a court, at a cost of not less than *one hundred dollars* a day. Fifty or more witnesses have been in constant attendance upon the court—to say nothing of the services of half a dozen of the most distinguished members of the Bar of the County—not to mention the smaller fry looking on, to learn how to manage such important business.—*Salem Gazette.*

Benefit of Courts! We suppose this is intended to be understood in an ironical sense—and must mean the Evil or Injury of Courts. But we would rather make it read—the *Evil of Litigation*. We suppose that Courts and Lawyers are about as needful as Hospitals and Doctors. But it is nevertheless rather to be desired to take as few prescriptions and have as few lawsuits as possible.

SOULOUQUE OVERPOWERED BY MINIE RIFLES.—According to accounts from Port au Platte, (Dominican side of the Island,) the small Dominican army which defeated the numerous army of Soulouque, was armed with Minie rifles. They state the slaughter of the Haytiens at 2000 killed and wounded.

Dates from Port au Prince to Jan. 10, state that Souloque, at last accounts, was attempting to rally his scattered forces, the account says with a view of again attacking the Dominicans. It is more likely, however, that he desires to return to Port au Prince at the head of a force sufficient to disarm opposition.

LOCAL.

A CITY ITEM.—Uncle Toby, as in duty bound, attended the Democratic Grand Rally at the Temple, on Friday night,—and by the time he had made a note of it, the town (no, the city!) clock struck eleven,—high time for elderly men to be abed and asleep.—Heading towards home, he had barely started, when oaths too big to put into a small paper called his attention to a cluster of men in the middle of the street. One who seemed to be the chief speaker, was brimful of Patriotism, liquor and consistency. He despised a man who changed his principles, that he did—and cursed him all up in a heap. His friends tried to still him,—and make him go home—but the more they tried the more he preached politics and swore. In the morning he was gone!!

Some time in the night, the watchmen found a Velvet covered Bonnet in the same street. The owner may find it at this office. It is not known whether this bonnet and the swearing have any necessary connexion, farther than that they belong to one night's doings. But the wearer and the swearer had probably got at some contraband liquor somewhere.

DAILY PAPER IN PORTSMOUTH. — The venerable New Hampshire Gazette now appears as a Daily Evening Gazette, in addition to the weekly issue. The new paper makes a good appearance, it is a firstrate newspaper; and strikes vigorous blows for the democracy. We hope its days and its usefulness will equal those of its parent journal.—*Newport Argus.*

The Argus makes the same mistake we did, when we credited to the N. H. Gazette some statements which we copied from the Daily;—and by the way, we have not formally announced its appearance, though we noticed it beforehand, and intended to do so again when the first number was issued; but not seeing it till next morning, we forgot all about it, (as old men are apt to do) and here it is in its teens (No. 17.) before we have introduced it in form to our readers, though we have several times done so in fact.

☞ Mr Hawes's Elocutionary Entertainment on Thursday evening, was not so numerously attended as we had hoped; but his performance showed him the possessor of talents and powers which may make him a master of the art of elocution. More volume of voice than he used is needful in a large hall—which volume we are confident he has, when free from cold.

His recitations, (for such they were, and not readings,) were quite correct, and given with the utmost fluency and self possession.

The entertainment was enlivened by a prelude and interludes on the piano, by Mr Meinerth.

A correspondent sends us the following notice of the performance:

The entertainment at the Temple on Thursday evening by Mr Hawes, was of a high order and gave entire satisfaction to those present. We were sorry to see that he was not greeted by a larger audience, but the stormy day and slippery walks probably kept many from attending the performance. It is well known that this young man is bravely struggling for the means of obtaining a liberal education, and that he has been induced by his instructors and friends to adopt this course for the procurement of the necessary funds. Such being the case, it seems that it would be fitting for our Mercantile Library Association or the Mechanics Lyceum, to invite him before the lecture season closes, to give one of his recitations in this city. He has recently recited in other places, and his performance has been one of universal satisfaction.

It is seldom that we have an entertainment of this kind, and we hope our young men of the M. L. A. will remember the young, and render the encouragement which is due to this worthy, diligent and talented young man.

S. W. C.

☞ Rev. Dr. Peabody and Rev. Mr Fernald will speak at the Temperance Meeting this evening, at the Temple.

☞ On Saturday last, George E. Colman, of Newington, was tried before Justice Odell, for assaulting a man named Bragdon, belonging in York, and fined $5 and costs. Coleman appealed.

☞ The February Term of the Supreme Judicial Court for Rockingham County, commences at Exeter, on Tuesday morning, Feb. 12th, at 10 o'clock.

For the accommodation of persons attending Court, a passenger-car will be attached to the ice-train, which leaves the Portsmouth & Concord railroad station in Portsmouth, for Raymond, at seven o'clock on Tuesday and Thursday mornings of this week.

Ellen Desmond attempted to walk from Niddletown to Middleshaddam, about 6 miles from the former place, Tuesday evening, on the ice, but was found yesterday morning frozen to death.

NEW ORLEANS, Feb. 7, (by tel.)—Cotton active and unchanged; sales today 7500 bales. Flour dull, $8.25. Keg Lard 10½c; Rio Coffee 11¾c.—Freights to Liverpool 9-16d. Sterling Exchange 7½ pm.

Jan 30.—(From Young's Price Cur.)—Scarcely any freight offering except cotton; ships on the berth for Liverpool fill up at ¼d and Havre at 1 1-16c; two ships taken for Boston at ⅝c.

DISGRACEFUL. An aged couple, man and wife, both beyond the meridian of life, residents of the country, who came to the city yesterday to dispose of a barrel of superior "sour krout," met with such success in the disposition of their stock, that they resolved to indulge in a stimulant known to them as "schnapps," but which is rendered in the vernacular as r. g. gin. One glass had the effect of suggesting another, and that a third, and so on *ad libitum* for all we know. But certain it is, that about 4 o'clock P. M., they came down street at a frightful rate of speed, the animal attached to the sleigh in which they were seated — and which was made in the same year that the Indian massacre at Schenectady occurred — having been whipped until it became desperate. The old lady endeavored to check the animal, when the other—her husband, we suppose—struck her a wicked blow on the face with the butt of his hickory whipstalk. After crossing Broadway the animal was stopped by some cartmen; a crowd collected—unfeeling, of course, as all crowds are—and the aged couple, both unable to sit up and hardly to articulate, were subjected to the derision and laughter of those assembled. Poor old man! poorer old female!—*Albany Argus.*

POLITICAL.—It is time to talk about Presidential candidates, and we observe that in Pennsylvania, as well as in New York, the Whigs and Americans declare almost unanimously for Mr Fillmore. In the first Congressional district of Pennsylvania, the indications of the Americans and the Whigs are altogether in favor of the nomination of the ex-President. In the second district Mr Hazelhurst, a stiff friend of Mr Fillmore, has been almost unanimously chosen a delegate to the American National Council. In Tennessee also, a Southern state, which can be carried by a true man, Mr Fillmore is the candidate of the large majority of the Whigs and Americans. If any party puts up Mr Fillmore as its Presidential candidate, it will find many strong friends among the national men of the Union.—*Boston Courier.*

ONE WEEK LATER FROM EUROPE.

ARRIVAL OF THE PERSIA.

NEW YORK, Feb. 9.—The Persia arrived this morning, from Liverpool 26th ult, bringing London papers of Friday and telegraphic despatches of Saturday.

Steamer Belgique came near foundering at sea, having sprung aleak 700 miles west of the Lizards, and only by the united exertions of the passengers and crew she was kept afloat until reaching Southampton, when it was found that she had 4 to 6 feet of water in her hold, and one boiler burst out.

The Peace Prospects.—The chances in favor of a speedy peace are on the increase. Russia's sincerity is as much questioned as on former occasions, but appearances are all fair and straightforward. The Czar has ordered his army in the Crimea to cease hostilities without waiting for a formal armistice, altho' it is rumored that an armistice is agreed on for three months.

France, England and Austria continue in accord, although it is foreseen that grave questions must arise during the negotiations. No place of meeting has yet been decided upon. A despatch of doubtful authority says the place will be either a Paris or London; also, that Baron Brunon will be the Russian Plenipotentiary. It will be Feb. 2 at least, before all preliminary signatures are appended to the agreement to meet.

Latest.—The London Saturday Daily News learns on undoubted authority that the preliminaries to a treaty will be signed probably before Tuesday, and certainly before Parliament, an armistice will be concluded before signing the preliminaries.

A despatch from Berlin states that the peace proposals were strongly supported at St Petersburg by Holland

The London Times intimates that Lord Clarendon will represent Great Britain at the conference, which will probably be held at Frankfort, after the preliminaries of peace are signed.

Commercial.—Consols keep up. Cotton on the day the Persia sailed, closed at 1-16d over last Friday's quotations. Breadstuffs—Flour slow sales. Western Canal 40s; Ohio 42s. Indian Corn 6d lower; mxd and yellow 38s6d; white nominally 43s.

American stocks improved in demand and dearer. Bullion in Bank of England increased £8000.

Messrs. Kelly & Gilmore of Manchester had failed.

☞ Speaking of the election of Speaker, the New York Times says:

The contest thus closed has, in its latter days, been between a member from Massachusetts and a member from South Carolina—States, by common consent, regarded as ponents of either extreme of slavery agitation. There has been a sort of demi-civil war smouldering between the two this score of years back, exhibiting itself in hostile legislation, hostile resolutions, intense antagonism and dislike, whether displayed in Washington, or Boston, or Charleston. It flamed out fiercely in the duel oratorical between Gen. Hayne and Mr Webster. The case of Mr Hoar gave it emphatic expression, directly and indirectly. This fresh encounter in the strife, for Speakership, has once more resulted disastrously for the Southern combatant. Mr Banks, a fair representative of the rational anti-slavery sentiment of Massachusetts, has not only unhorsed Mr Orr, a moderate type of South Carolina chivalry, but followed up the victory by an equally successful tilt against Sir Aiken, an extreme champion of South Carolina and Calhounism, and, moreover, by repute, the most extensive slaveholder in the Southern States.

POISONING CASE.—Some excitement was occasioned in Dover, on Wednesday, the 30th ult, by the report that the family of Abram Hill, living on Franklin Square, had been poisoned. It appears that the former occupant of the tenement, a Mrs Prout, had left or given Mrs. Hill some small articles, among which was supposed to be a quantity of cream of tartar. This Mrs. Hill used in her cooking, and after tea the family was taken violently sick. A physician was called, who decided that they had been poisoned, probably by the mixture of arsenic with cream of tartar. Several members of the family were dangerously sick for a day or two, but they have recovered. There were some reports of difficulties between Mrs. Prout and the Hill family, but we believe they have been greatly magnified, and that if arsenic was used, no blame is attached to any one further than perhaps carelessness on one side in leaving it where it might be mistaken for another article, and on the other in making use of it, without ascertaining what it was.—*Dover Enquirer.*

So the case was one of mere carelessness, and not of crime.

A private letter form Hayti, dated Jan 4, says that the Haytien army had advanced to Cunaminthe, and that all the troops are being collected to continue the invasion; that most vigorous measures were in force to augment the army, the people being caught up and put in prison until they are ready to be sent off.

The Stamford (Ct.) Advocate says that Rev. James Hoyt, late of that place, has become a full believer in the doctrines of modern Spiritualism. It adds that when in charge of a church there, the reverend gentleman warned his people against Spiritualism as a "damnable heresy."

CONNUBIAL INFELICITY.—A young woman of Martha's Vineyard, who was married to a man on the "sea girt isle," Nantucket, returned home a short time since, because, he wouldn't give her all the butter she wanted.—*Boston Mail.*

Singer's Sewing Machines.

THESE Machines have long sustained the highest reputation in the United States.

The First Prize—A Gold Medal,

Has recently been awarded to them at the Palace of Industry in Paris, and thus they have the WORLD'S VERDICT OF SUPERIORITY.

The Inventor has just added to these superior Machines an improvement whereby they can work on any kind of

FAMILY SEWING,

From a coarse Cotton fabric to the finest Linen Bosom, in such a perfect manner as no other Machine professes.

They will also Bar and close all kinds of Kid Boots and Shoes, and stitch the finest Gaiter Boots in every part without a skip—making them the most desirable for girls to use at home, or for any who wish to do more than one kind of work.

These Machines are warranted to do all kinds of work in a manner far superior to any other machine in use.

They run without noise, with ease to the Operator, and at double the ordinary speed, so that

Twice as much Work can be done in a Day.

The greatest Shoe Manufacturing and Clothing Establishments in the country use these Machines exclusively, having tried other Machines and found them entirely unfit for their use.

They are simple, and cost scarcely anything to keep them in repair; and can be operated by a child twelve years old.

Old Sewing Machines of any patent taken in part pay for new Machines.

These Machines may be had at Manufacturers' prices, of

THOMAS S. NOWELL,

Local Agent for New Hampshire, at his Shoe Manufactory, McDonough street, Portsmouth, where they may be seen in operation. d29

Great American and Foreign Office
For Securing Patents for Inventions.

Agency for business with US Patent Office, Washington.

R. H. EDDY,

No. 76 State st. opp. Kilby st, Boston.

IMPORTANT INFORMATION TO INVENTORS. The Subscriber (late Agent of the U. S. Patent Office, under the Act of 1837) determined to present advantageous inducements to applying for Patents, superior to those offered inventors by others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of twenty as paid back by others) will be remitted by him in case of failure to obtain a patent, and the withdrawal through him within thirty days after the rejection.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

Caveats, Specifications, Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, or infringement of patents. All necessary business to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Copies of claims of any patent furnished for one dollar. Assignments recorded at Washington.—Patents secured in Great Britain, France, and other foreign countries, through Agents of the highest respectability. R. H. EDDY.

Solicitor of Patents.

Tamesmouth.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assenting to the opinion that cannot employ a person more competent and trustworthy, and more capable of putting their application in form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

Apriee 17, 1856.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most competent and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

G. W. STONE'S

LIQUID CATHARTIC,

—OR—

Family Physic.

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe and agreeable Physic ever offered to the public.

THE necessity of such a Medicine has long been felt both by the heads of families and Physicians. Its advantages over cathartics given in the form of Pills or Powders, must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only relieves in the affection where physic is required, but completely removes habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood, is a certain cure for the Piles, regulates the action of the Liver, frees the stomach from Bile, invigorates the Nervous System, and removes the cause of all local pains, such as

RHEUMATISM, NEURALGIA, TIC DOLOREUX, GOUT, PAIN IN THE HEAD, SIDE, STOMACH, &c.

It may also be relied upon in all diseases of the Bowels; *Dysentery, Diarrhea and Cholera Morbus* yield at once to its magic influence. Again we repeat, TRY IT! It is the best medicine ever offered to the public. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success, despair not—relief is now at hand. Are you suffering with scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness?—three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them. All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1.00.

NEW CLEAR AND MESS PORK—for sale by A. A. PAYNE. jy22

Swaim's Celebrated Panacea,

FOR THE CURE OF

INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin, and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years the favorite in this country and in Europe for its extraordinary cures; for the horrid cates of which reference is made to the directions and books (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice, and has had the singular fortune to be recommended by the most celebrated physicians and other eminent persons. Among others by W. Gibson, MD, Prof. of Surgery, Pa. University. Valentine Mott, MD, Prof. Surgery, N. Y. University. W. P. Dewees, MD, Prof. of Mid. Pa. University. N. Chapman, MD, Prof. of Physic, Pa. University. I. Parke, MD, Pres. College Physicians, Phila. Dr. Del Valle, Prof. of Medicine, Havana. Jose Eonrendo de Luz, Prof. of Surgery, Lisbon. G. W. Irving, late Minister to Spain. J. Chipman, Member Royal Col. Surg., London. Sir Thomas Parsons, Maj. Gen. British Army. Gilbert Robertson, British Consul, &c., &c.

And, also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain Mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1.50 per bottle (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA"

and having the name of Swaim stamped on the sealing wax, and written on the label covering the cork; and a splendid engraving for the side of the bottle, composed of a geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, Philadelphia. In the centre is a portrait of the late Wm. Swaim, copyright secured.

ALSO, SWAIM'S VERMIFUGE.

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c. See the Pamphlet which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, OLD STAND, Seventh St., below Chestnut, Philadelphia, and sold by all the respectable Druggists in the United States.

CAUTION TO THE PUBLIC.—Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name SWAIM is spelled correctly on the bottles and labels; or they may be imposed on by medicines made in imitation of them, by a person bearing a *somewhat* similar name, well calculated to deceive.

Cough, Consumption, and Bronchitis

ELIXIR.

THE Proprietor would respectfully call the attention of the public to his invaluable Remedy for all Affections of the Throat and Lungs and begs of those who are undecided what to select from the numerous medicines advertised, and recommended for such complaints, to give his ELIXIR a trial. Having done so, they will no longer hesitate what to take themselves, or recommend to others. A single trial will prove to them that this is the most valuable remedy ever discovered for the various affections of the Throat and Lungs; it will immediately relieve the most violent Cough, and in a few hours completely remove the most severe Cold. As a Preventive and Cure for Consumption, it has no equal. It is purely Vegetable, contains no poisonous ingredients, is quite agreeable to the taste, and may be given with perfect safety to the most delicate child. The numerous testimonials received almost daily from those who have been cured by it, fully justify the assertion that no family should be without this Medicine; let Mothers give it to their Children who have the Whooping Cough or Croup, and they will be relieved at once the sufferings of their little ones. Price 50 cts.

Call for G. W. Stone's Cough Elixir, and see that his name, and Cough Elixir, with the words Boston, Mass. are blown upon the Bottle, without which none will be genuine.

A Book of Thrilling Interest.

INCIDENTS
IN
WHITE MOUNTAIN HISTORY,

CONTAINING facts relative to the discovery and settlement of the Mountains, Indian History and Tradition, an authentic account of the destruction of the Willey Family; Geology and Temperature of the Mountains, together with many interesting anecdotes illustrating Life in Backwoods. By Rev. Benjamin G. Willey. 12 mo 307 pp. Illustrated. Price $1 00.

Having *sold every copy* of the first edition of one thousand, I have published another, which is now ready. Please read the following

NOTICES OF THE PRESS.

The Evening Traveller says: "From long and familiar acquaintance with the locality, the author describes at greater length than any previous topographer the various objects of interest in the district, and relates to us thrilling tales of wild adventure on its mountains, in its forests and caves; of conflicts with the catamounts, wolves, bears, and the scarcely less savage aborigines. The theme is fruitful of wonder, and the book may be read with *great interest* even by those who have never visited the locality, wandered up the Notch, or pic-nicked upon Mt. Washington."

The Boston Herald says: "The story of the destruction of the Willey Family, contained in the work, is worth more the price of the book. The narrative of this single and terrible calamity is given in a simple but impressive style. *We are sure the book will attain a wide circulation.*"

The Congregationalist says: "The book may be purchased *with great certainty of a good investment of the money it will require.*"

Zion's Herald says: "Whoever intends to visit the White Hills should first read this book. It will add a hundred fold to the interest of a White Mountain tour."

The Bellows Falls Argus says: "This is one of the most interesting works it has ever been our good fortune to read. There are few romances of more thrilling interest, and this is the more valuable because it is all fact. It should be in the hands of every family in New England."

The Watchman and Reflector says: "We have seen no work comparable to this for comprehensive thoroughness of information and interesting detail. Its pages will be found entertaining and instructive, not only to travellers to our northern Alps, but by others likewise."

☞ An Agent will offer the book for sale in this place soon.

An active Agent wanted for every town or county in the New England States. To such a good chance will be given
